American Railroad Journal.

Saturday, June 13, 1868.

Stock Exchange and Money Market.

There has been increased ease in money, since our last. The speculative and mercantile demand for accommodation has been much less animated. The Government and Stock Exchange firms have been in less need of aid, because of the diminished activity in their several lines. Produce and merchandise movements have been on a restricted scale, and the discount business has been comparatively dull. The street quotations on call loans have ranged from 2½@5 per cent. To the large operators in the public funds, money has been advanced, in some instances, as low as 2 per cent. in round sums. Few of the prominent Stock houses have had to pay over 4 per cent. for the requisite help. The range on strictly prime to good mercantile paper has been from 5@7 per cent. per annum, as extremes. At these figures, the offerings of desirable grades of paper have been quite light. The city banks have reported a further addition of over three millions to their legal tender reserve, nearly 4½ millions to their deposit line, with a loss of some 8½ millions of specie. The loans have been augmented by over 5½ millions, chiefly by advances on, and investments in the National interest bearing securities. The U. S. Sub-Treasury has slightly reduced its cash reserve, but the business of the week has been on a much less extensive scale, in the line of both receipts and sales. The last debt statement of the Treasury Department shows a reduction during the month of May, of $16,681,-099 in the coin reserve, chiefly by coin interest disbursements; with an increase of $11,104,984 in the currency hoard. The coin in the Treasury vaults on the 1st inst., amounted to $90,228,559, including $20,298,180 to the credit of private depositors; and the aggregate of currency was $43,279,120, making a grand total of $133,507,679 of cash on hand, on the 1st of June, of which there were in the U. S. Sub-Treasury in this city, $94,677,580. It should be stated that the cash balance is larger, by fourteen or fifteen millions, than it would be had all the requisitions drawn by the War Department been presented before the close of the month. This fact, and the heavy interest payments in July, will prevent any decrease in the National debt for the next two months.

The specie reserve of the city banks is now $14,-328,531, against $15,699,038 same time last year. The city bank deposits are now $209,089,655, against $184,730,335 week ending June 8, 1867. The legal tender reserve amounts to $68,822,028, against $55,923,107 same time last year. The circulation now stands at $34,188,159, against $23,-719,088 same time last year. The loans are now $273,792,367, against $250,477,298 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $106,610,500 a day, against a daily average of $102,336,375 the preceding week, and $81,031,000 the week ending with May 23, 1868. The current week's exchanges average about $105,560,267 a day. The city banks, last week, gained $3,188,275 of legal tender, and $4,342,691 in the deposit line, while they lost $3,532,557 of their specie reserve. They increased their loans, $5,614,277; and their circulation, $42,553.

The New York Gold Exchange Bank reports for the week ending Saturday, the 6th day of June, 1868, the average amount of loans and discounts as $1,140,070; average amount of specie, $509,090; average amount of deposits, $782,-363.

The Philadelphia Bank movement the past week shows a decrease in loans of $71,085; a decrease of $12,790 in specie; a decrease in legal tenders of $106,557; a decrease of $155,-497 in deposits; and an increase of $3,708 in circulation. The Bank Clearings show an increase of $3,662,948, and the balances, a decrease of $251,-864.

The U. S. Sub-Treasury receipts, week ending with June 6, were $29,601,023, including $1,900,-178 from customs duties; payments, $30,090,497, including $667,000 of coin interest; balance at the close of the week, $94,188,512, against $94,677,986, at the close of the preceding week, showing a decrease of $489,474. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $2,366,690 including $367,799 from customs; and payments, $2,139,520; on Tuesday, receipts, $1,-006,975 including $363,000 from customs, and payments, $861,798 The balance at the close

of business on Tuesday stood at $94,560,853, against $95,190,938, a week previous; and $101,290,539 on May 26, 1868.

The coin certificates issued by the Sub-Treasury office, during May, reached $8,173,750; and the new three per cent. certificates, $21,670.000.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868.

National Bank notes to the amount of $197,775 were issued last week, making the total issue to 1,673 banks thus far. $308,270,821, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $8,340,646, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,930,175. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,456,400; and for the public deposits, $38,292,950—making a total of $379,749,350. The Treasury Department last week redeemed and destroyed $430,200 of worn and mutilated fractional currency, and issued $370,094 of new. The outstanding amount of fractional currency on the 1st inst. was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been less prolific, since our last, in both forms of customs and excises. The excises, last week, yielded some three millions, against about four millions the preceding week; customs at the port of New York, $1,900,118, and at the outports about $635,000 (in coin) more, making the grand total income for the week equal to about $6,550,000 in currency. The total receipts of the National Treasury, from excises, thus far in the new fiscal year, which began on the 1st of July, have been about $179,000,000.

The warrants issued by the Treasury Department, during the month of May, 1868, to meet the requirements of the Government, amounted to in round numbers, $46,498,000, as follows: Civil, miscellaneous and foreign intercourse, $5,134,000; interest on public debt, $29,000,000; war, $9,943,000; navy, $1,856,000; Interior, pensions and Indians, $565,000. The warrants issued for the redemption of the public debt are not included in this aggregate.

Gold has been in moderately active request, mainly on speculative account, at from 139⅜@140⅛, leaving off on Wednesday at 139¾@139⅞. Within the range, the offerings have been heavier than usual of late, largely by foreign houses, who look for an early decline in the premium, under the influence of the impending unprecedentedly heavy coin disbursements of the Treasury Department in July, the aggregate of which will be nearly 39 millions, as follows: Principal of sixes of 1867 and 1868, $8,582,611; interest on do., $217,509; interest on Fives of 1874, $500,000; interest on Fives of 1871, $175,550; interest on Sixes of 1881, $8,510,316; interest on 5-20s of 1865 and 1867, about $21,000,000. There has been a less active customs inquiry for coin, averaging $365,500 a day. The export call has been less extensive. The shipments on Tuesday and Wednesday of the current week amounted to $1,145,349.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $3,390,563, against $1,056,578 same time last year. The customs demand for Gold last week, averaged $316,686 a day; thus far, this week, it has been equal to $365,500 a day, or equal to a weekly aggregate of $2,193,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $128,190, and from California, $1,001,920. The total customs revenue of the Government, in coin, at this port, thus far, in the current fiscal year, commencing with July 1, 1867, has been $107,445,794, against $116,732,903 same time in the preceding fiscal year. The total receipts of California gold at this port, thus far, in the current fiscal year, commencing with July 1, 1867, have been $33,843,804, against $36,641,590 same time in the preceding fiscal year, showing a decrease of $2,797,786 in 1867–'68. The exports of specie from this port, last week, were $3,575,594, against $2,261,821 same week last year. The exports of specie, hence, since July 1, 1867, have been $69,051,560, against $36,884,510 same time in 1866–'7. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $667,000, and since July 1, 1867, $72,372,637, against $53,570,310 same time in 1866–'7. The specie exports from San Francisco, from Jan. 1, to May 21, 1868, were $15,870,900, against $13,680,512 same time last year.

Government disbursed $17,053,377 of coin interest through the local office, in May.

Government received $3,151,460 from customs at the port of San Francisco, from Jan. 1, to May 21, against $2,834,003 same time last year.

Foreign exchange has been in somewhat better request, and rates having been very well supported on rather light offerings. Bankers' prime sixty day bills on London closed on Wednesday at 109⅞@110¼, and on Paris to 5.16¼c.@5.12½; sight bills on London to 110⅜@110⅝, and on Paris to 5.11¼c.@5.10. The offering of produce bills has been light this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,546,370, against $3,829,587 same week last year; total, since July 1, 1867, $169,187,845, against $181,912,965 same time in 1866–'67.

Government securities have been in less demand, since our last. There has been much less speculative activity, and though the home and foreign investment inquiry has been fair, it has fallen far short of the urgent call of the preceding week or two. Within a few days, the exportable bonds have been in most request, but the price has been slightly depressed, partly by the adverse influence of the reported increase of $9,717,059 in the net aggregate of the public indebtedness, during the month of May. While, however, the Seven-thirty loan has been formally reported as having been reduced nearly 58 millions, or to $105,610,650, against $163,490,250 on the 1st of May, it is known that this special form of indebtedness was cut down by direct purchase, or by conversion, some 15 to 20 millions more. The discrepancy between these figures is doubtless due to the fact of the Department having been unable to complete the examination of the notes in time to include the entire exchanges in the statement, so that a certain balance of unexamined notes is carried over to the June account, and reckoned in the currency balance; which, again, must account for the unexpectedly large increase of $11,104,984 in the currency on hand. The outstanding issues of Five-twenty coin bearing bonds have been increased some $52,695,150, during the month; and to the Ten-forty loan, $4,865,000 have been added. Some 23 millions of matured Compound Interest Notes have been redeemed, chiefly by the issue of $21,670,000 of new three per cent. certificates. The Treasury office held on the 1st inst., $69,930,379 in gold coin, as the absolute property of the Government. The outstanding aggregate of Compound Interest Notes is $29,617,250, including $21,604,890 yet to mature, and $8,012,360 past due, but not presented for redemption. Nearly two millions were added to the Pacific Railroad bonds.

U. S. sixes of 1881 closed here on Wednesday at 116½@116¾; U. S. Five-twenties of 1862, 112⅛@112¼; U. S. Five-twenties of 1864 at 110@110¼; U. S. Five-twenties of 1865 at 110¼@110⅜; U. S. Five-twenties of 1865, consolidated, 112¾@113; U. S. Five-twenties of 1867, 112⅞@113; U. S. Ten-forties at 105¾@106, and U. S. Seven-thirties at 109½@109⅝. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865....118½	October, 1865....117½
September, 1865..118	
U. S. three per cent. certificates	100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 27.	June 3.	June 10.
Consols.....	95⅝	96¼	95
U. S. 5-20's of 1862....	72	72⅝	73
Erie.....	46	46	46¼
Ill. Central.....	96	97½	101¼

Railway and miscellaneous stocks have been much less freely dealt in, since our last, and there has been decidedly less buoyancy in price. State and railway bonds and mortgages have been in good investment demand, at generally very satisfactory rates.

The produce markets have been much less active, in all the leading lines. Breadstuffs, cotton and provisions close quite heavily, as regards price, as a rule. Middling upland cotton closed spiritlessly on Wednesday at 29½@30 cents, per lb. The stock of cotton now here is estimated at about 65,000 bales. The receipts at the port this week, have averaged only about 850 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,141,000 bales, against 1,751,000 bales same time last year; exports, same time 1,630,000 bales, against 1,358,000 bales same time last year; stock on hand at latest dates, 143,000 bales, against 278,000 bales same date last year. At the Live Stock markets, this week, Beeves have been in less demand and depressed in price, ranging from 15@18c. per lb.; week's receipts, $6,357. Veal calves have been more active and firmer, at from 8@13c. per lb.; receipts, $1,969. Sheep and lambs have been in fair request, at from 5@8½c. per lb.; receipts, $13,008. Swine have been moderately dealt in at a trifle lower prices, ranging from 7½@8¾c. per lb.; receipts, $14,787. There has been less movement in foreign merchandise, though the tendency of prices

has been in favor of buyers. A leading house in the Custom trade has been forced to suspend payments. The total imports of foreign dry goods, last week, were $1,047,219, and the total amount marketed $1,041,697. The value of foreign merchandise imported last week, was $3,212,121—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $4,259,340, against $4,225,685, same week last year; total since July 1, 1867, $226,552,804, against $255,633,707 same time in 1866–'67. The freight market has been unusually dull and heavy, since our last. For Liverpool we quote flour at 1s. by sail, and 1s. 5d. by steamer, per bbl.; grain at 2¾d.@3½d. by sail, and 2@2½d. by steamer, per bushel; cotton at 3/32@⅛d. by sail, and ⅛d. by steamer, per lb.; and heavy goods at 7s. 6d.@25s. by sail, and 10s. @30s. by steamer, per ton. Total number of vessels in port on Wednesday 509.

The New York exports, exclusive of specie, for the week ending June 9, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week.....	$3,829,587	$2,546,370
Prev. reported.....	83,391,741	75,498,590
Since January 1.....	$87,221,328	$78,044,960

The imports for the week ending June 6th, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$1,010,414	$1,047,219
Gen. merchandise.....	3,215,271	3,212,121
Total for the week.....	$4,225,685	$4,259,340
Previously reported....	109,605,902	101,743,795
Since January 1.....	$113,831,587	$105,003,135

The balance in the Sub-Treasury on Wednesday was $97,493,746 32.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Buffalo, New York and Erie 1st mort., 94; Chicago and Milwaukee 1st mort., 94¼; Peninsular 1st mort., 90; Rensselaer and Saratoga R.R., 90½; do., 1st mort., 100; Great Western 1st mort., 1868, 102; Troy, Salem and Rutland 1st mort., 100; Toledo, Peoria and Warsaw 1st mort. A. S. Thorp & Co.

We have seen an inventory of the different articles which compose the varied and most complete stock of this firm, and found it to embrace nearly 2,500 items. Of these we may mention, as a specialty manufactured by them, their famous Car-Seat Springs, the most durable and excellent known to the trade.

Messrs. A. S. Thorp & Co. import extensively from England, France and Germany; their importations of Reps and Damask Furniture Coverings being in about equal proportions from each of those countries, and composing the largest assortment of those goods in New York. Their customers are to be found in every State of the Union, without a single exception, and the long established name of the house is in the keeping of those who know best how to prize and to preserve it.

Hudson River Railroad.

At the annual meeting of this company on the 8th inst., the following named gentlemen were elected directors for the ensuing year: Cornelius Vanderbilt, William H. Vanderbilt, Horace F. Clark, Augustus Schell, John M. Tobin, D. Thomas Vail, James H. Banker, Oliver Charlick, William A. Kissam, Joseph Harker, M. H. Sanford, Samuel Barton, James M. Marvin. Upon organization Cornelius Vanderbilt was re-elected President, William H. Vanderbilt, Vice President, and Augustus Schell, Secretary.

Railroad Earnings.—Weekly.

The earnings of the Michigan Southern and Northern Indiana Railroad for the 1st week in June, 1868, were $86,147 00
Corresponding week of 1867 ..... 71,065 00

Increase $15,072 00

The earnings of the Chicago and Northwestern Railroad for the 1st week in June, 1868. $283,414 54
Corresponding week previous year .. 211,984 13

Increase $71,430 41

The earnings of the Chicago and Alton Railroad for the 1st week in June, 1868 .. $71,764 00
Corresponding period previous year .. 79,000 00

Decrease $7,236 00

The earnings of the Detroit and Milwaukee Railroad for the first week in June, 1868, were $35,853 53
Corresponding week of 1867 ..... 34,832 10

Increase $1,021 43

The earnings of the Milwaukee and St. Paul Railroad for the first week in June, 1868, were $131,000 00
Corresponding week of previous year 91,517 00

Increase $39,483 00

New Jersey Railroad and Transp. Co.

At the recent annual meeting of the stockholders of this company, the following gentlemen were elected directors for the ensuing year: D. S. Gregory, Henry R. Remsen, Hamilton Fish, George R. Chetwood, A. L. Dennis, M. A. Howell, Ferdinand Suydam, Isaac W. Scudder, N. Perry.

At a subsequent meeting of the directors, the following officers were re-elected: Alfred L. Dennis, President; Hamilton Fish, Vice President; H. J. Southmayd, Treasurer; F. W. Rankin, Secretary.

The gross receipts of the road for 1867, were $1,865,303 36, the expenses, $1,019,153 71, and the net receipts, $846,149 65; an increase, as compared with the previous year, in gross earnings of $94,440 46, in expenses of $37,306 25, and in net receipts of $57,134 71.

The receipts for the first four months of the present year, (January to April, 1868, inclusive,) compared with the corresponding period of 1867, have been as follows:

	1867.	1868.
Way and through pass.	$344,879 16	$343,926 47
Way and through fr'ght	99,965 95	162,558 80
Commutation	35,599 91	38,709 31
Miscellaneous	11,685 43	11,288 72
Erie & Northern roads	7,421 21	7,507 27
	$499,551 67	$533,990 07

Bangor and Piscataquis Railroad.

At the annual meeting of this company at Bangor, Me., on the 3d inst., the following board of directors was chosen: Hannibal Hamlin, Isaiah Stetson, Franklin Muzzy, Chas. Hayward, Geo. W. Ladd, Joab W. Palmer, John B. Foster, Bangor; Phineas Tolman, Milo; A. G. Lebroke, Foxcroft; A. M. Robinson, Charles Kimball, Dover; and, on the part of the City of Bangor, Moses Giddings and A. G. Wakefield.

At a subsequent meeting of the directors, Hannibal Hamlin was chosen President, and Isaiah Stetson, Treasurer.

The bids for the construction of about 40 miles of the road, from Bangor to Dover and Foxcroft, were opened, and on the 4th, the contract for building it the whole way was awarded to Mr. Jones of Lewiston, and Mr. Andrews of Biddeford, for $19,850 per mile, including depots and everything but rolling stock, to put the road in first class running order. The price is regarded as exceedingly favorable, much more so than was anticipated. The work is to commence at once.

The Public Debt.

The following is a comparative statement of the Public Debt of the United States May 1, and June 1, 1868:

	May 1, 1868.	June 1, 1868.
DEBT BEARING COIN INTEREST.		
Five per cent. bonds.	$215,947,400.00	$220,812,400.00
Six per cent. bonds of 1867 and 1868.	8,688,241.80	8,582,641.80
Six per cent. bonds of 1881	283,677,200.00	283,677,200.00
Six per cent. Five-twenty bonds	1,442,065,450.00	1,494,755,600.00
Navy pension fund	13,000,000.00	13,000,000.00
Total	$1,963,378,291.80	$2,020,827,841.80
DEBT BEARING CURRENCY INTEREST.		
Six per cent. bonds	$23,982,000.00	$25,902,000.00
Three-year compound interest notes.	44,573,680.00	21,604,890.00
Three-year seven-thirty notes	163,490,250.00	105,610,650.00
Three per cent. certificates	28,330,000.00	50,000,000.00
Total	$260,375,930.00	$203,117,540.00
MATURED DEBT NOT PRESENTED FOR PAYMENT.		
Three years Seven-thirty notes, due Aug. 15, 1867	$1,075,950.00	$947,500.00
Compound interest notes matured June 10th, July 15, Aug. 15, Oct. 15, and Dec. 15, 1867, and May 15, 1868	4,745,280.00	6,012,360.00
Bonds of Texas indemnity	256,000.00	256,000.00
Treasury notes, acts July 17, 1861, and prior thereto	155,461.64	155,211.64
Bonds, April 15, 1842	6,000.00	6,000.00
Treasury notes, March 3, 1863	616,192.00	555,492.00
Temporary loan	1,032,400.00	883,639.00
Certificates of indebtedness	18,000.00	18,000.00
Total	$7,905,283.64	$8,834,202.64
DEBT BEARING NO INTEREST.		
United States notes	$356,144,727.00	$356,144,212.00
Fractional currency.	32,450,489.94	32,531,589.94
Gold certificates of deposit	19,357,900.00	20,298,180.00
Total	$407,953,116.94	$408,973,981.94
Total debt.	$2,639,612,622.38	$2,643,753,566.38
AMOUNT IN THE TREASURY.		
Coin	$106,909,658.00	$90,228,559.31
Currency	32,174,136.82	43,279,120.33
Total	$139,083,794.82	$133,507,679.64
Amount of debt less cash in the Treasury.	$2,500,528,827.56	$2,510,245,886.74

By comparing this with the statement of May 1, it is shown that the debt bearing coin interest has increased $57,449,550; the debt bearing currency interest has decreased $57,258,390; the matured debt not presented for payment has increased $928,919; and the debt bearing no interest has increased $1,020,865—making the increase in the total debt since May 1, 1868, $4,140,944. The amount of coin in the Treasury during the same period has decreased $16,681,098 69, and the amount of currency has increased $11,104,983 51—leaving the amount of debt less cash in the Treasury June 1, $9,717,059 18 more than on May 1st.

Rensselaer and Saratoga Railroad.

At the annual meeting of this company on the 1st inst., the following gentlemen were unanimously elected directors for the ensuing year: George H. Cramer, Joseph M. Warren, George B. Warren, Daniel Southwick, George M. Tibbitts, E. Thompson Gale, George Dauchy, John A. Griswold, Thomas White, J. L. Van Schoonhoven, and William Howard Hart, of Troy, Benjamin E. Bates, of Boston, and Daniel S. Miller, of New York.

At a subsequent meeting of the directors, George H. Cramer was unanimously re-elected President, and Joseph M. Warren, Vice President.

The following gentlemen were on the same day elected as directors of the Saratoga and Schenectady Railroad Company: Le G. B. Cannon, John Cramer, George B. Warren, N. Lockwood, James M. Marvin, Stephen E. Warren, Geo. Tibbetts, Henry C. Lockwood, Wm. A. Shepard.

Chicago and Northwestern Railway.

The following is a comparative statement of the earnings of this road for the fiscal years ending May 31, 1867 and 1868:

	1867.	1868.
From passengers	$2,945,016 19	$3,576,865 55
" freight	6,649,589 81	8,260,084 50
" express	346,016 37	464,342 09
" mail	124,485 27	175,656 80
" miscellaneous	96,627 81	133,543 70
Total	$10,161,735 45	$12,610,492 64

This shows an increase in 1867–'68, of $2,448,757 19, viz: in earnings from passengers, $631,849 36; freight, $1,610,494 69; express, $118,325 72; mail, $51,171 53; miscellaneous, $36,915 89.

☞ The earnings of the Atlantic and Great Western Railway, from 1st April, 1867, (the commencement of the receiver's fiscal year,) to 31st March, 1868, were $5,126,377 90; for the same period last year, $5,648,804 94—decrease, $522,427 04.

ESTABLISHED 1821.

RAILROAD
UPHOLSTERY
GOODS.

Plushes, Reps, Damasks,
Curled Hair, Car-Seat Duck,
CAR-SEAT SPRINGS,
AND ALL UPHOLSTERERS' SUPPLIES.

Iron Bridges and Roofing.
Plans and Estimates furnished on application.
65 WALL STREET, New York.
JOHN W. GOULD. EDWARD P. BIGELOW.

600 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—**A Government Grant** of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—**A Government Grant** of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—**A Government Grant** of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—**A Government Grant** of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, car shops, locomotives, cars, &c.

V.—**A Capital Stock Subscription** from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—**Net Cash Earnings** on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds

upon such a property, costing nearly three times their amount,

Are Secure beyond any Contingency.

The Company have abundant means in their Treasury, and make no appeal to the public to purchase their bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's Office before the time of such advance.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall St.,

And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.
MAY 25, 1868.

ANDREWS'

PATENT

Smoke-Burning and Super-Heating Boilers,

Are Economical of Fuel, and perfectly Safe.

HOISTING MACHINES,

Run without noise.

Drainage and Wrecking Pumps,

Pass Sand and Gravel without injury,

Capacity 100 to 40,000 Gallons per minute.

OSCILLATING ENGINES,

Run at great speed.

All light, compact, and durable.

OFFICE OF THE TOLEDO, PEORIA AND WARSAW RAILROAD COMPANY, No. 26 EXCHANGE PLACE, NEW YORK, May 14, 1868.

NOTICE TO THE BONDHOLDERS AND shareholders of the Toledo, Peoria and Warsaw Railroad Company of Illinois. You are hereby notified that a meeting of the bondholders and shareholders of this Company will be held in this City on the 15th day of June next at the office of the Company, between the hours of 10 and 2 o'clock, to vote upon the question of the extension of the road from La Harpe to Burlington, Iowa, and from Warsaw to Quincy, Illinois, to connect with the Government bridges at those places, and to authorize the Board to contract for the building of the same, and to issue sinking fund bonds of the Company bearing interest at eight per cent., at the rate of fifteen thousand dollars ($15,000) per mile upon such extensions or branches for said purpose, or upon any other plan that may be presented you at said meeting for the purpose of raising the necessary funds for building the extensions, and upon any other subject that may be offered for consideration at said meeting.

Per order of the Board,
CHARLES L. FROST, President.

PENNSYLVANIA RAILROAD COMPANY,
Treasurer's Department.
PHILADELPHIA, May 2, 1868.

NOTICE TO STOCKHOLDERS.—The Board of Directors have this day declared a semi-annual dividend of THREE PER CENT. on the Capital Stock of the Company, payable in cash, clear of National and State taxes, and a further dividend of FIVE PER CENT., payable in Stock, on and after May 30.

Blank powers of attorney for collecting dividends may be obtained at the office of the Company, No. 238 South Third Street.
THOMAS T. FIRTH,
8t21 Treasurer.

OFFICE PENNSYLVANIA RAILROAD COMPANY, Philadelphia May 13th, 1868.

Notice to Stockholders.—In pursuance of resolutions adopted by the Board of Directors at a stated meeting held this day, notice is hereby given to the Stockholders of this Company, that they will have the privilege of subscribing, either directly or by substitution under such rules as may be prescribed therefor, for Twenty-five per cent. of additional Stock at par, in proportion to their respective interests as they stand registered on the books of the Company, May 20th, 1868.

Holders of less than four Shares will be entitled to subscribe for a full share, and those holding more shares than a multiple of four shares will be entitled to an additional share.

Subscriptions to the new Stock will be received on and after May 30th, 1868, and the privilege of subscribing will cease on the 30th day of July, 1868.

The instalments on account of the new shares shall be paid in cash, as follows:

1st. Twenty-five per cent. at the time of subscription, on or before the 30th day of July, 1868.

2d. Twenty-five per cent. on or before the 15th day of December, 1868.

3d. Twenty-five per cent. on or before the 15th day of June, 1869.

4th. Twenty-five per cent. on or before the 15th day of December, 1869, or if Stockholders should prefer the whole amount may be paid up at once, or any remaining instalments may be paid in full at the time of the payment of the second or third instalment, and each instalment paid up shall be entitled to a pro rata dividend that may be declared on full Shares.
THOMAS T. FIRTH,
8t21 Treasurer.

TESTIMONIAL.
Baltimore, Md., April 16, 1868.
We have used, on the Baltimore and Ohio Railroad, during the past year, about 13,000 lbs. of India Rubber Car Springs, manufactured by the Hamilton Square Rubber Works, Trenton, N. J., (C. V. Mead & Co.,) and have found them equal to, if not superior to any we have used in past time, and on much more reasonable terms.
JOHN OLIVER,
Purchasing Agent Baltimore and Ohio Railroad.

Safety Railroad Switch.
MAIN TRACK UNBROKEN.
I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the *MAIN TRACK IS NEVER BROKEN,* and it is impossible for any accident to occur from the misplacement of switches.
The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.
AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns *The Life and Limb of all Travelers upon Railroads.*
I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.
I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

RAILROAD SCREW SPIKE.

HENRY YOUNG, President.
G. B. HUBBELL, Secretary
HUBBELL & VANHOESEN, Agents.

Works at
OSSINING,
Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented, Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERGNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. PUTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

TREDEGAR COMPANY,

JOSEPH R. ANDERSON, President. **RICHMOND, VA.** JOHN F. TANNER, Vice-President.

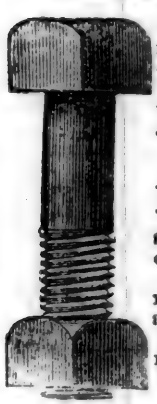
The Tredegar Company of Richmond, Va., (Successor to J. R. Anderson & Co.,) continue to Manufacture at their Works, *RAILS* of any required section, including *STREET RAILS*; *PATENT ROLLED CONTINUOUS LIP CHAIRS*; *RAILROAD* and *BOAT SPIKES*; *RAILROAD AXLES*; *FISH PLATES*, with Bolts and Nuts for same; *IRONS* complete for Fink's, Bollman's, or Howe Truss Bridges; *RAILROAD CARS*; *TRUCKS* of any desired pattern ready for the Car bodies; *NAILS* and *CUT SPIKES*; *Best Charcoal BAR IRON*, of high tensile strength; *CASTINGS*, including the heaviest descriptions of Iron and Brass; *MARINE* and *STATIONARY ENGINES* of all sizes.

The great capacity of the Tredegar Iron Works—*some 30,000 tons per annum*,—their location on tide-water, in the midst of the rich Coal and Iron deposits of Virginia, their unequalled advantages for shipment by Rail, Steamer or Sail Vessel, without interruption during any part of the year, and an active experience of thirty years, enable the Proprietors to guarantee the promptest and most economical execution of orders, which are solicited from all parts of the United States. Address

TREDEGAR COMPANY, Richmond, Va.,

Or at their Office, 60 Broadway, New York.

THE



Schweitzer Patent Bolt Comp'y,

Works at Green Point, L. I.,

Near Greenpoint Ferry, from 10th St. & 23d St., N. Y. **NEW-YORK.**

H. S. TERBELL, President, *39 Walker Street, New-York.* THOS. S. YOUNG, Treasurer, *120 Chambers St., New York.*

We are prepared to make and deliver

IRON BOLTS,

manufactured by Automatic Machinery in such manner as to *increase the strength* of the Iron beneath the head by compression, and totally avoid the weakening by crystalization, as in the case of Bolts made by hand or by any slow and protracted process. These Bolts are *uniform in size and shape, and superior in strength and finish* to any others made.

Standard Bolts will be made of the best quality of iron, and warranted.

The attention of

Railroad Companies, Bridge, Car & Locomotive Builders,

and others requiring Bolts of the *greatest strength and uniformity*, is specially called to these Bolts.

Contracts for Bolts used in the construction of Railroads and their appurtenances, and all similar work not requiring the best quality of iron, will be taken at special rates.

The *rapidity of production* will enable the Company to fill orders of any magnitude at short notice. The Company also offer for sale

BOLT CUTTERS

of their own patent, which, with a given amount of power and labor, will cut twice the number of Bolts of any other machine in use.

American Railroad Journal.

New York, Saturday, June 20, 1868.

San Francisco and Humboldt Bay R. R.

This company was organized by charter February, 1868. The initial point of the road is at Sancelito, 3½ miles from San Francisco, at "Richardson's Bay," will run through San Raphael, the county seat of Marin, thence to Petaluma, thence to Santa Rosa, the county seat of Sonoma Co., thence to Healdsburgh on Russian River, thence through Cloverdale, thence to the head of Russian River Valley, thence to Uriah, the county seat of Mendocino Co., thence down the Main Eel River Valley to Eureka on Humboldt Bay, the county seat of Humboldt Co. The distance is 223 miles, and capital stock $8,000,000.

By reference to the map of California it will be seen that this must become an important line of communication with the coast counties of California, passing through the thickly settled districts of Sonoma, Russian River and Eel River Valleys, and opening up some of the richest agricultural and timbered lands in that State. It will form the only outlet of the Counties of Del Norte, Shasta Syskiyou, Trinity, Humboldt Lake, Mendocino, Sonoma and M as well as the most practicable outlet for the Oregon Central Railroad from Jacksonville to San Francisco.

The sectional area of territory tributary thereto, is 24,000 square miles, population, 66,000, and assessed valuation, $19,558 000.

It is intended to have 40 miles of the road constructed during the year, commencing at Petaluma, and terminating at Cloverdale, near the head of Russian River. The President, Gen. P. E. Connor, and Chief Engineer, W. S. Watson, are now in the city negotiating for the iron and rolling stock for this division.

The people of the four counties have taken an active interest in the construction of this road, as shown by the vote of Sonoma County, held on the 9th May last, donating $5,000 per mile to the company for 63 miles, or $315,000. The other counties will also donate the same amount as soon as the road reaches their boundaries.

The cost of the road, equipped and running, is estimated by its Chief Engineer, at $22,000 per mile.

Bills for grant of public lands to the road are now before Congress, and from the active interest exhibited by that body, in the development of the Pacific Coast, there is little doubt that the request of the company will be granted before adjournment.

The directors of the company are: Fred. McCrellish, F. A. Bee, Alexander Ely, G. J. Boyd, Gen. Connor, San Francisco. The President of the Board, Gen. P. E. Connor; Chief Engineer, W. S. Watson; Secretary, Fred. McCrellish.

Southern Minnesota Railroad.

At a recent meeting of the stockholders of this company the following board of directors was elected: T. B. Stoddard, C. W. Thompson, Luke Miller, Edward Thompson, C. G. Wycoff, B. D. Sprague, H. W. Holley, Hiram Walker, P. W. Myers.

At a subsequent meeting of the directors, T. B. Stoddard was elected President; Luke Miller, Vice-President; C. G. Wycoff, Secretary; Luke Miller, Treasurer; B. D. Sprague, Land Agent.

The St. Paul *Press* says that two mortgages have been executed, each for $3,600,000, upon 180 miles of the road, including lands and franchises, under which the trustees, Messrs. Samuel B. Ruggles and Albon P. Mann, of New York, will pay $20,000 per mile for each mile of road constructed. The contract for the grading of the first ten miles west of Rushford have been executed, and the right of way for a much greater distance obtained. This negotiation and its results will secure to the counties of Houston, Fillmore, Freeborn, Faribault, Martin and Jackson, a central railway communication, connecting eastward with the Mississippi River, and on the west with the Sioux City and Lake Superior branch of the Union Pacific Railway.

Jalapa Railroad.

The Mexican *Two Republics*, of May 16th, says that 150 tons of English rails for this road had arrived on the last American steamer, and that 150 tons more were expected by the next steamer, and that shipments were to "be continued from New York in sailing vessels, until 1,200 tons were delivered. These rails pass through New York under bond.

"Sr. Zangroniz states his determination to complete ten leagues of the Jalapa Road at once, although no definite action has yet been taken by Congress. This is an exhibition of enterprise that has never before been exhibited in this country and too much praise cannot be awarded to Senor Zangroniz for his prompt and determined action. It is truly refreshing in these days of procrastination and interminable delays to find a man who has *the nerve to act*.

"We hope Congress will at once decide the few points in the concession yet to be discussed and grant it without further delay. And we wish Sr. Zangroniz all the success his energy and business capacity entitles him to."

The same paper states that on the 12th of May, Congress took up the Zangroniz concession—the Jalapa railroad project—and after some discussion approved of the 1st, 2d, 3d and 4th articles. The other portions of the bill yet remained to be disposed of.

☞ The following gentlemen have been elected directors of the Chicago and Milwaukee Railroad Company for the ensuing year: Henry Keep, of New York; H. H. Baxter, of New York; J. H. Benedict, of New York; H. W. Blodgett, of Chicago; J. H. Howe, of Chicago; G. L. Dunlap, of Chicago; Perry H. Smith, of Chicago; M. L. Sykes, of New York; and James B. Redfield, of Chicago.

Lehigh Coal and Navigation Co.

The shipments of coal for the years ending December 31, 1866 and 1867, compare as follows:

Shipped from—	1866.	1867.
Company's Mines	485,398	363,022
Beaver Meadow	103,766	96,892
Hazleton and Black Creek	239,067	288,098
Buck Mountain	24,486	44,298
Nescopec Mines	.....	16,252
Wyoming Region	126,576	167,474
Mahanoy Region	73,604	18.269
Sundry operations	13,406	12,295
Total (tons of 2,240 lbs.)	1,066,303	1,006,604

—showing a less business in 1867 than in 1866, by 59,698 tons.

Navigation on the Lehigh opened on the 20th March, 1867, and closed on the 7th December. The first shipment of coal was made on the 6th April. In 1866, the first shipment was made on the 2d March, and navigation closed on the 1st December,—the season of 1866 having been about three weeks longer than that of 1867. The time lost in consequence of interruptions by damaged canal and labor strikes were nearly alike in either year. The weekly average business was therefore more favorable in 1867 than in the next preceding year.

The coal going down the canal distributed itself as follows:

	1866.	1867.
Consumed on the line	68,555	67,339
Passed into the Morris Canal	205,351	171,267
" " Del. Div. Canal	792,397	767,998
Total (tons of 2,240 lbs.)	1,066,303	1,066,604

The coal that went into the Delaware Division Canal was disposed of as follows:

	1866.	1867.
Consumed on the line of the canal	44,329	43,764
Passed into the Del. and Raritan Feeder	526,245	472,751
Passed through canal to Bristol	221,823	251,483
Total (tons of 2,240 lbs.)	792,397	767,998

The production of coal from the company's mines for the two years 1865 and 1866, compares as follows:

Mined on Company's account:	1866.	1867.
Panther Creek, Summit and Old Tunnel Mines	408,243	370,204
Mined under leases from Co.:		
Room Run Mines	86,132	1,313
Greenwood Mines	32,969	17,538
Old Heaps at Slope No. 2	1,475	353
Total (tons of 2,240 lbs.)	528,819	389,408

which is 139,411 tons less in 1867 than in 1866.

The lease of the Room Run Mines having expired with 1866, the mines were not worked during the year. This in a great measure accounts for the diminution in the amount of coal produced. Besides this, the low average price of coal in the great markets afforded little inducement to aim at a larger production from any of the collieries.

The number of passengers carried over the road in 1865, 1866 and 1867, compares as follows:

	Through.	Way.	Total.
1867	....	.....	81,650
1866	29,721	9,803	39,524
1865	23,882	2,451	26,333

There are now on the road 33 engines, 6 passenger cars, 3 baggage cars, 10 freight cars, 125 flat cars, 363 ten-ton, and 2,791 six-ton coal cars, 8 lime and 151 dump cars, &c.

The total business on the Lehigh Canal in 1867, is shown in the following statement:

	Up.	Down.	Total.
Coal	44	1,006,821	1,006,865
Grain	646	29	675
Salt	374	.....	374
Salt fish and pork.	24	.....	24
Other provisions	261	.....	261
Beer, porter & cider	247	11	258
Hay and straw	356	.....	355
Staves, hoop-poles, &c.	42	1,009	1,051
Lumber	2,453	261	2,714
Brick	3,604	250	3,854
Lime, cement and plaster	1,077	740	1,817
Limestone, earth & sand	42,120	27,836	69,956
Iron	5,981	21,997	27,978
Iron ore	139,593	1,179	140,772
Merchandize	755	234	989
Grindstones, &c.	2	.....	2
Total (long tons)	197,580	1,060,366	1,257,946
Total 1866	192,567	1,098,944	1,291,507
Total 1865	133,552	914,087	1,047,639

The business of the Delaware Division Canal operated by the Lehigh Company under lease, is shown in the following abstract:

	Up.	Down.	Total.
Coal	216	768,792	769,008
Grain	748	126	874
Salt	1,156	.....	1,156
Salt fish and pork	36	12	48
Other provisions	346	51	397
Hay and straw	485	284	769
Staves, posts, rails, &c.	3,168	2,119	5,287
Lumber	5,652	1,926	7,578
Brick	2,640	613	3,253
Lime, cement and plaster	7,489	6,448	13,937
Limestone, earth & sand	13,616	47,632	61,248
Iron	12,664	22,737	34,401
Iron ore	256	941	1,197
Merchandize	1,237	359	1,496
Grindstones, &c.	2	136	138
Bituminous coal	797	.....	797
Total (long tons)	50,508	851,076	901,584

The business of the Lehigh and Susquehanna Railroad for the year 1867, is shown in the following abstract:

	Going North.	Going South.	Total Tons.
Coal	12,496	792,460	804,956
Lumber	7,093	11,788	18,881
Pig iron	1,331	40	1,371
Railroad iron, &c.	4,121	252	4,373
Lime and cement	200	68	268
Hay and straw	78	80	158
Bark	45	1,068	1,113
Stone, sand and earth	375	3,914	4,289
Bituminous coal	799	34	833
Slate and brick	207	41	248
Grain	168	328	496
Furniture, &c.	113	61	174
Whiskey, ale & beer.	97	46	143
Brimstone and soda	....	86	86
Groceries & provisions	348	650	998
Merchandize	236	346	582
Total (tons) 1867	27,707	811,263	838,970
" 1866	34,040	608,267	642,307
" 1865	90,234	267,547	357,781

The coal, included in the above exhibit was received—

From the Wyoming Region	387,410
From the Hazleton Railroad	337,394
From the Upper Lehigh	80,152
Total	804,956

And was delivered to—

Lehigh Canal, Coal Port	516,010
Lehigh Valley R. R., White Haven	170,373
Lehigh Valley R. R., Sugar Notch	60,018
Lehigh Valley R. R., Packerton	45,749
North Pennsylvania R. R., Bethlehem	6,779
Wyoming Canal, South Wilkesbarre	12,497
Line of Lehigh and Susquehanna R. R.	8,531
Total, as above	804,956

The gross profits and expenses for the two years 1866 and 1867, are exhibited in the following statement:

	1866.	1867.
Water and ground rents	$7,759 76	$34,034 51
Profits on town lots.	15,199 33	6,628 00
Profits on coal, incl. mine rents	237,685 76	80,649 24
Tolls on navigation, less collection exp.	548,303 76	513,094 44
Tolls and transportation on railroad, incl. car service	141,838 24	119,956 10
Profits from Delaware Canal	80,027 60	.....
Total gross receipts.	$1,030,814 45	$754,357 29
Add balance from previous year	3,502,854 08	3,391,701 69
Total resources	$4,533,668 53	$4,146,058 98
Total disbursements.	1,141,966 84	2,682,116 20
Balance to next year.	$3,391,701 69	$1,463,942 78

The following shows the disbursements in greater detail:

Cost of repairs and improvements of the navigation	$83,102 90	$96,095 88
U. S. tax on surplus profits, 5 p.c. of previous year	25,980 90	.....
U. S. tax on $1,803,000 scrip, converted into stock by decree of Supreme Court, March, 1864	90,150 00	.....
Dividend and tax, May	320,615 79	197,572 11
Dividend and tax, Nov.	322,631 58	.....
State tax on capital	15,229 25	24,709 67
State tax on gross receipts	7,367 17	.....
Balance of interest account	276,889 25	307,089 40
Cost of operating and rent of Delaware Division Canal	.....	265,491 12
General expenses	.....	54,401 07
Discount on loans, &c.	.....	1,421,259 57
Donation 300 shares	.....	15,000 00
Depreciation L. and S. R. R. equipment	.....	300,497 88
Total disbursements.	$1,141,966 84	$2,682,476 20

The financial condition of the company, as stated in the General Balance Sheet of Jan. 1, 1867 and 1868, is shown in the following statement:

	1867.	1868.
Capital stock	$6,968,146 85	$8,739,800 00
Loan of 1870	414,157 77	384,162 06
Loan of 1884	5,434,351 17	5,606,122 75
Loan of 1897	.....	2,000,000 00
Gold loan of 1897	.....	3,367,906 21
Conv. loan of 1877.	.....	1,201,850 00
Nanticoke loan of 1881	.....	81,000 00
Bills payable / Other liabilities	1,222,917 10	907,587 77 / 727,174 46
Interest due Jan. 1.	95,902 53	97,451 65
Dividends due and unpaid	11,293 20	1,796 70
Profit and loss	3,891,701 69	1,463,942 78
Total	$17,588,469 31	$24,442,000 63

Against which are charged the following:		
Canal and river improvements	$4,455,000 00	$4,455,000 00
Lehigh and Susquehanna Railroad	5,691,294 05	10,342,823 20
Fixed property:		
Coal and other lands, wharves at Phila., &c	334,375 15	650,067 92
Mine improvements, railroads from mines to canal, &c	1,416,352 64	1,581,559 10
Shipping improvements		298,310 87
Land improvements, (buildings, &c.)	548,526 01	429,781 57
Moveable effects;		
Canal boats	327,081 76	381,720 45
Rolling stock, Lehigh & Susq. R.R.	1,177,010 46	1,611,915 28
Rolling and other stock connected with mine improvements	275,551 06	354,912 50
Supplies on hand at Mauch Chunk	218,923 87	247,258 29
Coal on hand	88,898 02	78,232 40
Bonds & mortgages	44,119 24	43,677 88
Principal of ground and water rents	179,102 55	175,835 88
Bills receivable	218,249 09	173,156 34
Due from individuals	1,331,524 21	565,039 71
Contingent fund and other securities	1,056,676 08	2,352,665 05
Cash on hand	175,255 62	700,044 19
Total	$17,538,469 31	$24,442,000 63

In the RAILROAD JOURNAL for 1865, p. 587, and for 1866, p. 565, will be found tables exhibiting the progress of the company since 1844. See also JOURNAL for 1867, p. 749. In the following table we give a financial review of their affairs yearly (as of January 1,) for the past eight years, 1861-'68:

Jan. 1st.	Capital Stock.	Funded Debt.	Floating Debt.	Profit and loss.	Total Liabilities.	Cash on hand.
Against which the following disbursements are charged:	Jan. Canal, &c., 1st. Improvem'ts.	Lehigh & Susq. R.R.	Fixed. Property.	Moveable. Effects.*	Cost of Investments.	
1861	$4,455,000	$1,380,000	$1,452,364	$1,332,462	$1,385,088	$49,067
1862	4,445,000	1,380,000	1,522,478	1,089,001	918,069	47,155
1863	4,446,000	1,380,000	1,619,866	900,841	795,647	82,896
1864	4,456,000	1,389,988	1,729,852	1,285,526	680,872	112,772
1865	4,456,000	1,917,895	2,072,984	2,128,112	640,952	165,976
1866	4,455,000	3,127,708	2,037,090	2,907,157	680,247	790,116
1867	4,455,000	5,691,294	2,299,778	3,860,460	1,054,676	175,268
1868	4,455,000	10,342,823	2,959,719	3,631,749	2,352,665	700,044
1865	4,455,000	2,788,182	418,729	3,724,838	9,406,699	
1866	4,455,000	2,788,182	789,508	3,176,110	9,233,750	
1867	6,968,146	5,848,609	515,088	3,821,840	9,603,510	
1868	8,739,800	12,504,297	1,267,852	2,988,236	11,880,920	
1862	2,479,950	$8,416,871	$360,408	$3,456,703	$9,803,982	
1863	2,479,950	2,788,182	418,729	3,724,838	9,406,699	
1864	2,479,950	2,788,182	789,508	3,176,110	9,233,750	
1865	2,475,950	2,786,682	515,088	3,821,840	9,603,510	
1866	4,282,950	2,846,882	1,267,852	2,988,236	11,880,920	
1867	6,091,700	3,081,434	1,321,331	3,502,864	13,997,318	
1868	6,968,146	5,848,609	1,330,113	3,391,702	17,538,469	
1867	6,968,146	5,848,609	1,330,113	3,391,702	17,538,469	
1868	8,739,800	12,504,297	1,738,980	1,468,948	24,442,000	

* Includes rolling stock of Lehigh and Susq. R. R., and mine railroads, &c.

At an election held May 5th, 1868, the following named persons were chosen officers of the Company, for the ensuing year:

President.—E. W. CLARK.

Managers.—S. M. Felton, Francis C. Yarnall, Charles Parrish, Philip C. Garrett, Jesse E. Smith, Francis R. Cope, Fisher Hazard, George F. Tyler, Charles Wheeler, George Whitney, F. P. Dimpfel.

Vice President.—WILLIAM F. BIDDLE.

Sup't and Engineer.—JOHN LEISENRING.

Treasurer.—SOLOMON SHEPHERD.

Secretary.—FRANCIS MITCHELL.

Pittsburg and Connellsville Railroad.

The Cumberland (Md.) *Alleghanian* speaks of the reported arrangement between the Pittsburg, Fort Wayne and Chicago and Pennsylvania Railroad Companies for their virtual consolidation, as cutting off the Connellsville Railroad from suitable western connections beyond Pittsburg, and hereby destroying to a great extent the value of the latter road to Baltimore, and possibly postponing indefinitely its completion from Connellsville to Cumberland. This is, however, an entirely erroneous view of the situation, even should the threatened consolidation take place. There are other outlets beyond Pittsburg now open, and others which may be readily opened, to the Connellsville Road, besides the Fort Wayne. The Allegheny Valley Railroad leads to the heart of the petroleum district, and affords an existing connection with Lake Erie through the Atlantic and Great Western Railroad and its Mahoning Branch to Cleveland, and through the Erie and Pittsburg Railroad to Erie; while from Cleveland the route to Chicago by the Lake Shore and Southern Michigan and Northern Indiana Railroads is established. This line will be shortened by the construction of about sixty-six miles of easy road, so as to be about the same length from Pittsburg to Chicago as over the Fort Wayne Road, while it will afford a much better connection with the chief Lake ports of Erie, Cleveland, Toledo and Detroit.

No fear need, therefore, be felt as to connections beyond Pittsburg; while the business of that city itself, and that brought to it by the Ohio River, now being improved for uninterrupted navigation, and the local trade of the country between Cumberland and Pittsburg, demands and will insure the immediate completion of the Connellsville Railroad, which all the arts and efforts of the Pennsylvania Central, of which this consolidation is the latest fruit, cannot prevent. The interest which the Fort Wayne Road was expected to acquire in the Connellsville by a subscription ta its bonds is now being readily transferred to other parties, and the only effect of the preferences for a Philadelphia rather than a Baltimore connection shown by the Fort Wayne will be to increase the proportion which this city will hold in the proprietorship of a line which of right should belong to her exclusively.

The most active steps are now about to be taken to place the road between Connellsville and Cumberland under contract, and within a few weeks the heavier sections may be expected to be commenced, with a view to their vigorous prosecution. and the opening of the entire line within two years.—*Baltimore American.*

Milwaukee and St. Paul Railway.

The annual meeting of the stockholders of this company was held at Milwaukee on the 8th inst. Out of a total of $20,000,000 of stock, $18,000,000 was represented. The following gentlgmen were appointed directors for the ensuing year: Alexander Mitchell, of Milwaukee; W. S. Gurnee, of New York; Russell Sage, of New York; Fred. P. James, of New York; N. A. Cowdrey, of New York; Silas Chamberlain, of Minnesota; S. S. Merrill, of Milwaukee; E. P. Wesley, of New York; Julius Wadsworth, of New York; Joseph Rudd, of New York; James G. Garner, of New York; Henry Keep, of New York, and James Buell, of New York. Alexander Mitchell, of Milwaukee, was unanimously re-elected President.

Interest on the Virginia State Bonds.

The Auditor of Public Accounts of the State of Virginia, in a letter to the President of the First National Bank of Richmond, under date of June 8th, conveys the unwelcome intelligence that there is no probability of the July interest on the State debt being paid. He says:

In reply to your inquiry whether the interest on the State debt maturing the 1st of July next will be paid, I have to say that I see no prospect whatever, of having a balance in the treasury at that time, such as would justify the attempt to pay. There are reasons for this opinion which it is not necessary in this communication to state. I will only add that I feel the profoundest regret in making this statement.

On the contrary, the Baltimore *Sun* of June 11th says:

"There was a better feeling as regards Virginia State securities in the market yesterday, growing out of a more correct understanding of the status of the Virginia State debt, and the absence of exaggerated reports in relation to the July interest. There is authority for saying that it is by no means certain that the interest will not yet be paid. As regards the State debt, the total is $44,000,000, but this is represented by interests in railroads amounting to $17,563,299, and $10,400,000 in the James River and Kanawha Canal, making a total of $27,963,299, and if West Virginia assumes one-third of the whole debt as her share, it will leave less than $30,000,000 as the debt proper of Virginia represented by the railroad and canal interests enumerated, and in round numbers about $28,000,000. The exhibit is favorable, and under proper management the bonds of Virginia will pay their interest as punctually and rank as high as those of Tennessee and North Carolina.

Harlem Bridge and Port Chester Railroad.

At the annual election for directors of this company held at North New York on the 13th inst., the following gentlemen were chosen to serve for the ensuing year: Gouverneur Wilkins, John Van Antwerp, Francis Morris, John Hunter, John Schuyler, P. J. M. Van Courtland, Henry W. Clark, Theodore Pine, T. David, Levi B. Brown, A. W. Greenleaf, J. Wainright and N. W. Stuyvesant. Wednesday, 17th inst., was appointed for the election of officers. Although the choice of officers has not been made public sufficient is known to warrant the assertion that work on the projected road will be commenced at an early day, and pushed forward with the utmost vigor. One gentleman of wealth, residing in the vicinity of Port Chester, and who is deeply interested in the construction of this new railroad made the assertion that he expected to ride home on it to his next Thanksgiving dinner. The present board of directors will not wait for the movements of the Connecticut legislature to grant charters for connecting roads, but go immediately to work for the benefit of themselves and other citizens of Westchester county.

☞ The Hartford, Providence and Fishkill Railroad Company is making arrangements to lease the Rockville Railroad for a term of years, commencing September 1st, the expiration of its current fiscal year. The road can be operated more economically as a branch, and the result will be better facilities to consignors and passengers, and cheaper rates.

☞ The Tomah and St. Croix railroad is located to Black River Falls, and will be completed to that village in the fall.

Commerce of New York.

The foreign imports at New York for the month of May, are officially stated as follows:

	1867.	1868.
Entered for consumpt'n.	$9,438,747	$10,244,318
Do. for warehousing	10,896,675	10,541,079
Free goods	1,140,103	887,657
Specie and bullion	376,725	477,485
Total entered at port	$21,852,250	$22,150,539
Withdrawn fr. wareh'use	9,245,943	9,045,351

The foreign imports at New York for the five months from January 1st, were:

	1867.	1868.
Entered for consumpt'n.	$56,025,236	$50,138,370
Do. for warehousing	53,592,986	49,659,206
Free goods	4,932,651	4,170,900
Specie and bullion	1,057,512	3,200,789

		$11,040,000

The amount of bonds and stocks cannot be increased without the consent of a majority in interest of the holders of all classes of the securities. The President in his Report says:

The most important act during the past year has been the arrangement made with the railroad companies east of Terre Haute, for the operating of the main line of your road from Terre Haute to East St. Louis and the Alton Branch.

An operating contract with the Indianapolis and St. Louis Railroad Company was duly executed, and the actual possession of the road and its equipment was formally delivered to that company on the 11th day of September last, since which date the main line has been operated under the contract. By the terms of the contract, it took effect on the first of June previous, from which last date up to the 11th September it was operated on account of and for the Indianapolis and St. Louis Railroad Company, and the accounts have been adjusted accordingly.

By the terms of the operating contract, they are to put the road, with its equipment, in good condition, and equal in every respect to first-class roads of the western states, and so to keep and maintain it. They are to pay to this company 30 per cent. of the first two millions of gross earnings; 25 per cent. of the next or third million, and 20 per cent. on all earnings above that during the existence of the contract.

These payments are to be made in monthly installments, with an agreed minimum of $37,500 per month, or $450,000 per annum, as stated in the circular of the 17th July last, a copy of which is appended hereto.

The performance of this contract is guaranteed by the Pittsburgh, Fort Wayne and Chicago Railway Company, one-third, the Indianapolis, Cincinnati and Lafayette Railroad Company, one-third, and the Bellefontaine Railway Company, the Cleveland, Columbus and Cincinnati, and the Cleveland, Painesville and Ashtabula Railroad Company, jointly, one-third. It will be perceived that the Pennsylvania Railroad Company failed to unite in the arrangement.

The following extract from the sixth annual report of the board of directors of the Pittsburgh, Fort Wayne and Chicago Railway Company, recently submitted to its bond and stockholders, explains the relations and objects of the associated companies in entering into the contract with us:

"The relations of this company with connecting roads and lines have not been materially changed during the past year, excepting an arrangement for the working of the St. Louis, Alton and Terre Haute Railroad for a period of ninety-nine years, jointly with the Indianapolis and Cincinnati Railroad Company and the several companies owning the three roads between Indianapolis and Erie, Pennsylvania. The companies agreeing to work the road are to pay thirty per cent. of the gross earnings until they reach $2,000,000 per annum, and twenty-five per cent. of the gross earnings which exceed $2,000,000, and less than $3,000,000 per annum, and twenty per cent. of all gross earnings over $3,000,000 per annum, and have guaranteed to the St. Louis, Alton and Terre Haute Railroad Company a sum of $450,000 a year under the arrangement. The condition of their property at the time the ar-

rangement was made was such as to require some advances on the part of this and the other companies to put the track and equipment in a condition so as to realize profitable results. This is being done, and will be continued to some extent during the current year, after which it is believed that the road will yield a profit to the companies working it.

"The object of your board of directors in entering into the arrangement for operating the St. Louis, Alton and Terre Haute Railroad was to harmonize all interests east of Indianapolis in the working of the single line of road from Indianapolis to St. Louis, in such way as to give to the several roads and lines east of Indianapolis their several fair and equitable proportions of the business east from St. Louis by this route, and at the same time remove all temptation from the parties in an effort, each for itself, to get an exclusive contract of the single railway line west of Indianapolis. For nearly a year previous to the consummation of the arrangement, each of the lines of road north and south of your road has been engaged in efforts to obtain exclusive control west of Indianapolis, the effect of which, if accomplished would have been to cut this company off from all St. Louis business excepting by the way of Chicago. When, therefore, the plan was suggested to your board of directors to join with all the other interests in an arrangement for working the line between Indianapolis and St. Louis for the common benefit on an equitable basis, it seemed so eminently to the interests of this company, as well as to all, that they did not hesitate to commit this company to the plan. Unfortunately, before the final signing of the papers, and the formal taking possession of the property, the Pennsylvania Railroad Company withdrew from the arrangements for reasons which the other parties were not, and have not yet been able to appreciate, and consequently they were unwilling to adopt them, and thus break the pledge entered into by them with the St. Louis, Alton and Terre Haute Railroad Company. It is hoped, as it is very desirable, that the Pennsylvania Railroad will yet join in the arrangement, and thus harmonize all interests, as was originally designed."

Since they took possession of the main line very considerable expenditures have been made upon it, and its condition has been materially improved.

The gross earnings of the road for the first five months, from 1st January to 31st May, inclusive, were	$842,447 19
The gross earnings of the main line for the seven months, from 1st June to 31st December, were, as reported	1,187,832 59
The gross earnings of the Belleville Branch, for the same time, were	188,122 56
Total	$2,218,402 34
The gross earnings for the year 1866, were	$2,250,142 54
Showing a decrease for the year of	$31,740 20

as compared with the previous year. The loss was in about equal proportion on freight and passenger traffic.

The business of the road during the winter months has been light, owing measurably to the severity of the winter and the obstructions in the river. With the increased facilities and improvements of the road-bed and its equipment, and the favorable prospects of the incoming crops, the business of the current year, will, it is expected, prove satisfactory, and it is hoped will show a gain on that of last year.

The attention of the board will now be directed particularly to the Belleville Branch. A negotiation has been pending for some time with the Belleville and Southern Illinois Railroad Company, for the extension of this branch to Duquoin, and it is hoped that some satisfactory arrangement will yet be made.

The business of this branch for the year 1867 was very satisfactory. By the contract for the operating of the main line, so much of the equipment as had been used in and appertained to the business of this branch was reserved for its use.

The settlement with the holders of preferred stock was made in accordance with the proposition contained in the circular, at the meeting held on the 15th of August last, with the unanimous consent of a large majority in interest of the holders of preferred stock, and also of the holders of preferred second mortgage and income bonds, who were represented at the called meeting for that purpose.

BALANCE SHEET, DECEMBER 31, 1867.

Pittsburg, Ft. Wayne & Chicago Railway.

The following is a statement of the approximate earnings and expenses of this company during the month of May, as compared with the same period of the year 1867:

	1868.	1867.
From freight	$379,354 62	$360,563 51
" passengers	208,344 56	199,616 94
" express matter	8,307 00	8,626 50
" mail	7,825 00	7,825 00
" rent of railway	7,083 33	7,083 33
" miscellaneous	1,000 00	2,768 78
Total	$611,914 51	$586,484 06
Expenses	427,528 41	349,819 79
Net earnings	$184,386 10	$236,664 27

This shows an increase in earnings of $25,430 45; with an increase in expenses of $77,708 62—making the decrease in net earnings, $52,278 17.

The earnings and expenses, from January 1 to May 31, compare as follows:

	1868.	1867.
Earnings	$3,181,006 20	$2,872,914 10
Expenses	2,028,389 77	1,950,952 93
Net earnings	$1,152,616 43	$921,961 17

This shows an increase in earnings of $308,092 10; with an increase in expenses of $77,436 84—making the increase in net earnings, $230,655 26.

Cincinnati, Richmond and Fort Wayne Railroad.

The Cincinnati *Gazette* says that the prospects of direct railway connection between Cincinnati and Fort Wayne are very encouraging.

On the 29th ult., a meeting was held at Fort Wayne, at which were present Mr. Case, President of the Pittsburgh, Fort Wayne and Chicago Railroad; Mr. S. S. l'Hommedieu, of the C. H. & D. Railroad; Mr. Edgarton, of the Grand Rapids Railroad, and the president and directors of the Richmond and Fort Wayne Company. The result was an agreement by which the Cincinnati, Hamilton and Dayton, with the Pittsburg, Fort Wayne and Chicago Co., join *pro rata*, in guaranteeing the interest on $1,000,000 bonds, to be used in purchasing the iron, chairs and spikes. These companies also agree to furnish the rolling stock in the proportion of 148 to 70 miles. The Cincinnati, Hamilton and Dayton and Eaton and Richmond Companies are to run the road on *pro rata* account with the Pitisburg, Fort Wayne and Chicago.

It now only remains for the Cincinnati, Richmond and Fort Wayne Company to increase its capital stock, so as to secure additional means sufficient to make the road from Richmond to Fort Wayne ready for the iron. A great deal of this work has already been done, and if Cincinnati will do its share, which will not be large, the road may be opened in one year from the present time.

Prominent among the advantages of the road, says the *Gazette*, will be those resulting from connection at Fort Wayne with the road to Grand Rapids, Michigan. One half the lumber used in Cincinnati comes from Michigan, with whose lumber regions she would be brought in direct connection. This line will give direct connection with Chicago, only eighty miles longer than the shortest of the present routes.

☞ It is officially announced that books will be opened on the 20th inst., in Emmittsburg, Md., for subscriptions to the stock of the Emmittsburg Railroad. The charter authorizes the building of a railroad from Emmittsburg to the Western Maryland Railroad, immediately west of Monocacy River. The length of the road will be about seven miles.

American Railroad Journal.

Saturday, June 20, 1868.

Stock Exchange and Money Market.

The Money Market has been extraordinarily favorable to responsible borrowers, whose wants have been anything but urgent, and to whom aid has been very freely offered within a range of from 2@4 per cent. on call, and 4@6 per cent. per annum in the discount form. Some exceptional temporary advances have been reported as low as 1@1½ per cent. per annum, to the more extensive dealers in the public funds. There has been little demand for accommodation from other than the street houses; and even these have not been eager applicants for assistance, as their requirements have been practically anticipated by the liberal offerings of capital, from banks and bankers, particularly to the great Government firms of Wall and Nassau streets. The mercantile inquiry has been extremely limited for the season. There has been a meagre supply of prime business paper available, and what has been presented to or through the discount houses has met with a ready market within the range of our quotations. The U. S. Sub-Treasury augmented its cash reserve nearly two millions, during the past week, on a less extensive business, in the way of receipts and disbursements. The office has retired nearly 14 millions of Seven-thirties, since the 1st inst., or an average of close on a million each business day. It is now preparing for the unprecedentedly heavy disbursements, which will be made by the Department, during the coming month of July, amounting to some 30½ millions in the form of coin interest exclusively, of which some 21 millions will be on the new 1865 and 1867 (July and January coupon,) Five-twenties. At the same time there will also be payable about $6,000,000 of principal of six per cent. bonds of 1868, nearly all of which loan is held abroad. The bank, insurance, railway and other semi-annual dividends payable in July, it is believed, will reach 20 to 25 millions, which will enormously swell the aggregate offerings of money at this financial centre, and serve to keep loan and discount rates down to very low figures, for some time to come. A considerable amount of the older issues of the National bonds being held abroad, a proportionate amount of the interest payments of July will have to be remitted to Europe, the details of which has been estimated thus: Interest on Sixes of 1867 and 1868, $190,000; interest on Sixes of 1881, $5,000,000; interest on Fives of 1871 and 1874, $400,000; interest on Five-twenties of 1865 and 1867, $1,000,000; dividend on Illinois Central, ($800,000 in currency,) $571,000; on other railway shares and bonds, $2,000,000; making the total of the interest and dividends, to be remitted, $9,161,000. It thus appears that while $30,403,050 of coin becomes payable at the Treasury on interest account, about $9,000,000 of interest on Government bonds and railroad securities has to be remitted. This latter estimate we have made upon a very liberal basis; and includes the dividend on Illinois Central, which has not to be remitted until August 1. The city banks, in their last weekly statement, showed a further increase of over 1½ millions in the deposit line, and about $381,000 in the legal tender reserve, with a decrease of $3,134,900 in specie, and $21,213 in circulation. The loan averages were augmented about $1,350,000.

The specie reserve of the city banks is now $11,193,631, against $12,656,389 same time last year. The city bank deposits are now $210,670,765, against $180,317,763 week ending June 15, 1867. The legal tender reserve amounts to $69,252,840, against $57,924,294 same time last year. The circulation now stands at $34,166,846, against $33,707,109 same time last year. The loans are now $275,142,024, against $246,228,465 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $88,400,000 a day, against a daily average of $106,610,500 the preceding week, and $102,336,375 the week ending with May 30, 1868. The current week's exchanges average about $95,278,000 a day. The city banks, last week, gained $380,812 of legal tender, and $1,581,110 in the deposit line, while they lost $3,134,900 of their specie reserve. They increased their loans, $1,349,657; and reduced their circulation, $21,213.

The Philadelphia Bank movement the past week shows a decrease in loans of $368,843; a decrease of $51,273 in specie; a decrease in legal tenders of $106,557; a decrease of $241,191 in deposits; and an increase of $234 in cir-

culation. The Bank Clearings show a decrease of $3,135,172, and the balances, an increase of $470,-457.

The New York Gold Exchange Bank reports for the week ending Saturday, the 13th day of June, 1868, the average amount of loans and discounts as $1,059,687; average amount of specie, $442,322; average amount of deposits, $1,055,-551.

The U. S. Sub-Treasury receipts, week ending with June 13, were $14,377,045, including $1,682,-483 from customs duties; payments, $12,505,290, including $620,000 of coin interest; balance at the close of the week, $96,060,267, against $94,188,512, at the close of the preceding week, showing an increase of $1,871,755. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $9,600,613 including $316,481 from customs; and payments, $11,628,389; on Tuesday, receipts, $1,-106,534 including $431,000 from customs, and payments, $559,823. The balance at the close of business on Tuesday stood at $94,579,204, against $94,560,853, a week previous; and $95,-190,938 on June 2, 1868.

The coin certificates issued by the Sub-Treasury office, during May, reached $8,173,750; and the new three per cent. certificates, $21,670.000.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,-900 on the 1st of May, 1868.

National Bank notes to the amount of $100,-150 were issued last week, making the total issue to 1,673 banks thus far. $308,307,971, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $8,400,346, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,907,625. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,599,-400; and for the public deposits, $38,467,950—making a total of $380,067,350. The Treasury Department last week redeemed and destroyed $522,204 of worn and mutilated fractional currency, and issued $197,140 of new. The outstanding amount of fractional currency on the 1st inst. was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been on a very moderate scale, since our last, in the line of both excises and customs. The excises, last week, yielded some four millions, against about three millions the preceding week; customs at the port of New York, $1,682,483, and at the outports about $550,-000 (in coin) more, making the grand total income for the week equal to about $7,132,800 in currency. The total receipts of the National Treasury, from excises, thus far in the new fiscal year, which began on the 1st of July, have been about $183,000,000.

Gold has been decidedly more active, the speculative and mercantile demand have been much more vigorous; and as the supply available for immediate delivery has been much reduced, partly through the recent heavy shipments to Europe, the price has been advanced from 139¾ at the date of our last review, to 141 on Tuesday of this week. The range of quotations on Wednesday was from 140⅜@141¼, and the latest figures on that day were 140½@140⅝. The specie exports on Tuesday, were $650,000, and on Wednesday $500,000, making a total shipment, thus far in the current week, of $1,150,000. The exports hence of the current half of the calendar year 1868, have been about 44 millions, or nearly twice the aggregate shipments ($22,873,174,) same time last year, and fully up to the very large outflow ($43,534,278,) in the corresponding period of 1866.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $3,487,065, against $1,148,960 same time last year. The customs demand for Gold last week, averaged $280,400 a day; thus far, this week, it has been equal to $373,-750 a day, or equal to a weekly aggregate of $2,242,500. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $96,502 and from California, $658,758. The total customs revenue of the Government, in coin, at this port, thus far, in the current fiscal year, commencing with July 1, 1867, has been $109,206,794, against $118,689,903 same time in the preceding fiscal year. The total receipts of California gold at this port, thus far, in the current fiscal year, commencing with July 1, 1867, have been $34,742,562, against $37,-300,597 same time in the preceding fiscal year, showing a decrease of $2,558,035 in 1867–'68. The exports of specie from this port, last week, were $2,967,321, against $2,789,963 same week last year. The exports of specie, hence, since July 1, 1867, have been $71,029,173, against $39,649,444 same time in 1866–'7. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $620,000, and since July 1, 1867, $72,992,637, against $53,972,310 same time in 1866–'7. The specie exports from San Francisco, from Jan. 1, to May 29, 1868, were $16,547,360, against $14,863,-783 same time last year.

Government disbursed $17,053,377 of coin interest through the local office, in May.

Government received $3,335,485 from customs at the port of San Francisco, from Jan. 1, to May 29, against $2,949,682 same time last year.

There has been a very moderate call for foreign exchange, since our last, and as the supply has been rather more liberal, rates have favored buyers. Bankers' prime sixty day bills on London closed on Wednesday at 109⅞@110⅛, and on Paris to 5.16¼c.@5.12½; sight bills on London to 110⅜@110⅝, and on Paris to 5.11¼c.@5.10. The offering of produce bills has been light this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,359,561, against $3,-085,804 same week last year; total, since July 1, 1867, $171,547,406, against $184,998,769 same time in 1866–'67.

Government securities have again benefitted by the extraordinary ease in Money. The investment and speculative demand has been very brisk, since Saturday forenoon, and as the fresh run on the funds has been met by no corresponding addition to the available supplies, particularly of the coin bearing bonds, prices have rallied sharply, with occasional fluctuations, under the influence of sales on speculative account to realize profits. The main inquiry has been for the favorite Five-twenties, which have been freely bought by home and foreign purchasers, practically for hoarding purposes. The speculative transactions, stimulated by the abundance and cheapness of money, have been based on the confidence of operators in still higher figures being made on the gold bearing bonds, the general calculation being that 115 per cent. will be reached for the consolidated 5-20s before the July coupon comes off. Seven-thirties have been passing into the Treasury at the rate of about a million and a half a day, mostly through the local office here, where the conversions have been about a million a day, since June 1. Only some 70 millions out of the original aggregate of 830 millions remain to be funded. The June 7-30s matured on the 15th inst.

U. S. sixes of 1881 closed here on Wednesday at 117¼@117⅜; U. S. Five-twenties of 1862, 112 @113⅛; U. S. Five-twenties of 1864 at 110⅞@ 111; U. S. Five-twenties of 1865 at 111@111⅛; U. S. Five-twenties of 1865, consolidated, 113⅞@ 114; U. S. Five-twenties of 1867, 114@114⅛; U. S. Five-twenties of 1868, 109⅞@110; U. S. Ten-forties at 106⅜@106½, and U. S. Seven-thirties at 110@110⅛. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865....118½	October, 1865....117½
September, 1865..118	

U. S. three per cent. certificates 100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 3.	June 10.	June 17.
Consols	96½	95	94⅞
U. S. 5-20's of 1862	72⅝	73	73
Erie	46	46¼	45½
Ill. Central	97½	101¼	99¾

There has been rather more movement in the railway and miscellaneous share line, and better prices have been realized on most of the speculative favorites.

The new Stock Exchange Clearing House of the Brokers' and Bankers' Association commenced operations on Thursday the 11th inst., under a strong pressure in the way of opposition to its success from several influential members of both Stock Boards. But the business has since made fair progress, and the clearings have been extended to eleven different stocks in place of the three, with which the first experiments were made.

Some slight increase of activity has been noticeable in the produce line, but prices have been irregular, and generally more favorable to purchasers. Breadstuffs, cotton and provisions wound up rather more steadily, on a somewhat livelier call from both home and export buyers. Middling upland cotton closed rather briskly on Wednesday at 29@29½ cents, per lb. The stock of cotton now here is estimated at about 65,000 bales. The receipts at the port this week, have averaged only about 500 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,141,000 bales, against 1,780,000 bales same time last year; exports, same time 1,630,000 bales, against 1,395,000 bales same time last year stock on hand at latest dates, 125,000 bales, against 250,000 bales same date last year. At the Live Stock markets, this week, Beeves have been in moderate demand closing more firmly

at from 14@18c. per lb.; week's receipts, $6,574. Veal calves have been less active and cheaper, at from 6@12½c. per lb.; receipts, $1,515. Sheep and lambs have been in limited request, at from 3½@7¾c. per lb.; receipts, $19,481. Swine have been more freely dealt in at firmer prices, ranging from 8@8½c. per lb.; receipts, $16,456. The dealings in general merchandise have been quite light for the season, and the market for most kinds of imported goods has been slightly depressed. The total imports of foreign dry goods, last week, were $1,206,766, and the total amount marketed $1,132,277. The value of foreign merchandise imported last week, was $3,806,319—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $5,013,085, against $4,995,809, same week last year; total since July 1, 1867, $227,562,830, against $258,583,777 same time in 1866–'67. The freight market has been comparatively quiet, since our last. Rates close rather more firmly, however. For Liverpool we quote flour at 1s. by sail, and 1s. 3d. by steamer, per bbl.; grain at 4d. by sail, and 5d. by steamer, per bushel; cotton at 3/32@⅛d. by sail, and ⅛d. by steamer, per lb.; and heavy goods at 10s.@20s. by sail, and 10s.@30s. by steamer, per ton. Total number of vessels in port on Wednesday 577.

The coupons of the first mortgage bonds of the Union Pacific Railroad Company, due July 1, will be paid at that date, in gold coin, free of tax, at the Company's office, No. 20 Nassau street, New York.

The New York exports, exclusive of specie, for the week ending June 16, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week	$3,085,804	$2,359,561
Prev. reported	87,221,328	78,044,960
Since January 1	$90,307,132	$80,404,521

The imports for the week ending June 13th, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$925,695	$1,206,766
Gen. merchandise	4,070,114	3,806,319
Total for the week	$4.995,809	$5,013,085
Previously reported	113,831,587	106,003,135
Since January 1	$118,827,396	$111,016,220

The balance in the Sub-Treasury on Wednesday was $94,918,789 60.

Toledo, Peoria and Warsaw Railway.

This company have for sale the residue of the $1,800,000 First Mortgage bonds, issued on the Western Division of the road between Peoria, Warsaw and Keokuk, amounting to $300,000, which had been reserved for the purchase of iron to complete the road. These bonds bear 7 per cent. interest, coupons payable semi-annually, in February and August, and mature in 1896. They are now offered at 85 with the August coupon attached. Parties desiring to invest their surplus capital in these bonds, can be supplied in sums of $5,000 and upwards by applying at the office of the company, No. 26 Exchange Place, N. Y.

☞ The Philadelphia and Reading R.R. Co., offer to exchange any of their bonds of $1,000 each, at any time before the first day of October next, at par, for a new mortgage bond of equal amount, bearing 7 per cent. interest, clear of U. S. and State taxes, having 25 years to run. The bonds not surrendered on or before the first of October next, will be paid at maturity, in accordance with their tenor.

☞ The Mexican *Two Republics* says that El. Sr. Cunha Reis, Superintendent of the Tuxpan Railroad, in Mexico, arrived at Vera Cruz on the 10th of May. He was accompanied by a number of principal and subordinate employes, ready to commence operations at once.

☞ A Sherbrooke (Ca.) paper announces that nearly all the capital required for the construction of a railway between Lennoxville and Stanstead has been subscribed, and that ere many months have elapsed Sherbrooke will be in direct communication with Boston *via* the Passumpsic Valley Railway.

Railroad Earnings.--Weekly.

The earnings of the Chicago and Northwestern Railroad for the 2d week in June, 1868, $266,913 89
Corresponding week previous year .. 214,974 57

Increase $51,930 32

The earnings of the Michigan Southern and Northern Indiana Railroad for the 2d week in June, 1868, were $81,450 00
Corresponding week of 1867 .... 73,941 00

Increase $7,509 00

The earnings of the Atlantic and Great Western Railway for the first week in June, 1868, were $82,116 00
Corresponding week previous year... 95,073 00

Decrease $12,957 00

The earnings of the Michigan Central Railroad for the 1st week in June, 1868, were .. $89,072 33
Corresponding week of previous year .. 67,410 89

Increase $21,661 44

Journal of Railroad Law.

TAKING OF PRIVATE PROPERTY FOR PUBLIC USE —REMEDY—COMPENSATION MUST PRECEDE THE TAKING.

The opinion in the recent case of Graham *vs.* The Columbus and Indianapolis Central Railway Company and others, (27 Ind., 260,) is ably expressed as follows by FRAZER, J.—This was a suit to recover the possession of 3 lots in Cambridge City. Answer in 2 paragraphs: 1. General denial. 2. That the defendants are railroad corporations, organized under the general law of this State, and as such have built their respective roads; that it was necessary to build a passenger depot at the intersection of their roads; that they built such a depot on said lots, and now use the same therefor, said lots being no more than is necessary for that purpose, and for the track of one of the defendants, the Cincinnati and Indianapolis Junction R. R. Co., which is laid on said lots; that no damages have been assessed or paid for said appropriation, and that this is the possession alleged in the complaint. A demurrer to the 2d paragraph of the answer was overruled, and upon this arises the only question in the case.

The constitution of the State provides that "no man's property shall be taken by law without just compensation, nor except in case of the State, without such compensation first assessed and tendered." Art. 1, § 21. The possession of the lots in question was taken in defiance of this safeguard of the fundamental law. This, and nothing more, is pleaded as a bar to the suit. Can such unlawful seizure of property confer any right to hold possession of it? We have held that the act of seizure will, in enforcement of the constitution, be prevented by injunction. Sidener *vs.* The Norristown, &c., Turnpike Co., 23 Ind., 623. But the taking by a palpable act of resumption, before the owner has had time or opportunity to invoke the restraining arm of the Court, cannot confer a right to hold. If it be otherwise, then the constitution affords no adequate protection in such cases.

But it is argued, that the owner of property may waive his right to prior compensation. Undoubtedly, but no such waiver is shown by the answer, and in the absence of an averment, we cannot presume it. This provision of the constitution is too plain to be misunderstood, and too just and wise to excuse any disposition on our part to permit it to be evaded or frittered away. As against a private corporation, it protects the citizen in the possession and ownership of his property, until compensation for it shall be assessed and tendered, and the taking without the precedent conditions which authorize it, is wholly without warrant of law, and confers no right whatever, and a possession so obtained is plainly unlawful, for which he has whatever remedy the law gives for an unlawful deprivation of his possession. The constitution cannot be satisfied with such action of the Courts as will allow his property, against his will, to be first taken, and himself turned over to such vexatious litigation to obtain compensation as he may meet afterwards. There must be superadded, in order to make the remedy at all efficient, an injunction to stay the taking until the damages shall be paid. But this is not provided for by statute. It is an appeal to the extraordinary power of the Court exercising equity jurisdiction. When a plain and adequate direct remedy by ejectment exists, it may indeed admit of some question, whether the injunction can be granted without disregarding well established rules, long respected by Courts of Equity. That cases decided under the old constitution are wholly inapplicable to the question before us, is too clear for controversy. Then a railroad company could lawfully take the property of the citizen before making compensation, if a fair mode of ascertaining and obtaining such compensation was provided, and to that remedy the citizen was confined, for the reason that no other existed. Now, however, compensation must precede the taking unless waived. The Legislature has no power to dispense with this condition precedent, and indeed has not attempted to do so. His remedy for a taking without previous compensation, is exactly what it would be if the unwarranted taking was not for public use. There can be no difference whatever. In one of the cases cited by the appellee, it is stated that "cases decided where compensation was not required to precede the taking, cannot be authority upon this question."

The judgment is reversed, with costs, and the cause remanded with directions to sustain the demurrer.

THE COUPONS
OF THE
First Mortgage Bonds
OF THE
UNION PACIFIC
RAILROAD COMPANY.
DUE JULY 1st, 1868.

Will be paid on and after that date,
In GOLD COIN Free of Government Tax,
At the Company's office, No. 20 NASSAU ST., New York.
Schedules with twenty or more coupons, will now be received for examination, and gold checks for the same will be delivered June 30th.
JOHN J. CISCO, Treasurer.

LUBRICATING OILS.
FIRST PREMIUM. 1867.
Awarded by the American Institute to
CHESEBROUGH & CO., 132 Maiden Lane, New York.
"These oils are fully equal in quality to any known to the judges, being perfectly neutral and free from any objectionable features." Signed,
HORACE GREELEY, President.
Perfectly pure (not mixed,) absolutely free from gum; manufactured without acids; will stand any temperature; cheaper than any other good oils in market. 3m25

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 5th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor.

THOMAS E. WALKER, Treasurer.

PROPOSALS.
NOTICE TO RAILROAD CONTRACTORS.

OFFICE OF THE NEW YORK AND OSWEGO MIDLAND RAILROAD COMPANY,
ONEIDA, N. Y., June 9th, 1868.

SEALED PROPOSALS WILL BE RECEIVED AT the office of the Company, in Oneida, N. Y., until the 25th day of July, 1868, at noon, for the Grading, Masonry and Bridging of that portion of the New York and Oswego Midland Railroad extending from Middletown, Orange County, to Westfield Flats, in Sullivan County, *via* Phillipsport, Liberty, and intermediate towns; also, including the Branch from the Main Line to Ellenville. The above work will include a Tunnel of about three thousand (3,000) feet in length, through the Shawangunk Mountain, for which separate proposals are invited.

The line will be divided into Sections, of convenient length, and Proposals may be made for separate Sections or for the entire work. The Company will entertain separate proposals for Bridging only. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Middletown, N. Y., where all necessary information may be obtained, on and after the 15th day of July, 1868.

Sealed Proposals will also be received at the office of the Company, in Oneida, N. Y., until the 30th day of July, 1868, at noon, for the Grading, Masonry, and Bridging of the New Berlin Branch, in Chenango County, extending from the Main Line, at East Guilford, to New Berlin, a distance of 22 miles. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Oneida, N. Y., where all the necessary information may be obtained, on and after the 23d day of July, 1868.

600 MILES
OF THE
UNION PACIFIC
RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—**A Government Grant** of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—**A Government Grant** of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—**A Government Grant** of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—**A Government Grant** of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, car shops, locomotives, cars, &c.

V.—**A Capital Stock Subscription** from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—**Net Cash Earnings** on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds

upon such a property, costing nearly three times their amount,

Are Secure beyond any Contingency.

The Company have abundant means in their Treasury, and make no appeal to the public to purchase their bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's Office before the time of such advance.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,
AND BY
John J. Cisco & Son, Bankers, No. 59 Wall St.,
And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.
MAY 25, 1868.

ANDREWS'
PATENT

Smoke-Burning and Super-Heating Boilers,

Are Economical of Fuel, and perfectly Safe.

HOISTING MACHINES,
Run without noise.

Drainage and Wrecking Pumps,

TOLEDO, PEORIA AND WARSAW
RAILWAY COMPANY'S
FIRST MORTGAGE BONDS
FOR SALE.

300,000 on the Western Division, bearing interest at 7 per cent. Coupons Payable Semi-Annually, in February and August.

PRINCIPAL PAYABLE IN 1896.

This Company having disposed of all of the $1,800,000 bonds issued on the Western Division, between Peoria, Warsaw and Keokuk, except the amount now offered for sale, which has been reserved to pay for iron ordered to complete the line, now offer the same at **85**, flat, that is to say, with the August coupon attached.

Capitalists desiring a safe, cheap and reliable investment, the mortgage being only $15,000 per mile, can be supplied with the Bonds, in amounts of not less than $5,000, by applying at the office of the Company, No. 26 Exchange-place.

CHARLES L. FROST, President.

PENNSYLVANIA RAILROAD COMPANY,
Treasurer's Department.
PHILADELPHIA, May 2, 1868.

NOTICE TO STOCKHOLDERS.—The Board of Directors have this day declared a semi-annual dividend of THREE PER CENT. on the Capital Stock of the Company, payable in cash, clear of National and State taxes, and a further dividend of FIVE PER CENT., payable in Stock, on and after May 30.

Blank powers of attorney for collecting dividends may be obtained at the office of the Company, No. 238 South Third Street.

THOMAS T. FIRTH,
8t21 Treasurer.

OFFICE PENNSYLVANIA RAILROAD COMPANY, Philadelphia May 13th, 1868.

Notice to Stockholders.—In pursuance of resolutions adopted by the Board of Directors at a stated meeting held this day, notice is hereby given to the Stockholders of this Company, that they will have the privilege of subscribing, either directly or by substitution under such rules as may be prescribed therefor, for Twenty-five per cent. of additional Stock at par, in proportion to their respective interests as they stand registered on the books of the Company, May 20th, 1868.

Holders of less than four Shares will be entitled to subscribe for a full share, and those holding more shares than a multiple of four shares will be entitled to an additional share.

Subscriptions to the new Stock will be received on and after May 30th, 1868, and the privilege of subscribing will cease on the 30th day of July, 1868.

The instalments on account of the new shares shall be paid in cash, as follows:

1st. Twenty-five per cent. at the time of subscription, on or before the 30th day of July, 1868.

2d. Twenty-five per cent. on or before the 15th day of December, 1868.

3d. Twenty-five per cent. on or before the 15th day of June, 1869.

4th. Twenty-five per cent. on or before the 15th day of December, 1869, or if Stockholders should prefer the whole amount may be paid up at once, or any remaining instalments may be paid in full at the time of the payment of the second or third instalment, and each instalment paid up shall be entitled to a pro rata dividend that may be declared on full Shares.

THOMAS T. FIRTH,
8t21 Treasurer.

TESTIMONIAL.
Baltimore, Md., April 16, 1868.
We have used, on the Baltimore and Ohio Railroad, during the past year, about 13,000 lbs. of India Rubber Car Springs, manufactured by the Hamilton Square Rubber Works, Trenton, N. J., (C. V. Mead & Co.,) and have found them equal to, if not superior to any we have used in past time, and on much more reasonable terms.
JOHN OLIVER,
Purchasing Agent Baltimore and Ohio Railroad.

CAUTION.—The above firm are not connected with any other Manufacturers using the name of Mr. Mead.
Mead's Springs are stamped Hamilton Square Rubber Works, Trenton, N. J.

SOLE MANUFACTURERS OF THE BELLEVILLE SPRING.

Safety Railroad Switch.
MAIN TRACK UNBROKEN.
I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the *MAIN TRACK IS NEVER BROKEN,* and it is impossible for any accident to occur from the misplacement of switches.
The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.
AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns *The Life and Limb of all Travelers upon Railroads.*
I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.
I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

MANUFACTURERS OF MONTIGNANI'S PATENT

RAILROAD SCREW SPIKE.

HENRY YOUNG, President.
G. B. HUBBELL, Secretary
HUBBELL & VANHOESEN, Agents.

Works at
OSSINING,
Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented. Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

MR. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERONE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

430 WASHINGTON AV.,

PHILADELPHIA,

MANUFACTURE

Steam Engines—High and low pressure, for land, river, and marine service; Horizontal, Beam, and Vertical. Patterns on hand for 8x10, 14x12, 18x12, Oscillating; compact and cheap.

SOLE MANUFACTURERS IN PHILADELPHIA AND CHESTER OF WILLIAM WRIGHT'S PATENT VARIABLE CUT-OFF STEAM-ENGINES.

Boilers—Plain cylinder, flue, and tubular.

Steam-Hammers, of Nasmyth & Davy patterns, with all the recent improvements.

Strahan's Drill Grinding Rest and Twist Drill-Holder.

Castings—Loam, dry, and green sand, brass, &c.

Roofs—Iron frames for covering with slate or iron—neat, durable, and economical.

Gas-Holders of every description. *Builders of Holders for the Philadelphia Gas-Works of 100 and 160 feet diameter.*

Tanks of every form, for sugar estates, refineries, oil, &c.

Gas Machinery of every description, including Retorts, Bench-castings, Holders and Frames, Purifiers, Coke and Charcoal Barrows, Gas-Valves, Governors, Hoisting Machines, &c.

Manufacturers for the American Meter Company of their Patent Dry Center Valve for changing Purifiers.

Bartol's Patent Wrought Iron Retort-lid, durable, light and cheap.

Sugar Machinery, such as Vacuum Pans and Pumps, Defecators, Bone-Black and Bag Filters, Bone-Black Burners, Washers, and Elevators, Hydraulic Elevators, Sugar and Bone-black Cars, Strike Heaters, Open Steam Trains, &c.

Sole Assignees and Manufacturers in the United States of

Weston's Patent Self-centering Self-balancing Centrifugal Sugar-Draining Machine.

Glass & Bartol's Improvement on Aspinwall & Woolsey's Centrifugal Sugar-Draining Machines.

N. Rillieux's Patent Sugar-Boiling Apparatus, applicable to Beet-Root and Cane Sugar.

Having had twenty years' experience in the manufacture of Sugar Machinery for Cuba, South America, and the United States, they are prepared to contract for the design and erection of apparatus for making Sugar from Beet-Root or Cane, and for Refineries for either Sugar or Molasses.

They are also in possession of plans of the most recent improvements in machinery used in France and Germany in the manufacture of Beet-Root Sugar.

TREDEGAR COMPANY,

JOSEPH R. ANDERSON, President. **RICHMOND, VA.** JOHN F. TANNER, Vice-President.

The Tredegar Company of Richmond, Va., (Successor to J. R. Anderson & Co.,) continue to Manufacture at their Works, *RAILS* of any required section, including *STREET RAILS*; *PATENT ROLLED CONTINUOUS LIP CHAIRS*; *RAILROAD* and *BOAT SPIKES*; *RAILROAD AXLES*; *FISH PLATES*, with Bolts and Nuts for same; *IRONS* complete for Fink's, Bollman's, or Howe Truss Bridges; *RAILROAD CARS*; *TRUCKS* of any desired pattern ready for the Car bodies; *NAILS* and *CUT SPIKES*; *Best Charcoal BAR IRON*, of high tensile strength; *CASTINGS*, including the heaviest descriptions of Iron and Brass; *MARINE* and *STATIONARY ENGINES* of all sizes.

The great capacity of the Tredegar Iron Works—*some 30,000 tons per annum*,—their location on tide-water, in the midst of the rich Coal and Iron deposits of Virginia, their unequalled advantages for shipment by Rail, Steamer or Sail Vessel, without interruption during any part of the year, and an active experience of thirty years, enable the Proprietors to guarantee the promptest and most economical execution of orders, which are solicited from all parts of the United States. Address

TREDEGAR COMPANY, Richmond, Va.,

Or at their Office, 60 Broadway, New York.

THE

Schweitzer Patent Bolt Comp'y,

Works at Green Point, L. I.,

Near Greenpoint Ferry, from 10th St. & 23d St., N. Y. **NEW-YORK.**

H. S. TERBELL, President, *39 Walker Street, New-York.* THOS. S. YOUNG, Treasurer, *120 Chambers St., New York.*

We are prepared to make and deliver

IRON BOLTS,

manufactured by Automatic Machinery in such manner as to *increase the strength* of the Iron beneath the head by compression, and totally avoid the weakening by crystalization, as in the case of Bolts made by hand or by any slow and protracted process. These Bolts are *uniform in size and shape, and superior in strength and finish* to any others made.

Standard Bolts will be made of the best quality of iron, and warranted.

The attention of

Railroad Companies, Bridge, Car & Locomotive Builders,

and others requiring Bolts of the *greatest strength and uniformity*, is specially called to these Bolts.

Contracts for Bolts used in the construction of Railroads and their appurtenances, and all similar work not requiring the best quality of iron, will be taken at special rates.

The *rapidity of production* will enable the Company to fill orders of any magnitude at short notice. The Company also offer for sale

BOLT CUTTERS

of their own patent, which, with a given amount of power and labor, will cut twice the number of Bolts of any other machine in use.

New York, Saturday, June 27, 1868.

Lighting Cars with Kerosene.

The following important testimony before the Railroad Committee, and the new law just passed by the Massachusetts Legislature, relative to lighting railroad cars with kerosene, is from a circular recently issued by Messrs, WILLIAMS, PAGE & Co., of Boston:

This testimony was very important, as showing that the excitement the past year in regard to the use of kerosene lamps in cars, was entirely without foundation. Dr. Nichols, the well known chemist, and editor of the *Boston Journal of Chemistry*, testified that kerosene oil of the legal standard, viz., such as would not take fire below 110 deg. Fahrenheit, could not explode, and was as safe as candles; that it could be easily tested; and that with such kerosene, there was a positive assurance of safety. He further stated, that for many years he had experimented with burning fluids, and did not believe a serious accident ever occurred from kerosene which would stand the fire test of 110 deg.

It was also proved before the committee, by letters or telegrams from the offices of the roads, that in every instance where life had been lost by the burning of cars, the fire caught from the stoves and that candles were used for lighting. These were the accidents on the Pennsylvania road, on the Erie road, and at Angola. In all the other instances in which cars were burned, but not attended by loss of life, in some of which kerosene was used for lighting, the fires were believed to have been caught by the stoves, or by sparks from the stove or engine, except in one instance where a lamp for generating gas from benzine was the cause. In no single instance was a car set on fire, or was the fire in any way caused or increased by the use of kerosene. These included the cars burned on the Chicago and Northwestern, Chicago, Burlington and Quincy, Pittsburg, Fort Wayne and Chicago, and a branch of the Erie Road—making, with the others named, seven cases of the burning of cars, five of which were from stoves, one from sparks, and one from a gas-generating lamp, *but not one from kerosene.*

It was also shown by the roads leading from Broston, most of which were represented before the committee by their officers, or by letters, that each road had used from 100 to 250 kerosene lamps in their cars for several years, and had never had the least accident from them. They stated that they took care to procure the best kerosene oil, and some of them tested every barrel of oil which they purchased. Experiments were made with Tagliabue's Pyrometer before the committee, showing that kerosene oil below the legal standard of 110 deg., could at once be detected, and that any person could test the oil in a few moments, and ascertain exactly its quality or fire-test.

After a full and thorough investigation, the Railroad Committee reported the following judicious bill, and it was adopted by the legislature.

The Law of Massachusetts concerning the Lighting of Railroad Cars.

SEC. 1. No passenger cars on any railroad in this commonwealth shall hereafter be lighted by naptha or any illuminating oil made from coal or petroleum, or any illuminating oil made in part of naptha or coal or petroleum oil, or any other illuminating oil which will ignite at a temperature of less than one hundred and ten degrees Fahrenheit, to be ascertained by the application of Tagliabue's or some other approved instrument.

SEC. 2. Any railroad corporation which shall violate the provisions of this act, shall be liable to a fine not exceeding five hundred dollars, to be recovered to the use of the Commonwealth by indictment.—*Approved June 4th*, 1868.

The United States Internal Revenue Law, and the Law of Massachusetts, both of 1867, forbid the manufacture or sale of kerosene below 110 degrees. This is well known to be a perfectly safe standard, and if railroads in all parts of the country would adopt this simple rule, have the stoves well secured, test all the oil they purchase, and use none that will ignite below 110 deg., kerosene may be used, as Dr. Nichols states, with as much safety as candles.

There are now so many thousand kerosene lamps used in cars all over the country, that it would be singular that many fires could not be traced directly to them, were it not from the fact *that kerosene is the most sensitive of all lights, and a very slight jar extinguishes it.* This is well known by all who have used it, and has been seen in many cases where Cars have been thrown from the track, or turned over. Every railroad man has probably known cases of this kind.

Messrs. W., P. & Co., have sent several thousand of their Patent Kerosene Car Lamps to roads all over the country, and have not yet heard of the slightest accident from one of them in any way.

Frederick and Pennsylvania Line R. R.

The Hanover Branch and Littlestown Railroad Companies are both urging aid to the contemplated new Frederick and Pennsylvania Line Railroad. A meeting was held at Taneytown, Maryland, on the 6th inst., which was addressed by Captain Eichelberger and others. Committees were appointed to canvass subscriptions. The route proposed for the road will strike the Maryland State Line beyond Littlestown, pass through Taneytown and Woodsborough, and follow the Monocacy Valley down to Frederick.

☞ The Winchester (Va.) *Times* says that sufficient stock has been subscribed to meet the requirements of the act of the Legislature incorporating the Winchester and Strasburg Railroad Company. The meeting to organize the company is called for the 8th of July next, at the office of the Baltimore and Ohio Railroad Co. As soon as the organization is effected the construction of the road will be begun and pushed rapidly forward to completion.

Cincinnati, Hamilton and Dayton R. R.

The income and expenses of this company for the years ending March 31, 1867 and 1868, were as follows:

Income:	1867.	1868.
From passengers	$457,665 26	$476,797 63
" freight	737,001 15	727,275 84

Surplus	$4,270 27	
Add surplus from previous year	404,577 18	
Total surplus March 31, 1868.	$408,847 45	

Compared with the previous year the gross earnings of 1868, show an increase of $31,358 21, with a decrease in operating expenses of $98,874 52. The entire expenditure, including interest, taxes, etc., was $974,435 60, against $1,080,988 25 in 1867—a decrease of $106,552 65. The net earnings show an increase of $137,910 86. The earnings per mile have been $22,214 91. The number of passengers carried, 672,884. Tons of freight moved, 497,466. Miles run by locomotives, 598,654. The President in his report says:

The working expenses amount to 63.56 per cent., which includes $99,416 01 expended in the renewal of bridges—an expenditure which it might be proper to divide over a period of fifteen or twenty years. Without including this expenditure the transportation expenses are 56.17 per cent. of the earnings. This is much less than the average of expenses on other first class roads.

With the exception of the sad disaster which occurred on our road near Lockland, on the 21st of November last, by which five lives were lost, there has been but little damage done to persons or property; indeed, it may be said with truth, that from the first opening of the road in the year 1851, it has been operated with unusual freedom from accident.

During the past year two hundred and fifty-four of our bonds have been sold at par, and the proceeds applied to the redemption of the remainder of the first mortgage bonds of the Dayton and Michigan Company. About an equal amount of the Dayton and Michigan Seconds, (now Firsts) are held by our company for sale, to reimburse it for the outlay.

The floating debt of the company has been so far reduced that the available assets on hand at their present market value will be sufficient to pay off the balance.

The net earnings of the past year warranted the directors in making a dividend of eight per cent. These earnings having been expended in construction, in payment of floating debt, and advances to Dayton and Michigan road, the dividend was necessarily made in the stock of the company. This course, it is believed, met the views of a large majority of the stockholders.

CINCINNATI, RICHMOND AND CHICAGO RAILROAD.

This road connects with the Cincinnati, Hamilton and Dayton at Hamilton, and extends forty-five miles to Richmond, Indiana. It is located through a country well settled, and has a number of thriving towns on its line. Its bonded debt is $560,000, the interest on which amounts to $39,200 per annum. The earnings have fallen off the past year, owing to the diversion of the business of the Chicago and Great Eastern road. The number of trains heretofore run for the accommodation of the Chicago and Great Eastern business, as well as for local traffic, has been reduced, and the expenses so curtailed as to produce about the same net earnings as heretofore. The local business received from it is of much value to our company. For the past three years there has not been average crops raised along the line of the road, which also has much affected its earnings.

The business to Chicago and the Northwest, heretofore done over the Cincinnati, Richmond and Chicago, and Chicago and Great Eastern roads, from and to Cincinnati, *via* Hamilton, is now sent and received *via* Lima, over the Pittsburg, Fort Wayne and Chicago road, thus using one hundred and thirty-two miles of the Cincinnati, Hamilton and Dayton and Dayton and Michigan roads, instead of only seventy by the other route. Thus far it has been much more beneficial to our whole interest than if the business had continued on the old route.

DAYTON AND MICHIGAN RAILROAD.

The business on this road for the past year has quite equalled our expectations, and has more than paid its running expenses and the interest on its bonded indebtedness, which obligations the Cincinnati, Hamilton and Dayton Company assumed to meet in the lease—this too, in the absence of its usual crops of grain on the line of the road. The increase of its local business, especially in its domestic lumber trade, has more than equaled the loss of crops and has fully kept up the earnings of the road. With fair crops this year, it is believed the road will earn much more net money than heretofore, and be able, in another year or eighteen months, to commence liquidating its indebtedness to the Cincinnati, Hamilton and Dayton Company for advances made for construction purposes.

The Dayton and Michigan road was taken on perpetual lease by the Cincinnati, Hamilton and Dayton Company, on the 1st of May, 1863, on condition that its interest on the bonded debt should be paid by the lessees. A bonus of a million dollars of its stock, together with $594,000 of past due coupons, was given to the Cincinnati, Hamilton and Dayton Company. The coupons were subsequently paid to the Cincinnati, Hamilton and Dayton Co. in the bonds of the Dayton and Michigan Co., secured by a new mortgage on its road. During the five years that the road has been operated by our company, its net earnings have exceeded its expenditures for operating expenses, and interest on all its bonded debt, $161,699 80, and this before the traffic on the line of road was much more than half developed.

The road was comparatively unfinished when leased by our company, and required a large expenditure to bring it up to a first class condition. Beside expending its own net revenue on the road, this company has advanced $397,164 64 for substantial improvements. A further expenditure of about $113,000 will be required during the current year, to furnish new iron for additional sidings, finish the masonry at Toledo, and provide ten additional passenger cars. The earnings of the road for the present year, after payment of operating expenses and interest on bonds, it is hoped, will go far toward furnishing the means to complete the work. When this is done, the road will soon earn the means to discharge the indebtedness of the Cincinnati, Hamilton and Dayton Company.

CINCINNATI AND INDIANAPOLIS JUNCTION ROAD.

Unfavorable weather has delayed the completion of this road to Indianapolis some two or three months beyond the time expected. The rails are now all laid to Indianapolis, and the road, it is stated, will be regularly opened for through business by the first of June. The importance of this connection to the Cincinnati, Hamilton and Dayton road, has frequently been spoken of in our annual reports, and we are now anticipating a large increase of business from this source.

The receipts from all sources during the year and disposition of the same, have been as follows:

		1,040,650 23
		$1,363,768 19
From which deduct gross receipts.		966,603 55
Leaving a balance due lessees, March 31, 1868, of		$397,164 64

The First Mortgage bonds of the company, amounting to $283,000, fell due July 1, 1867, all but two of which have been redeemed, part of them by exchange for the second mortgage bonds, and the balance by funds advanced by the lessees, making a further indebtedness to them of $233,535 85, for which they hold the balance of the second mortgage (now the first) as collateral. These will have to be sold at their market value, and the proceeds applied to the reduction of the above amount. The balance will be a charge on the earnings of this company. It should be remembered that in addition to being a first mortgage on the road, with a sinking fund of $30,000 per annum, fully paid, the interest on these bonds is guaranteed by the lessee. The amount of these bonds now in the hands of the lessee for sale is $229,000. The bonded debt of the company, exclusive of these bonds is $3,421,500.

The amount of old capital stock outstanding is $91,457, and it is very desirable that parties holding certificates of same should exchange them for the new issue, which will include interest to September 1, 1859.

Oregon Central Railroad Company.—First Annual Report.

To the Stockholders of the Oregon Central Railroad Company.

The by-laws of your corporation require that I should make a report of the operations of the company for the past year. My report must necessarily be meager, inasmuch as the company has but recently got to the work intended by its incorporation—the construction of a railroad. But a brief review of the preliminary work of a corporation of the character which this one is intended to be, cannot be devoid of interest now, and will certainly form an interesting chapter in its history after success shall have crowned your efforts to build a great railroad, intended not only as a blessing to the state, but as a highway for the nation.

Your first board of directors was elected on the 24th of May, 1867. None of them had any adequate idea of the difficulties to overcome in an undertaking of this character, even under favorable circumstances; but when we consider that the enterprise was launched in a new State, whose people were unfamiliar with the great benefits railroads confer, where the capital available for anything out of the ordinary business transactions of the country was very limited and reluctant of investment in a *new* enterprise, where a "railroad spirit" had to be created by your directors before anybody could be induced to favor your enterprise, and last of all, where bitter opposition was met at the very threshold in the shape of a rival corporation boldly claiming your corporate name and franchises. When we consider all this, the prospect one year ago was gloomy enough, and it is not surprising that two of your board resigned their positions in despair of accomplishing any permanent good. Under these circumstances it was not wondered at that the mass of the people who are now active friends and supporters of your company had then but little confidence in the prospect of success. But labor conquers all things, and three members of your board determined to give the enterprise their determined and persevering labors for one year. Under the circumstances it was not known whether the company would be recognized by the Secretary of the Interior at Washington City, as entitled to the land granted to aid in the construction of the road, or whether a contest would arise in his office between the rival companies. After executing and forwarding the papers to the Secretary, as required by law, it was deemed prudent to await his action. No reply was received from him until about the 1st day of September, when I received letters from the Secretary fully recognizing our rights to the land grant. And I may here add, that within the last week I received other communications from the Secretary, already given to the public through the press, conclusively showing that no other company than ours has set up any claim in a legal way, or has any right whatever to the land granted by Congress. From May to September nothing was done to forward the enterprise farther than to hold some public meetings, get the people to talk the matter among themselves, and arouse an interest in the construction of railroads generally.

After receiving the foregoing recognition of the company's rights, a canvass for subscriptions to the capital stock of the company, and donations of land and other property in aid of the enterprise was commenced in Washington and Yamhill counties, which was subsequently extended to the city of Portland. In February last the City Council of the city of Portland resolved to extend aid to the company to the extent of the interest on its bonds on the sum of $250,000. Col. Cornelius, of Washington county, and J. C. Ainsworth, of Portland were invited to fill the two vacant places in the board of directors, which they accepted, and have since labored energetically to promote the interests of the company. The prospects of the company now rapidly improved, and the overhanging clouds of distrust gave way to a generous confidence, with material support from all quarters where we had a right to expect it. In March the authorities of Washington county entered into a contract to pay the interest on fifty thousand dollars of the company's bonds. About the same time a subscription paper was started in Portland, which has been filled up with twenty-five thousand dollars cash—all the leading capitalists and business men aiding it more or less. Recently the necessary steps have been taken to secure the aid of Yamhill county, in the way of interest upon seventy-five thousand dollars of the company's bonds, with every reason to hope for success. Canvassing for subscriptions of cash and land is still being prosecuted in Multnomah, Washington and Yamhill counties, with encouraging success—and the plan hitherto pursued will be prosecuted in every county along the line. In this connection, I take pleasure in stating that the company has recently secured the valuable services of Gen. Coffin in this business, who has volunteered to leave his own business for a season to push the interests of your company, with all the energy which characterizes him.

Negotiations have been commenced to secure a portion of the iron and rolling stock for the first twenty miles in San Francisco. The company has secured fifteen acres of land, with ample wharf privileges, at the upper end of the city of Portland, for the purpose of a depot, besides several adjoining blocks, making their lands in the city of great value.

The assets of the company at present are as follows:

Portland aid bonds	$250,000
Washington county bonds	50,000
Estimated value of land subscribed and donated in Washington, Yamhill and Multnomah counties	250,000
Cash subscriptions in these counties	37,000
Total	$587,000

After the completion of the first twenty miles of the road the large grant of the twenty sections of public land per mile, and the State aid of ten thousand dollars in State aid bonds per mile on the first one hundred miles, will be available in the further prosecution of the work.

The estimated cost of the first twenty miles of road, fully equipped, with stations and buildings finished is, in round numbers, $400,000.

It is not possible to build this first section by converting simply the assets of the company named above, for they could not be converted at anything like their value if put up at a forced sale; but it will be necessary to issue some first mortgage bonds thereon, which the company is preparing to do at the proper time. It is satisfactory to be able to state that these assets have been submitted to the judgment of the ablest railroad capitalists and contractors on the coast, who are unanimous in the opinion that your company has already secured the means to construct and equip the first twenty miles of road.

It must be borne in mind that this first twenty miles will cost nearly double as much as any other section between Portland and Eugene City. As soon as the road is completed to Hillsboro, which we hope may be accomplished by December next, it will commence earning something for the company. No tangible means are at hand for making a correct estimate of the earnings of this portion of the road. With the opening of the road, will commence the erection of new towns along the line, the manufacture of lumber and other articles demanded in the growth of this city and the development of the country; and with this prospect, it is not unreasonable to expect that the first twenty miles of road would earn, at the lowest estimate, $5,000 per month. It could have no steamboat or other competition. Statistics are being collected by the engineers in charge, upon which to base an estimate of the earnings of the line from Portland to Eugene City, but this matter is reserved to another time.

The board of directors have had to resort to litigation to settle questions in dispute with the rival corporation operating on the east side of the Willamette River, and it will necessarily require some time before these suits can be closed up; but in the mean time no one need be concerned about the result. Justice will be secured sometime, and the unnecessary trespass upon the company's rights in the use of its corporate name will be prohibited without any doubt.

Since commencing the work of grading on the 15th of April, the work has been pushed as rapidly as circumstances would permit. At the present time there are fifty laborers engaged in the work of grading besides the engineer corps. A larger force would have been employed, but could not be to advantage, the character of the work requiring a proportionate number of carts, and the carts could not be secured otherwise than by ordering them built, which has required time.

The progress made is very satisfactory, and stockholders and the public may rest assured that the work will be pushed with all the energy the means of the company will permit.

The necessary inquiries have been made through the proper channels, to ascertain upon what terms foreign capital can be secured. The people ought not to be deceived or misled. Foreign capitalists will not come here and build your railroads upon your mere request. They are quite as careful of their money as are Oregonians of theirs. While you would not likely invest your money in the bonds of a road *proposed* to be constructed, but which is not in fact graded, through Texas or New York, it is not likely that New Yorkers will invest in Oregon roads until they see something more than maps. No mere paper schemes, practicing upon the credulity of the people will succeed. It requires dollars; but a dollar's worth of wheat or land can be converted into the construction of a railroad as well as the coin. And when enough of the commercial values of the country, be it cash, produce, land or labor, has been aggregated to enable eastern capitalists to see that we are in earnest, and have our affairs in a tangible business shape, there will be no trouble in securing money on the bonds of your company to further prosecute the enterprise. Your directors have let no contract at exorbitant prices, squandering your contributions upon favorites, upon those who have no interest in the State, or to enrich themselves, and do not propose to do so. Economy has been required of your Chief Engineer, Superintendent, and all others having the incurring of expenses, and all employes exhorted to a faithful discharge of their duties. It is believed that this is the only way to secure success; and it is some satisfaction to know that this plan has the approval of those of whom we expect to ask further aid. Oregon has not yet done all that it may easily do to aid this great work, and especially those along the line who are to be most benefitted by the road. Every man can help some. Let every man do so, and failure would be *utterly impossible*.

Laborers must be fed, and the farmers along the line can contribute flour, bacon, vegetables and all the necessaries of life, when they would have no cash to spare, and this they would not feel. Teams must be supplied and supported—horses and their provender are everywhere abundant, let them be freely supplied, and the work will not lag. The right of way ought to be cheerfully donated in every case. Cross-ties can be easily furnished by persons along the line, each furnishing a few, and taking their pay in stock or lands. In this way let a "railroad spirit" be aroused and stirred up to a deeper depth and *this railroad*, which is entirely the people's and an Oregon enterprise, will be pushed rapidly up the Willamette, through the Calapooias to Umpqua and on to Rogue River, and spreading its iron arms out upon either side, will infuse new life into the whole country, make your wheat of uniform current value from Jacksonville to Portland, take out every brush, reconstruct every farm, quadruple its value, erect comfortable houses everywhere, give the farmer the full value of his

labor and his produce at his own doors, create new towns and cities, and finally supply and serve the wants of a million of people, prosperous and happy in the enjoyment of one of the most favored spots and climes beneath the sun.

This beautiful picture cannot be accomplished without labor, nor can it ever be accomplished without a railroad.

What the beautiful valleys of the Mohawk and Genesee, of New York—the Scioto and Miami, of Ohio, were thirty years ago, the Willamette, Umpqua and Rogue River Valleys are to-day. What the first named valleys are to-day your beautiful valleys of Oregon may soon be, if we keep up with the progress of the age, and construct this railroad. Then, let not the "railroad spirit" already aroused flag in the least; and the best way to keep it alive and increase its value is to get to the nearest subscription paper and subscribe something. No man fully feels the importance of anything until he is a "little interested." Far more can be accomplished by a little united effort than any one supposes. There are more than one thousand farmers in the Willamette Valley who could easily raise five hundred bushels of wheat, in addition to their regular crops, to be put into this railroad, one year from next harvest. Suppose, by a united effort, this was secured, it would make a half million bushels of wheat—worth to your railroad, not less than a half million dollars, every dollar, or bushel of which could be turned into railroad iron. The very fact that such an arrangement as this had been made in this State would give your company great credit in New York and Liverpool.

In conclusion, your board of directors feel incouraged to state that they consider the affairs and prospects of your company in a very satisfactory, not to say flattering, condition. *We have no doubt of the success of the enterprise.*

And with this unreserved statement of the condition of the affairs of this, the original Oregon Central Railroad Company, we would respectfully submit to the people of the State this proposition:

Is it probable that two companies of the same corporate name, upon opposite sides of the same river, being competing lines for all the trade of the upper Willamette valley and beyond, and rivals in every respect, can reasonable hope to succeed under the present circumstances, and at this point in the history of your State? If it is not reasonable to hope for the success of both, does not justice to the interest of the whole State, a prudent regard for the taxpayer, as well as the dictates of business economy, urge every friend of the interests of both sides of the Willamette River, as well as those of the Umpqua and Rogue River valleys, to decide in favor of and give their support to that company which has been recog nized by the Land Department of the United States Government, and endorsed by your chief commercial city, which has secured a respectable basis of home means, which has certainly the best showing for success, and thus enable them to speedily build one main line through to Jacksonville, with such necessary branches as will fully accommodate the entire State west of the Cascade Mountains? Should the interests of foreign contractors, or the personal matters of our own citizens, be allowed to prejudice the superior interests of the State and the people? And is it not especially the interest of this city to see that the company it has endorsed and aided shall not be unnecessarily embarrassed by rival enterprises? We ask of the people of the State a fair examination and discussion of these propositions.

J. Gaston, Pres't O. C. R. R. Co.

Portland, Oregon, May 25, 1868.

☞ The work on the Columbia and Port Deposit Railroad, as far as the junction with the Philadelphia and Baltimore Central, will be done in a few months, when Philadelphia trains, via Oxford, Pennsylvania, and Rising Sun, Maryland, will be run to Port Deposit and Perryville, on the Philadelphia, Wilmington and Baltimore Railroad, and thence to Philadelphia.

Southwest Pacific Railroad.

We learn that the Southwest Branch of the Pacific Railroad was yesterday transferred by the Governor, as agent of the State, to the Southwest Pacific Railroad Company incorporated by the General Assembly last winter, of which Francis B. Hays, Esq., of Boston is President, and Gen. Clinton B. Fisk of St. Louis is Vice-President. These gentlemen and others associated with them, who have subscribed largely to the building of this road, realize its importance and value, and its prospective relations as the probable leading line to the Pacific coast. They have come into possession of the franchises of the Atlantic and Pacific, and they forsee and contemplate the building, not simply of a road to Southwest Missouri, but the still grander work of a road leading onward from Missouri to the thirty fifth parallel, and thence to the Pacific coast. The people of Southwest Missouri will receive this announcement with satisfaction. They will soon have the road they have so long desired, and they and the people of Missouri will reap the largest benefits from it.—*Missouri Republican*, June 17.

Relative Resistances of Various Insulators.

The following table, giving the results of tests of the electrical resistances of different varieties of insulators, were made at the establishment of the India Rubber, Gutta Percha and Telegraph Works Company, Silvertown, London, under the superintendence of Matthew Gray, Esq., Engineer and Manager. They will prove interesting, as showing the superiority of the Paraffine Insulator over every other. This result shows that there is no longer any excuse for the wretched insulation of our American telegraphic system, since it has been demonstrated that the most perfect insulator yet produced is the invention of one of our own telegraphers:

Date of Test.	Constant of Galvanometer, 1 Daniell Cell through 1,000,000 Ohmads.	Number of Cells.	Thermometer (Fahr.)	Number of Insulators tested ☞	DESCRIPTION OF INSULATOR.
March 31	327	500	48°	4	United Kingdom Tel. Co., Large Porcelain.
March 26	333	500	48°	4	
March 20	335	500	52°	4	
March 9	336	100	49°	4	
March 1	334	500	47°	4	
	40,000	10,600		330	8,500
	50,000	25,000		87,000	450
	60,000	18,500		35,000	16,000
	50,000	14,500		11,850	150
	4	1		2	0
	4	6		11	0
	1	6		4	0
	3	80		144	80
				200	1
	4,500				Varley's Double Porcelain Cup.
	30,000				British and Irish Magnetic Tel. Co. Porcelain.
	800				United Kingdom Tel. Co., Large Porcelain.
	5				Brooks' Pat. Screw Shank.
	6				Ditto.
	6				Ditto.
					Brooks', with Leg for Cross Arm.

The amounts given in the table indicate the deflection, per insulator, in degrees, as measured by Thompson's Asiatic Galvanometer. The "constant" of the galvanometer is the amount of deflection given by one cell Daniell's Battery through a resistance of 1,000,000 ohms.*

The value of an insulator is, of course, proportionate to the amount of resistance it opposes to the escape of the current. The greater the resistance of the insulators the more perfect the insulation.

The method of finding the relative resistance of the different insulators in ohms is as follows: In the test of March 20, for example, the constant of galvanometer with one cell is 335; with 500 it would be 335x500=167,500. If 1,000,000 ohms resistance gives 167,500 degrees deflection, the resistance of any insulator may be found by inverse proportion, the less the deflection the greater being the insulation resistance. In the case of the Varley Insulator, for instance, the deflection is 37,000:

37,000: 167,500: 1,000,000: 4,526,027 ohms.

The same day, also, same constant and number of cells for the Brooks' Insulator gives the following result:

4: 167,500: 1,000,00: 41,875,000 ohms.

By an inspection of the table it will be seen that in the test of March 31, the best of Brooks' insulators exceeded its rivals forty, fifty and sixty thousand times in its insulating resistance, and in the test of March 1st, the poorest of the Brooks' insulators was four times more perfect than the best of the others tested.—*The Telegrapher, June 13.*

Debt of Virginia.

The following is a correct statement of the Debt of Virginia at date, June 19, 1868:

Amount of old registered debt..	$22,004,298 38
Amount of old coupon debt....	12,973,000 00
Amount of new debt (funded interest)	6,844,957 00
Amount of unpaid interest yet to be funded	500,000 00
Amount of interest due to 1st July, 1868, on new debt—funded and yet to be funded	791,246 00
Amount of unpaid interest to 1st July, 1868, on old debt—rate 6 per cent., and only 4 per cent. paid	656,966 00
Amount of interest due on old debt to 1st July, 1868—which will not be paid	985,448 00
Amount of interest due July, 1867 and January, 1868—and not collected	100,000 00
Total	$44,855,915 38

In the old registered debt there is embraced $2,042,655 44, which is held by the sinking fund and literary fund; but $1,800,000 of bonds guaranteed by the State is not included as part of the debt, in this statement.

Balance in the Treasury, 17th June 1867. $569,000
" " " " " 1868. 197,900

☞ At a meeting of the stockholders of the Worcester and Somerset Railroad, held at Newtown, Md., on the 9th inst., the following gentlemen were elected as directors: W. T. Hargis, W. N. B. Coston, Wm. Dryden, J. H. Young, C. C. Lloyd, J. B. Hall, W. J. Aydelott, S. K. Dennis, H. Page, J. E. Hayward. Whittington Polk and W. J. S. Clarke.

☞ Mr. J. Leisenring, the Superintendent and Engineer of the Lehigh Coal and Navigation Co., has resigned his position, and has been elected Chief Engineer of all the company's works. Mr. J. P. Ilsley has been elected Superintendent of the company's railroads and canals.

* One mile of ordinary telegraph line—13 ohms nearly.

American Railroad Journal.

Saturday, June 27, 1868.

Stock Exchange and Money Market.

The Money Market has been unusually dull, throughout the week. There has been a very moderate call for aid from all sources, the street demand from the dealers in the public funds, and from the Stock and Gold Board firms having been the main reliance of lenders. Rates have quoted easy at 2@3 per cent. on the National interest bearing obligations, 3@5, generally 4 per cent. on railway and miscellaneous share property, and 4@6 per cent. per annum on choice to good mercantile paper. The banks are extraordinarily well up in their reserves, in preparation for the next quarterly return to the National Currency Bureau, and little apprehension is entertained of disturbance to the market, before the fall trade requirements begin to influence the supply at money centres. The city banks, last week, made a further addition of nearly 3½ millions to their legal tender reserve, and nearly a million to their deposit averages; while reducing their loans about a million, because of the diminished inquiry for accommodation. They lost about two millions of specie. The Sub-Treasury cash balance was cut down about half a million last week. The Office has been retiring 7-30s at the rate of about 1¼ millions a day, by conversions.

The specie reserve of the city banks is now $9,124,830, against $9,399,585 same time last year. The city bank deposits are now $211,484,387, against $179,477,170 week ending June 22, 1867. The legal tender reserve amounts to $72,567,582, against $62,816,192 same time last year. The circulation now stands at $34,119,120, against $33,633,171 same time last year. The loans are now $274,117,608, against $243,640,477 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $92,330,636 a day, against a daily average of $88,400,000 the preceding week, and $106,610,500 the week ending with June 6, 1868. The current week's exchanges average about $94,100,000 a day. The city banks, last week, gained $3,364,742 of legal tender, and $813,622 in the deposit line, while they lost $2,068,801 of their specie reserve. They reduced their loans, $1,021,416; and their circulation, $47,726.

The Philadelphia Bank movement the past week shows an increase in loans of $259,299; an increase of $7,403 in specie; an increase in legal tenders of $156,028; an increase of $503,309 in deposits; and an increase of $241 in circulation. The Bank Clearings show an increase of $3,112,479, and the balances, an increase of $50,558.

The New York Gold Exchange Bank reports for the week ending Saturday, the 20th day of June, 1868, the average amount of loans and discounts as $956,417; average amount of specie, $543,967; average amount of deposits, $860,834.

The U. S. Sub-Treasury receipts, week ending with June 20, were $25,523,529, including $1,835,671 from customs duties; payments, $25,947,576, including $658,758 of coin interest; balance at the close of the week, $95,636,220, against $96,060,267, at the close of the preceding week, showing a decrease of $424,047. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $988,570 including $253,905 from customs; and payments, $1,285,157; on Tuesday, receipts, $1,029,401 including $283,299 from customs, and payments, $658,417. The balance at the close of business on Tuesday stood at $95,710,617, against $94,579,204, a week previous; and $94,560,853 on June 9, 1868.

The coin certificates issued by the Sub-Treasury office, during May, reached $8,173,750; and the new three per cent. certificates, $21,670.000.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $605,000.

National Bank notes to the amount of $174,910 were issued last week, making the total issue to 1,673 banks thus far. $308,482,881, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $8,497,846, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,985,035. The United States bonds held by

Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,456,400; and for the public deposits, $38,437,950—making a total of $379,894,350. The Treasury Department last week redeemed and destroyed $503,181 of worn and mutilated fractional currency, and issued $657,000 of new. The outstanding amount of fractional currency on the 1st inst. was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been on a reduced scale, since our last. The excises, last week, yielded only about three millions; customs at the port of New York, $1,923,000, and at the outports about $650,000 (in coin) more, making the grand total income for the week equal to about $6,620,000 in currency. The total receipts of the National Treasury, from excises, thus far in the new fiscal year, which began on the 1st of July, have been about $186,500,000.

Gold has been much less spiritedly sought after, by the speculative element, and the price has yielded a fraction, under rather more liberal offerings, for immediate delivery. The extreme figures of the week have been 140⅛@140⅞, and the latest quotations were 140⅝@140½. The customs demand has been quite limited. The export inquiry has been less extensive. The specie shipments hence on Tuesday of the current week, were $809,000, and on Wednesday, $374,954. In addition to California treasure hitherto mentioned as on the way to this port, the North American Steamship Company's vessels—the Nebraska and the Nevada—sailed June 5th, and June 20th, respectively, with $120,000 and $500,000, and the Pacific Mail Steamship Company's steamer, the Golden Age, June 22d, with $527,000.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $3,549,181, against $1,462,224 same time last year. The customs demand for Gold last week, averaged $305,945 a day; thus far, this week, it has been equal to $268,602 a day, or equal to a weekly aggregate of $1,611,612. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $62,116 and from California, $1,063,051. The total customs revenue of the Government, in coin, at this port, thus far, in the current fiscal year, commencing with July 1, 1867, has been $111,129,794, against $120,791,905 same time in the preceding fiscal year. The total receipts of California gold at this port, thus far, in the current fiscal year, commencing with July 1, 1867, have been $35,805,613, against $37,300,597 same time in the preceding fiscal year, showing a decrease of $1,494,984 in 1867–'68. The exports of specie from this port, last week, were $1,890,532, against $582,390 same week last year. The exports of specie, hence, since July 1, 1867, have been $72,879,605, against $32,647,771 same time in 1866–'7. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $233,000, and since July 1, 1867, $73,225,637, against $54,115,710 same time in 1866–'7. The specie exports from San Francisco, from Jan. 1, to June 6, 1868, were $18,264,137, against $16,455,406 same time last year.

Government received $3,466,993 from customs at the port of San Francisco, from Jan. 1, to June 6, against $3,088,008 same time last year.

Government disbursed $17,053,377 of coin interest through the local office, in May.

Foreign exchange has been in limited demand all the week at essentially unaltered quotations. Bankers' prime sixty day bills on London closed on Wednesday at 109⅞@110¼, and on Paris to 5.16¼c.@5.12½; sight bills on London to 110⅜@110⅝, and on Paris to 5.11¼c.@5.10. The offering of produce bills has been moderate this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,670,477, against $3,928,664 same week last year; total, since July 1, 1867, $174,217,883, against $188,927,433 same time in 1866–'67.

Government securities have further advanced in price, under the influence of reduced offerings of nearly all classes of the public funds, and of a brisk home and foreign investment demand, particularly for the coin bearing bonds. Registered bonds have attracted more attention than usual of late. The new issue of Five-twenties have been in decided favor with domestic buyers. There has likewise been a lively call, largely from banks and bankers, for the U. S. six per cent. currency bonds, issued in aid of the several branches of the Pacific Railroad enterprise.

U. S. sixes of 1881 closed here on Wednesday at 118@118⅛; U. S. Five-twenties of 1862, 113½@113¾; U. S. Five-twenties of 1864 at 111⅛@111¼; U. S. Five-twenties of 1865 at 111⅝@111¾; U. S. Five-twenties of 1865, consolidated, 114@114⅛; U. S. Five-twenties of 1867, 114⅛@114¼; U. S. Five-twenties of 1868, 110@110⅛; U. S. Ten-forties at 107¼@107⅜, and U. S. Seven-thirties at 110⅛@110¼; U. S. Six per cent. currency bonds, 102⅞@103. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865....118½	October, 1865....117½
September, 1865..118	

U. S. three per cent. certificates 100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 10.	June 17.	June 24.
Consols.....	95	94⅞	94⅞
U. S. 5-20's of 1862...	73	73	73⅜
Erie.....	46¼	45½	45⅝
Ill. Central.....101¼		99¾	101⅜

Railway and miscellaneous share property has been quite active, most of the week, the speculative demand having been stimulated by the extraordinary ease in money. Prices have generally advanced, though closing with less buoyancy. A prominent firm in the Stock line was forced to suspend during the week. It was represented as being heavily short of a few of the speculative favorites.

The Union Pacific Railroad Company has advanced the price of its First Mortgage 6 per cent. coin bearing bonds to 102, or full 2 per cent. on the recent current rate. At the advanced figures subscriptions are being received in quite liberal sums. The bonds, which are now being subscribed for, will be dated July 1, 1868. The company expects to be able to deliver the new issue promptly.

There has been less activity at reduced figures, in nearly all kinds of domestic produce, since our last. Middling upland cotton closed heavily on Wednesday at 29½@30 cents, per lb. The stock of cotton now here is estimated at about 58,000 bales. The receipts at the port this week, have averaged only about 1,000 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,150,000 bales, against 1,795,000 bales same time last year; exports, same time 1,642,000 bales, against 1,420,000 bales same time last year stock on hand at latest dates, 123,000 bales, against 240,000 bales same date last year. At the Live Stock markets, this week, Beeves have been in less demand at from 14@17½c. per lb.; week's receipts, 6,243. Veal calves have been fairly active, at from 6@12½c. per lb.; receipts, 2,101. Sheep and lambs have been in request, at from 4@8c. per lb.; receipts, 18,102. Swine have been moderately freely dealt in at from 9@9¾c. per lb.; receipts, 15,755. Foreign merchandise has been in light demand and depressed in price. The total imports of foreign dry goods, last week, were $960,023, and the total amount marketed $888,256. The value of foreign merchandise imported last week, was $3,505,865—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $4,465,888, against $5,366,112, same week last year; total since July 1, 1867, $232,028,838, against $263,919,889 same time in 1866–'67. At the regular monthly auction sale of Scranton coal on Wednesday, 40,000 tons were disposed of at rather easier prices, ranging from $3.67½@$4.72½ per ton of 2,240 deliverable at Elizabethport, N. J. The ocean freight market has been more active. For Liverpool we quote flour at 1s. 3d. by sail, and 1s. 7½d. by steamer, per bbl.; grain at 3¾@ 4d. by sail, and 4¾@5d. by steamer, per bushel; cotton at $\frac{3}{32}$@⅛d. by sail, and ⅛d. by steamer, per lb.; and heavy goods at 10s.@25s. by sail, and 12s. 6d@30s. by steamer, per ton. Total number of vessels in port on Wednesday 502.

The New York exports, exclusive of specie, for the week ending June 23, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week.....	$3,928,664	$2,670,477
Prev. reported.....	90,307,132	80,404,521
Since January 1.....	$94,235,796	$83,074,998

The imports for the week ending June 20th, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$1,034,989	$960,023
Gen. merchandise.....	4,331,123	3,505,865
Total for the week.....	$5,366,112	$4,465,888
Previously reported....	118,827,396	111,016,220
Since January 1.....	$124,193,508	$115,482,108

The balance in the Sub-Treasury on Wednesday was $96,156,918 51.

The Public Debt.

No statement of the public debt will be published on the 1st of July, as the month will terminate the fiscal year, and the condition of the National debt will be included in the annual report of the Secretary to Congress. The result of the financial transactions of the present month, it is thought, will show a small reduction of the debt. On the 1st of July, however, about $35,000,000 in coin will have to be paid out of the Treasury, $28,000,000 of which is interest on the Five-twenties and six per cent. bonds of 1881, and $7,000,000 principal on the loan of 1848. These expenditures will cause the next fiscal year to begin with another large addition to the National indebtedness.

Brooks' Patent Paraffine Insulator.

It will be seen by reference to an extract which we give elsewhere from the N. Y. *Telegrapher*, that the English electricians have been experimenting in the fogs and mists of London with Insulators made at the Brooks' Paraffine Insulator Works, Philadelphia, in comparison with their own standard styles, and have announced as the result of one month's observations, that during greatest atmospheric humidtity, the poorest Brooks' exceeded the best English ten thousand times, and the best Brooks' exceeded the best English forty thousand, and the poorest sixty thousand times.

7-30 Notes.

The Secretary of the Treasury gives notice to the holders of 7-30 Notes who desire to avail themselves of their right to convert the same into 5-20 bonds, that the notes must be presented at the Treasury Department at Washington, or at the office of the Assistant Treasurer of the United States at New York, as follows:

The notes that matured on the 15th of June must be presented on or before the 15th of July. The notes that become due on the 15th of July must be presented on or before the 1st day of August.

The bonds to be issued in exchange for the notes will bear interest from the 1st day of July, 1868, and the interest on the notes will be calculated accordingly. The bonds will be of the issue of 1867 or 1868, as may be preferred, and they will be issued in the order in which the notes are presented.

☞ We invite attention to the advertisement of "Collinson's Patent Paragon Grate Bars," in another part of this week's issue. These bars, it is stated, have been proved to be superior to all others. Address Messrs. Hutchinson & Laubence, No. 8 Dey street, N. Y.

☞ The Commissioner of Internal Revenue has decided that the only sales made by wholesale dealers which are not required to be returned for tax as though made at the dealer's place of business are those sales made through *other* "wholesale dealers" on commission. Under the provisions of the law, as construed by that office, all sales made for wholesale dealers by brokers, on commission, are required to be returned for tax as though made by the dealer at his stated place of business.

Long Island Railroad.

It is said that fourteen new engines have been built, new cars procured, and heavy steel rails purchased, and that some of them are actually in use. The road has been extended, and the North Shore line will henceforth reach Northport and Huntington. In addition to this, it is said that arrangements have been perfected for running a through express train to Boston over this road by way of Greenport.

☞ The work of laying the track on the railroad from Broonville to Tipton, Mo., was commenced on the 10th inst. All the iron for the entire route has been purchased and paid for.

Railroad Earnings.—Weekly.

The earnings of the Chicago and Northwestern Railroad for the 3d week in June, 1868. $252,278 60
Corresponding week previous year .. 219,101 84

Increase $33,176 76

The earnings of the Atlantic and Great Western Railway for the second week in June, 1868, were $89,615 00
Corresponding week previous year... 102,394 00

Decrease $12,779 00

The earnings of the Michigan Central Railroad for the 2d week in June, 1868, were... $73,992 71
Corresponding week of previous year.. 67,186 47

Increase.... $6,806 24

The earnings of the Michigan Southern and Northern Indiana Railroad for the 3d week in June, 1868, were $81,013 00
Corresponding week of 1867.... .... 72,874 00

Increase $8,139 00

The earnings of the Chicago and Alton Railroad for the 2d week in June, 1868 ... $93,843 50
Corresponding period previous year .. 91,566 66

Increase $2,276 84

The earnings of the Detroit and Milwaukee Railroad for the second week in June, 1868, were $34,064 14
Corresponding week of 1867.... .... 35,112 23

Decrease $1,048 09

The earnings of the Toledo, Wabash and Western Railroad for the second week of June, 1868, were $62,870 73
Same week in 1867.... .... 70,486 50

Decrease $7,615 77

The earnings of the Milwaukee and St. Paul Railroad for the second week in June, 1868, were $113,809 00
Corresponding week of previous year 101,716 00

Increase $12,093 00

The earnings of the Chicago and Rock Island Railroad for the second week in June, 1868, were $89,203 00
Corresponding week of previous year.. 61,518 00

Increase $27,685 00

The earnings of the Western Union Railroad for the 2d week in June, 1868.... .... $19,330 08
Corresponding week previous year.... 14,829 57

Increase.... $4,500 51

Cedar Rapids and Missouri Railroad.

The following gentlemen have been elected directors of this company for the ensuing year: John I. Blair, Charles E. Vail, Blairstown, N. J.; Oakes Ames, North Easton, Mass.; W. T. Glidden, J. M. S. Williams, Boston, Mass.; William E. Dodge, Jr., New York; A. W. Johnson, Belfast, Me.; J. H. Scranton, James Blair, Scranton, Pa.; D. C. Blair, Belvidere, N. J.; W. W. Walker, J. F. Ely, John Wean, Cedar Rapids, Iowa; James Hawthorne, Nevada, Iowa; J. D. Vail, Moingona, Iowa.

☞ Arrangements for the construction of the Toronto and Nippissing Railway are being prosecuted with energy.

☞ Interest on the State debt of Tennessee, falling due July 1, 1868, will be paid at the Fourth National Bank of the City of New York.

☞ The July coupons on Missouri Railroad bonds, guarantied by the State, will be paid at the National Bank of Commerce, New York.

Journal of Railroad Law.

COMMON CARRIER OF GOODS—DELAY FROM PRESS OF FREIGHT—ORDER IN WHICH GOODS MUST BE CARRIED—MEASURE OF DAMAGES IN CASE OF LOSS FROM DELAY—CONTRACT CONSTRUED.

The recent case of Peet *vs.* The Chicago and Northwestern Railway Company (20 Wis., 594,) is one of remarkable interest. The questions involved are clearly stated in the following able opinion:

DOWNER, J.—At the trial, the Circuit Court gave to the jury among others, the following instructions:

"*Third.* That press of freight will not excuse failure to carry in ordinary time in cases where such press of freight was known by the company when they received the freight, and had existed a long time when the goods were received, unless they notified the shipper of the necessity of delay."

"*Fourth.* That press of freight will not excuse failure to carry in ordinary time, unless freight is carried in the order in which the same is received."

"*Fifth.* That in case of press of freight and consequent delay, a carrier has no right to give preference to freight of one person or company over that of another."

The appellant contends that each of these instructions was erroneous. The evidence tended to prove that the reason, or one of the reasons, why the respondents' flour did not reach New York sooner, was that preference was given to perishable property, such as dressed hogs and poultry; and it was proved that it was the general custom on all railroads in 1862 to give such perishable property preference over other freights. The fourth and fifth instructions are to the effect that such preference could not be legally given. Common carriers are bound to deliver goods within a reasonable time, and what is a reasonable time depends upon all the circumstances of each particular case. If by accident or misfortune, not amounting to an inevitable casualty or the act of God, the transportation of the goods is retarded, the carrier will not be responsible for such delay, if he has used due care and reasonable diligence, and the goods are finally safely delivered. Story on Bailm. § 545, a; Parsons *vs.* Hardy, 14 Wend., 215; Wibert *vs.* N. Y. and Erie R. R. Co., 12 N. Y., 245.

The rule then is, that the common carrier is to deliver the goods within a reasonable time. If the carrier received for transportation goods perishable, and those not so at the same time, and there was a press of freight, so that he could not transport and deliver all before the perishable goods would perish, but could deliver the perishable in time to save them, if the delivery of the others was delayed, can there be any doubt what his duty would be? Can there be any doubt that a preference in such a case would be reasonable, and if reasonable, that the perishable goods, if they did not have the preference, would not be delivered in a reasonable time, and the carrier would be liable? If not, there is no invariable rule, that freight of all kinds shall be transported and delivered in the order in which it is received. If the custom of giving such preference has been long established and is well-known, the parties are supposed silently to adopt the custom as part of the contract, unless it conflicts with its express terms. Cooper *vs.* Kane, 19 Wend., 386; 6 T. R., 14; i.d., 398. We doubt, however, whether the proof showed that this custom had been so long established as to make it part of the contract. But we think the practice reasonable, and not in violation of any rule of law. We therefore hold the fourth and fifth instructions erroneous.

We are also of opinion that there is no rule of law requiring the notice mentioned in the third instruction. We have seen that the general rule is, that the common carrier is to transport and deliver the goods within a reasonable time, and what is a reasonable time is to be determined by all the circumstances of each particular case. If the shipper has not all the information he desires as to the circumstances, or causes which will expedite or delay the delivery of the goods, it would be more reasonable that he should make inquiry, than to impose on the company or its agents the duty of giving unasked a statement of such circumstances.

The rule of damages as given to the jury by the Circuit Court was, that the plaintiff was entitled to recover the difference between the price of the flour when it should have arrived in New York, and the price at the time when it did actually arrive, if it was sold at the latter depreciated price. What is the measure of damages in such a case has been differently decided by different Courts of the State of New York, and each has supported its own views by learned and able opinions. See Wibert *vs.* N. Y. and Erie R.R. Co., 19 Barb., 36; Jones *vs.* N. Y. and Erie R. R. Co., 29 id., 635; 22 Barb., 278; 26 Barb., 564. The Circuit Court followed S. and M. R. R. Co., *vs.* Henry, 14 Ill., 156; I. and C. U. R. R. Co., *vs.* Rae, 18 Ill., 488, and Nettles *vs.* S. C. R. R. Co., 7 Richardson, 190. We think, on principle as well as authority, the ruling of the Circuit Court as to the measure of damages was right.

Again, it is contended by the appellant that the Court below in ruling out the evidence offered to explain the written contract. The construction of the contract on its face was settled by the decision of a majority of this Court when the case was before us on a former appeal, and that decision in this case is binding upon us. If there is an ambiguity in the contract, (and I am inclined to think there is,) the testimony should have been received. In the construction given to the contract by the majority of the Court, it appears to me that no force or meaning whatever was given to the words "agents and forwarders" in the contract. With the testimony offered they would be full of meaning. The majority of the Court, however, are of opinion, that there is no ambiguity, and that the offered testimony was rightly rejected.

By the Court.—The judgment of the Circuit Court is reversed, for errors in giving the third, fourth and fifth instructions asked by the plaintiff, and a *venire de novo* awarded.

☞ At the annual meeting of the stockholders of the Cleveland, Painesville and Ashtabula Railroad on the 10th inst., the old board of directors was re-elected with the exception of J. H. Wade, of Cleveland, vice Gilbert, deceased. The officers elected were A. Stone, Jr., President; J. H. Devereaux, Vice-President; George B. Ely, Secretary and Treasurer; H. Nottingham, Superintendent.

Central and Union Pacific Railroads.

A telegram from San Francisco, dated June 18, announced that the Central Pacific Railroad is now in operation from Sacramento to Reno Station, near Virginia City, a distance of 150 miles, and that by the end of the present month the cars will be running regularly to the Big Bend of the Truckee River, in Nevada, 37 miles further. The Union Pacific Railroad, which is to connect with the Central Pacific, is also completed to the Medicine Bow River, in Wyoming Territory, 645 miles west of Omaha, leaving less than 900 miles of track to be laid to perfect communication between New York and San Francisco by railroad.

☞ The Hagerstown *Mail* mentions the arrival at that place on the 17th inst., of a large number of railroad hands destined for the line of the Western Maryland Railroad. These hands were designed for Martin's section at Cavetown, one of the lightest on the road. We are glad, says the *Mail*, to see the work at this end being pushed with so much vigor, and will look for still greater activity now that the Baltimore ordinance is passed and no further impediment in the way of progress exists. The road from Hagerstown to the mountain ought to be graded in a couple of months, ready for the rails.

☞ We learn from Buffalo, that a new railway to be styled the Buffalo and Southern Railway, is projected to connect Buffalo and Baltimore by direct route, making the distance equal to that between Buffalo and Albany. The new road by proper connections will only require one hundred and twenty miles of new rails to be laid. The company has already organized, and the pioneer railway engineer, Wm. Wallace is instructed to survey the route.

☞ The Balttmore Central Railroad is being pushed forward toward completion; the road bed is nearly all ready for track laying. The track has been laid from Rising Sun to Liberty Grove. This road should have been finished as far as the river by the first of April last. The changing of grade and the hardness of the rock in the big cut, at Rowlandsville, have retarded the progress of the work.

☞ The work on the Albany and Susquehanna Railroad is making such rapid progress that the company are now considering the matter of building the depot in Binghamton, N. Y. The depot they propose erecting is to be a union depot, in which the Erie and Syracuse and Binghamton Railroad companies will have equal interest with the Albany and Susquehanna Railroad Company.

☞ The receipts of the European and North American Railway, from St. John to Shediac, for the month of May, 1868, were $14,872 89; for the corresponding month of the previous year $14,783 52—an increase of $89 37.

☞ Dr. J. T. B. McMaster has been elected President and W. J. S. Clarke, Esq., Treasurer of the Worcester and Somerset (Md.) Railroad Company.

☞ The town of Epsom, N.H., has voted $17,500 toward the construction of the Suncook Valley Railroad.

☞ The Baltimore and Ohio Railroad Company have subscribed $1,000,000 to the bonds of the Pittsburg and Connellsville Railroad, in aid of its construction. Mr. Garrett, President of the company, has also subscribed for himself, $60,000; and Mr. Johns Hopkins, a director, $30,000 more. Large subscriptions are also being received in Baltimore and elsewhere.

☞ Mr. J. P. Hely, Civil Engineer, has just finished the survey of a route for the Cairo and Vincennes Railroad, between Cairo and Mound City, and is engaged on the profile. It is not yet fully determined that the route surveyed will be the one that the company will adopt.

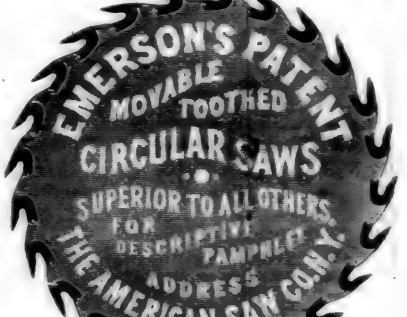
☞ The Chestertown *News* says that the contractors are making preparations for the speedy commencement of work on the Kent County Railroad between Duyer's and Kennedyville. Lumber is being hauled and tents erected on the line for the accommodation of workmen.

☞ The Pennsylvania Railroad has now a double track throughout, with the exception of two or three bridges, and a link between Middletown and Bridgeport, about 1¾ mile long. This gap will be closed up in a few months.

☞ The directors of the Atlantic Telegraph Company have declared a dividend, payable on the first of July, of six per cent. on their preference stock, and three per cent. on the original stock.

☞ The Knox and Lincoln Railroad route is now being surveyed for the purpose of settling definitely the route, and it is expected the work of grading will be entered upon this fall.

THE COUPONS
OF THE
First Mortgage Bonds
OF THE
UNION PACIFIC
RAILROAD COMPANY.
DUE JULY 1st, 1868.
Will be paid on and after that date,
In GOLD COIN Free of Government Tax,
At the Company's office, No. 20 NASSAU ST., New York.
Schedules with twenty or more coupons, will now be received for examination, and gold checks for the same will be delivered June 30th.
JOHN J. CISCO, Treasurer.



Mathematical Instruments.
OF BEST SWISS, FRENCH & AMERICAN MANUFACTURE.
T. H McALLISTER,
49 Nassau street, N. Y.

IMPROVED DOUBLE-ACTION PUMPS, SUITABLE for deep mines, railroad water stations, ships, breweries, distilleries, mills, factories, etc. Send for circular. Manufactured by G. MARSHALL,
3m14 21 Dunham Place, Brooklyn, E. D., N. Y.

A. WHITNEY & SONS
CAR WHEEL WORKS,
Callowhill & Sixteenth Sts.,
PHILADELPHIA, PENN.,
FURNISH CHILLED WHEELS for Cars, Trucks, and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES. WHEELS and AXLES FITTED COMPLETE.

TOLEDO, PEORIA AND WARSAW
RAILWAY COMPANY'S
FIRST MORTGAGE BONDS
FOR SALE.
300,000 on the Western Division, bearing interest at 7 per cent. Coupons Payable Semi-Annually, in February and August.
PRINCIPAL PAYABLE IN 1896.
This Company having disposed of all of the $1,800,000 bonds issued on the Western Division, between Peoria, Warsaw and Keokuk, except the amount now offered for sale, which has been reserved to pay for iron ordered to complete the line, now offer the same at 85, flat, that is to say, with the August coupon attached.
Capitalists desiring a safe, cheap and reliable investment, the mortgage being only $15,000 per mile, can be supplied with the Bonds, in amounts of not less than $5,000, by applying at the office of the Company, No. 28 Exchange-place.
CHARLES L. FROST, President.

PROPOSALS.
NOTICE TO RAILROAD CONTRACTORS.
OFFICE OF THE NEW YORK AND OSWEGO MIDLAND RAILROAD COMPANY,
ONEIDA, N. Y., June 9th, 1868.
SEALED PROPOSALS WILL BE RECEIVED AT the office of the Company, in Oneida, N. Y., until the 25th day of July, 1868, at noon, for the Grading, Masonry and Bridging of that portion of the New York and Oswego Midland Railroad extending from Middletown, Orange County, to Westfield Flats, in Sullivan County, via Phillipsport, Liberty, and intermediate towns; also, including the Branch from the Main Line to Ellenville. The above work will include a Tunnel of about three thousand (3,000) feet in length, through the Shawangunk Mountain, for which separate proposals are invited.
The line will be divided into Sections, of convenient length, and Proposals may be made for separate Sections or for the entire work. The Company will entertain separate proposals for Bridging only. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Middletown, N. Y., where all necessary information may be obtained, on and after the 15th day of July, 1868.
Sealed Proposals will also be received at the office of the Company, in Oneida, N. Y., until the 30th day of July, 1868, at noon, for the Grading, Masonry, and Bridging of the New Berlin Branch, in Chenango County, extending from the Main Line, at East Guilford, to New Berlin, a distance of 22 miles. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Oneida, N. Y., where all the necessary information may be obtained, on and after the 23d day of July, 1868.
D. C. LITTLEJOHN, President.
W. B. GILBERT, Chief Engineer.

Factory, TRENTON, N. J.
Office, 2 Jacob st., New York.

ENGINEERS' STATIONERY
AND
MATHEMATICAL INSTRUMENTS of all KINDS, Long Profile and 8 Cross Section Paper, for sale by
JAMES W. QUEEN & CO.,
924 Chestnut, St., Phila.
A descriptive manual of Mathematical Instruments (a pamphlet of 112 pages) sent free on application.

FOR SALE.

Two New First-class Locomotive Engines and Tenders of 4 ft. 8 1-2 in. Gauge—Cylinders 16×24, Drivers 5 ft. diam.

KASSON & CO.,
119 Broadway, N. Y.

P. O. Box 5,195.

LUBRICATING OILS.

FIRST PREMIUM. 1867.

Awarded by the American Institute to

CHESEBROUGH & CO., 132 Maiden Lane, New York.

"These oils are fully equal in quality to any known to the judges, being perfectly neutral and free from any objectionable features." Signed,

HORACE GREELEY, President.

Perfectly pure (not mixed,) absolutely free from gum; manufactured without acids; will stand any temperature; cheaper than any other good oils in market. 3m25

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 5th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor.

THOMAS E. WALKER, Treasurer.

640 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A Government Grant of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A Government Grant of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A Government Grant of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A Government Grant of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, car shops, locomotives, cars, &c.

V.—A Capital Stock Subscription from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—Net Cash Earnings on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds

upon such a property, costing nearly three times their amount,

Are Secure beyond any Contingency.

The Union Pacific bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is **109**, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall St.,

And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

MAY 25, 1868.

PENNSYLVANIA RAILROAD COMPANY, Treasurer's Department.

PHILADELPHIA, May 2, 1868.

NOTICE TO STOCKHOLDERS.—The Board of Directors have this day declared a semi-annual dividend of THREE PER CENT. on the Capital Stock of the Company, payable in cash, clear of National and State taxes, and a further dividend of FIVE PER CENT., payable in Stock, on and after May 30.

Blank powers of attorney for collecting dividends may be obtained at the office of the Company, No. 238 South Third Street.

THOMAS T. FIRTH, Treasurer.

8t21

OFFICE PENNSYLVANIA RAILROAD COMPANY, Philadelphia May 13th, 1868.

Notice to Stockholders.—In pursuance of resolutions adopted by the Board of Directors at a stated meeting held this day, notice is hereby given to the Stockholders of this Company, that they will have the privilege of subscribing, either directly or by substitution under such rules as may be prescribed therefor, for Twenty-five per cent. of additional Stock at par, in proportion to their respective interests as they stand registered on the books of the Company, May 20th, 1868.

Holders of less than four Shares will be entitled to subscribe for a full share, and those holding more shares than a multiple of four shares will be entitled to an additional share.

Subscriptions to the new Stock will be received on and after May 30th, 1868, and the privilege of subscribing will cease on the 30th day of July, 1868.

The instalments on account of the new shares shall be paid in cash, as follows:

1st. Twenty-five per cent. at the time of subscription, on or before the 30th day of July, 1868.

2d. Twenty-five per cent. on or before the 15th day of December, 1868.

3d. Twenty-five per cent. on or before the 15th day of June, 1869.

4th. Twenty-five per cent. on or before the 15th day of December, 1869, or if Stockholders should prefer the whole amount may be paid up at once, or any remaining instalments may be paid in full at the time of the payment of the second or third instalment, and each instalment paid up shall be entitled to a pro rata dividend that may be declared on full Shares.

THOMAS T. FIRTH, Treasurer.

Manufacturers of Superior Quality

OF

INDIA RUBBER

CAR SPRINGS,

BRAKE TUBING, ETC.

P. O. Address Box 588, TRENTON, N. J.

TESTIMONIAL.

Baltimore, Md., April 16, 1868.

We have used, on the Baltimore and Ohio Railroad, during the past year, about 13,000 lbs. of India Rubber Car Springs, manufactured by the Hamilton Square Rubber Works, Trenton, N. J., (C. V. Mead & Co.,) and have found them equal to, if not superior to any we have used in past time, and on much more reasonable terms.

JOHN OLIVER,
Purchasing Agent Baltimore and Ohio Railroad.

CAUTION.—The above firm are not connected with any other Manufacturers using the name of Mr. Mead.

Mead's Springs are stamped Hamilton Square Rubber Works, Trenton, N. J.

Safety Railroad Switch.

MAIN TRACK UNBROKEN.

I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the ***MAIN TRACK IS NEVER BROKEN***, and it is impossible for any accident to occur from the misplacement of switches.

The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns ***The Life and Limb of all Travelers upon Railroads.***

I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

Works at

OSSINING,

Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented. Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

New York, Saturday, July 4, 1868.

New Orleans, Opelousas and Great Western Railroad.

At a meeting of the board of directors of this company, held on the 14th of May, 1868, the following resolution was adopted:

Resolved, That a committee of three members of the board be appointed, who, together with the President and Chief Engineer, are requested to prepare a full, complete and accurate statement, showing the present condition of the affairs of the company, its liabilities and assets; its receipts and expenses for the past fiscal year; and also to prepare as reliable and accurate an estimate as can be made, of the cost of constructing the road from Brashear to the Sabine River, at or near Nibblitt's Bluff—the probable receipts from the road when completed, and all and any other information necessary to lay before the public in order to carry out the proposition, submitted by the committee, of leasing the entire road and its appurtenances.

In compliance with this resolution, your committee respectfully present their report, which they have carefully compiled from authentic sources, and claim that it is an accurate statement of the affairs of the company.

The total indebtedness of the company is as follows:

1903 First mortgage bonds of $1000 each, on 1st division, of 80 miles of road, Algiers to Brashear, maturing on the 1st day of April, 1889, and bearing interest at the rate of 8 per cent. per annum, payable semi-annually on the 1st of April and 1st of October of each and every year	$1,903,000 00
40 Second mortgage bonds of $1000 each, issued in settlement of past due coupons from first mortgage bonds	40,000 00
The outstanding and unpaid coupons on both 1st and 2d mortgage bonds up to 1st of April, 1868	498,120 00
Bills payable, secured by pledge of 97 first mortgage bonds	38,637 64
Balance claimed to be due to the U. S. Government, which is being liquidated by mail and transportation service	35,000 00
All other liabilities of every character amount to	60,035 90
Making together a total liability of	$2,574,793 54

Of this sum there is now due in cash:

Coupons for interest on bonds	$498,120 00
Bills payable (loans obtained on pledge of bonds)	38,637 64
All other debts	60,035 90
Total	$596,793 54

This sum of immediate cash liabilities, excepting the past due coupons, will be entirely liquidated by the earnings of the road within the current year, if operated by the company.

The present estimated cash value of the property of the company, as reported by G. W. R. Bayley, Esq., Engineer and Superintendent, is as follows:

For right of way, clearing, graduation, ditching, bridging, culverts and crossings, cross-ties, rails and fastenings, tools and implements for maintenance of way, and materials on hand, on 80 1-5 miles of main track and 12½ miles of branch track and sidings, from Algiers to Berwick's Bay, @ $35,000 per mile, 80 1-5 miles	$2,807,000 00
Locomotives and rolling stock	300,000 00
Lands, shops, depots, station and section buildings, wharves, platforms, tank houses, etc., on line	325,000 00
Machinery, tools and materials in Algiers shops	25,000 00
Gretna property—river front	25,000 00
Cocodrie cypress timber lands	2,000 00
Depot and station furniture, tools and implements	6,000 00
Right of way, lands for depots and stations, clearing, graduation, etc. beyond Berwick's Bay	350,000 00
Total valuation	$3,840,000 00

The gross earnings of the road to Berwick's Bay, for the year 1861, were	$401,783 00
The operating expenses, including maintenance of way, for same year was	199,054 00
Net earnings of the road in 1861	$202,729 00
The gross earnings of the road for the past four months, from 1st of January to 30th of April, were	$155,754 71
Total expenses for the same time, including maintenance of way, and general improvements to road buildings and property	115,669 84
Net earnings for four months in 1868	$40,084 87

Your committee are induced to present the statement of receipts and expenses for the year 1861, and for the first four months of the present year, in order to exhibit what were the earnings previous to the war, as well as what they now are, notwithstanding the small quantity of land in cultivation, and the total failure of the crops last year, in the country tributary to the road. Much more land is in cultivation this year than in 1867, and as the crops are promising, a considerable increase for the road may be anticipated with confidence. The country tributary to the road is now slowly but steadily recovering from the effects of the war, and there are indications of a large immigration into the beautiful and fertile Attakapas region, and a return of its former prosperity. In 1861 the country traversed by the line of our road produced over 100,000 hhds. of sugar and 130,000 bbls. of molasses—34,000 hhds. and 80,000 bbls. of which were transported over the road. In 1867 the same section of country barely produced 9,000 hhds. of sugar. The completion of the road up the Bayou Teche to New Iberia, and onwards across the prairies to Vermilionville, will give to it nearly if not quite the whole business, instead of only a part of it, as heretofore; and this portion being already cleared and graded, requires now but the track to be laid down. The construction of the railroad across the prairies from Vermilionville to the Sabine River, will be the signal for the influx of a large and industrious population along the whole line; thereby adding very much to the local business of the road. No country in the United States offers greater inducements to settlers than Southwestern Louisiana.

Nearly the whole travel from and to middle, western and southern Texas now passes over the road, and across the gulf, between Berwick's Bay and Galveston, and other Texas ports, by means of the Morgan line of splendid iron steamships. The time from New Orleans to Galveston

by railroad and steamship, is from 22 to 25 hours. The contract with Charles Morgan, for the running of this line of steamships between Berwick's Bay and Galveston, terminates on the 31st of March, 1871.

Since the restoration of the road to the company, by the U. S. military authorities, on the 1st of February 1866, a large proportion of the road earnings have been used for the repairs, reconstruction and general improvements of the company's property. The track has been thoroughly repaired, raised and ballasted, and many thousand new cross-ties (6 by 12 inches and eleven feet long,) have been placed in it, in lieu of decayed ones removed. Worn and damaged rails are being replaced with repaired iron. Nearly all the bridges, large and small, as well as culverts and road crossing, have been rebuilt with new materials. New station buildings, platforms, wharves, cattle-pens, water stations, wood stations, section-houses, etc., have been built and others repaired or reconstructed. The locomotives have been repaired, as well as the passenger and freight cars, and new passenger and freight cars have been built and added to the stock on hand in 1866.

The road and its appurtenances are now in excellent working condition, and will compare favorably with any other, south or north, in the U. States. The policy of the company is now and has been to maintain and operate a first-class road, and the best evidence of their success is, that no passenger has ever been killed or injured on their trains, through any fault of the company or of its employees, up to the present time. The earnings of the road have always been more than sufficient to pay promptly all expenses for working, maintenance and improvements, and the accumulation of the interest on the bonded debt is due entirely to the loss of the use of the road from 1862 to 1866, while in the possession of the U. S. military authorities. Now that the road and its equipments have been restored to their former good condition, and that the business of the country tributary to it is reviving, there is no doubt that the net earnings of the present eighty miles of road to Berwick's Bay, would be sufficient to meet all its current expenses, clear off its floating debt, and meet the current interest on the bonded debt, if the $498,-120 00 due on coupons which matured during and since the war, could be provided for or funded.

The damage done to the road and to its equipments and appurtenances during the time the U. S. authorities had possession of it, was very great, and the loss sustained by the company, by the destruction of its property, and by the removal, or sending away for military purposes to other railroads, of several of its locomotives, passenger cars, and many freight cars, was also great. From necessity the damages done and the losses sustained had to be made good out of the current earnings of the road, and this has to a very great extent been done, as before remarked. Whether the road is to be operated henceforth by the company or by lessees, the result will be a very considerable increase of business—due to the improved of the country tributary to the road, and increased quantity of land in cultivation—and a large increase of net earnings, owing to reduced working expenses and expenditures for renewals, reconstruction and repairs.

The completion of the road up the Teche and to Vermilionville, at a cost of $1,000,000, a distance of 63 miles would add very much to the gross and net receipts of the road; the gross earnings would be much larger, while the working expenses would be, comparatively, considerably less than at present.

The construction of the road thence, as a branch from the main line, from Vermilionville or near it, via Lake Charles, to the west bank of the Sabine river, opposite or near to Nibblitt's Bluff, 100 miles, at a cost of $2,000,000, while it would develope a very large and profitable way business —would by connecting it and New Orleans with the entire Texas railway system diverging from Houston, Texas, afford a through business equal to that of the great roads in the northern States; while the net earnings, owing to the comparatively small cost of operating, in consequence of nearly level grades, the absence of snows, reduced expense for construction and maintenance, etc., would undoubtedly exceed those of most if not all others.

The vast importance of completing this road, to every interest in the City of New Orleans, the State of Louisiana, Texas, and the whole southwest, can scarcely be over-estimated, and as offering inducements to capitalists to invest as proposed under the plan submitted for leasing, the right of way beyond Berwick's Bay, or the entire road and franchises, we do not hesitate to assert that there never has been presented to the public an investment offering such assurances and guarantees for large returns, as is presented in the plan for continuing the N. O., O. and G. W. Railroad to the Sabine River, for the purpose of establishing railroad communication with Houston, Texas.

In order to place before the public information with regard to the road, and its probable future connection with other roads, your committee submit the following statements prepared by Mr. Bayley, Chief Engineer:

"The New Orleans, Opelousas and Great Western Railroad company was chartered in 1852, by the Legislature of Louisiana, to build a railroad from Algiers, (opposite New Orleans,) to the Sabine River, or eastern boundary of Texas. The charter is perpetual, and its 'capital stock, works, fixtures, workshops, warehouses, vehicles of transportation and other appurtenances' are 'exempt from taxation for ten years after the completion of the road within the limits of this State.' The first division of 80 miles, extending to Brashear, or Berwick's Bay, was completed in 1857, and has been regularly operated since. This portion of the road, crossing as it does, the Mississippi valley, through and across numerous and extensive swamps of cypress, and sea marshes or marshy prairies, as well as numerous navigable bayous, was by far the most expensive and difficult part of the line to build. The embankments had to be formed of earth hauled, (after the track through the swamps and prairies had been laid upon timber cribwork, trestles or piling,) from long distances, together with what could be procured, in dry seasons, from side ditches. The whole of this portion of the road is now a solid embankment, well ballasted with sandy earth—the only material obtainable—and wholly above and independent of the temporary work of timber. It has acquired, with time, perfect solidity and firmness. The cross-ties used are of cypress, six inches thick by twelve inches wide, and eleven feet long; the length of the ties being double the gauge of the track, which is five feet six inches. This is the gauge of all (or nearly all of) the roads west of the Mississippi River and south of St. Louis, in Missouri, Arkansas, Louisiana and Texas. The rails used vary from 58 to 65 pounds per yard; the most approved being the heavy rail with bolted or fished joints. The weight of rail used, in connection with the large bearing obtained by means of the unusually large cross-ties, and sand ballasting, affords a smooth track, reliable at all times and easily maintained, particularly because we never have cold or frost sufficient to harden or disturb the road-bed.

"The passenger trains make the eighty miles run, between Algiers and Brashear, stopping at intermediate stations, (there are sixteen, including flag stations,) regularly and easily in four hours, with hardly ever a deviation from time of more than a minute or two. Texas express trains make the run easily in three hours, but are limited to three and a half. We claim that ours is a first class road in all respects, and the policy of the company has been to so maintain it. The locomotives and cars owned by the company are sufficient for its present business, but, if business increases as it promises to do, an addition to the rolling stock will be necessary. The company's shops are sufficient for their present needs, for the repairs and maintenance of the locomotives, and the building or repairs of passenger and freight cars. We have built passenger cars, first class, as well as freight cars since the war, as good and cheaper than we could buy them. A first class locomotive, now in use on the road, was built in our shops during the war, by the U. S. military authorities during their possession of the road.

"At Brashear, the present terminus of the road, the line crosses Berwick's Bay, or the Atchafalaya River, which is here 1,740 feet wide, with an average depth of about fifty feet, the maximum depth being 64 feet. A plan and estimate have been made for a piled trestle bridge, with thirty-three feet spans, and a revolving Howe truss draw to cross this river. This kind of bridge can be built for about $150,000. With spans of about one hundred feet, piled piers, and a wooden truss, with necessary draw-bridge, the cost would be, according to plan adopted, from $175,-000 to $200,000.

"From Berwick's Bay the line passes up the right bank of Bayou Teche, through what were, before the war, almost continuous sugar plantations, through or near Pattersonville, Centreville, Franklin, Jeanerett's to New Iberia, on the Teche, a distance of 45 miles by the road and about 75 miles by the bayou. This portion of the road, with the exception of some unfinished work in two of the swamps, is graded and ready for the track.

"Nine miles southwest from New Iberia, is the celebrated Avery salt mine. This salt is found in what seems to be inexhaustible quantity, and is said to be the purest article known, containing but one per cent. of foreign substances. Some time since a company was organized to mine this salt, at the rate of 1,000 tons per day. It is stated that another company are about to begin the work of mining and shipping salt from this place.

"A branch track, if extended to the mine, will afford to the railroad a large and profitable item of business.

"At New Iberia the railroad line leaves the Teche, and crosses the beautiful and fertile prairie upland country, 18 miles to Vermilionville, in the Parish of Lafayette. This portion of the line is continuously graded and all ready for the work of track-laying, with the exception of a few and unimportant culverts and trestles, and the bridge over the Bayou Vermilion.

"From Vermilionville to the west bank of the Sabine River, opposite to Nibblitt's Bluff, or near Orange, the distance is a hundred miles. For nearly the whole distance the country is a gently rolling and beautiful prairie. No embankment will be needed except to secure drainage and a dry road-bed, the land being almost level. Very little timbered land will be found, except on the banks of the few small streams crossed, and near the Sabine, Calcasieu, Lacassine and Mermentau; but these streams are the best lumber regions in the State. On the Calcasieu alone, twenty steam saw-mills are in active operation. All these streams, and also the Vermilion, are navigable, and will be valuable feeders to the railroad.

"The country along the line is but sparsely settled at present, and nearly all of the lands belong to the State and the United States, and are subject to entry and homestead settlement on Government terms. It only needs the completion of this railroad to open up many thousands of square miles of new lands, in one of the very best agricultural and grazing regions in the world.

"I estimate the cost of building and completing the road, exclusive of equipment, from Brashear to Vermilionville, or point of divergence near it, at $1,000,000.

"And the cost of building and completing the road, exclusive of equipment, thence to the Sabine river, near Nibblitt's Bluff, at $2,000,000.

"The distances from Algiers, opposite New Orleans, on the route to Houston, are as follows:

Algiers to Brashear, in operation..... 80 miles.
Brashear to Vermilionville, graded..... 63 "
Vermilionville to Sabine, new work....100 "

"Total distance in Louisiana.....243 miles.

This distance, by a slight change in location, may be reduced to somewhat less than 242 miles.

"From Orange, on the Sabine river, a little below Nibblitt's Bluff, the distance to Houston, Texas, is, from the best information we can obtain, 108 miles, making the through distance, from Algiers to Houston, Texas, about 351, or say 350 miles.

"A railroad, the "Texas and New Orleans Railroad," is built from Houston to the Sabine river at Orange, but, at present, it is only operated to Beaumont, on the Neches river, about 30 miles west of Orange.

"The completion of the Louisiana portion of the line to the Sabine river, will ensure the immediate putting in order and equipment of the "Texas and New Orleans Railroad," and the opening of the route through from New Orleans to Houston, for the passenger and freight traffic of nearly the whole of Texas.

"The following is a brief notice of the railroads built, in progress and projected, from Houston, Texas, with which the road from New Orleans would connect:

"*Houston and Texas Central Railroad*, already in operation from Houston to Bryan City, in Brazos County, 100 miles. Road in construction northwards rapidly. One thousand laborers, to work on this road, were recently advertised for in New Orleans. Expected to be completed and in operation to Horn Hill, 170 miles from Houston, before the close of 1869. Located to Dallas, the center of the great Texas wheat region, and thence north to Red River, near Preston. A branch of this road is already in operation from Hempstead to Brenham, 25 miles, and the route thence to Austin, about 85 miles further, or 110 miles from Houston, has recently been surveyed and is about to be built by the H. and T. C. Company. Several other branches are chartered, from different points on the line of the Texas Central R. R. The earnings of this road, for the year ending July 1st, 1867, on the 80 miles, from Houston to Millican, were, gross, $532,000, net $220,000.

"*Galveston, Houston and Henderson Railroad.*—Built and in operation from Houston to Galveston, 50 miles.

"*Buffalo Bayou, Brazos and Colorado Railroad.*—Built and in operation to Alleyton, opposite to Columbus, 80 miles. To be extended to Lagrange, Bastrop and Austin; about one-third of the grading already done. Now being built from Alleyton to Columbus, two miles.

"*Columbus and San Antonio Railroad.*—A Company to build this road was organized in July, 1867. The line is fixed to extend from Columbus, by way of Gonzales, Seguin, New Braunfels and San Antonio to the Rio Grande, near Eagle Pass. Distance from Columbus to San Antonio 140 miles; from Columbus to Eagle Pass, 280 miles; distance from Eagle Pass to Mazatlan, on the Pacific Coast of Mexico, 480 miles.

Distance, New Orleans to Houston	350 miles.
Houston to San Antonio	222 "
San Antonio to Eagle Pass	140 "
Eagle Pass to Mazatlan	480 "
New Orleans to Mazatlan	1,192 miles.

"Another road, the *Houston Tap* and *Brazoria Railroad*, is built, connecting Houston with the lower Brazos at Columbia, about 60 miles in length.

"Many other railroads are chartered, and some of them are in progress, which, when built, and built they will be, sooner or later, will intersect Texas in all directions.

"The increase of population, of agricultural and manufacturing wealth, will be immense throughout this great State. Its peculiar adaptability for the raising of beef cattle, horses, mules and sheep are well known, and this industry is yet but in its infancy.

"It is reported that 40,000 head of Texas beeves were driven from Texas to Missouri and shipped over the Southwest Branch Pacific Railroad to St. Louis last year. Mr. Sullivent, the great Illinois farmer, recently came to New Orleans and purchased several thousand Texas beeves for his farms. Many thousand head have been purchased and shipped up the river to the Northwestern States this year by other parties. Most of these were driven to Morganza, or to the mouth of Red River, and there shipped. To raise cattle in the Northwestern States requires at least three years stall-feeding during the winter months. The experiment has been tried of buying, transporting to those States and fattening Texas raised cattle, and it is found to be successful and far more profitable than to raise them there. When the line of railroad is completed to Houston, and thence to San Antonio, Austin and other points, it will be found that the cheapest route is by rail to New Orleans, or to Stock Landings opposite to it, and thence by river steamers to Illinois, Indiana and other States. Cattle thus conveyed will be still fat and in good condition on arrival at their destination. This business is destined to be of vast extent. Texas will supply cattle horses and mules to all the States in the Mississippi Valley.

"It has been remarked by a prominent and enterprising western man, who is now engaged in developing a new and important shipping business in New Orleans, that the shipment of stock alone, over the railroad line from Texas to New Orleans, would pay for the cost of building or completing it in a year or two.

"From 'Ashcroft's Railroad Directory' for 1868, we extract the following: 'An application is before the Mexican Congress for concessions to build a railroad from the city of Mexico to the United States line. The report of the company's engineer has been made, and it shows no serious engineering difficulties in the way of the enterprise. This scheme has excited the lively interest of the Mexican Minister of Fomento, or public works, which fact will guarantee the necessary concessions being granted by their Congress.'

"This project has also been recently mentioned in the English papers.

"The distance from New Orleans, via Houston, to the city of Mexico, will not exceed 1,200 miles.

"Considering the railway progress of the United States within the last ten years, it is not too much to assume that within the next ten years, there will be continuous railroad lines from New Orleans, by way of Houston and San Antonio, to Mazatlan, and via Houston and Camargo to the city of Mexico. The line to Mazatlan must necessarily become one of the main lines for the great traffic from China, Japan and Australia.

"The charter of the New Orleans, Opelousas and Great Western Railroad Company, while it gives the right to locate, construct and operate branches, when and where deemed necessary or desirable, requires the building of the main line beyond Vermilionville, by way of Opelousas, to the Sabine River. From Pine Prairie, 47 miles beyond Vermilionville, a branch of 35 or 36 miles in length will connect New Orleans by rail with Alexandria, on Red River.

"A railroad will, in all probability, be constructed from Alexandria to Little Rock, in Arkansas, and thence to St. Louis. We shall then have a continuous line from New Orleans to St. Louis, west of the Mississippi River.

"It cannot be doubted that the time is not far distant when the Opelousas Railroad will be completed to its upper terminus on the Sabine River, 258 miles from Algiers, and extended, as contemplated by its charter, to Dallas, the centre of the great wheat region of Texas, and distant from New Orleans only 500 miles.

"It has been estimated that the wheat region of Texas is capable of producing one hundred millions of bushels annually. This wheat weighs from five to ten lbs. to the bushel more than northwestern wheat, and matures from four to six weeks earlier. What with the recently developed advantages of shipping wheat by means of barges, floating and fixed elevators, from the northwestern States, via New Orleans, to the eastern States and Europe, and the future great traffic in wheat from the region of which Dallas is the centre, when the railroad reaches that point, New Orleans will become the great exporting point for wheat, as she has heretofore been for cotton and sugar.

"How can we over-estimate the vast importance to New Orleans and the Southwest, of the completion of the Opelousas Railroad to Texas? When, as in a few years must be the case, the immense area of Texas is covered with a dense population, what immense quantities of cotton, wheat, corn, sugar, wool, beeves, horses, mules, etc., must reach New Orleans over the Opelousas Railroad, from that State alone.

"The great advantages and national importance of the route for a Pacific Railroad from the Mississippi River to Mazatlan, are generally admitted. It is true that other interests, perhaps not favorable to New Orleans, point to Vicksburg, Memphis, Cairo or St. Louis, as the terminus on the Mississippi; but the natural advantages of New Orleans, as the eastern terminus, cannot be overcome.

"The shortest distance is to New Orleans—about 1,200 miles—and here we have a great commercial emporium, where steamboats from all parts of the Mississippi Valley meet steamships and sailing vessels from all the seaports of the United States and Europe. Here they will exchange cargoes, and here, at the railroad wharves on the Mississippi River, steamboats and barges navigating the river, and steamships and sailing vessels, navigating the ocean, will deliver and receive cargoes for and from the great western interior country and the Pacific. No snows or frost will ever disturb or interrupt the traffic, and nowhere can railroads be constructed, maintained or operated so cheaply and profitably.

"The future outlined above is a magnificent one indeed, but who will say that it is in the least exaggerated, or that it will not be realized within the next ten or fifteen years?"

In obedience to a resolution of the Board of Directors, the Chief Engineer has submitted the following estimates of cost for building the road from its present terminus at Berwick's Bay to the Sabine River, based upon current rates of labor and material, and upon the dimensions and weight of rail, size of cross ties and plans of construction adopted by the company. Perfect accuracy is not claimed for them, but they are believed to be sufficiently full, and as nearly correct as can be made by one who has a thorough and complete knowledge of the country through which the lines pass, and who has been in the employ of the company from its organization, and connected with the building of railroads in the United States since 1837.

From Brashear to Vermilionville, 63 miles, with 5 miles added for sidings, or 68 miles of track.

For pile bridge across Berwick's Bay	$150,000
Clearing and preparing roadway graded in 1860; for unfinished work in Pattersonville and Bayou Sale Swamps, and for culverts and trestles	50,000
For cross ties, lumber, and laying 68 miles of track	188,000
For rails, fastenings and contingencies	612,000
Total	$1,000,000

From Vermilionville to the Sabine River, near Nibblett's Bluff, or near Orange, 100 miles, with 10 miles added for sidings, or 110 miles of track.

For clearing and graduation, 100 miles of road	$550,000
For bridges, trestles, culverts, etc	100,000
For cross ties, lumber and track laying 110 miles	310,000
For rails, fastenings and contingencies	1,040,000
Total	$2,000,000
Total cost, Brashear to Sabine, 163 m.	$3,000,000

The following estimate of the business of the road, when opened to the Sabine and connected with the Texas system of railways, based upon the best information obtainable, from parties thoroughly competent to judge, is submitted by the Committee as a fair average of what may be expected for the first five years, annually, after

the completion of the line, with the certainty of a gradual and steady increase, as the railroad system is developed westwards:

From passengers	$1,500,000
Live stock, beeves, horses, mules, sheep, swine, etc.	1,200,000
Miscellaneous freights, merchandise, cotton, sugar, molasses, wheat, wool, hides, corn, pork, beef, lumber, machinery, agricultural implements, etc.	1,500,000
Express freight for Middle, Western & Southern Texas	100,000
Mail service	50,000
Government transportation	75,000
Salt from Avery's mine	75,000
	$4,500,000
Deduct 50 per cent. for total operating and working expenses, and experience has shown that they need not exceed this proportion, and we have, for net earnings	2,250,000
	$2,250,000

In conclusion your Committee have only to add, that in the preparation of this report, they have sought to present all the information in reference to the condition and future prospects of the company that may be deemed necessary; and confidently hope and believe it presents such inducements for investment as will insure the receipt of proposals for leasing the road, either under the propositions submitted by the Committee, or upon some other plan that may suggest itself to capitalists, which will result in an early completion of the road to the Sabine River.

Respectfully submitted,

W. S. PIKE,
S. O. NELSON,
I. N. MARKS,
} *Committee.*
A. B. SEGER,
President.
G. W. R. BAYLEY,
Chief Eng. & Gen'l Sup't.

New Orleans, June 17, 1868.

Mobile and Ohio Railroad.

The earnings of this road for the years ending December 31, 1866 and 1867, have been as follows:

	1866.	1867.
From passengers	$902,719 04	$742,530 49
" freight	1,433,491 15	1,400,815 97
" mails	42,794 00	49,900 00
" express	70,281 90	109,050 00
	$2,449,286 09	$2,300,269 46
And the expenses were:		
Repairs of roadway	$344,032 43	$371,804 29
" rolling stock	304,207 93	385,427 81
Conducting transp.	742,158 10	766,558 73
	$1,390,398 46	$1,523,790 83
Leaving a net revenue of	$1,058,887 63	$776,505 63

The equipment of the road December 31, 1866 and 1867, was as follows:

	1866.	1867.
Locomotives in order	50	69
" under repairs.	12	10
" requiring "	24	15
" condemned	6	8
Total	92	102
Passenger cars	30	28
Sleeping cars	4	4
Baggage cars	10	10
Freight cars	652	799
Total	696	841

In addition to the freight cars at the close of the past year, there were the trucks and iron work and other materials for 94 box and 52 platform, which are nearly finished, and will be ready for the business of next fall.

Ten freight locomotives have been purchased of the Rhode Island Locomotive Works and placed on the road. With the completion of the freight cars, the equipment will be sufficient for the business of the present year.

The earnings per mile of road in 1866 and 1867, were as follows:

	1866.	1867.
From passengers	$1,857	$1,588
" freight	2,949	2,882
" mails and express	231	323
	$5,037	$4,783

The earnings per mile run by trains were:

	1866.	1867.
Passenger	$1.97	$2.45
Freight	2.45	2.29
All	2.35	2.34

The mileage of trains was as follows:

	1866.	1867.
Passenger	455,997	367.165
Freight	585,870	613,097
Gravel and construction,	198,039	186,944
Total	1,239,806	1,167,204

The cost of motive power per mile run was as follows:

	1866.	1867.
Repairs of locomotives	0.243	0.287
Fuel	0.127	0.104
Pay of engineers & firemen.	0.118	0.140
Oil, tallow, waste & cleaning.	0.018	0.023
Total	0.506	0.554

The movement of cotton from April 1, 1867, to April 1, 1868, in comparison with the corresponding period of the previous year was as follows:

	1866–'67.	1867–'68.
Transp. to Mobile	84,313	120,804
" Corinth for Memphis	1,864	653
" Humboldt "	1,367	454
" Jackson "	43	54
" Humboldt for Louisv	931	15,117
" Columbus	9,063	4,584
	97,581	141,666

Of the cotton grown in Tennessee there went to Columbus in 1867–'68, 3,690 bales; to Humboldt, 5,813; to Jackson, 54; to Mobile, 3,499—total, 13,566, against 10,093 in the previous year. Of the cotton raised in Alabama and Mississippi there went from Memphis to Corinth in 1867–'68, 603 bales; to Memphis and Louisville from Humboldt, 9,754; to Columbus, Ky., 814—total, 11,171, against 3,175 in 1866–'67. In the movement northward, there is an increase of 1,088 bales raised in Tennessee, and 7,996 bales raised in Alabama and Tennessee, and an increase of 2,375 bales in the movement of Tennessee cotton to Mobile. There is an increase in the shipments north, *via* the Memphis and Louisville Line of 14,186 bales, and a decrease *via* Columbus, Ky., of 4,497 bales.

The great increase in the quantity moved is not so much due to the large crop, as to the close and entirely satisfactory working arrangements with the Selma and Meridian Railroad by which nearly 25,000 bales were received from that road, which formerly reached Mobile through other channels.

It will be seen that there has been an increase in repairs of roadway and machinery of $108,991 74. This increased expenditure was incurred in the renewal of cross ties, bridges, labor of section hands, and restoration of engines from the deterioration of former years. Had the usual course been pursued of charging these items to construction, the net income for 1867 would have been $885,497 37.

The amount expended by the company to January 1, 1868, in repairing the damages of war and reinstating the road, has been $3,872,943 78, of which $1,131,654 18 was expended during the last fiscal year. The roadway is now in good order generally, while portions of it are not excelled, if equalled by any road on the continent.

The company are now in possession of a larger and more complete equipment than at any previous period in its history. In 1861 they had 67 locomotives, and 628 passenger and freight cars. They now have 94 locomotives, and 841 passenger and freight cars, besides 141 in course of construction and nearly completed. The number of locomotives in order is 79, against 64 at the date of the last report.

The floating debt of the company Jan. 1, 1867, was $1,756,441 74. Of this sum $468,691 56 was due to parties at the east for rolling stock purchased previous to the war. An arrangement had been made with these creditors on 8th August, 1865, by which a portion of the cotton belonging to the company at the close of the war was transferred to them, to be sold and divided, with the agreement that whatever balance might remain due should be paid in equal installments of one, two, and three years. The proceeds of the cotton amounted to only 10¾ per cent. of the debts. The first year's papment under the contract had matured at the date of your last meeting, while the second was fast running to maturity. As might be expected, these creditors were pressing in their demands for payment. The President was sent to New York for the purpose of negotiating a settlement. A full and frank statement of the condition of the company, made to gentlemen of high intelligence, coupled with a disposition to aid, rather than oppress us, resulted in their acceptance of second mortgage bonds at par in payment, thus relieving the company from a pressing liability, and reducing the floating debt to $1,287,750 24

The floating debt 1st January, 1868, was $1,433,081 85

Deduct amount included in this statement for machinery purchased this year and not paid for 369,417 99

1,063,663 86

Showing an absolute reduction of this account $224,086 38

In addition to this, $762,236 19 of the $1,131,654 18 incurred in reconstruction the past year, has been paid, while the interest due the State of Tennessee has been regularly met.

In the floating debt is included the amount due the Government of the United States on rolling stock purchased at the close of the war. The balance due on 1st January, 1868, was $165,089 03, having been reduced during the year 1867, $55,000, since which time $23,399 76 more has been paid.

The floating debt 1st April, 1868, was—

Pay rolls	$365,629 50
Individual balances	153,082 56
Bills payable	420,299 95
Balance due United States	141,689 27
Old floating debt, as per statement	106,061 45
Change bills	86,869 55
	$1,223,632 28

Showing a reduction in first quarter of current year of $209,449 57. The usually dull months of summer will, it is believed, enable us to do but

little in the way of payment of debts, but present prospects justify the belief that our Fall and Winter business will be unusually heavy.

The department at Washington has been fully advised, by personal interviews, of the crippled condition of the company, and are extending to us a liberal forbearance. It is believed that their confidence can be retained by continuing to deserve it, while the postal and other transportation service of the Government is constantly diminishing the debt.

The promise to resume interest payments on our bonds, on 1st May, 1868, it was forseen would not be met, and the President was instructed to confer with the bondholders in New York and London, upon the subject. Inability to meet engagements promptly, is always embarrassing to the debtor, while in this case, it was surrounded with peculiar difficulties, arising from the fact that resumption had first been proposed for May, 1867, and many American holders had acceded to it, but before that time, it was clear to the managers that it could not be done, and the former President had visited London, for the purpose of negotiating with the English holders for a suspension to May, 1868, and which had been granted upon the condition that American holders would do likewise. The larger portion of these on this side readily consented, believing that this indulgence would certainly enable the company to meet the payments. It will thus be seen that those on this side were asked for a third extension, while those abroad, were called on for a second. It was true that our inability could reasonably be accounted for, from the fact that reconstruction has cost the company a much larger sum than was expected, while the failure of two successive crops had seriously diminished the earning of the road. But, would those who were unacquainted with facts, and who had no interest either in the company or country, and who received no payments for seven years, be willing longer to postpone the enforcement of their just debts, in order to enable the stockholders to save for themselves the ultimate profits that might attach to the ownership of the road. Fortunately for you, the large bondholders, both in this country and Europe, were men, not only of large means, but of large intellects and generous impulses. The result was, they agree to fund, as per contract with Hon. Milton Brown, of February 4th, 1867, all coupons up to, and including November, 1867, in interest arrearage bonds, and that for all coupons on interest and sterling bonds, due in 1868 '69, they will take the sterling bonds at par. This arrangement is of course, based upon the condition that American holders should agree to do the same. The large holders in New York, so far as seen, have readily consented. It will be seen that by this plan we are to resume interest payments on 1st May, 1870, leaving to the company its earnings for two years, with which to discharge the floating debt, nearly all of which has been contracted for account of reconstruction; and thereafter be fully able to meet not only its interest, but provide a sinking fund for the ultimate payment of the bonds, as it would then be able to operate the road with cash, and at a reduced rate, while the increasing prosperity of the country must add largely to your earnings.

The four years of terrible war through which the country has passed, not only involved the entire loss of the earnings of your road, but entailed an absolute expense of nearly four millions of dollars in the destruction of property, while the two succeeding years were marked by an unusual failure of crops, to which may be added, the epidemic of last fall at Mobile. Thus has your enterprise been compelled to struggle at one and almost the same time, with war and pestilence, while famine stood at no very respectful distance.

One gratifying fact has, however, been shown, which is that the road has developed an earning power, which even its most sanguine friends had not supposed.

Loss of earnings by Confederate & State securities, as per report of 1866		$5,228,562 23
Expense of reconstruction		3,872,843 78
Making a total loss by the war		$9,101,506 01

Thus showing a loss of about 65 per cent. of our entire capital; and yet to-day your road, with its equipment and property, could not be replaced with gold, for the amount of our indebtedness and par for the stock, as shown by the following valuation and liabilities of the Mobile and Ohio Railroad Company, April 1st, 1868;

ASSETS.

486 miles of railway and its equipment, comprising 102 locomotives, 42 passenger and baggage cars, 799 freight cars, (and material for 146 freight cars,) with repair shops, water fixtures and depots, value in gold		$15,552,000 00
1,100,000 acres land, rated at original minimum valuation of 10 shillings sterling per acre, £550,000 sterling, or gold		2,684,888 50
Valuation of station and town lots in gold		75,000 00
Total gold valuation		$18,311,888 50

LIABILITIES.

Funded debt—		
Total bonds outstanding	$7,904,021 06	
Arrearages of int.	1,372,900 00	
	$9,276,921 06	
Capital stock—		
Consolidated	$2,532,600 00	
Unconsolidated	737,220 70	
Floating debt—		
Due in currency	$1,223,632 28	14,770,374 04
Excess of assets		$3,541,514 46

It may well be asked, whether any other enterprise in the country can make a stronger showing.

Our relations with all connecting roads are of the most friendly character, and we have been able to establish through tariffs to and from the great cities of both the West and East. The early completion of the St. Louis and Iron Mountain road is a fixed fact, and we may confidently expect to reap advantage from a direct rail communication with St. Louis, especially, during the winter season, from which we have heretofore been shut out by ice. The railroad from Indianapolis to Vincennes is in course of construction, and contracts have been made for its extension from Vincennes to Cairo, which opens to us the rich valley of the Wabash, and gives us a direct rail route to Lake Erie; thus we have in immediate prospect, a connection through St. Louis, with the Great Pacific and Lake Superior, and through Indianapolis with Lake Erie; while by the Illinois Central, we have Lake Michigan. Our commanding position promises indeed a prosperous future. With the country along the line of your road settled, and in full connection with the Great Western Empire, its earnings in the no distant future, must be large.

The financial condition of the company as shown in the general account made up to May 1, 1865, was as follows:

Capital stock		$3,588,299 85
Bonds & State loans	$6,640,805 01	
" paid off	1,303,119 00	5,337,686 01
Sales of lots and donated lands		275,952 38
Transportation	$15,860,896 83	
Less expenses	8,448,107 60	7,412,789 23
Requisitions		66,419 42
Bills payable and change notes		642,656 89
Cars, iron, contracts, etc., balances.		87,900 79
Local balances		226,617 08
		$17,638,321 65

Against which are charged—

Construction		$11,247,563 83
Donated lands, surveys, maps, etc.		27,427 50
Interest on bonds, etc		2,433,974 54
Paducah branch: superstructure..		114,894 08
U. S. bonds and securities	$899,821 56	
Alabama State bonds.	125,000 00	
Due from C. S. Gov.	1,367,278 88	2,392,100 44
Dividend, State tax, etc.		176,785 84
Purchase of cotton		739,829 02
M., G. & T. R. R. bonds.		30,000 00
Negroes for road repair		119,691 00
Due from other roads.		45,665 74
Bills receivable		2,937 65
C. S. taxes		206,493 04
Cash on hand		100,958 97
		$17,638,321 65

The following is a supplemental statement of the receipts and expenditures from May 1, 1865, to December 31, 1866 and 1867:

	1866.	1867.
Capital stock, consolidated	$105,700 00	$174,100 00
Bonds & State loans.	1,419,442 55	2,216,121 06
Lands sold	6,204 11	10,734 19
Transp. receipts	3,855,852 80	6,102,914 77
Bills payable	247,769 88	559,027 58
Sales of cotton	321,105 93	413,288 36
Unpaid balances on mach'y purchased.	239,411 44	173,683 77
Due individuals, etc.	469,209 34	557,439 50
Iron sold	20,074 95	74,539 39
	$6,684,770 50	$10,281,848 62
Construction, old liabilities paid	$59,491 09	$96,479 54
Reconstruction	1,519,259 42	1,905,737 59
Rails and fastenings.	358,312 56	367,312 78
Rolling stock purchased	863,717 62	1,570,095 31
Shop machinery, etc.	90,414 95	120,213 05

Rockford, Rock Island and St. Louis Rail-Road Company.

By act of the Legislature of Illinois, approved February 15th, 1865, the Rockford, Rock Island and St. Louis Rail-Road Company is authorized to construct a line of rail-road from Rockford, in that State, to a point on the Mississippi River opposite St. Louis; also to acquire and own real estate, &c., &c.

The Company propose to construct the line of railway from Rockford, a thriving city situated upon the Rock River, and upon one of the upper lines of the Chicago and North Western Road, to a point on the Mississippi opposite Burlington, a distance, including tracks to mines, &c., of 200 miles, and to prosecute the work as vigorously as may be consistent with a due regard to economy.

A considerable amount of stock subscriptions have already been secured towards the construction of the road and the purchase of coal lands; and a much larger amount can and will be secured, all which will be applied in constructing and equipping the line, and in the purchase of coal lands.

The Company will not commence work on any division of its line until *bona fide* stock subscriptions equal to at least $10,000 per mile shall have been secured, applicable to the construction of such division.

The estimated cost of the line completed in a thorough manner, with not less than 20,000 acres of coal land, is $10,000,000.

This estimate includes equipment and the cost of opening mines, &c.

The Company is organized on the principle or plan of the Delaware, Lackawanna and Western Rail-Road Company, *i. e.*, it proposes to combine with the ordinary operation of a rail-road, the possession of coal land, and the mining, transportating and selling of coal, for the supply of fuel to connecting rail-roads, to steamers plying on the Mississippi River, and to the population of the country within reach of its operations.

For this purpose it has already secured control, by purchase and leases of fifty years' duration, of a large body of very valuable coal lands, lying either contiguous to or near the line of the road, sufficient to furnish full employment to the road for a century or more, and it is proposed to acquire control of still more of such lands.

It is well known that the rail-roads of Illinois and Iowa are obliged to pay a very high price for fuel; and that, in fact, the whole region is almost wholly destitute of timber either for fuel or other purposes. It cannot be doubted, therefore, that this Company can do do a very large and profitable business in supplying the country with an article so much in demand as fuel. It is estimated that the rail-roads connecting with our line, and the country within the reach of its operations, will at once take at least 300,000 tons of coal per annum from this Company, at a profit to the Company, over the cost of mining and transporting the same, of at least $2 per ton; and that this amount will steadily increase.

The coal produced from the fields traversed by this road is equal to the best produced in the State; and a wide region in Illinois, Wisconsin and Iowa can be supplied from our mines at a much less cost than from any other quarter.

It is also true that the region through which the Company's line will pass, from Rockford to Burlington, is one of the finest in the State of Illinois. It has a dense and enterprising population, and is rich in all the products of the soil; it will undoubtedly furnish a very large business to the Company in transportation of passengers, grain, cattle and miscellaneous goods.

The Rock River and its tributaries furnish an immense water power which, when improved, as it soon will be on the completion of this road, will furnish it with a large business.

To provide a portion of the means required for the construction and equipment of the line from Rockford to Burlington and for the purchase of coal lands, the Company has mortgaged its entire line of road, together with all its coal and other lands, its mining rights and entire property of every sort, to the Union Trust Company of New York, to secure the payment of $5,000,000 of bonds, said bonds having fifty years to run, bearing seven per cent. interest, payable semi-annually, 1st of February and 1st of August, in the City of New York, or City of London, at the option of the holder, *free of any government tax.* First coupon payable February 1st, 1869.

Each bond is for $1,000, or for £200 sterling, *and both principle and interest are payable in coin.* The bonds are also convertible into stock, at the option of the holder.

It is the intention of the Company to construct, first and immediately, the portion of the road between Sterling, on the lower line (Dixon Air Line) of the Chicago and North Western Road, to the junction with the Rock Island Road, with tracks to several coal mines already opened and controlled by the Company, giving in the aggregate 50 to 52 miles of road; and it is proposed to issue of the above described bonds, to aid in the construction of said 50 miles of road and in the purchase of coal lands, $1,500,000, and the remainder will be issued as the work proceeds upon the other divisions.

This amount of bonds is offered at 95 per cent. of the par value thereof, payable in currency.

It will observed that these bonds rest not only upon the road, its franchises, &c., &c., but also upon the Company's coal lands. Of these it owns many thousands acres in fee; and it has secured leases and contracts giving the Company all the coal and mining rights, to an amount which will place within the control of the Company from 20,000 to 25,000 acres. These lands, *with the road completed,* will be worth to the Company, at a low estimate, $300 per acre; or, for 20,000 acres, $6,000,000, an amount greater than the whole mortgage.

The earnings of this line of road, traversing as it does one of the finest regions of the West, and giving as short a line from Burlington and intermediate points, over this Company's road and the Chicago and North Western, to Chicago, as any other, it is reasonable to believe wil be equal per mile to those of any line connecting with Chicago. But placing them at only $8,000 per mile, nearly $4,000 less than the average of the Chicago and North western, we shall have gross earnings on 200 miles of road, $1,600,000 per annum. Allowing 60 per cent. for operating expenses, which, considering that the Company will furnish its own fuel at only the cost of mining, is very high, we shall have net earnings of $640,000. The interest on $5,000,000 of coin bonds at seven per cent. and with gold at forty per cent. premium, is $490,000. This sum taken from $640,000, leaves $150,000 for the stock-holders.

But in this estimate we have taken no account of coal. The Engineer of the Company estimates that the lands controlled by the Company contain 100,000,000 tons of coal, and that the Company can mine and find a market for 1,000,000 tons per annum for a century to come.

Estimating, however, at only 300,000 tons, at a profit of $2 per ton, which is doubtless far within the true figure, we have an addition of net earnings from this source alone of $600,000, per annum, which, with the $150,000 surplus, as above shown, gives, applicable to stock, over and above coin interest on bonds, $750,000, or 15 per cent.

N. B.—Nearly one-half of the Division now under construction is graded and ready for the superstructure.

The Bonds are for sale at the office of the Company, 12 Wall Street, N. Y.

☞ H. F. Royce has been appointed Assistant Superintendent of the Western Division of the Chicago, Rock Island and Pacific Railroad between Des Moines and Council Bluffs, with headquarters at Des Moines.

Walkill Valley Railroad.

The following is a copy of an act passed by the New York Legislature on the 24th of April 1868, to amend an act incorporating the Walkill Valley Railroad Company, by authorizing said corporation to extend its road to Kingston, Ulster County, and (Sections 2 to 12 inclusive, omitted,) to authorize certain towns in Ulster County to issue bonds to aid in the construction of said road.

SECTION 1. The Walkill Valley Railroad Company is hereby authorized to extend their road, with a single or double track, from its northern terminus, in the town of New Paltz, to Kingston, Ulster County; and all the sections of the general railroad law, authorizing the formation of railroad corporations, and all the amendments thereto in relation to acquiring the title to land for railroad purposes, are hereby made a part of this act, and the Walkill Valley Railroad Company is hereby authorized at any time to proceed, under said sections, to acquire and hold any real estate that may be necessary for the construction and use of their road, for a single or double track, with all necessary turnouts, depots, storehouses, machine shops, or other buildings, as provided in said sections of the general railroad act, and the several acts amendatory thereto.

SEC. 13. The Walkill Valley Railroad Company is authorized to connect its road with or intersect any railroad now in operation, or which may hereafter be constructed in the State of New Jersey, including the Erie Railroad, or any portion thereof, or any railroad or bridge company, now in operation or constructed, or which may be hereafter constructed, or terminate between New Jersey and Kingston, Ulster County, upon such terms as shall be agreed upon and approved by a vote of two-thirds of the directors of the several corporations interested.

SEC. 14. The Walkill Valley Railroad Company is hereby authorized to use an iron rail, on their said road, that shall not weigh less than fifty pounds to the lineal yard.

SEC. 15. The directors of the Walkill Valley Railroad Company shall have the power, by a vote of a majority, to increase the capital stock of said company, from time to time, as circumstances may require, to a sum not to exceed two millions of dollars.

SEC. 16. This act shall take effect immediately.

Western Union Telegraph.

The Western Union Telegraph Company, at their recent half yearly meeting, presented the following statement of revenue and expenses for six months, ending July 1, 1868:

	Gross Receipts.	Current Expenses.	Net Profit.
January.....	$539,894	$366,447	$173,347
February	600,183	345,855	254,328
March	587,962	335,947	252,015
April.....	602,257	356,349	245,908
May estimated	575,000	350,000	225,000
June do.	550,000	350,000	200,000
Total...	$3,455,196	$2,104,598	$1,350,598

Of which has been appropriated for construction, six months, to June 30, (two months estimated)....	$135,564	
Purchase of telegraph stocks.	42,587	
Sinking fund, six months, at $20,000 per month.....	120,000	
Interest on bonds, six months.	171,000	
Purchase of real estate..... ...	3,011	
		472,162
Balance of net profits for the six mos., over all expenses, available for July dividend....		$878,436

The net earnings for the six months ending Jan. 1, 1868, were mainly appropriated in payment of bonds maturing in 1867, as per statement published in January, 1868.

American Railroad Journal.

Saturday, July 4, 1868.

Stock Exchange and Money Market.

There has been a little more activity in Money, since our last, but under the influence of a very liberal offering, and in view of the impending heavy interest and dividend disbursements, rates have been quite steady and easy for responsible borrowers at from 3@5 per cent. on call, and 4@6 per cent. per annum in the discount line. The speculative demand has been the main source of custom for lenders, who have promptly met all applications of the established street firms within our range. There has not been anything like a noticeable mercantile inquiry. Prime business paper has been scarce and wanted. Some drain of currency westward, for use chiefly in the wool growing regions, has been mentioned, but it has been of little significance. The city banks have made a further addition of over 1¼ millions to their legal tender reserve, and nearly three millions to their deposit averages. Their specie hoard has been diminished 1⅜ millions. Their loans have been augmented some 2⅜ millions. The U. S. Sub-Treasury disbursed, during the week, about 1¾ millions more than it received. Thus far in the current week, the receipts of the office have been far lighter than its payments, the latter, especially on account of interest on the public debt, having been of extraordinary magnitude. The office held on Tuesday of this week a cash balance full 6½ millions under that of the preceding Tuesday.

The specie reserve of the city banks is now $7,753,300, against $7,768,996 same time last year. The city bank deposits are now $214,302,207, against $186,213,257 week ending June 29, 1867. The legal tender reserve amounts to $72,567,582, against $62,816,192 same time last year. The circulation now stands at $34,048,721, against $33,542,560 same time last year. The loans are now $276,504,036, against $242,547,954 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $86,121,000 a day, against a daily average of $92,330,636 the preceding week, and $88,400,000 the week ending with June 13, 1868. The current week's exchanges average about $101,000,000 a day. The city banks, last week, gained $1,285,721 of legal tender, and $2,817,820 in the deposit line, while they lost $1,371,530 of their specie reserve. They increased their loans, $1,021,416; and reduced their circulation, $70,399.

The Philadelphia Bank movement the past week shows a decrease in loans of $308,942; an increase of $15,852 in specie; an increase in legal tenders of $421,732; an increase of $464,791 in deposits; and a decrease of $913 in circulation. The Bank Clearings show a decrease of $4,713,223, and the balances, a decrease of $457,039.

The New York Gold Exchange Bank reports for the week ending Saturday, the 27th day of June, 1868, the average amount of loans and discounts as $916,304; average amount of specie, $200,160; average amount of deposits, $749,107.

The U. S. Sub-Treasury receipts, week ending with June 27, were $12,694,791, including $1,598,059 from customs duties; payments, $14,428,298, including $203,000 of coin interest; balance at the close of the week, $93,902,718, against $95,636,220, at the close of the preceding week, showing a decrease of $1,733,502. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $4,189,976 including $322,287 from customs; and payments, $3,936,035; on Tuesday, receipts, $1,054,078 including $339,003 from customs, and payments, $6,085,075. The balance at the close of business on Tuesday stood at $89,125,661, against $95,710,617, a week previous; and $94,579,204 on June 16, 1868. The aggregate receipts of the office from all sources in June, were $87,512,859; aggregate payments, $93,065,184. The balance on the 1st inst., was over 5½ millions below that on the 1st ult., which amounted to $94,677,986.

The coin certificates issued by the Sub-Treasury office, during June, reached $3,543,860.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $1,004,000.

National Bank notes to the amount of $99,-

170 were issued last week, making the total issue to 1,673 banks thus far, $308,582,051, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $8,608,146, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,973,905. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,621,900; and for the public deposits, $38,477,956—making a total of $380,099,856. The Treasury Department last week redeemed and destroyed $409,100 of worn and mutilated fractional currency, and issued $757,490 of new. The outstanding amount of fractional currency on the 1st of June was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been comparatively light, in all forms, since our last. The Customs are usually low in yield at this season of the year. The excises are exceptionally moderate. The excises, last week, yielded some 2½ millions; customs at the port of New York, $1,598,059, and at the outports about $550,000 (in coin) more, making the grand total income for the week equal to about $5,510,000 in currency. The total receipts of the National Treasury, from excises, thus far in the new fiscal year, which began on the 1st of July, have been about $189,000,000.

Gold has been remarkably uniform in price, most of the week, the extremes having been 140 @140½, and the latest quotations on Wednesday were 140⅛@140¼. The speculation has been wholly free from excitement, and even vigor. The offerings have been more liberal. They were particularly heavy on Tuesday and Wednesday of this week, partly in the form of July coupons on the U. S. Sixes of 1881, the consolidated Five-twenties, the Central, and the Union Pacific R. R. First Mortgage bonds, most of which coin interest collections were speedily marketed at the offices of the leading private banking firms on Wall and Nassau street, and a considerable part of the proceeds re-invested in the securities, whence this coin income was derived. The export demand has been fair. It absorbed a million and a half on Tuesday and Wednesday. The Customs inquiry has been light. The Customs at the port in June were $8,206,097, against $8,040,114 in June of last year, showing a slight increase this year.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $3,903,296, against $1,554,989 same time last year. The customs demand for Gold last week, averaged $266,343 a day; thus far, this week, it has been equal to $330,645 a day, or equal to a weekly aggregate of $1,983,870. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $354,115 and from California, $118,108. The total customs revenue of the Government, in coin, at this port, thus far, in the current fiscal year, commencing with July 1, 1867, has been $113,451,084, against $122,667,016 same time in the preceding fiscal year. The total receipts of California gold at this port, thus far, in the current fiscal year, commencing with July 1, 1867, have been $35,928,720, against $38,838,762 same time in the preceding fiscal year, showing a decrease of $1,140,098 in 1867–'68. The exports of specie from this port, last week, were $2,530,134, against $1,140,098 same week last year. The exports of specie, hence, since July 1, 1867, have been $75,409,749, against $41,871,932 same time in 1866–'7. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $203,000, and since July 1, 1867, $73,428,637, against $54,218,392 same time in 1866–'7. The specie exports from San Francisco, from Jan. 1, to June 13, 1868, were $18,305,640, against $18,080,059 same time last year.

Government received $3,601,638 from customs at the port of San Francisco, from Jan. 1, to June 13, against $3,088,008 same time last year.

Government disbursed $1,779,749 of coin interest through the local office, in June.

The foreign exchange market has shown a little more firmness and buoyancy, this week, on a somewhat livelier demand, chiefly from parties having remittances to make, partly of interest collections on the funded debt of the country. Bankers' prime sixty day bills on London closed on Wednesday at 110@110⅜, and on Paris to 5.11c.@5.11⅞; sight bills on London to 110⅛@110¾, and on Paris to 5.11¼c.@5.10. The offering of produce bills has been fair this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,113,799, against $3,541,893 same week last year; total, since July 1, 1867, $177,331,682, against $192,469,326 same time in 1866–'67.

Government securities has been less active, as a rule, and a fraction cheaper in price. There has been very little speculative call. The main inquiry has been from investment sources, and for the later issues of the Five-twenty bonds. The very significant vote in the House of Representatives on Monday, in favor of a proposition to tax the interest on the public debt, at the rate of 10 per cent., or equal to nearly ⅝ of one per cent. on the principal, tended to check the demand, as it unquestionably operated against the public credit home, and is very apt to be more gravely felt by our funded obligations in foreign markets. But it is confidently believed by leading street houses that the proposition will fail to be enacted into a law, the project being regarded mainly in the light of a speculative scheme, with an ulterior political effect.

U. S. sixes of 1881 closed here on Wednesday (ex July 1, coupon,) at 113¼@113½; U.S. Five-twenties of 1862, 113@113⅛; U. S. Five-twenties of 1864 at 110⅜@110¾; U. S. Five-twenties of 1865 at 111@111⅛; U. S. Five-twenties of 1865, consolidated, 109¼@109⅜; U. S. Five-twenties of 1867, 109¼@109⅜; U. S. Five-twenties of 1868, 109¼@109⅜; U. S. Ten-forties at 107@107⅛, and U. S. Seven-thirties at 109⅛@109¾; U. S. Six per cent. currency bonds, 102¾@103. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865....118½	October, 1865....117½
September, 1865..118	

U. S. three per cent. certificates 100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 17.	June 24.	July 1.
Consols.....	94⅞	94⅞	94⅞
U.S. 5-20's of 1862....	73	73⅜	73¼
Erie.....	45½	45⅝	45½
Ill. Central.....	99¾	101⅜	101½

Railway and miscellaneous securities have been more variable in price, on a more active market. The general tendency of values has been against the operators for a rise. The renewal of litigation in the Erie interest has tended to disturb confidence, yet the later dealings indicated a fair measure of animation, with some buoyancy in prices.

It has been officially announced that an additional section of twenty miles has been accepted by the Government Commissioners, upon the Union Pacific Railroad, making a total distance of 660 miles of the road now in actual operation. The work of construction is being pushed forward very vigorously. The first mortgage bonds of the company are meeting with a ready sale in this market at the advanced price of 103 per cent., at which rate the bonds yield interest at the rate of nearly 5.90 per cent. per annum, in coin, or with gold at 140, equal to about 8¼ per cent. per annum in currency.

Domestic produce has been generally in light demand at lower prices, since our last, the main exception having been Cotton, which has been more active and much firmer. Middling upland cotton closed buoyantly on Wednesday at 31½ cents, per lb. The stock of cotton now here is estimated at about 55,000 bales. The receipts at the port this week, have averaged only about 1,300 bales a day. The receipts at all the ports since Sept. 1, 1867, have been 2,161,000 bales, against 1,819,000 bales same time last year; exports, same time 1,669,000 bales, against 1,445,000 bales same time last year; stock on hand at latest dates, 115,000 bales, against 225,000 bales same date last year. At the Live Stock markets, this week, Beeves have been in moderate demand at from 11@16¾c. per lb.; week's receipts, 6,892. Veal calves have been in request, at from 7@12c. per lb.; receipts, 2,177. Sheep and lambs have been rather more sought after, at from 5@7½c., and 9½@12½, respectively, per lb.; receipts, 20,637. Swine have been less freely dealt in at from 8@9¼c. per lb.; receipts, 19,557. Foreign merchandise has been in quite moderate request, but quoted generally firm. The total imports of foreign dry goods, last week, were $1,123,989, and the total amount marketed $912,382. The value of foreign merchandise imported last week, was $4,139,840—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $5,263,829, against $4,371,547, same week last year; total since July 1, 1867, $237,392,667, against $268,320,436 same time in 1866–'67. The freight market has shown more activity, and has been quoted stronger, chiefly in the cotton and breadstuffs lines. For Liverpool we quote flour at 1s. 4½d. by sail, and 1s. 9d. by steamer, per bbl.; grain at 4d.@4½ by sail, and 5½@6d. by steamer, per bushel; cotton at $\frac{3}{16}$@¼d. by sail, and ¼d. by steamer, per lb.; and heavy goods at 10s.@25s. by sail, and 15s.@30s. steamer, per ton. Total number of vessels in port on Wednesday 504.

The New York exports, exclusive of specie, for the week ending June 30, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week.....	$3,541,893	$3,113,799
Prev. reported.....	94,235,796	83,074,998
Since January 1.....	$97,777,689	$86,188,797

The imports for the week ending June 27th, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$1,138,165	$1,123,989
Gen. merchandise.....	3,233,382	4,139,840
Total for the week.....	$4,371,547	$5,263,829
Previously reported....	124,193,508	115,482,108
Since January 1.....	$128,565,055	$120,745,937

The balance in the Sub-Treasury on Wednesday was $89,527,920 75.

Saginaw and Port Huron Railroad.

This company has been fully organized, and the following directors elected: Charles K. Robinson, James L. Ketchum, Joseph E. Shaw, Jefferson E. Bundy, Franklin P. Sears, Chas. H. Morley, Michael Jefferson, Wellington N. Burt, East Saginaw; David G. Slafter, Tuscola; J. G. Hubinger, Frankemuth, Saginaw County. The road will be fifty miles in length, and will pass through the Counties of Saginaw, Tuscola, Lapeer and St. Clair.

Sioux City and Pacific Railroad.

Work on the line of the extension of this road between De Soto and Tremont, in Nebraska, has been commenced. W. W. Walker, of Cedar Rapids, Iowa, has general charge of the work as Superintendent and Chief Engineer of the company, with L. Burnett, as Superintendent of construction. Douglas, Brown & Co., also of Cedar Rapids, have the contract for grading. The distance is about 35 miles, which finishes the Sioux City Branch of the Pacific, and gives the Cedar Rapids and Missouri River road a connection direct with the main line of the Pacific at Fremont, west of Omaha, on the Platte River.

☞ We give elsewhere the report of the committee of the New Orleans, Opelousas and Great Western Railroad Company, appointed to present a statement of the condition of the affairs of the company; together with the proposals for leasing and completing the road from its present terminus, at Berwick's Bay, to the Sabine River.

☞ The following gentlemen have been elected directors of the Morris and Essex Railroad for the ensuing year, viz: Messrs. Theo. F. Randolph, Beach Vanderpool, Robert Hamilton, Edwin A. Stevens, Asa Packer, Edward H. Wright, Francis S. Lathrop, Aaron Robertson, J. Couper Lord, Charles A. Lighthipe, George Opdyke, Wm. H. Shippen and George Bliss.

☞ The prior liens of the City of Baltimore and Washington Co., Md., upon the Western Maryland Railroad have both been waived in favor of a mortgage or mortgages to be executed by said Company to an amount not exceeding six hundred thousand dollars.

☞ The contract for building the Belfast and Moosehead Lake Railroad in Maine has been awarded to Messrs. Willson, Tennant, Hogan & Co., of Canada, at the rate of $25,900 per mile. The work will be commenced immediately.

☞ Cars have been recently run over a portion of the European and North American Railway near Bangor.

Railroad Earnings.—Weekly.

The earnings of the Detroit and Milwaukee Railroad for the third week in June, 1868, were $31,800 24
Corresponding week of 1867 ..... 33,821 54

Decrease $2,021 30

The earnings of the Toledo, Wabash and Western Railroad for the third week of June, 1868, were $70,608 86
Same week in 1867 ..... 69,636 78

Increase $972 08

The earnings of the Atlantic and Great Western Railway for the third week in June, 1868, were $92,043 00
Corresponding week previous year ... 90,825 00

Increase $1,218 00

The earnings of the Western Union Railroad for the 3d week in June, 1868 ..... $18,208 72
Corresponding week previous year 14,340 11

Increase $3,868 61

The earnings of the Chicago and Alton Railroad for the 3d week in June, 1868 .. $115,787 40
Corresponding period previous year . 83,440 79

Increase $32,346 61

The earnings of the Michigan Central Railroad for the 3d week in June, 1868, were... $66,660 00
Corresponding week of previous year.. 59,113 00

Increase $7,547 00

The earnings of the Marietta and Cincinnati Railroad the 3d week in June, 1868.. $17,737 00
Corresponding week previous year 21,446 00

Decrease $4,709 00

Stony Brook Railroad.

At the recent annual meeting of the stockholders of this company at Lowell, Mass., the following gentlemen were unanimously chosen directors: John W. P. Abbot, William A. Burke, Benjamin F. Clark, James B. Francis, Sewell G. Mack, S. W. Stickney, John Wright. The board at once organized by the choice of J. W. P. Abbot, as President, and S. W. Stickney, as Clerk and Treasurer. The two acts passed by the recent Legislature, viz: the act allowing the Stony Brook Railroad to hold its meetings at Lowell, and the act to allow the road to extend its lease to the Boston and Lowell road until 1890, were both accepted unanimously.

☞ The directors of the New York and Oswego Midland Railroad having let the contracts for grading, masonry, and bridging from Sidney Plains, Delaware County, to Oswego, are now advertising for proposals for the Eastern Division, from Middletown to Westfield Flats, in Sullivan Co., including a tunnel 3,000 feet in length, the contracts for which will be let on the 25th of July.

☞ Russell Houston, Esq., has been elected President of the Louisville and Nashville R. R. Co., vice Hon. James Guthrie, resigned.

☞ Hon. A. G. Angle has been re elected President of the St. Louis and Cedar Rapids Railroad.

☞ John W. Van Valkenburgh has been appointed Superintendent of the Albany and Susquehanna Railroad.

☞ E. L. DuBarry, Esq., has been appointed Assistant Superintendent of the Susquehanna Division of the Northern Central Railway.

Journal of Railroad Law.

WHEN LIABILITY OF RAILROAD, AS COMMON CARRIER OF PASSENGERS CEASES—WHAT IS REASONABLE TIME WITHIN WHICH PASSENGERS MAY LEAVE A CAR.

The facts in the recent case of Imhoff *vs.* The Chicago and Milwaukee R. R. Co., (20 Wis., 344,) were, that the plaintiff, a passenger on the defendant's road, while getting off the cars, after their arrival at Milwaukee, which was about one o'clock at night, was thrown down by the motion of the train, which had commenced backing, and received severe personal injuries. This action was brought to recover damages.

The following is the able opinion of the Court:

DOWNER, J.—At the trial, the following instructions given to the jury at the request of the respondent's counsel were excepted to by the appellant:

1. "If both parties were guilty of negligence, and the negligence of each party was the proximate cause of the injury, the plaintiff cannot recover; but if the negligence of the railroad company, the defendant, was proximate—that is, negligence occurring at the time the injury happened, and that of the plaintiff was remote, then the plaintiff may recover."

2. "If the jury find from the evidence, that ordinary and reasonable care and attention to the safety of the passengers on the train arriving in Milwaukee at one o'clock in the morning, required that, before backing up the train and putting it away, the company should see to it by examination of the passenger cars, that the passengers were all out, and that this was not done on the night when the plaintiff was injured, then the defendant was guilty of negligence; and if the injury to the plaintiff was occasioned by backing the train without such examination occur, the defendant is liable, unless the jury should also find that the plaintiff also was guilty of negligence, which contributed to produce the injury."

Each of these instructions assumes that at the time of the accident the contract of common carrier between the plaintiff and defendant was in force. Whether it was or not, was a severely contested point. It is error for the Court to assume a fact which the jury ought to determine. It is true, the Court afterwards when asked by the defendant's counsel, instructed the jury, "That if the jury believe from the evidence that the train had arrived at the end of the route, and that a reasonable time had elapsed for the plaintiff to get out of the cars after their arrival before the injury to the plaintiff occurred, then the relation of common carrier between the parties had ceased, and the defendant cannot be held liable for the injury as a common carrier of passengers." The giving of this instruction did not cure the error in the others. Where erroneous instructions are given for one party, the error is not corrected by giving for the other party instructions explanatory inconsistent with, or contradictory to those first given. The erroneous instructions should be withdrawn from the jury. Jones *vs.* Talbot, 4 Mo., 279; Hickman *vs.* Griffin, 6 Mo.-37; Clay *vs.* Miller, 3, Mon., 146. There may be an exception to this rule, where it is clear to the Court that the erroneous instruction did not mislead the jury.

But in this case, the erroneous instructions being given, the jury might have considered the first, and if they found those facts on the finding of which they were told by that instruction, the plaintiff was entitled to recover they might well have concluded they were not bound to examine further, except as to the amount of damages. The same may be said of the second instruction given: for each professes to give all the facts necessary for the jury to find to entitle the plaintiff to recover. And all such facts should be stated in every hypothetical instruction, which disposes of the entire case in favor of one party, or the other. For the error in such instruction is not ordinarily corrected by giving other instructions based upon the omitted facts. According to the instructions in this case, if the jury had found the facts set out in either of the plaintiff's instructions they must find for him, and if they found the facts stated in the instruction given at the request of the defendant, they must find for him. They might have found from the evidence the facts mentioned in all three of the instructions. It is obvious the two first instructions tended to mislead the jury, and to divert their attention from some of the facts on which their verdict ought to rest. And for this reason the judgment of the Circuit Court must be reversed.

It appears to us, that when the train arrived at Milwaukee and the plaintiff knew it, and a reasonable time had elapsed thereafter for her to get off the cars, the relation of common carrier ceased, and a reasonable time is the time within which persons of ordinary care and prudence under like circumstances get off the cars.

By the Court.—The order of the Circuit Court is reversed, and a *venire de novo* awarded.

Cedar Rapids and Burlington Railroad.

From the report of the Chief Engineer, which was presented at the recent annual meeting of the stockholders of this company at Burlington, Iowa, it appears that the right of way has been obtained for a distance of 80 miles north from Burlington, and the following contracts let: To grade, tie and bridge the road from Burlington to Wapello, a distance of 29 miles, to be completed next August; to grade and bridge from Wapello to Iowa River, 12 miles, grading to be completed by December 31, 1868. The cost of grading, tieing and bridging the entire line to the junction with the Northwestern road is estimated at $486,179, including the bridge over the Iowa River, which will cost $45,000. There has been expended the past year, $31,088 for engineering, right of way, construction, account, etc. The average cost for the right of way has been about $225 a mile in Des Moines County, the property owners in many cases granting the right of way free thus far.

The enterprise is in a prosperous and satisfactory condition. The work is being vigorously prosecuted, and will be pushed to an early completion.

☞ At a recent meeting of the directors of the Peoria and Rock Island Railroad, it was unanimously decided that the road be located by Princeville, Toulon and Galva, and resolutions were adopted authorizing estimates and contracts for grading, bridging, and securing right of way. The road will be 90 miles in length, and the estimated cost $2,031,169. Subscriptions, including right of way, now amount to $658,500.

20,000 MOBILE AND OHIO RAILROAD Sterling Bonds for sale low.
L. S. LAWRENCE & CO.,
164 Nassau Street, N. Y.

To Tunnel Contractors.

THE Commissioners of the Troy and Greenfield Railroad and Hoosac Tunnel, acting for the State of Massachusetts, invite proposals until the 12th day of August next, for completing said Tunnel, either in separate contracts for three different sections of the work, or in one contract for the whole.

The Tunnel when completed will be 4¼ miles long.

From the **East End** the mountain has been penetrated about one mile, and for a portion of that distance the section has been enlarged to the full width of 24 and height of 20 feet. The enlargement is required to be finished, and working continued westward.

The **Central Shaft,** 27 by 15 feet, has been sunk 583 feet, and remains to be sunk 447 feet to grade; and the Tunnel is to be driven in each direction therefrom.

The **West Shaft Workings,** located about half a mile from the west portal, embrace two auxiliary shafts used mainly for pumping and ventilation, and the headings driven in each direction make an aggregate length of about 2300 feet.

The depth of the west shaft to grade is 318 feet.

The **West End,** where arching is required, is already under contract to a point about 930 feet from portal, and from this point a draining drift is to be run eastward to meet workings from west shaft, which will obviate the necessity of pumping probably by the close of the present year.

The existing buildings, and fixed machinery provided by the State for hoisting, pumping, ventilation, and supply of compressed air to the drilling machines, now successfully operating in the rapid advance of the work, will be turned over to the contractors as they are.

A sufficient appropriation has been made by the State for the completion of the whole work.

Ample sureties will be required from parties who may be contracted with, and the Governor and Council reserve the right to reject all offers that may be made.

Plans may be seen, and specifications obtained, on application to B. D. FROST, Superintending Engineer, at the Engineers' Office in North Adams, Mass., or to B. H. LATROBE, Consulting Engineer, at his office, 49 Lovington street, Baltimore, Md. Specifications and other information may be had at the State House, in Boston, from TAPPAN WENTWORTH, Commissioner, to whom proposals will be addressed

ALVAH CROCKER,
TAPPAN WENTWORTH,
S. W. BOWERMAN,
} Commissioners.

PROPOSALS.

NOTICE TO RAILROAD CONTRACTORS.

OFFICE OF THE NEW YORK AND OSWEGO MIDLAND RAILROAD COMPANY,
ONEIDA, N. Y., June 9th, 1868.

SEALED PROPOSALS WILL BE RECEIVED AT the office of the Company, in Oneida, N. Y., until the 25th day of July, 1868, at noon, for the Grading, Masonry and Bridging of that portion of the New York and Oswego Midland Railroad extending from Middletown, Orange County, to Westfield Flats, in Sullivan County, *via* Phillipsport, Liberty, and intermediate towns; also, including the Branch from the Main Line to Ellenville. The above work will include a Tunnel of about three thousand (3,000) feet in length, through the Shawangunk Mountain, for which separate proposals are invited.

The line will be divided into Sections, of convenient length, and Proposals may be made for separate Sections or for the entire work. The Company will entertain separate proposals for Bridging only. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Middletown, N. Y., where all necessary information may be obtained, on and after the 15th day of July, 1868.

Sealed Proposals will also be received at the office of the Company, in Oneida, N. Y., until the 30th day of July, 1868, at noon, for the Grading, Masonry, and Bridging of the New Berlin Branch, in Chenango County, extending from the Main Line, at East Guilford, to New Berlin, a distance of 22 miles. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Oneida, N. Y., where all the necessary information may be obtained, on and after the 23d day of July, 1868.

D. C. LITTLEJOHN, President.
W. B. GILBERT, Chief Engineer.

SPECIFICATIONS
FOR
PROPOSALS.

OFFICE NEW ORLEANS, OPELOUSAS AND GREAT WESTERN RAILROAD COMPANY.
New Orleans, June 6th, 1868.

The New Orleans, Opelousas and Great Western Railroad Company desiring that a connection shall be formed between their present terminus at Berwick's Bay, and the Houston and New Orleans Railroad, which terminates at the Sabine River, and which when completed, the (distance being 163 miles,) will connect New Orleans with almost the entire railroad system of Texas, the President and Directors of said Company, therefore propose to such party or parties as may undertake to fill up such gap, the following terms and conditions, to wit:

1. Will lease the right of way and the franchises now possessed by said company from their present terminus at Berwick's Bay to the town of Vermillionville, the grading of which is almost entirely completed for these 63 miles, and will, at the same time, lease the right under their charter to build the branch railroad from Vermilionville to the Sabine River, at or near Orange, the same having been already located by resolution of the Board of Directors. The distance between these points is 100 miles. The Company reserving to itself the right of way and transportation on payment of proportionate freights and passage money from the present terminus of the road to any extension towards Opelousas, of its road beyond Vermillionville.

2. The said lease to continue for a term of years to be agreed upon between the Company and the Lessees. At the end of the lease the property to be valued by disinterested parties, the Railroad Company to select three, and the Lessees three, the two, if need be, to call in an umpire whose decision will be final. The Railroad Company reserving the right to purchase said property at such valuation, but if not then promptly paid for by said Company, the lease to be extended for a further term of years, and so on, until finally purchased and paid for by said New Orleans, Opelousas and Great Western Railroad Company. The grading already made between Berwick's Bay and Vermillionville, to be valued by competent engineers at the time of entering into a contract, but not to be paid for by lessees until the end of the first lease, herein provided for.

3. The parties leasing to obligate themselves to connect with no other railroad which might hereafter be built, terminating at or near the City of New Orleans, and further obligating themselves to do no act which will infringe the rights under the present charter of said Company, and also to hold said company harmless against any loss which might result from acts committed on that portion of road now proposed to be leased.

4. Should the Lessees succeed in obtaining a land grant on the line of railroad beyond Berwick's Bay, it will be and remain the property of said lessees, this Company claiming none of its benefits, and incurring no portion of the responsibility attending it.

5. Transportation to be furnished said Lessees over the Company's road, as follows, viz:

The President, Directors and officers of the road, including engineers, superintendents, road masters and bridge builders free of charge. Transportation of laborers going out to be charged one-third the regular fare. Provisions and supplies to be charged one half of regular rates. Material, other than iron and cross-ties, to be charged one half of regular rates. Iron to be charged one dollar per ton, and cross-ties (if any) fifteen cents each. Lessees to load and unload the cars.

6. The road thus to be built shall be a first class railroad in every respect. The gauge to be the same as the Company's road—say 5 feet 6 inches. The iron used not to be less than 58 lbs. per yard.

7. The said Lessees to obligate themselves to commence said road within four months, and have it finished and in running order to the Sabine River, connecting with the Houston road at or near Orange, within three years from date of signing the lease.

8. In order to ensure the faithful performance of the contract the Lessee will be required to execute a bond to an amount, and with good and satisfactory security to the satisfaction of the Board of Directors.

9. The Company reserves the right to reject any and all bids.

Another proposition and for which proposals are also invited, is to lease the road, including depots, stations, rolling stock, etc., from Algiers, opposite New Orleans, to Brashear City, including the franchises of the Company beyond to Texas, under the following conditions:

1. That the party or parties proposing to lease shall state the least number of years he or they will lease the road, on the following conditions:

2. The accrued interest to October the 1st, 1868, on the mortgage bonds, (said bonds maturing in 1889,) to be provided for by the lessee.

3. The semi-annual interest on same bonds, accruing yearly after date, and payable on the first days of April and October of each year, say $160,000 per annum, to be also provided for by said lessee.

4. The road to be built over the route from Berwick's Bay to New Iberia, thence to a point at or near Vermillionville, thence in a westerly direction to a point on the Sabine River, connecting with the Houston and Beaumont road.

5. The building of the road to be commenced within four months after signing the contract of lease, to be prosecuted with all dispatch, and to be fully and finally constructed within three years from the signing of the lease.

6. The grading, culverts, etc., now made beyond Berwick's Bay, to be taken by the Lessee at a valuation to be ascertained by experts, one to be appointed by each party, in case of disagreement they to select an umpire, and to be paid for on such terms as shall be hereafter agreed on.

7. The road to be built, equipped and maintained during the entire lease as a first class road in every respect.

8. At the close of said lease, the said road, depots, stations, rolling stock, etc., from Berwick's Bay to the Texas line, shall be valued by experts, one to be appointed by each of the parties thereto, and in the event of disagreement, the two to select an umpire, whose decision shall be final. The value thereof thus ascertained shall be subscribed as stock in the present Company, it being well understood that all costs of maintenance, as well as expenses of operating the road, shall be at the exclusive charge of the Lessees.

9. The contract with Charles Morgon for running a line of steamers to Texas, extending to 1871, to be carried out by the Lessee in every respect.

10. The present road to Berwick's Bay, including depots, machine shops, rolling stock, bridges, etc., to be turned over to the Lessee after inventory and appraisement, and the said property, or property of like character and value, and like condition and good order, to be returned to the company at the expiration of said lease.

11. The Lessees, to ensure the faithful performance of the contract, to furnish security to the satisfaction of Board of Directors.

12. The said Lessees shall contribute and pay each year the sum of $5000, payable quarterly, to keep up and maintain the organization of the Railroad Company during the existence of this lease.

13. The said Lessees obligate themselves to do no act which may operate a forfeiture of the charter, and shall hold the said N. O., O. and G. W. R. R. Co. harmless against any and all acts of theirs.

Sealed proposals will be received at the office of the Company in New Orleans, No. 69 Canal street, until the first day of September next, at 12 o'clock, M., the Company reserving the right of rejecting any or all bids.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 5th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor. THOMAS E. WALKER, Treasurer.

PENNSYLVANIA RAILROAD COMPANY, Treasurer's Department. PHILADELPHIA, May 2, 1868.

NOTICE TO STOCKHOLDERS.—The Board of Directors have this day declared a semi-annual dividend of THREE PER CENT. on the Capital Stock of the Company, payable in cash, clear of National and State taxes, and a further dividend of FIVE PER CENT., payable in Stock, on and after May 30.

Blank powers of attorney for collecting dividends may be obtained at the office of the Company, No. 238 South Third Street. THOMAS T. FIRTH, Treasurer.
8t21

OFFICE PENNSYLVANIA RAILROAD COMPANY, Philadelphia May 13th, 1868.

Notice to Stockholders.—In pursuance of resolutions adopted by the Board of Directors at a stated meeting held this day, notice is hereby given to the Stockholders of this Company, that they will have the privilege of subscribing, either directly or by substitution under such rules as may be prescribed therefor, for Twenty-five per cent. of additional Stock at par, in proportion to their respective interests as they stand registered on the books of the Company, May 20th, 1868.

Holders of less than four Shares will be entitled to subscribe for a full share, and those holding more shares than a multiple of four shares will be entitled to an additional share.

Subscriptions to the new Stock will be received on and after May 30th, 1868, and the privilege of subscribing will cease on the 30th day of July, 1868.

The instalments on account of the new shares shall be paid in cash, as follows:

1st. Twenty-five per cent. at the time of subscription, on or before the 30th day of July, 1868.

2d. Twenty-five per cent. on or before the 15th day of December, 1868.

3d. Twenty-five per cent. on or before the 15th day of June, 1869.

4th. Twenty-five per cent. on or before the 15th day of December, 1869, or if Stockholders should prefer the whole amount may be paid up at once, or any remaining instalments may be paid in full at the time of the payment of the second or third instalment, and each instalment paid up shall be entitled to a pro rata dividend that may be declared on full Shares. THOMAS T. FIRTH, Treasurer.

A. WHITNEY & SONS CAR WHEEL WORKS,

Callowhill & Sixteenth Sts.,

PHILADELPHIA, PENN.,

FURNISH CHILLED WHEELS for Cars, Trucks, and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES. WHEELS and AXLES FITTED COMPLETE.

660 MILES

OF THE

UNION PACIFIC RAILROAD

Are now finished and in operation. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—**A Government Grant** of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—**A Government Grant** of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—**A Government Grant** of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c.

IV.—**A Government Grant** of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class Railroad.

V.—**A Capital Stock Subscription** from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—**Net Cash Earnings** on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds

upon such a property, costing nearly three times their amount,

Are Secure beyond any Contingency.

The Union Pacific bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annnal interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is **102**, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that at the present price these bonds, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall St.,

And by leading Bankers generally throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

Safety Railroad Switch.

MAIN TRACK UNBROKEN.

I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the *MAIN TRACK IS NEVER BROKEN*, and it is impossible for any accident to occur from the misplacement of switches.

The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns *The Life and Limb of all Travelers upon Railroads.*

I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

MANUFACTURERS OF MONTIGNANI'S PATENT

RAILROAD SCREW SPIKE.

HENRY YOUNG, President.

G. B. HUBBELL, Secretary

HUBBELL & VANHOESEN, Agents.

Works at

OSSINING,

Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented. Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical,* and by its use in place of the spike, *making the roads more secure,* besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERGNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

430 WASHINGTON AV.,

Adirondack Railroad.

The following is a copy of an act passed by the Legislature of the State of New York on the 8th of May, 1868, to amend an act entitled "An act to encourage and facilitate the construction of a railroad along the valley of the Upper Hudson, into the wilderness in the northern part of this State, and the development of the resources thereof," passed April 27, 1863, and for the relief of the Adirondack Company formed under said act:

SECTION 1. The time allowed the Adirondack Company to construct the 35 miles of its road, mentioned in section 5 of chapter 236 of the laws of 1863, is extended to the 31st December, 1870, and if said company shall construct ⅓ of said 35 miles of road in each of the years, 1868, 1869 and 1870, continuously northward from the present northern extremity of the 25 miles of said road already constructed, it shall be relieved from all forfeitures imposed by said act, and shall be entitled to all the rights and privileges, exemptions and franchises granted by said act; but in case said company shall fail to construct and complete by the 31st of December, 1868, one-third of said 35 miles of its road, northward from its present terminus, this act shall be of no force and effect, any thing herein contained to the contrary notwithstanding.

SEC. 2. The Twenty United States Government bonds deposited with the Comptroller of the State, pursuant to section five of said act, shall remain in his hands as security for the taxes upon the lands mentioned in said act for the years 1863 to 1870, inclusive, in case said corporation shall not complete said 35 miles of its road, as provided by the first section of this act; but in case said 35 miles of road shall be constructed, the said bonds shall be retransferred to said company, and until default shall be made in the performance of the conditions aforesaid, said company shall be authorized to collect and receive the interest on said bonds, and the Comptroller shall give to said company the requisite authority to receive the said interest.

SEC. 3. The said company may construct a branch of its road from some point on its line between the north line of the town of Thurman, in the County of Warren, and the southerly line of the County of Essex, to connect with the Whitehall and Plattsburgh Railroad, at some point in the County of Essex, and so much of said branch railroad as shall be constructed by said company, continuously northward from the main line of said company's road, shall be deemed a part of the 35 miles of the road required to be built by the first and second sections of this act, and of the 85 miles of said road required to be built by chapter 236 of the laws of 1863.

SEC. 4. This act shall take effect immediately.

Oil Creek and Allegheny River R. R.

The Oil Creek and Allegheny River Railroad Company, which has recently declared a quarterly dividend of two and a half per cent., or at the rate of ten per cent. per annum, was formed by a consolidation of the Oil Creek railroad with the Warren and Franklin and Farmers' Railroad Companies. The main line of the Farmers' Railroad is 7¾ miles in length, connecting Oil City with Petroleum Centre. It was consolidated in 1867 with the Warren and Franklin, which connects Irvineton, or Irvine, with Oil City, the length of its main line being 51 miles. The Oil Creek road connects Corry with Petroleum Centre, the length of its main line being 37 miles. The bulk of the freight on all these roads last year consisted of petroleum. Out of 126,978 tons carried by the Farmers' road, 96,638 tons consisted of that product; of 129,280 tons of freight carried by the Warren and Franklin, 101,937 tons were petroleum, and of the 221,577 tons of freight by the Oil Creek road, 164,406 tons were petroleum. The consolidated railway formed of these three roads forms a connecting line leading southward and in a southwestern direction from Irvine, on the Philadelphia and Erie railroad, through the oil region, along the line of the Allegheny river to Oil City, and thence north, via Petroleum Centre, to Corry. Over its lines petroleum is shipped not only to the Philadelphia and Erie railroad, but by the line of the Atlantic and Great Western to the Erie railroad, as well as to the New York Central, after transhipment on the lines leading from Corry north to Buffalo.—*U. S. R. R.*

Western Maryland Railroad.

The following financial statement, with which we have been furnished, shows the loans and capital of the road:

First mortgage—		
Baltimore City guarantee		$200,000
Private bondholders		400,000
		$600,000
Second mortgage—		
Baltimore City guarantee	$300,000	
Washington County guarantee	300,000	
		600,000
Total bonded debt		$1,200,000

Of which there is in the sinking fund nearly $90,000, applicable to the redemption of city guaranties.

The stock subscriptions are:	
Baltimore City	$200,000
Washington County	150,000
Private subscriptions—	
8,000 shares	400,000
	$750,000

Of this there remains unexpended about $100,000.

The Western Maryland Railroad has been in operation from the Relay House on the Northern Central Railway to Union Bridge (a distance of forty miles) since 1863. During the present year five miles more of track have been laid westward from Union Bridge and opened to trade. The next three miles are nearly ready for the track, which, upon the completion of the bridge over Big Pipe Creek, can be very soon laid. With this bridge and the Monocacy Bridge to be completed at the same time, the road will reach across the Monocacy River into Frederick County. From this point to Mechanicstown, at the foot of the South Mountain, six miles further, a large portion of the work has been done, and can be finished and put in running order by the first of November of this year.

Of the balance of the work to Hagerstown (27 miles) about two-thirds of the graduation and masonry are said to be done, and the whole can be finished in ten months from the present time. It is estimated that the amount of $600,000 will

complete the entire work to Hagerstown. The total distance from the Relay House to Hagerstown will be 81 miles.

As before stated by us, the liens of both the city of Baltimore and Washington County have been waived in favor a mortgage or mortgages to be executed by the company to an amount not exceeding the sum of $600,000.

Pittsburg and Connellsville Railroad.

The Somerset *Herald* says that work will be immediately resumed on the Connellsville Railroad. An engineer corps has gone into the field for the purposes of resetting the stakes, &c., along the line. The contractor at the Sand Patch Tunnel has been instructed to resume work at once, and forty miles, composing the heaviest sections between the Tunnel and Connellsville, will be let to contract, as soon as proper notice, inviting proposals can be advertised, and bids examined. Heavy subscriptions to the bonds of the company are being made in Baltimore, and at other points along the line, and in a few days all the money necessary to insure the completion of the road within twenty months will have been obtained.

Northern (N. H.) Railroad.

The earnings of this road for the years ending March 31, 1867 and 1868, were as follows:

	1867.	1868.
From passengers	$204,790 10	$190,103 26
" merchandise	467,961 52	415,743 47
" mails	.....	11,197 55
" rents	1,603 76	1,850 30
" express	6,562 50	6,000 00
" miscellaneous	383 20	423 00
	$681,301 08	$625,317 58
Expenses, viz:		
Passenger department	$22,370 38	$23,415 50
Merchandise "	48,766 05	44,843 58
Locomotive "	134,794 97	116,661 55
Maintenance of way	85,952 88	83,610 24
General expenses	14,782 09	15,375 37
Miscellaneous expenses	31,373 34	33,415 18
State tax	46,146 34	53,033 07
U. S. tax	10,675 23	5,007 70
	$394,861 28	$375,362 19
Balance of earnings	$286,438 80	$249,955 39
Less new rail account	43,443 03	30,669 97
Net earnings	$242,996 77	$219,285 42
Add balance of income per last report		320,008 89
Add balance of interest account		649 95
Total income		$539,944 26
Dividends December 1, 1867, and June 1, 1868, 4 per cent. each, and U. S. tax		252,030 05
Leaving		$287,914 21
Add amount received from P. O. Department, for transp. of mails to March 31, 1867		23,705 60
Add amount reserved from U. S. Internal tax on amount of dividends of last year taken from surplus		284 48
Balance of income account		$311,904 29

Considered as represented by the following assets, viz:

Agents' department	$24,705 11
Rails, fuel, shop stock, oil and waste	163,472 75
703 shares Northern Railroad, at cost	37,228 34
Balance in contract accounts	86,498 09
Total, as above	$311,904 29

There have been purchased and cancelled during the past year $19,500 of the bonds of the company, leaving outstanding, March 31, 1868, only $125,900.

The contingent fund has increased to the sum of $73,232 84, and continues, as heretofore, safely invested.

During the past year a contract has been made with the U. S. Post Office Department for the transportation of the mails during the present term, or until June 30, 1869; and we have received from the department payment of all arrearages, as claimed by us to be due for mail service up to March 31, 1867; and the amount has been carried to General Income Account.

The gross receipts were—

For the year ending March 31, 1867	$681,301 08
For the year ending March 31, 1868	625,317 58
Decrease in receipts	$55,983 50

The expenses for same time were:

Year ending March 31, '67	$438,304 31
Year ending March 31, '68	406,032 16
Decrease in expenses	32,272 15
Decrease in net income	$23,711 35
The receipts from transportation of merchandise were less than the previous year by	$52,218 05
And of passengers by	14,686 84
And from miscellaneons items there was an increase of	10,921 39

We have used, during the year, in the repairs of the track, 638 tons of new rails, and 44,474 new sleepers, and have repaired about 2,800 tons of rails. These, with other repairs of road bed, track, bridges, and stations, have kept the property in a very good and safe condition.

Our motive power is sufficient for the present business of the road, but some additions to our merchandise cars may be necessary the present year, and also one first class passenger car.

The amount paid to the State and to the United States for taxes, under all heads, is $70,913 98, which is equal to about one-third of the balance of the net profits of our road.

The net profit the past year, as appears by the Agent's statement, is somewhat less than eight per cent. on the capital stock of the company; but, as we have received the considerable sum due us for arrearages for mail service, it has been thought best by the Directors to divide that amount, and make up the remaining deficiency from the earnings of previous years.

No further progress has been made, since the last report, in regard to the realization of the interest of this company in the Concord and Claremont Railroad. In 1866, a charter was granted by the Legislature for the construction of a railroad from Bradford to Claremont, with authority to unite with the Concord and Claremont road, and form one corporation. If such a road be built, it would probably be for the interest of all concerned to have the roads united as authorized by the act. The people of Sullivan County are taking steps to secure the construction of the road to Claremont, and it may be for the interests of those now concerned in the Concord and Claremont road to assist in that enterprise. With this view, your Directors have thought it advisable to defer further action with regard to this company's interests in the Concord and Claremont road, until it shall appear what would probably be the result of the movements for the construction of the road beyond.

The Treasurer has received from the Trustees of the Sullivan Railroad the portion of the sum of $36,725 93 to which this company was entitled, as stated in our last report, being $32,842 71; and it has been credited to contract account, against the amounts disbursed as the cost of the investment. There is now in the hands of the Treasurer of the Sullivan County road, assets, to which this company will be entitled as shareholders, to the amount of $69,729 20, arising from sales of locomotives, cars, tools, &c., rent of the road, from the time of the purchase of the road by the company to March 1, 1868, and interest on the same, to March 31, 1868, less expenses, viz:

Sales of property	$34,118 37
Rent	33,679 17
Interest, less expense	1,931 66
	$69,729 20

The amount derived from rent of road and interest will, when received by the Northern road, be carried to income account; but the amount derived from sales of property should be carried to contract account, in reduction of the cost of investment.

On the evening of July 19, 1867, a serious fire originated in the shed adjoining our engine house in Concord, and spread with such rapidity that in a few hours the engine house and part of the repair shop, with the contents, including ten locomotives in the engine house and shop, and a considerable quantity of lumber in the yard, the wood sheds, and wood, and the bridge over our track on the Free Bridge road, were entirely destroyed, or greatly injured. The property was mostly covered by insurance. The amount recovered from the insurance offices for the loss, was $18,033 80 for damages to locomotives and tenders, and $41,000 06 on account of other property.

A new engine house, that will accommodate fifteen locomotives, has been built in the place of the one destroyed, in a new location, and upon a more economical and convenient and less expensive plan. The risk from fire is very much less than in the old building. The repair shops have been fully repaired, and at the same time enlarged, so as to give increased facilities and more room for the repairs of our locomotives and other work. The bridge also has been rebuilt, and the tools, machinery, and all but one of the locomotives, have been repaired, and put in the best condition, and so far have worked well. We have also added to the repair shop a boiler shop, and to the car repair shop about fifty feet in length, and have erected a planing shop, disconnected from the repair shops, for the greater safety and convenience of doing the work. These improvements have long been needed to facilitate and economize the operations of the road.

The bridge at Fisherville, burnt last May, has been rebuilt, at a cost, above the insurance, including all incidental expenses, of about $1,275; but we now have a new bridge, in place of the old one built twenty-two years ago.

The recent damages and losses by fire justify the policy of the Directors in keeping the property of the company well insured, notwithstanding the high rates of premium paid.

The Trustees of the Vermont Central Railroad Company have requested a modification of the contract of March, 1854. It is under consideration, and it may be for the benefit of all parties interested to accede some change.

The frosts of the past winter have been very severe, but have not been the occasion of any serious accidents from its effects upon the road bed or track, nor has any material injury to passengers or property occurred therefrom. The road has been but little obstructed by snow, and has suffered no damage from freshets.

We have sold the Timothy Rolfe farm, in Concord, at about three hundred dollars less than the price paid for it by the company. It was purchased to avoid questions of damages from flowage, &c., arising from the construction of the road. The company reserves a small strip of the land, and certain rights and privileges needed by the company.

Number of passengers carried, 144,871; do., carried one mile, 5,688,452. Tons of mdze carried, 247,010; do., carried one mile, 15,270,340. Number of tons upward, 58,840; do., downward, 188,170.

The road equipment, March 31, 1868, was as follows: 10 passenger and 14 freight locomotives, 376 long, and 83 short mdze cars, 16 passenger, 7

baggage, 9 gravel and 1 drovers' cars. Number of miles run by passenger trains, 156,242; by freight trains, 209,983; by other trains, 5,405—total, 371,630.

TRIAL BALANCE, MARCH 31, 1868.

United States Supreme Court.

THE LA CROSSE AND MILWAUKEE RAILROAD MORTGAGE TO NEW YORK CAPITALISTS—ENLARGEMENT OF MORTGAGE—REDEMPTION OF STOCK—EQUITY—FORECLOSURE.

Francis Vose, Appellant, vs. *Greene C. Bronson, James T. Soutter and Shepherd Knapp, Trustees, et al.*—Appeal from the Circuit Court for the District of Wisconsin. This action is against prominent citizens of New York, alive and deceased, and the issues involved grew out of the complicated affairs of the La Crosse and Milwaukee Railroad Company, recently in conjunction with the Milwaukee and Minnesota Railroad Company, so much before this Court in one form and another. Mr. Justice Davis delivered the opinion of the Court: The question presented by this record is of easy solution; but, in order to understand what it is, it is necessary to make a short recital of facts on which the bill is predicated. In December, 1856, the La Crosse and Milwaukee Railroad Company, to secure $10,000,000 in bonds, to be issued by them, executed a mortgage to Bronson, Soutert and Knapp, as Trustees for the bond-holders. This mortgage was amended in 1858, so as to limit the issue to $4,000,000. That amount was issued and became a lien on the road. In consequence of the failure of the Company to provide for the payment of the interest, the Trustees in 1859, instituted proceedings in the Federal Court for the district of Wisconsin, to foreclose the mortgage, which proceedings in 1862 ripened into a decree. After the decree, but before the sale, Francis Vose, the appellant, filed this bill. He bases his claim for relief on the ground that the La Crosse Company violated their agreement with the firm of which he was a member, and to whose rights he had succeeded, for the purchase of railroad iron made before the execution of the mortgage, but in the immediate contemplation of it, and he says that he has a right to come in and share the proceeds of the sale of the mortgaged property. Payment for the iron was made in bonds at the rate of eighty cents on the dollar, as stipulated; but it is claimed the agreement went further, and provides against an over issue, or an under sale of bonds, and if the Company should sell during a certain fixed period at a less rate, then the sellers of the iron were to be paid in bonds at the minimum price of sale by the Railroad Company. Vose complains that the Railroad Company did sell bonds of the same issue within the time mentioned at half the price at which his firm took the bonds—the effect of which was *pro tanto* to pay them but half the stipulated price for their iron, and he insists, as they were to be paid wholly in bonds, and did not receive enough to pay them, they are entitled to share in the disposition of the proceeds of the sale, the same as though they had received them; and as a portion of the bonds actually issued were by the final decree in the foreclosure suit cut down, on account of their having been sold at a discount, there is left an unappropriated lien in the mortgage, which should be applied in liquidation of his claim. The insolvency of the La Crosse Company is alleged, and notice of the contract and its breach, to all the parties in the principal cause. The bill was dismissed by the Circuit Court, and this appeal is here to review that decision. If Vose had brought suit against the La Crosse and Milwaukee Railroad Company for a breach of their contract, the interpretation of it would have been a proper subject of inquiry; but the decision of this case does not depend on the disposition of that question. The appellant places his claim for relief on his right to have an outstanding equity with the La Crosse Company adjusted in the foreclosure suit, and his demand attached to the foot of the mortgage. To do this there must be a power somewhere to enlarge the mortgage, and where is it lodged? Certainly not with the Trustees, for their duty is to see that the security held by them for their *cestui que* trusts, is enforced according to the terms of the deed. They could neither enlarge the mortgage, nor consent to its enlargement. The Court could not do it, nor the La Crosse Company, as it had covenanted with the Trustees, in behalf of the bond-holders, that it would only issue four millions of dollars in bonds. The rights of the bond-holders were fixed by the terms of the mortgage. The value of the bonds, as an investment, depended in a great measure on the number to be issued, and doubtless each purchaser before he bought had information of the character of the security on which he relied. The property might be very well a safe security for $4,000,000, and very unsafe for any additional amount. The doctrine contended for would utterly destroy the marketable value of all corporate securities. No prudent man would ever buy a bond in the market if the provisions made for its ultimate redemption could be altered without his consent. But it is said, as the Court rendered a decree for less than the face of the bond, equity will step in and allow the appellant to apply the vacuum of principal secured by the mortgage to liquidate his claim. The answer to this is, that it does not concern the appellant whether the Court, rightfully or otherwise, reduced a portion of the bonds. The bond-holders whose bonds were thus reduced are the only parties in interest who could have any just cause of complaint against the action of the Court, and if they did not feel aggrieved no other person has any right to complain. The security of the mortgage extended to four millions of the bonds only, and whatever amount the Court should ascertain was due on those four millions, was the amount secured, and no more. If Vose had been made a party defendant to the foreclosure suit, the decree would have been the same. But he was not a necessary party to that suit. The Trustees, as the representatives of all the bond-holders, acted for him as well as for the others. It would be impracticable to make the bondholders parties in a suit to foreclose a railroad mortgage, and there is no rule in equity which requires it to be done.

The decree of the Circuit Court is affirmed.

Kent County Railroad.

At a meeting of the Board of Directors of the Kent County (Md.) Railroad, held at Chestertown, on the 23d ult., a resolution was passed unanimously to appoint a committee of three to wait upon the Queen Anne's County Railroad Co., and consult with them on the probable prospect of continuing the road from Massey's to Middletown. The committee consist of Messrs. T. W. Eliason, Abel J. Rees and Thomas F. Shallcross.

A resolution was subsequently offered, and adopted by a vote of 10 to 1, that T. W. Eliason, Wm. Janvier, Thomas F. Shallcross and Samuel W. Spencer be a committee to contract with Messrs. Sears, Backus & Sanford, to construct a railroad from Middletown to Massey's Cross roads, upon the best terms that can be made, and also to get the right of way through the land along the proposed route of said road, this contract not to invalidate or in any way obstruct a former contract from Massey's to Chestertown, and to begin at Middletown and Chestertown, and to continue till finished, the portion of the road below Chestertown not to be commenced till the above contract is completed.

Wilmington and Reading Railroad.

Work continues to progress steadily along the whole line of this new road, and the contractors are still somewhat ahead of the original estimates as to the time required for the grading.

On the section near this city, which crosses the Newport pike this side of Little Mill Creek, a considerable force is still employed, and the grading is almost completed down to the point where the road turns off from its first course of parallel with the Philadelphia, Wilmington and Baltimore Railroad.

From the point where the new road crosses the above mentioned pike it continues on pretty directly to a point near the junction, where the Delaware road diverges from the Philadelphia, Wilmington and Baltimore, and just on a line with the Delaware road. Here the new road makes a sharp curve and comes on into the city parallel with the old road. From the point where this curve commences, a short distance would give it direct connection with the Delaware line.—*Wilmington Commercial.*

☞ The American Central Railroad will be completed to New Boston, on the Mississippi River, in about six months. Arrangements are already made for the iron for the entire Iowa part of the road. It will be shipped as soon as the first subdivision is ready to receive it.

☞ Mr. C. P. Manning, Assistant Engineer of the Pittsburg and Connellsville Railroad, has opened an office in Cumberland, Md., for the transaction of the business connected with the road. The work on the road will soon be commenced, and it will be prosecuted with vigor.

☞ The work of relaying the track of the Marietta and Cincinnati Railroad is progressing rapidly. The wooden bridges on the road will be replaced with iron ones as soon as practicable.

☞ The Chicago, Rock Island and Pacific Railroad is progressing westward at the rate of half a mile a day.

United States Supreme Court.

THE QUESTION OF THE RIGHT TO TAX PUBLIC TRAVEL—THE STATES HAVE NO AUTHORITY TO IMPOSE SUCH A TAX.

William H. Crondell, Plaintiff in Error, vs. *The State of Nevada. In Error to the Supreme Court of the State of Nevada.*—Mr. Justice Miller delivered the opinion of the court:—The question for the first time presented to the court by this record is one of importance. The proposition to be considered is the right of a State to levy a tax upon persons residing in the State who may wish to get out of it, and upon persons not residing in it who may have ocaasion to pass through it. The plaintiff in error, who was the agent of a Stage Company engaged in carrying passengers through the State of Nevada, was arrested for refusing to report the number of passengers that had been carried by the coaches of his company and for refusing to pay the tax of one dollar imposed on each passenger by the law of that State. He pleaded in good form that the law of the State under which he was prosecuted was void, because it was in conflict with the constitution of the United States, and his plea being overruled his case came into the Supreme Court of the State, where it was decided against the claim thus set up under the federal constitution. The provisions of the statute charged to be in violation of the constitution are to be found in sections ninety and ninety-one of the Revenue act of 1865, page 271 of the statutes of Nevada for that year. Section ninety enacts that "there shall be levied and collected a capitation tax of one dollar upon every person leaving the State by any vehicle employed in transporting passengers for hire; and that the proprietors so engaged shall pay said tax of one dollar for each and every person so conveyed from the State." It is claimed by counsel for the State that the tax thus levied is not a tax upon the passenger, but upon the business of the carrier who transports him. If the act were more skilfully drawn to sustain this hypothesis than it is, we should be very reluctant to admit that any form of words which had the effect to compel every person travelling through the country by the common and usual modes of public conveyance to pay a specific sum to the State was not a tax upon the right thus exercised. The statute before us is not, however, embarrassed by any nice difficulties of this character. The language which we have just quoted is, that there shall be levied and collected a capitation tax upon every person leaving the State by any railroad or stage coach; and the remaining provisions of the act which refer to this tax only provide a mode of collecting it. Having determined that the statute of Nevada imposes a tax upon the passenger for the privilege of leaving the State, or passing through it by the ordinary mode of passenger travel, we proceed to inquire if it is for that reason in conflict with the constitution of the United States. The proposition that the power to regulate commerce, as granted to Congress by the constitution, necessarily excludes the exercise by the States of any of the power granted thereto, and is one which has been much considered in this court. In the case of Cooley vs. Board of Wardens, 12 How., 299, four years later, the same questions came directly before the court in reference to the local laws of the port of Philadelphia concerning pilots. It was claimed that they constituted a regulation of commerce, and were therefore void. The court held that they did come within the meaning of the term "to regulate commerce," but that, until Congress made regulations concerning pilots, the States were competent to do so. Perhaps no more satisfactory solution has ever been given of this vexed question than the one furnished by the court in that case. After showing that there are some powers granted to Congress which are exclusive of similar powers in the States because they are declared to be so and that other powers are necessarily so from their very nature, the court proceeds to say that the authority to regulate commerce with foreign nations and among the States includes within its compass powers which can only be exercised by Congress, as well as powers which, from their nature, can best be exercised by the State Legislatures, to which latter class the regulation of pilots belongs. "Whatever subjects of this power are in their nature national, or admit of one uniform system or plan of regulation, may justly be said to be of such a nature as to require exclusive legislation by Congress." In the case of Gillman vs. Philadelphia, 3 Wall, 713, this doctrine is reaffirmed, and under it a bridge across the stream navigable from the ocean, authorized by State law, was held to be well authorized in the absence of any legislation by Congress affecting the matter. In the case before us it may be said that a tax of one dollar for passing through the State of Nevada, by stage, coach, or by railroad, cannot sensibly affect any function of the government or deprive a citizen of any valuable right. But if the State can tax a railroad passenger one dollar it can tax him one thousand dollars. If one State can do this so can every State. And thus one or more States, covering the only practiceable routes of travel from the East to the West, or from the North to the South, may totally prevent or seriously hinder all transportation of passengers from one part of the country to the other. But the principles contended for here may be found more clearly stated in the dissenting opinion of the Chief Justice in those cases and with more direct pertinency to the case now before us than anywhere else. After expressing his views fully in favor of the validity of the tax, which he said had exclusive reference to foreigners, so far as those cases were concerned, he proceeds to say, for the purpose of preventing misapprehension, that so far as the tax affected American citizens, it could not, in his opinion, be maintained. He then adds:—"Living as we do under a common government, charged with the great concern of the whole Union, every citizen of the United States, from the most remote States or Territories, is entitled to free access, not only to the principal departments established at Washington, but also to its judicial tribunals and public offices in every State of the Union. * * * For all the great purposes for which the federal government was formed we are one people, with one common country. We are all citizens of the United States, and as members of the same community must have the right to pass and repass through every part of it without interruption as freely as in our own State, and a bar imposed by a State for entering its territories or harbors is inconsistent with the rights which belong to citizens of other States as members of the Union and with the objects which that Union was intended to attain. Such a power in the States could produce nothing but discord and mutual irritation, and they very clearly do not possess it." Those principles, as we have already stated them in this opinion, must govern the present case.

The judgment of the Supreme Court of the State of Nevada is therefore reversed and the case remanded to that court, with directions to discharge the plaintiff in error from custody.

Mr. Justice Clifford—I agree that the State law in question is unconstitutional and void, but I am not able to concur in the principal reasons assigned in the opinion of the court in support of that conclusion. On the contrary, I hold that the act of the State Legislature is inconsistent with the power conferred upon Congress to regulate commerce among the several States, and I think the judgment of the court should have been placed exclusively upon that ground. Strong doubts are entertained by me whether Congress possesses the power to levy any such tax, but whether so or not, I am clear that the State Legislature cannot impose any such burden upon commerce among the several States. Such commerce is secured against such legislation in the States by the constitution, irrespective of any Congressional action. The Chief Justice also dissents and concurs in the views I have expressed.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of June, were:

ENTERED FOR CONSUMPTION.

	1867.	1868.
Manufactures of wool.....	$698,480	$682,634

The following table will show the imports of foreign dry goods at New York monthly, for the fiscal years ending June 30:

	1866.	1867.	1868.
July	$7,226,233	$10,727,463	$6,532,575
August	13,462,212	14,870,338	11 608,019
September	11,198,257	9,195,675	7,351,223
October	12,187,332	8,485,550	5,382,793
November	12,687,947	7,259,236	4,397,398
December	10,578,991	5,989,731	3,092,350
January	15,769,091	11,928,872	5,119,359
February	16,701,578	9,786,615	8,564,770
March	15,833,273	10,227,679	9,371,654
April	7,336,564	2,274,455	4,826,418
May	7,299,112	5,436,451	5,825,994
June	6,775,244	4,245,313	4,181,629
	$137,055,834	$103,407,278	$77,254,182

The following is a summary of each class of dry goods imported at New York for the year ending with June:

	1866-7.	1867-8.
Manufactures of wool	$39,988,642	$26,321,824
" cotton	18,415,997	12,733,201
" silk	19,532,125	19,310,358
" flax	16,701,483	11,501,565
Miscellaneous dry goods	8,768,631	7,387,234
Total imports	$103,407,278	$77,254,182

The imports of foreign dry goods at New York for each year since 1850 have been as follows:

Year.	Value.
1850-'1	$64,613,747
1851-'2	57,221,062
1852-'3	79,192,513
1853-'4	92,389,627
1854'-5	62,918,443
1855-'6	85,898,690
1856-'7	92,669,088
1867-'8	67,317,736
1858-'9	93,549,083
1859-'60	107,843,205
1860-'1	83,310,345
1861-'2	38,135,720
1862-'3	61,963,037
1863-'4	83,234,966
1864-'5	48,853,939
1865-'6	137,055,834
1866-'7	103,407,278
1867-'8	77,254,182

Tide-Water Receipts.

The quantity of flour, wheat, corn and barley, left at tide water from the commencement of navigation to the 30th June, inclusive, during the years 1867 and 1868, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1867	14,500	128,500	1,449,200	28,800
1868	90,600	4,339,000	4,919,000	326,400
Inc.	76,100	4,210,500	3,469,800	297,600

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows an increase of 918,200 bbls. flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 30th of June, in the years indicated:

Canal opened—	1866. May 1.	1867. May 6.	1868. May 6.
Flour, bbls.	57,700	14,500	90,600
Wheat, bushels.	617,500	128,500	4.339,000
Corn, bushels.	4,200,000	1,449,200	4,919,000
Barley, bushels.	50,800	28,800	325,400
Oats, bushels.	1,917,700	606,500	3,211,800
Rye, bushels.	125,800	88,500	159,400
Malt, bushels.	86,300	47,000	150,900
Beef, bbls.	100	.....	700
Pork, bbls.	7	309	104
Bacon, lbs.	.....	34,400	.....
Butter, lbs	29,100	16,200	2,700
Lard, lbs.	54,700	47,600	15,500
Cheese, lbs	78,600	28,600	263,800
Wool, lbs.	61,500	19,300	31,100

Debt of Louisiana.

The New Orleans *Republican* gives the following statement of the debt of Louisiana, from the report of the State Auditor; adding, however, the free school fund bonds, which he had omitted:

Bonds loaned Consolidated Bank	$541,000 00
Bonds loaned Citizens' Bank	4,297,333 33
Bonds issued in favor of Charity Hospital, Nashville R.R., Mexican Gulf Railroad, and for relief of State Treasury	1,397,000 00
Bonds to Jackson Railroad	884,000 00
Bonds to Opelousas Railroad	650,000 00
Bonds to Vicksburg and Shreveport Railroad	298,000 00
Bonds to Baton Rouge and Grosse Tete Railroad	160,000 00
Bonds to Seminary fund	136,000 00
Bonds to Free School fund	529,000 00
Levee bonds	1,000,000 00
Bonds for payment of coupon	494,800 00
Additional levee bonds	1,787,000 00
Floating debt	1,293,867 81
Total	$13,332,601 14

New Railroad Enterprise.

The Allentown *Democrat* says that the recent purchase of the New York and Schuylkill Coal Company's lands, in Cass township, Schuylkill county, by Moses Taylor, of New York, and others, the purchase of the Little Schuylkill Company's lands at Tamaqua by Mr. Pardee and others, and the improvements which are projected for development of these lands and transportation of their products to market, it is asserted will lead to the opening of a branch railroad outlet to New York through the Lehigh valley. The construction of a railroad from Tremont, skirting along the south side of the Mine Hill mountain, intersecting the New York and Schuylkill lands, tapping the large colleries at Wadeshille, St. Clair and vicinity, and passing on through by way of Tamaqua to intersect the Lehigh Valley railroad at a point near Lehighton, will be one of the first movements in their programme.

Flour and Grain Trade of Buffalo.

The eastward movement of flour and grain through Buffalo from the West, from Jan. 1, to July 1, this year, as compared with last, shows an increase of 168,816 barrels of flour, and 4,101,154 bushels of grain.

The following will show the imports of flour and grain into Buffalo from the West, by Lake and Grand Trunk Railway, for the month of June, and from Jan. 1, to July 1, 1868, as compared with previous years:

FOR THE MONTH OF JUNE.

	Flour, bbls.	Grain, bush.	Grain, including flour, bush.
1868	128,616	4,730,510	5,373,590
1867	76,382	2,884,810	3,266,720
1866	144,180	10,198,545	10.914,445
1865	240,386	5.773,955	6,075,985
1864	302,757	7,594,272	9,108,057
1863	463,595	10,288,224	12,601,199
1862	415,443	6,188,724	8,265,879
1861	285.853	5.388 665	6.812,320
1860	123,026	2,794,711	3,409,841

FROM JANUARY 1, TO JULY 1.

	Flour, bbls.	Grain, bush.	Grain, including flour, bush.
1868	355,330	10,190,090	11,966,740
1867	186,514	6,088,936	7,021,506
1866	340,442	16,544,893	18,247,103
1865	628,684	10,495,060	13,643,480
1864	811,560	13,590,163	18,007,963
1863	1,191,557	18 384,055	24,351,837
1862	1,037,347	13,908,908	20,095,653
1861	598,491	11,598,764	14,590,610
1860	387,056	6,543,256	8,175,236

CANAL EXPORTS.

The following will show the canal exports of flour and grain from Buffalo from the opening of navigation to July 1, for the last three years:

	1866.	1867.	1868.
Flour, bbls	12,787	324	374
Wheat, bush	1,448,576	185,632	1,363,161
Corn, bush	6,962,048	2,577,173	4,706,642
Oats, bush	3,877,939	885,573	2,103.283
Barley, bush	45,045	25,600	8,082
Rye, bush	200,369	54,490	7,343
Total grain, b	11,554,977	3,728,638	8,188,511

Elizabethtown and Paducah Railroad.

The subscriptions made to the capital stock of this road up to this time are as follows:

Private subscriptions, which will be increased	$300,000
City of Louisville	1,000,000
City of Paducah and McCracken county	500,000
Caldwell County	400,000
Muhlenburg County	400.000
Grayson County	200,000
Lyon County	200,000
Total	$2,800,000

There will be a considerable amount of private subscriptions to be added to the above. No enterprise of the kind ever started under more promising and encouraging circumstances.—*Louisville Courier.*

Maryland and Delaware Railroad.

We understand that work has been resumed upon this road at Ridgely, and that it will be prosecuted with vigor to an early completion to Hillsborough. When that point is reached, which we are informed will be in thirty days, it will then remain for our citizens to manifest that zeal and activity in the enterprise which has been so long boasted that, once in Talbot County, we would push it through.—*Easton Star.*

American Railroad Journal.

Saturday, July 11, 1868.

Stock Exchange and Money Market.

The demand for Money has been more animated, since our last. Both speculative and mercantile borrowers have been more urgent in their applications for aid. The city banks have been less liberal of accommodation, especially since Monday forenoon. They have reported a loss of nearly 1¾ millions of legal tender notes, as the result of the past week's business. Their reserve of lawful money is now $72,125,939, as against $73,853,303 a week ago, and $72,567,582 two weeks since. It is, however, nearly 22 millions more than it was on the 18th of last April, eleven weeks back when the aggregate stood at $50,833,660. While the banks lost 1¼ millions legal tender, they gained 4¼ millions of specie, and 6¾ millions of deposits. Their deposits are now up $221,050,806, as against $179,851,880 on the 11th of April, showing an increase of nearly 42 millions. The loan averages of the banks were augmented 5½ millions. They now reach $281,945,931, as against $252,314,617 on the 25th of April, an increase of about 29½ millions. The U. S. Sub-Treasury cash reserve was reduced last week about 10½ millions, chiefly by disbursements on account of the July coin interest on the funded debt of the Nation. The call loan rates at the close of Wednesday were 4@5, generally 5 per cent., and strictly prime to good discounts were quoted up to 6@7½ per cent. per annum.

The specie reserve of the city banks is now $11,954,730, against $10,853,171 same time last year. The city bank deposits are now $221,050,806, against $191,524,312 week ending July 6, 1867. The legal tender reserve amounts to $72,125,939, against $71,196,472 same time last year. The circulation now stands at $34,032,466, against $33,669,397 same time last year. The loans are now $281,945,931, against $246,361,237 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $105,129,338 a day, against a daily average of $86,121,000 the preceding week, and $92,330,636 the week ending with June 20, 1868. The current week's exchanges average about $101,500,000 a day. The city banks, last week, lost $1,727,364 of legal tender, while they gained $6,748,599 in the deposit line, and $4,201,430 of specie reserve. They increased their loans, $5,441,895; and reduced their circulation, $16,255.

The Philadelphia Bank movement the past week shows an increase in loans of $580,593; an increase of $35,433 in specie; an increase in legal tenders of $28,276; an increase of $944,773 in deposits; and a decrease of $4,881 in circulation. The Bank Clearings show an increase of $2,711,546, and the balances, an increase of $867,185.

The New York Gold Exchange Bank reports for the week ending Saturday, the 3d day of July, 1868, the average amount of loans and discounts as $918,900; average amount of specie, $672,999; average amount of deposits, $1,201,184.

The U. S. Sub-Treasury receipts, week ending with July 3, were $12,325,278, including $1,527,334 from customs duties; payments, $22,802,061, including $8,500,000 of coin interest; balance at the close of the week, $83,425,935, against $93,902,718, at the close of the preceding week, showing a decrease of $10,476,783. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,664,200 including $282,201 from customs; and payments, $2,639,393; on Tuesday, receipts, $3,468,479 including $339,812 from customs, and payments, $3,751 287. The balance at the close of business on Tuesday stood at $82,167,933, against $89,125,661, a week previous; and $95,710,617 on June 27, 1868. The aggregate receipts of the office from all sources in June, were $87,512,859; aggregate payments, $93,065,184. The balance on the 1st inst., was over 5½ millions below that on the 1st ult., which amounted to $94,677,986.

The coin certificates issued by the Sub-Treasury office, during June, reached $3,543,860.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $1,838,000 were issued, and retired $1,442,334.

National Bank notes to the amount of $90,895 were issued last week, making the total

issue to 1,673 banks thus far. $308,672,946, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $8,923,891, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,749,555. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,518,900; and for the public deposits, $38,457,950—making a total of $379,976,850. The Treasury Department last week redeemed and destroyed $339,800 of worn and mutilated fractional currency, and issued $358,000 of new. The outstanding amount of fractional currency on the 1st of June was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been on a very meagre scale, since our last, in both forms. The excises, last week, yielded some three millions; customs at the port of New York, $1,527,334, and at the outports about $500,000 (in coin) more, making the grand total income for the week equal to about $5,838,000 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, was about $192,000,000.

The warrants issued by the Treasury Department during the month of June, 1868, to meet the requirements of the Government, amounted, in round numbers, to $32,380,000 as follows: Civil, miscellaneous and foreign intercourse, $5,400,000; interest on public debt, $5,225,000; war, $18,166,000; navy, $2,735,000; interior, pensions and Indians, $854,000.

Gold has been in more active speculative demand, since our last, within a range of 140@141⅛, the latest quotations on Wednesday having been 140⅝. The action of the popular branch of Congress on the U. S. bond interest tax project, and of the National Democratic Convention in this city on the financial issues presented for its consideration tended to stimulate operations for a rise, particularly on Tuesday when the highest figures were marked at the Gold Exchange. The later dealings on Wednesday were indicative of much less confidence on the part of the inflationists. The Customs drain has been quite moderate, while the export movement, thus far this week has been comparatively liberal, amounting to about $1,625,000. The aggregate receipts of specie from all sources, during the half year ending with the 30th of June, were $25,128,164; aggregate exports same time, $49,103,600.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $4,100,484, against $1,589,049 same time last year. The customs demand for Gold last week, averaged $305,465 a day; thus far, this week, it has been equal to $314,500 a day, or equal to a weekly aggregate of $1,887,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $197,188 and from California, $850,371. The total customs revenue of the Government, in coin, at this port, during the fiscal year ending with June 30, 1868, was $113,529,891, against $122,667,016 in the preceding fiscal year. The total receipts of California gold at this port, in the last fiscal year, commencing with July 1, 1867, have been $36,726,790, against $38,338,762 in the preceding fiscal year, showing a decrease of $1,611,972 in 1867–'68. The exports of specie from this port, last week, were $3,227,532, against $1,534,861 same week last year. The exports of specie, hence, since July 1, 1867, have been $76,256,594, against $41,866,932 same time in 1866–'7. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $8,500,000; and during the last fiscal year, ending with June 30, 1868, $73,485,386, against $54,218,392 in 1866–'7. The specie exports from San Francisco, from Jan. 1, to June 20, 1868, were $19,863,000, against $19,179,374 same time last year.

Government received $3,764,829 from customs at the port of San Francisco, from Jan. 1, to June 20, against $3,466,427 same time in the preceding year.

Foreign exchange has been more sought after, and quoted a shade firmer, on reduced offerings of really desirable bills. Bankers' prime sixty day bills on London closed on Wednesday at 110⅛@110⅜, and on Paris to 5.15c.@5.12½; sight bills on London to 110½@110¾, and on Paris to 5.11c.@5.10. The offering of produce bills has been fair this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,452,598, against $3,075,579 same week last year; total, since July 1, 1867, $179,784,280, against $195,544,905 same time in 1866–'67.

Under the legislative and political influences which have been operating in favor of a rise in Gold, the public funds have been depressed in price, on much more liberal offerings, particularly of the six per cent. coin bearing bonds, which were most seriously affected on Tuesday, when the lowest prices of the season were accepted in the open market. The dealings of Wednesday were on a firmer and more confident basis, and the market closed with reviving spirit and buoyancy, the available supplies of both bonds and notes having been perceptibly diminished by purchasers at the modified street figures of the preceding day or two.

U. S. sixes of 1881 closed here on Wednesday (ex July 1, coupon,) at 113@113⅛; U. S. Five-twenties of 1862, 113@113⅛; U. S. Five twenties of 1864 at 110@110¼; U. S. Five-twenties of 1865 at 111@111⅛; U. S. Five-twenties of 1865, consolidated, 108⅛@108¼; U. S. Five-twenties of 1867, 108⅛@108⅜; U. S. Five-twenties of 1868, 108@108¼; U. S. Ten-forties at 107@107¼, and U. S. Seven-thirties at 108@108¼; U. S. Six per cent. currency bonds, 102½@103. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865	118½	October, 1865	117½
September, 1865	118		
U. S. three per cent. certificates			100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 24.	July 1.	July 8.
Consols	94⅞	94⅞	95
U. S. 5-20's of 1862	73⅜	73¼	73¼
Erie	45⅝	45½	46
Ill. Central	101⅜	101½	102

Railway and miscellaneous stocks have been quite freely dealt in, generally at firmer and buoyant prices, though the fluctuations have been unusually wide on some of the more notable speculative favorites, particularly on Reading shares, which have been manipulated very skilfully, producing early in the week under review, a severe pressure against the *short* interest.

The produce markets have exhibited much more animation, and the leading articles, such as cotton, breadstuffs and provisions, have been quoted generally firmer in price. Middling upland cotton closed strong on Wednesday at 31½@33 cents, per lb. The stock of cotton now here is estimated at about 60,000 bales. The receipts at the port this week, have averaged only about 950 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,164,000 bales, against 1,830,000 bales same time last year; exports, same time 1,673,000 bales, against 1,467,000 bales same time last year; stock on hand at latest dates, 110,000 bales, against 198,000 bales same date last year. At the Live Stock markets, this week, Beeves have been in less demand and heavy at from 11½@16½c. per lb.; week's receipts, 5,962. Veal calves have been in moderate request, at from 7@12½c. per lb.; receipts, 2,413. Sheep and lambs have been rather less active and quoted easier, at from 3@6½c., and 7@10¼, respectively, per lb.; receipts, 23,985. Swine have been more freely dealt in at from 9@10⅛c. per lb.; receipts, 18,790. The demand for foreign merchandise has been comparatively moderate. Dry goods have been held with more confidence. The total imports of foreign dry goods, last week, were $890,851, and the total amount marketed $760,964. The value of foreign merchandise imported last week, was $2,959,811—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $3,850,662, against $3,971,793, same week last year; and year ending July 1, 1868, $238,283,518, against $269,831,007 in 1866–'67. The freight market has been less active, and has been quoted weak, For Liverpool we quote flour at 1s. 3d.@1s. 4½d. by sail, and 1s. 6d.@1s. 7½d. by steamer, per bbl.; grain at 4d. by sail, and 4½@5d. by steamer, per bushel; cotton at ⅛d. by sail, and $\frac{3}{16}$d. by steamer, per lb.; and heavy goods at 10s.@25s. by sail, and 15s.@30s. steamer, per ton. Total number of vessels in port on Wednesday 499.

The New York exports, exclusive of specie, for the week ending July 7, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week	$3,075,579	$2,452,598
Prev. reported	97,777,689	86,188,797
Since January 1	$100,853,268	$88,641,395

The imports for the week ending July 4th, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$1,146,464	$890,851
Gen. merchandise	2,825,329	2,959,811
Total for the week	$3,971,793	$3,850,662
Previously reported	128,565,055	120,745,937
Since January 1	$132,536,848	$124,596,599

The balance in the Sub-Treasury on Wednesday was $83,595,195 65.

☞ Hon. Marcus P. Norton, of Troy, has been awarded the sum of $250,000 for the past use of the Norton Post Office Stamp. The Court of Claims certified their decision to Congress, and asked that a bill might pass covering this amount in favor of Mr. Norton. The bill was promptly passed by Congress, and the President's ten days for signing the same expired on Tuesday.

☞ The surveys for the Mississippi River Railway have been completed, and estimates made of the cost of construction through Obion and Dyer Counties, Tennessee.

Delaware City Railroad.

A meeting of parties in favor of building a railroad from Delaware City to Parkersburg, Pa., was held at Newark, Del., on the 27th ult. A committee appointed at a previous meeting reported that the amount necessary for the organization of the company ($50,000) had been subscribed, and that the books for general subscription would soon be opened. This road is to be put in operation under what is known as the old charter for the Delaware City road, which was obtained from the Legislature of Delaware several years ago, and was revived recently through commissioners appointed by the Governor. The charter authorizes the road to run from Delaware City to any point on the Pennsylvania or Maryland line, and exempts the stock from taxation until the net receipts amount to 11 per cent of the capital.

☞ The Southwest Railroad Company will receive proposals until the 1st of August for the grading, bridging, etc., of 15 miles of their road commencing at McMinnville; also for the construction of bridges over the Collins River and Caney Fork. Plans and specifications of the former work will be ready on the 18th inst., and a profile of the streams to be bridged will be furnished upon application after the 10th. Address E. F. Falconnet, Chief Engineer, McMinnville, Tenn.

☞ Preliminary measures are in progress by the people of Tuckerton N. J., towards building a railroad from that place to Egg Harbor City, where it will connect with the Camden and Atlantic road, and also the one contemplated to May's Landing.

☞ The Hoosac Tunnel Commission, Messrs. Crocker, Wentworth and Bowerman, invite proposals for completing the tunnel in accordance with the new tunnel act, the work to be done under three separate contracts, or in one for the whole.

☞ Plans and specifications for the building of an iron bridge across the Passaic River, at the foot of West street, city of Paterson, will be received by David Henry, Director, at the Passaic Hotel, on or before Thursday July 24, at 10 A.M.

☞ It is proposed to build a railroad from Emmittsburg to the Western Maryland Railroad, immediately west of Monocacy River. The length of the road will be about seven miles, passing through a fine section of the country.

☞ The survey of the Somerset Railroad route is nearly completed. It is thought the cheapest route is to cross the river at Norridgewock and again at Madison Bridge. The stock is being rapidly taken.

☞ The Taunton Locomotive Manufacturing Company has declared two dividends the past year of 10 per cent. each.

☞ The central line of the Harlem Bridge and Portchester Railroad has been surveyed.

☞ Telegraphic advices from Honduras state that work had commenced on the Interoceanic Railway.

☞ Vineland (N. J.) Railway Company have taken steps to have the road constructed immediately between Vineland and Winslow.

Tax on Manufactured Goods.

In reply to inquiries in relation to the returns of sales by manufacturers, and the tax thereon, the Deputy Commissioner of Internal Revenue says that under the former law the tax on manufactures accrued when they were sold, used or consumed by the manufacturer, or delivered to others than agents of the manufacturer.

Under the present law, manufacturers are not required to pay the tax of $2 per $1,000 on goods manufactured and delivered to the parties who furnished the materials, no sale being made by or for the manufacturer. But sales made by or for the manufacturer, whether made at the place of manufacture or elsewhere, are to be returned for taxation on or before the tenth day of the month succeeding the quarter in which they were made.

Under the present law manufacturers in making their returns of sales need not be required to state all the items as formerly on blank form No. 3, but may make the return of sales made by or for them on blank form No. 6, as indicated by the pencil marks on the blank herewith inclosed.

Nova Scotia Railway.

The link which is to unite the Nova Scotia Railway at Truro with the European and North American Railway at Moncton is in progress. About 800 men are now employed upon the portion of the line between Amherst and Moncton, and about 1,000 more are wanted. A locomotive is about being placed on the section near the junction to be used for ballasting, and a second one is ordered from Portland which will be used at Dorchester, for similar purposes. The probability is that the road between Dorchester and the junction will be finished this season, so as to admit of the cars running between them this ensuing autumn. H. G. C. Ketchum is the contractor.

☞ The *Eastern Chronicle* says that the Acadia Coal Company's Railway is fast approaching completion. The rails are laid from Westville to the Nova Scotia Railway, and ballasting is being proceeded with. The pier at Fishers Grant is nearly completed. The company expect to be ready to ship coal in a few days.

☞ The New Hampshire House of Representatives has passed the bill chartering the New Hampshire Central Railroad through the Osipee Valley and Bristol to Danbury. The bill reviving and enlarging the charter of the Concord and Pittsfield Railroad has been postponed to the next session of the Legislature.

☞ The Norfolk *Day Book* says that Gen. Mahone has contracted for a sufficient quantity of new iron to relay the Southside and Virginia and Tennessee Railroads. The delivery of the same will commence about the last of July or the first of August.

☞ The first locomotive on the Lake Superior and Mississippi Railroad was dedicated, with imposing ceremonies, on the 25th ult. Track work is being pushed with vigor. The road is expected to be finished to the head of Lake Superior in two years.

☞ The new bridge at Petroleum Centre, erected for the purpose of connecting the Oil Creek and Warren with the Franklin Railroad, has been completed.

Journal of Railroad Law.

RAILROADS MAY LIMIT THEIR LIABILITY BY EXPRESS CONTRACT.

The following able opinion in the recent case of The Detroit and Milwaukee R. R. Co. *vs.* The Farmer's and Miller's Bank of Milwaukee 20 Wis. 122, has just been reported

COLE, J.—It appears from the bills of lading offered in evidence, that the railroad company limited its liability as common carrier to the line of its own road. The receipts expressly stated that the property was received by the company to be sent "*subject to their tariff and under the conditions stated on the other side.*" Among the conditions on the back of the receipt, was one to the effect that all goods addressed to consignees, resident beyond the places at which the company have stations, and respecting which no directions to the contrary shall have been received previous to arrival at the station, will be forwarded to their destination by public carriers or otherwise as opportunity may offer, "but that the delivery of the goods by the company will be complete, and the responsibility of the company will be considered to have ceased, when such carriers shall have received the goods for further conveyance. And the company hereby further give notice, that they will not be responsible for any loss, damage, or detention, that may happen to goods so sent by them, if such loss, damage or detention occur beyond their said limits." Thus it will be seen that the company, by this condition, expressly restricted its liability as carrier to the line of its road, and did not become responsible as carrier for the whole route. This circumstance distinguishes the case from that of Peet *vs.* The Chicago and Northwestern R. R. Co., 19 Wis., 118. For the contract in that case showed an undertaking to transport the flour to New York, to its destination, and beyond the terminus of the defendant's road, and consequently it was held liable as carrier for the whole line. But not so here. In this case the defendant undertook to carry the flour to Detroit the terminus of its road, and there deliver it to the proper carriers, to be forwarded to its destination. And it expressly stipulated that it would not be responsible for any loss, damage or detention that might happen to goods sent by it, if such loss, damage or detention should occur on any road besides its own. The receipt, therefor, did not import an undertaking or contract to carry to New York; for we suppose the conditions on the back of the receipt were parts of the contract and must go to qualify and limit the liability of the company. It will be noticed that this condition is not an effort to limit the liability of the carrier over its own road, but to exonerate it from responsibility for the default or negligence of other carriers on other lines of the route. Whether the company could qualify its common law liability over its own road by a condition printed on the back of a receipt or bill of lading in this manner, is a question not now before us. There the obligation was to transport the flour safely and seasonably to the end of its road at Detroit, and there delivered it to be forwarded by the proper carriers, and when this was done its full legal duty had been performed. And the company merely stipulated that it should not be held liable for a loss that might happen on a road besides its own, and not that it should escape a liability which the law imposed upon it in discharging its duty as common carrier.

On the argument. Falvey *vs.* The Northern Transportation Co., 15 Wis., 129, was referred to as favoring the position that a common carrier could not limit his responsibility, by a condition in a bill of lading or receipt given for goods. But really no such question was in the case, and of course none such was decided. The bill of lading in that case was offered in evidence by the defendant, and there was nothing to show that it had ever come to the hands or knowledge of the plaintiff or his agent. And hence it was said, in substance, that the evidence did not show that there was a special contract entered into between the parties, by which the owner agreed to take the risk or loss of his goods in a case where the law would otherwise impose it upon the carrier.

By the Court.—The judgment of the County Court is revised and a new trial awarded.

Adams County Railroad.

The Legislature of Pennsylvania, at its last session, passed an act incorporating the "Adams County Railroad Company," with power to build a railroad from a point at or near Petersburg, to connect with the Northern Central road at or near New Cumberland, or with the Cumberland Valley road at or near Mechanicsburg. At a meeting of the Commissioners named in the bill, held on the 23d ult., it was resolved to have preliminary surveys of both routes at an early date. Either route will run through a rich and productive section of the country, which, properly developed, would furnish a large amount of freight and travel, sufficient, we should think, to make the road self-sustaining. Energetic men are at the head of the movement, and we hope it may prove a success.—*Gettysburg Star.*

Intercolonial Railroad.

We hear the important fact that a despatch announcing the decision of the Dominion Government respecting the route of the Intercolonial Railway has been sent to Her Majesty's Government for approval. No announcement will be made until that approval is signified; but it is rumored the route selected is that of Major Robinson, with some slight deviations. It is understood that the Railway Commissioners and Engineers will not be appointed until Her Majesty's Government have signified their approval of the line selected.—*Montreal Gazette.*

NOTICE TO R. R. CONTRACTORS.

ENGINEER'S OFFICE, S. W. R. R.
McMINNVILLE, TENNESSEE,
July 1, 1868.

THE SOUTHWESTERN RAILROAD COMPANY hereby invite PROPOSALS for the clearing and grubbing, grading, masonry, short bridges and trestle work on the first fifteen miles of their road, commencing at McMinnville, the terminus of the McMinnville and Manchester Railroad, and running through the County of Warren, into White County, Tenn.

Payments for this local work will be made in cash, twenty per cent. retained on monthly estimates as collateral security; the work to be completed by the first day of January next. Profiles and specifications of this work will be ready at this office by the 18th instant, and proposals to be addressed to the undersigned, will be received until the 1st of August next.

PROPOSALS will also be received by the undersigned for the construction of the bridges over Collins River and Caney Fork, for which State Bonds have been appropriated. Separate bids will be received for first class masonry for abutments and piers embracing about 8,000 perches, and also for iron piers; also for about 800 to 1,000 lineal feet of superstructure of wood or iron. Drawings of iron piers to accompany the proposals for such. The profile of the streams to be bridged will be furnished upon application after the 10th inst. The Company reserves the right to determine upon the final plan of such bridges, in all its details, after proposals have been received. The bridges to be completed by the time the track layers will reach the same.

By order of the Board of Directors,
E. F. FALCONNET,
Chief Engineer.

660 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in active operation. One hundred and twenty miles have been built in the last three months. More than twenty thousand men are employed, and this average of forty miles per month will be continued throughout the season, making NINE HUNDRED COMPLETED MILES by January 1st, and it is now probable that the ENTIRE GRAND LINE TO THE PACIFIC WILL BE OPEN FOR BUSINESS IN 1869.

No other first-class railroad in the world has been built and equipped so rapidly as the Union Pacific, which runs west from Omaha

Across the Continent.

The United States Government makes of this railroad a GREAT NATIONAL WORK, and aids its construction by very liberal grants of money and of lands. To further insure the speedy completion of the road, the Company are authorized to issue their own

First Mortgage Bonds

having thirty years to run, and having interest coupons payable semi-annually at the rate of six per cent. in gold. The principal, as well as interest, is made

PAYABLE IN GOLD.

The Mortgage Bonds of nearly all other railroads in this country, are payable, principal and interest, in currency; and it is asserted, without fear of contradiction, that no other railroad company in the world, building so great an extent of road, issues bonds of equal value with the First Mortgage Bonds now offered for sale by the Union Pacific Railroad Company.

The price of these Bonds is now **102**, and accrued interest from July 1, in currency. The Company believe that at this price their bonds are the

Safest and Most Profitable Investment

in the market, and they confidently expect that they will shortly command a higher premium than any similar security. The Company reserve the right to advance the price at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance. Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by leading Bankers generally throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

MICHAEL SCHALL,
Empire Car Works, York, Pa.

To Tunnel Contractors.

THE Commissioners of the Troy and Greenfield Railroad and Hoosac Tunnel, acting for the State of Massachusetts, invite proposals until the 12th day of August next, for completing said Tunnel, either in separate contracts for three different sections of the work, or in one contract for the whole.

The Tunnel when completed will be 4¼ miles long.

From the **East End** the mountain has been penetrated about one mile, and for a portion of that distance the section has been enlarged to the full width of 24 and height of 20 feet. The enlargement is required to be finished, and working continued westward.

The **Central Shaft**, 27 by 15 feet, has been sunk 583 feet, and remains to be sunk 447 feet to grade; and the Tunnel is to be driven in each direction therefrom.

The **West Shaft Workings**, located about half a mile from the west portal, embrace two auxiliary shafts used mainly for pumping and ventilation, and the headings driven in each direction make an aggregate length of about 2300 feet.

The depth of the west shaft to grade is 318 feet.

The **West End**, where arching is required, is already under contract to a point about 930 feet from portal, and from this point a draining drift is to be run eastward to meet workings from west shaft, which will obviate the necessity of pumping probably by the close of the present year.

The existing buildings, and fixed machinery provided by the State for hoisting, pumping, ventilation, and supply of compressed air to the drilling machines, now successfully operating in the rapid advance of the work, will be turned over to the contractors as they are.

A sufficient appropriation has been made by the State for the completion of the whole work.

Ample sureties will be required from parties who may be contracted with, and the Governor and Council reserve the right to reject all offers that may be made.

Plans may be seen, and specifications obtained, on application to B. D. FROST, Superintending Engineer, at the Engineers' Office in Nortk Adams, Mass., or to B. H. LATROBE, Consulting Engineer, at his office, 49 Lexington street, Baltimore, Md. Specifications and other information may be had at the State House, in Boston, from TAPPAN WENTWORTH, Commissioner, to whom proposals will be addressed.

ALVAH CROCKER,
TAPPAN WENTWORTH,
S. W. BOWERMAN,
} Commissioners.

PROPOSALS.

NOTICE TO RAILROAD CONTRACTORS.

OFFICE OF THE NEW YORK AND OSWEGO MIDLAND RAILROAD COMPANY,
ONEIDA, N. Y., June 9th, 1868.

SEALED PROPOSALS WILL BE RECEIVED AT the office of the Company, in Oneida, N. Y., until the 25th day of July, 1868, at noon, for the Grading, Masonry and Bridging of that portion of the New York and Oswego Midland Railroad extending from Middletown, Orange County, to Westfield Flats, in Sullivan County, *via* Philipsport, Liberty, and intermediate towns; also, including the Branch from the Main Line to Ellenville. The above work will include a Tunnel of about three thousand (3,000) feet in length, through the Shawangunk Mountain, for which separate proposals are invited.

The line will be divided into Sections, of convenient length, and Proposals may be made for separate Sections or for the entire work. The Company will entertain separate proposals for Bridging only. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Middletown, N. Y., where all necessary information may be obtained, on and after the 15th day of July, 1868.

Sealed Proposals will also be received at the office of the Company, in Oneida, N. Y., until the 30th day of July, 1868, at noon, for the Grading, Masonry, and Bridging of the New Berlin Branch, in Chenango County, extending from the Main Line, at East Guilford, to New Berlin, a distance of 22 miles. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Oneida, N. Y., where all the necessary information may be obtained, on and after the 23d day of July, 1868.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 5th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor. THOMAS E. WALKER, Treasurer.

PENNSYLVANIA RAILROAD COMPANY,
Treasurer's Department.
PHILADELPHIA, May 2, 1868.

NOTICE TO STOCKHOLDERS.—The Board of Directors have this day declared a semi-annual dividend of THREE PER CENT. on the Capital Stock of the Company, payable in cash, clear of National and State taxes, and a further dividend of FIVE PER CENT., payable in Stock, on and after May 30.

Blank powers of attorney for collecting dividends may be obtained at the office of the Company, No. 238 South Third Street. THOMAS T. FIRTH,
8t21 Treasurer.

OFFICE PENNSYLVANIA RAILROAD COMPANY, Philadelphia May 13th, 1868.

Notice to Stockholders.—In pursuance of resolutions adopted by the Board of Directors at a stated meeting held this day, notice is hereby given to the Stockholders of this Company, that they will have the privilege of subscribing, either directly or by substitution under such rules as may be prescribed therefor, for Twenty-five per cent. of additional Stock at par, in proportion to their respective interests as they stand registered on the books of the Company, May 20th, 1868.

Holders of less than four Shares will be entitled to subscribe for a full share, and those holding more shares than a multiple of four shares will be entitled to an additional share.

Subscriptions to the new Stock will be received on and after May 30th, 1868, and the privilege of subscribing will cease on the 30th day of July, 1868.

The instalments on account of the new shares shall be paid in cash, as follows:

1st. Twenty-five per cent. at the time of subscription, on or before the 30th day of July, 1868.

2d. Twenty-five per cent. on or before the 15th day of December, 1868.

3d. Twenty-five per cent. on or before the 15th day of June, 1869.

4th. Twenty-five per cent. on or before the 15th day of December, 1869, or if Stockholders should prefer the whole amount may be paid up at once, or any remaining instalments may be paid in full at the time of the payment of the second or third instalment, and each instalment paid up shall be entitled to a pro rata dividend that may be declared on full Shares. THOMAS T. FIRTH,
8t21 Treasurer.

SPECIFICATIONS
FOR
PROPOSALS.

OFFICE NEW ORLEANS, OPELOUSAS AND GREAT WESTERN RAILROAD COMPANY.

New Orleans, June 6th, 1868.

The New Orleans, Opelousas and Great Western Railroad Company desiring that a connection shall be formed between their present terminus at Berwick's Bay, and the Houston and New Orleans Railroad, which terminates at the Sabine River, and which when completed, the (distance being 163 miles,) will connect New Orleans with almost the entire railroad system of Texas, the President and Directors of said Company, therefore propose to such party or parties as may undertake to fill up such gap, the following terms and conditions, to wit:

1. Will lease the right of way and the franchises now possessed by said company from their present terminus at Berwick's Bay to the town of Vermilionville, the grading of which is almost entirely completed for these 63 miles, and will, at the same time, lease the right under their charter to build the branch railroad from Vermilionville to the Sabine River, at or near Orange, the same having been already located by resolution of the Board of Directors. The distance between these points is 100 miles. The Company reserving to itself the right of way and transportation on payment of proportionate freights and passage money from the present terminus of the road to any extension towards Opelousas, of its road beyond Vermilionville.

2. The said lease to continue for a term of years to be agreed upon between the Company and the Lessees. At the end of the lease the property to be valued by disinterested parties, the Railroad Company to select three, and the Lessees three, the two, if need be, to call in an umpire whose decision will be final. The Railroad Company reserving the right to purchase said property at such valuation, but if not then promptly paid for by said Company, the lease to be extended for a further term of years, and so on, until finally purchased and paid for by said New Orleans, Opelousas and Great Western Railroad Company. The grading already made between Berwick's Bay and Vermilionville, to be valued by competent engineers at the time of entering into a contract, but not to be paid for by lessees until the end of the first lease, herein provided for.

3. The parties leasing to obligate themselves to connect with no other railroad which might hereafter be built, terminating at or near the City of New Orleans, and further obligating themselves to do no act which will infringe the rights under the present charter of said Company, and also to hold said company harmless against any loss which might result from acts committed on that portion of road now proposed to be leased.

4. Should the Lessees succeed in obtaining a land grant on the line of railroad beyond Berwick's Bay, it will be and remain the property of said lessees, this Company claiming none of its benefits, and incurring no portion of the responsibility attending it.

5. Transportation to be furnished said Lessees over the Company's road, as follows, viz:

The President, Directors and officers of the road, including engineers, superintendents, road masters and bridge builders free of charge. Transportation of laborers going out to be charged one-third the regular fare. Provisions and supplies to be charged one half of regular rates. Material, other than iron and cross-ties, to be charged one half of regular rates. Iron to be charged one dollar per ton, and cross-ties (if any) fifteen cents each. Lessees to load and unload the cars.

6. The road thus to be built shall be a first class railroad in every respect. The gauge to be the same as the Company's road—say 5 feet 6 inches. The iron used not to be less than 58 lbs. per yard.

7. The said Lessees to obligate themselves to commence said road within four months, and have it finished and in running order to the Sabine River, connecting with the Houston road at or near Orange, within three years from date of signing the lease.

8. In order to ensure the faithful performance of the contract the Lessee will be required to execute a bond to an amount, and with good and satisfactory security to the satisfaction of the Board of Directors.

9. The Company reserves the right to reject any and all bids.

Another proposition and for which proposals are also invited, is to lease the road, including depots, stations, rolling stock, etc., from Algiers, opposite New Orleans, to Brashear City, including the franchises of the Company beyond to Texas, under the following conditions:

1. That the party or parties proposing to lease shall state the least number of years he or they will lease the road, on the following conditions:

2. The accrued interest to October the 1st, 1868, on the mortgage bonds, (said bonds maturing in 1889,) to be provided for by the lessee.

3. The semi-annual interest on same bonds, accruing yearly after date, and payable on the first days of April and October of each year, say $160,000 per annum, to be also provided for by said lessee.

4. The road to be built over the route from Berwick's Bay to New Iberia, thence to a point at or near Vermilionville, thence in a westerly direction to a point on the Sabine River, connecting with the Houston and Beaumont road.

5. The building of the road to be commenced within four months after signing the contract of lease, to be prosecuted with all dispatch, and to be fully and finally constructed within three years from the signing of the lease.

6. The grading, culverts, etc., now made beyond Berwick's Bay, to be taken by the Lessee at a valuation to be ascertained by experts, one to be appointed by each party, in case of disagreement they to select an umpire, and to be paid for on such terms as shall be hereafter agreed on.

7. The road to be built, equipped and maintained during the entire lease as a first class road in every respect.

8. At the close of said lease, the said road, depots, stations, rolling stock, etc., from Berwick's Bay to the Texas line, shall be valued by experts, one to be appointed by each of the parties thereto, and in the event of disagreement, the two to select an umpire, whose decision shall be final. The value thereof thus ascertained shall be subscribed as stock in the present Company, it being well understood that all costs of maintenance, as well as expenses of operating the road, shall be at the exclusive charge of the Lessees.

9. The contract with Charles Morgon for running a line of steamers to Texas, extending to 1871, to be carried out by the Lessee in every respect.

10. The present road to Berwick's Bay, including depots, machine shops, rolling stock, bridges, etc., to be turned over to the Lessee after inventory and appraisement, and the said property, or property of like character and value, and like condition and good order, to be returned to the company at the expiration of said lease.

11. The Lessees, to ensure the faithful performance of the contract, to furnish security to the satisfaction of Board of Directors.

12. The said Lessees shall contribute and pay each year the sum of $5000, payable quarterly, to keep up and maintain the organization of the Railroad Company during the existence of this lease.

13. The said Lessees obligate themselves to do no act which may operate a forfeiture of the charter, and shall hold the said N. O., O. and G. W. R. R. Co. harmless against any and all acts of theirs.

Sealed proposals will be received at the office of the Company in New Orleans, No. 69 Canal street, until the first day of September next, at 12 o'clock, M., the Company reserving the right of rejecting any or all bids.

Safety Railroad Switch.
MAIN TRACK UNBROKEN.

I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the ***MAIN TRACK IS NEVER BROKEN,*** and it is impossible for any accident to occur from the misplacement of switches.

The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns ***The Life and Limb of all Travelers upon Railroads.***

I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

RAILROAD SCREW SPIKE.

HENRY YOUNG, President.

G. B. HUBBELL, Secretary

HUBBELL & VANHOESEN, Agents.

Works at

OSSINING,

Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented, Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERGNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

430 WASHINGTON AV.,

SCHOOL OF MINES,

COLUMBIA COLLEGE,
East 49th Street, NEW YORK.

FACULTY:

F. A. P. BARNARD, S. T. D., LL. D., President.
T. EGLESTON, Jr., E. M., Mineralogy and Metallurgy.
FRANCIS L. VINTON, E. M., Mining Engineer.
C. F. CHANDLER, Ph. D., Analytical and Applied Chemistry.
JOHN TORREY, M. D., LL. D., Botany.
CHARLES A. JOY, Ph. D., General Chemistry.
WILLIAM G. PECK, LL. D., Mining Surveying.
JOHN H. VAN AMRINGE, A. M., Mathematics.
OGDEN N. ROOD, A. M., Mechanics and Physics.
JOHN S. NEWBERRY, M. D., Geology.

The plan of this School embraces a three-years' course for the degree of ENGINEER OF MINES, or BACHELOR OF PHILOSOPHY.

For admission, candidates for a degree must pass an examination in Arithmetic, Algebra, Geometry and Plain Trigonometry. Persons not candidates for degrees are admitted without examination, and may pursue any or all of the subjects taught. The next session begins October 7th, 1867. The examination for admission will be held on October 3d. For further information, and for catalogues apply to

American Railroad Journal.

New York, Saturday, July 18, 1868.

Stanstead, Shefford and Chambly Railway.

The directors of the Stanstead, Shefford and Chambly Railway have ratified the Hon. Mr. Foster's contract to extend the road from Waterloo to Chambly, and from Waterloo to the boundary line. We also learn that the Municipal Council of the County of Rouville has decided to take stock in the proposed road to the amount of $100,000, provided it is placed in communication with the Passumpsic Valley Railway and extended to the St. Lawrence opposite Montreal. This proviso will bring the Chambly Hydraulic Company into the field, for it possesses the power to build a railway across the intervening county of Chambly, and the Stanstead and Shefford does not.

The Passumpsic Valley Railway Company is said to be one of the principal movers in this scheme to provide another through route from Boston to Montreal, and is at the same time, through the instrumentality of the Counties of Compton and Stanstead, seeking to form a connection with the Grand Trunk Railway at Lennoxville, so as to have direct communication with Richmond and Quebec. The township of Ascot took stock in the proposed link between Lennoxville and the Derby line on the frontier, the present terminus of the Passumpsic, some months ago, but owing to the legal opposition of some of the rate payers of the Township, failed to give immediate effect to the consequent By-Law. Thanks to Mr. Pope, M. P. for Compton, who gave a written guarantee that he would provide or cause a portion of the money to be provided by his county, that opposition has since been withdrawn, and the vote to appropriate $40,000 towards the connection will now go into operation. It is therefore probable that ground will be broken this summer, and that in less than eighteen months the people of the Eastern Townships will be in possession of another direct route to the seaboard.

Rockford, Rock Island and St. Louis R. R.

The Rockford, Rock Island and St. Louis Railway has been permanently located to Cleveland, on the Rock River, and about sixteen miles east of Rock Island. The contract for building the road has been given to W. M. Irving & Co. From Rockford to Sterling the grading is finished; between the latter place and Cleveland the grading has been sub-let in sections of one mile each, and work will commence next Monday, the 13th inst. Mr. J. E. Abbott, one of the working Directors of the road, was in the city yesterday, endeavoring to procure hands for the job. He wanted to get at least five hundred men. He expects to hire a large number of Swedes, who have recently arrived in this country, a number of whom are now at Moline. Mr. Abbott informed us that it is expected that the road, as far as located will be completed within ninety days. The ties, 35,000, are already under contract, and will be delivered at Fulton on or about the 15th of next month. The iron for forty-five miles of the road is already purchased and will soon arrive. This looks like business. We are glad to feel that this road now assumes a shape that makes its completion altogether certain. It passes through one of the most fertile and beautiful portions of the State. If the road is built to Rock Island, as it undoubtedly will be, we are informed that by connecting with the Northwestern at Sterling, it will make the distance to Chicago twenty miles shorter than by any other route, and lessen the distance to Racine eighteen miles. Considering its directness, and its being the shortest road and a competing line to Chicago, and that it passes through inexhaustible beds of coal, it will be one of the most important of all of the roads connecting here. With the Peoria road completed, the Coal Valley Road, with its two or more trains per day, and this one added, all bringing coal to this market together, with an immense amount of freight to be handled and the great centre of travel, Rock Island will be made what nature designed she should be, one of the largest cities on the Mississippi.—*Rock Island Union, 9th.*

New York and New Haven Railroad.

At a meeting of the stockholders of this company at New Haven, on the 7th inst., it was voted unanimously to approve of the resolutions passed by the General Assembly now in session, authorizing an increase of the capital stock of the Company; also, to accept of said resolution as an amendment to the charter.

A resolution was passed instructing the Board of Directors not to issue, sell or dispose of any portion of the increased capital stock of the Company, or to use the proceeds thereof except for the purpose of relaying the road with steel rails, of erecting new repair shops and other necessary buildings in New Haven, of increasing the amount of the equipment, of purchasing the necessary lands for depot purposes in New York City and erecting thereon the necessary buildings and of making other permanent improvements to said railroad and equipments.

The directors were also instructed not to issue, sell, or dispose of any of said increased capital stock any faster, nor in greater amounts, than shall be necessary to meet the actual expenses which may be incurred in carrying out the purposes named in the foregoing resolutions.

It was also voted that whenever the directors shall decide to issue any portion of said increased capital stock, it shall be their duty to apportion the same at its par value among the stockholders of the Company in proportion to the number of shares held by them respectively; provided, however, that no fractions of shares shall be so issued; and in case any stockholder shall neglect to take and pay for such portion of said stock within the time fixed by the Board of Directors, the directors shall be at liberty to dispose of such shares not so taken at the market price of said stock; pro-

vided that none of said increased capital stock shall be disposed of at less than its par value.

Feather River and Beckwourth Pass R.R.

Articles of incorporation of this company were recently filed in the office of the Secretary of State of the State of California. The object of the company, as set forth in the articles filed, is "to construct and run a railroad, with necessary branches, etc., from the town of Oroville, Butte county, up the North Fork of Feather river, through the county of Plumas, by the way of Beckwourth Pass, to the eastern boundary of California, a distance of 145 miles; the term of existence 50 years; capital stock, $8,000,000, divided into shares of $100 each; principal place of business, Quincy, Plumas county; Directors—Amos F. Blood, William F. King, G. P. Cornell, I. N. Thorne and S. F. Seabury."

Michigan Central Railroad.

The earnings of this road for the years ending May 31, 1867 and 1868, were as follows:

	1867.	1868.
From passengers	$1,824,225 75	$1,721,506 97
" freight	2,285,521 69	2,480,974 16
" mails, etc	215,743 07	268,398 51
	$4,325,490 51	$4,470,879 64
Expenses, viz:		
Repairs of road	$723,842 58	$700,636 18
" buildings	178,423 31	120,366 20
" locomotives	304,799 90	258,017 42
" cars	305,672 03	260,554 47
Locomotive service	120,315 34	125,273 70
Train "	106,647 27	130,754 67
Station "	489,407 96	515,447 30
Fuel	328,781 55	311,249 06
Oil and waste	55,106 38	39,291 78
Stationery, etc	29,025 08	33,877 25
Telegraph	22,938 90	24,854 06

Miscellaneous	62,106 48	90,024 61
	$2,826,777 21	$2,714,545 64
Net earnings	$1,498,713 30	$1,756,384 00

Compared with the previous year the gross earnings of 1867-'68 show an increase of $145,389 13; with a decrease in expenses of $112,231 57—making an increase in net earnings of $257,620 70.

The earnings from passengers show a decrease of $102,718 78, or 5.63 per cent. from those of the previous year. The earnings from freight show an increase of $195,452 47, or 8.55 per cent. over last year. The increased tonnage of all freights moved amounts to 9.05 per cent.

The expenses of operating the road (not including taxes) were $2,610,346 70, or 58.38 per cent. of the gross earnings. In 1867 they were 62.81; in 1866, 61; in 1865, 55.8; in 1864, 47.6; in 1863, 40.4; in 1862, 45.1; in 1861, 51; in 1860, 53.7. The expenses, including taxes, the past year were 60.71 per cent., against 65.35 per cent. in the year preceeding. The president in his report says:

The falling off in the amount of revenue from the passenger traffic is to a considerable extent owing to a reduction of rates of fare, and also, to some extent, to the habit into which railway managers have fallen of paying commissions for the sale of passenger tickets, a practice which sensibly affects the revenues of every company which allows it, and still more those of any company which does not resort to it while it is permitted by competing roads.

It has been found possible considerably to diminish the expenses of working the road during the year, and it is confidently expected that still better results will be attained the coming year.

The track of the road and its equipment, both of machinery and rolling stock, has been fully kept up to the high standard which they have for so many years maintained. Its passenger rolling stock has been much improved, and the road itself is perhaps in a better condition than at any former period.

There has, however, been a material reduction of the expenses in each department.

The equipment of the road now consists of 98 locomotives, 67 first class passenger coaches, of which ten are Pullman sleeping and day coaches, 4 second class and 14 military cars, used for transportation of emigrants, 20 baggage and mail cars, 30 accommodation cars, for drovers, &c., and 1,480 freight cars, for all purposes.

There have been relaid about 40 miles of track the past year, included in which is three miles of steel rail. The amount relaid has been a little larger than is usual, the average for a term of years being somewhat less. The steel rail thus far has hardly borne the test, having been found more liable to break than iron. As the average life of iron on the road is about eight years, it is somewhat more than questionable if it will be found economical to substitute steel for iron in the track of the road. At stations, and where the life of the iron is short from great wear, it is expedient, perhaps, to make the substitution.

During the month of March the business of the road was very nearly broken up by extraordinary floods in Michigan, and along the lines of its eastern connections to New York, the business of each road having been successively interrupted during the month, and subjecting this company to a large loss of business.

The construction of the roads north and northwest from Jackson, and the consequent very great increase of business at that point, will require some expenditure the coming year to enable that station to meet the enlarged demand upon it. There will be some other, but not large, expenditures for local improvements along the line.

The opening of a new route from Chicago to the seaboard through the Great Eastern road, so called, and the Baltimore and Ohio roads, and by sea to New York and Boston, has introduced a new element in the competition for business. This has had a tendency to reduce rates, and, coupled with the practice of the New York roads to charge arbitrary rates between Buffalo and the Bridge, and New York and Boston, instead of prorating the charges for freight with the Western roads, has turned a large traffic from the more direct Northern roads over the more circuitous land and water routes, and has been injurious to the business of the roads west of Lake Erie. This state of things cannot probably long continue. In the multiplication of railways from Chicago and the West to New York and Boston, and the immense development of the West, the result must be greatly reduced rates over the New York roads, and they must eventually rely upon the great volume of business with low charges, instead of high charges, with smaller business, for their profits. Their effort should be, and will be, to perfect their road beds, and reduce to the lowest possible point the charges of transportation, and thus command the great volume of traffic which, at comparatively small rates, will yield larger revenues.

With easy grades and but little curvatures, the capacity of the New York Central road to do business, is immense. It will necessarily, at no distant day, adopt the policy of securing as perfect a track as shall be possible, and consequently reduced expense of transportation, and an immense increase in the aggregate of its business. It will be able then to deal more justly with its Western connections,—be of far greater value to New York City and the country, as well as its stockholders. The contrary policy is suggestive of the necessity of new roads, and new connections with old roads through the State of New York, which, indeed, are springing into life, and which it (as things now are), is for the interest of all capitalists interested in North-Western railways to promote.

The establishment of lines of through freight cars, now fully in operation, is an important step in advance in the progress of railway management. To establish such a line on the North Shore, the several railway companies owning the roads connecting with the Michigan Central between Boston and New York and in the West united, each furnishing or agreeing to furnish its proper proportion of the cars requisite for the line. There are now running in the line 716 cars of uniform construction, of which this company has furnished 154.

The line is not yet full, all the companies not having furnished their proper share of cars. The advantages, however, of this mode of doing business, by which freight is transported without change of cars, or the consequent damage and delay and expense, is so great, that all will find it for their interest to fill up their quotas, and the line, it is believed, will soon have the capacity to do all the business required of it. The uniformity in the gauge of all the roads on the North Shore leaves nothing to be desired in that respect for the successful working of the plan, and the "Blue Line," so called, has not only preserved, but added great strength to the route by the very greatly increased advantages it affords.

The establishment of a line of through passenger cars, well fitted for both day and sleeping cars, between Chicago and New York, yet remains to be accomplished. As yet, all efforts on the part of the Western roads have been unsuccessful by reason of the refusal hitherto of the New York roads to co-operate in the establishment of it. Such a line of cars being in successful operation upon another route, has resulted in the diversion of a very considerable travel from the North Shore and New York Central line of roads. It is still hoped that the great route of central roads will yet soon be able to afford to all classes of travel the accommodations they may desire.

The progress of railway improvement in Michigan, will in the future contribute very considerably to increase the local business of the road. Already the railroad from Jackson, by way of Lansing, the capital of the State, to Saginaw and Bay City, is in operation. Its length is about one hundred and fourteen miles, and connects the Saginaw Valley, the great lumber and salt marts of the West, with Chicago, by means of your road. There are now about thirty thousand people in the towns and cities of the valley, and with the rapid progress of the development of that section of the State, it must soon become of very much greater importance, in both business and population; and that road will be of constantly increasing importance, as a contributor to the business of your road.

Two other roads of great value to the future business of this company are now in progress. That from Jackson to Grand Rapids, a distance of about ninety miles, is now ready for the rail, about two-thirds of its whole distance, and will be opened undoubtedly for sixty miles, in time to do the fall business of the country through which it will run. By this road, the most important business city of the western part of the State, as well as the productive country through which it runs, will be connected with Detroit by the Michigan Central road.

The business of the country along the line of the road, and that which it will naturally command at Grand Rapids, must be an important element in the aggregate of the business of this company.

The road also from Kalamazoo northwards, to Grand Rapids, is in such progress, that its completion may be confidently expected at an early day, and probably within the coming year. It is a road which has long been needed, and will also bring a valuable contribution to the business of the Michigan Central road. This company has contributed, by its influence and assistance, to aid in the construction of the two first mentioned roads, though, in a manner, to constitute no bur-

den upon its own finances, while, by so doing, it has hastened the construction of those very valuable tributary roads.

While the unsatisfactory relations which have subsisted between the New York roads and those West connecting with them, has been productive of loss of business to the whole lines, and is rapidly building up the more southern roads, still the aggregate amount of business for the last year has been somewhat larger than that of past years, and will probably continue to increase. The progress of population westward, the immense productiveness of the country and its rapid development, and the vast extent of it yet to be filled with an industrious and busy and thriving people,—with towns, villages and large cities everywhere springing into existence,—the rapid construction of railways to almost the remotest settlements in every quarter, as well as to the Pacific coast, and all, in a greater or less degree, contributing to swell now, and in the future, the business of great routes between Chicago and the seaboard, seem to render it certain that they must all continue to increase in value and usefulness in the future, as they have done in the past.

The total number of tons of freight moved has been 638,586; of which 248,588 tons were through, and 389,998 local. Of the through freight, 165,954 tons were carried east, and 82,634 west. Of the local freight, 196,176 tons were carried east, and 193,822 west. Total tonnage east, 362,130; do., west, 276,456.

The whole number of passengers carried was 786,405, of which 659,449 were local, 109,484 through, and 17,472 emigrants. Of the local passengers, 321,940 went east, and 337,509 west; of the through passengers, 52,327 went east, and 57,157 west. Total passengers east, 374,267; do., west, 412,138. The superintendent in his report says:

The through travel, by all the East and West lines, without having increased in the aggregate, has been to some extent diverted by new and rival lines offering strong competition for the business, but mainly by reduced rates of through fare and extraordinary commissions in procuring the sale of tickets not resorted to by this Company.

The local passenger traffic shows a small falling off, less than the previous year, before which it was unusually large, incident to the close of the war.

All through freight destined to New York City and State, and principal points in New England, is now carried in through cars to destination without breaking bulk.

Since the completion of the "third rail" upon the Great Western road, and of the Detroit Iron Ferry Train Steamer, by which through cars commenced passing to and beyond the New York Central Railroad on the 1st of January, 1867, the through freight traffic has steadily increased and must continue to increase.

The plan adopted by the several roads in interest of the through or "Blue Line," of building the line freight cars of entirely uniform pattern, particularly in running gear, has proved itself of incalculable advantage and importance. Upwards of one thousand of these cars are now completed and in use, and there has been no instance thus far of a day's delay to freight by reason of detention for repairs incident to running cars of mixed construction to points remote from home.

The organization of the Blue Line has so far commended itself to the favor of connecting roads that, during the past year, the Providence and Worcester, the Worcester and Nashua, the Housatonic, and the Jackson, Lansing and Saginaw roads have voluntarily subscribed to its articles of agreement, and put in their quota of the new uniform cars. These roads will prove valuable auxiliaries to the line, and share its advantages. The entire business is transacted by the officers and agents of the several roads interested, and its earnings, unlike the generality of other through freight lines, pass entirely to the roads participating in the organization.

The following roads, forming an aggregate of 3,020 miles, are now parties to the line, all having put in their quota of new cars, which are being increased from time to time by each.

Illinois Central,	New York Central,
St. Louis, Alton & Chicago,	Hudson River,
Chicago, Burlington & Quincy,	Boston & Albany,
Michigan Central,	Housatonic,
Jackson, Lansing & Saginaw,	Prov. & Worcester,
Great Western,	Worcester & Nashua.

The line is thus composed of roads running from the five important Mississippi points, Cairo, St. Louis, Quincy, Burlington and Dunleith to New York, Bridgeport, Conn., Providence, Boston, Nashua, N. H., and all intermediate points, over track of uniform gauge.

The cars of this line are also run without through shipments from seaboard cities to St. Paul, Omaha, Kansas City and extreme points of completion of Pacific road, without breaking bulk.

Additions have been made to the stock of refrigerator cars, which are in good demand and highly appreciated by shippers of perishable freight in both directions.

The opening of the Jackson, Lansing and Saginaw road to Saginaw affords new facilities to our local points for procuring plaster, pine lumber and salt, and is increasing our traffic accordingly.

The arrangement entered into in May, 1867, for a joint passenger and freight business, *via.* Michigan City, with the Louisville, New Albany and Chicago, and Indianapolis, Cincinnati and La Fayette roads to Cincinnati, has been to some extent disregarded by the latter company, but through passenger and freight arrangements are in successful working to Jeffersonville and Louisville,—day and night passenger trains running in both directions between these points and Chicago, furnished with a good class of through day and sleeping cars.

INCOME ACCOUNT.

Balance from previous year		$443,450 22
Receipts from pass.	$1,760,246 78	
" freight.	2,446,967 11	
" miscel.	273,016 44	
		4,480,230 33

U. S. tax on receipts		43,518 20
Balance to new account		582,243 95
Total, as above		$4,923,680 55

Construction account has been decreased during the past year, $16,646 39.

The bonded debt has been decreased during the year by the conversion of bonds to stock, to the extent of $300,000; and the capital stock has been increased by that amount, and by the issue of $106,700 new stock, being balance unsold of amount authorized by a vote of the directors March 13, 1867.

The bonded debt now amounts to $6,968,988 89; capital stock, $8,477,366—total, $15,446,354 89. The sum invested in the sinking funds now amounts to $1,195,728 92. The company owes no floating debt of any description.

The equipment of the road consists of 98 locomotives, 57 coaches, 10 sleeping cars, 4 second class, 14 military, 20 baggage, 30 accommodation, 433 stock, 631 merchandize, 134 Blue Line, 20 refrigerator, 232 platform, 130 band and 165 wood and rubble cars.

The number of miles run by locomotives with passenger trains was 809,013; with freight trains, 854,120; working trains, 127,613; switching trains, 264,308—total, 2,055,049.

President.—JAMES F. JOY.

Vice President—NATHANIEL THAYER.

Directors.—James F. Joy, John W. Brooks, Nathaniel Thayer, Erastus Corning, J. M. Forbes, George F. Talman, Moses Taylor, Sidney Bartlett, and Edward Jones.

Treasurer.—ISAAC LIVERMORE.

Superintendent.—H. E. SARGENT.

Auditor.—WILLIAM BOOTT.

Philadelphia and New Hope Railroad.

The survey of the upper line of this road, where it connects with the North Pennsylvania Railroad, at Edge Hill, has been completed. The length of the line to Edge Hill Station is 25½ miles, and thence to the city 12 miles, making its total length 37½ miles. The heaviest grade is 58 feet to the mile, and this at one point only. The survey of the through route has been commenced by way of Davisville, Huntingdon Valley, and the Fox Chase. The two routes bifurcate at a point not far from where the road crosses the Neshaminy. The heaviest grade on this line, as far as reached, is 42 feet to the mile. A meeting of persons interested in having a railroad built along Stony creek, to connect with the North Pennsylvania Railroad, was recently held in Norristown, when assurances were given that from $125,000 to $150,000 in stock could be raised along the route.

☞ The engineers have finished the survey of the through route for the Philadelphia and New Hope Railroad, and report it as very favorable. They are now engaged surveying a route to run above Johnsville, and thence to the valley of the Pennypack. The prospect of this road being built is very favorable.

☞ The Belfast and Moosehead Lake Railroad is to pass through Brooks village, Thorndike, Troy and Detroit. It will be thirty six miles long. The payment is to be $750,000 cash, and the balance $182,000 preferred stock of the road for the thirty-six miles, and such further sum in preferred stock, as it may exceed that distance. The road is to be commenced in August next.

Atlantic and Great Western Railway.

The following statement, showing the present financial position of the Company, with proposals for its Reorganization and Resumption of Coupon Payments, has just been issued in London. The estimated net revenue from April, 1867, to December, 1872, is said to be amply sufficient to meet all the charges for interest, &c., under the proposed arrangement to put the line in full repair, etc.

Offices of the Atlantic and Great Western Railway,
5. Westminster Chambers, Victoria street, Westminster, London,
June 20, 1868.

At the earnest solicitation of friends who have large interests in the Atlantic and Great Western Railway Company, I accepted the office of President in January last. Duty to myself and to all concerned made it imperative that I should, as conditions of my acceptance, stipulate for the withdrawal of its affairs from the control of a Receiver at the earliest possible moment, and that the open or uncovered debts in Europe should be settled so as to remove all fear of litigation, or too great a pressure on the Company's resources. These debts have been arranged. In order to restore the affairs of the Company to a normal administration, I have now, on behalf of the Board of Directors, to submit the following statements, and to request the earnest co-operation of bond and debenture holders in the scheme herein proposed for capitalization and conversion.

A.—*Actual Cash Requirements on 1st April, 1867, on which date the Receiver took possession.*

1. For coupons due prior to and including 5th of January, 1867, which, not being presented in due course, or from other causes, were shut out by the suspension, but which equity compels should now be paid, and that the capitalization should be only of those coupons falling due after the suspension, but not including coupons on bonds lodged as collaterals for certificates of debenture, which are dealt with in statement C	$1,409,196
2. Supply debt in America, less supplies on hand	61,405
3. Mr. Trevithick's estimates in his report to committee of investigation of amount expended since April 1st, 1867, and required for new works and renewal of works	2.613,288
Total	$4,083,889

Of this amount more than one-third has already been provided out of the revenues during the year ending 31st March last.

B.—*Capitalization of Interest.*

The Company having lost, by forced realization of its securities, during the panic, a larger amount of its capital than has been found necessary for the completion of the line and its special requirements, it has reasonable grounds for asking that its creditors should for a comparatively short time reinvest their interest. It is proposed to capitalize into "income bonds," bearing 4 per cent. annual interest in gold from November 15 next, having twenty years to run, with semi-annual coupons attached:—

1. Two years' coupons on first mortgage divisional bonds	$798,110
2. Three years' coupons on second mortgage divisional bonds	308,553
3. Four years' coupons on consolidated mortgage bonds	4,926,180
4. Two years' interest on debentures from date of payment of last coupon, November 15, 1867, at 5 per cent. per annum	1,400.000
Total amount of income bonds to be issued	$7,432,843

Resumption of interest at 7 per cent. will commence on the first mortgage bonds from October 1 next.

C.—*Certificates of Debenture.*—(£2.800,000, *or* $14,000,000).

These debentures were originally issued for temporary purposes, at a time when the Bank rate was eight per cent. The works of the railway were making rapid progress in the midst of the great civil war. It was considered that the securities of the completed railway, whose receipts, as each section was opened, exceeded the estimates on which the construction was based, would, on the restoration of peace, considerably increase in value. A large amount of divisional and other securities of the Company, pending arrangements for consolidation, was placed with trustees as collaterals for the debentures, which were issued for three years, with interest guaranteed. In this way it was believed the public would be fully protected, and the Compaay realize extreme rates for its bonds and shares. In order to close this trust, which has been the source of much complication and litigation, it is proposed to convert the certificates of debenture into second mortgage consolidated bonds bearing 5 per cent. interest in gold from the 15th of November, 1869; the two years interest from maturity of debentures, 15th November, 1867, until interest on the bonds commences, being funded at 5 per cent. per annum, as per statement B. Certificates of debenture when exchanged will be cancelled by the trustees, after withdrawing from the trust and returning to the Company a proportionate amount of each description of collaterals, according to the deed of trust. Holders who prefer the security of the collaterals will not have their position impaired; the interest on bonds lodged as collaterals will yield 425,732 dols., or about 3 per cent. per annum on the certificates of debenture, and a large amount of the other securities will improve in value by the restoration of the Company's credit.

D.—*Present Position of the Capital Account.*

1. First mortgage bonds, severally secured on the New York, Pennsylvania, and Ohio divisions of the railway as they stood prior to consolidation.		$5,700,500
2. Second mortgage bonds secured on same		1,469,300
3. Consolidated mortgage bonds, secured on the whole line, and with the additional special security of its franchises, and of the revenues of the Mahoning and Franklin branches, from which over one quarter of the whole net income of the company is derived		17,593,600
4. Certificates of debenture, £2 800,-000 equal to, in gold		14,000,000
5. Shares or common stock		17,358,850
		$56,122,250
Balance being difference between the amount of collaterals lodged as security for certificates of debentures—viz., bonds.	$5,236,600	
Do., shares	12,641,150	
	$17,877,750	
Less amount of certificates of debenture	14,000,000	
		3,877,750
Total present authorised issue		$60,000,000

E.—*Position of the Bond and Capital Issues.*

On Completion of the Scheme of Conversion of Debentures and Capitalisation of Interest.

1. First mortgage divisional bonds, 7 per cent	$5,700,500
2. Second mortgage divisional bonds 7 per cent.	1,469,300
3. Consolidated bonds, 7 per cent	17,593,600
4. Second mortgage consolidated b'ds, 5 per cent. (new)	14,000,000
5. Income bonds, 4 per cent. (new)	7,432,831
6. Share capital or common stock	17,358,850
	$63,555,081

The whole of the securities in trust for certificates of debenture will revert to the company.

F.—*Estimates of Revenue from 1st April, 1867, to 31st December, 1872, and its Appropriation.*

The ability to resume payments at the dates hereafter named is based on the estimates of Mr. Thevithick, the consulting engineer of the committee of investigation, and of Mr. Oewel, one of the committee who visited the railway. The moderation of these estimates is proved by the actual net receipts of 1867-'8 being 15 per cent. in excess of Mr. Trevithick's calculations. The estimates are in United States currency, and coupons must be for the present so payable; but for the difference between currency and gold on such coupons as are payable in gold, certificates will be given redeemable from the earliest revenues which can fairly be appropriated for that purpose. The greatly increased development of traffic which will be obtained by an energetic administration under a restored credit, will, no doubt, provide a margin for payment of coupons in gold, drawn bonds, resumption of the drawings, and for all contingencies connected with the liabilities of the company. The estimates of net revenue, after providing for rent, taxes, and working expenses, are:

	By Mr. Trevithick.	By Mr. Oewel.
April 1, 1867, to Apr. 1, '68.	$1,450,000	$1,495,000
April 1, 1868, to Apr. 1, '69.	1,740,000	1,840,000
April 1, 1869, to Apr. 1, '70.	2,052,500	2,005,000
April 1, 1870, to Apr. 1, '71.	2,337,500	2,430,000
April 1, 1871, to Apr. 1, '72.	2,506,250	2,615,000
April 1, 1872, to Dec. 31, '72	2,000,000	2,100,000
Net amount of revenue	$12,086,250	12,485,000
The demands on the revenue will be—		
As per statement A	$4,083.889	
Coup. due in '69	671,578	
" '70	1,466.803	
" '71	2,422,853	
" '72	2,730,751	
	11,376,054	11,376,054
Surplus	$710,196	$1,108,946

Bond Issue and Annual Interest thereon from date of complete Resumption of Payments.

	Principal.	Interest.
First Mortgage, Divisional bonds, 7 per cent.	$5,700,500	$399,035
Second Mortgage, Divisional bonds, 7 per cent.	1,469,300	102,851
Consolidated mort. bonds, 7 per cent	17,593,600	1,231,552
Second mortgage, consolidated bonds, 5 per cent.	14,000,000	700,000
Income bonds, 4 per cent.	7,432,843	207,313
Total bonds	$46,196,243	$2,730,751

It is proposed to resume cash payments of interest accruing on the first mortgage divisional bonds, from 1st Oct., 1867. Second ditto, ditto, from 1st Oct., 1869. Consolidated mortgage bonds, from 15th Jan., 1871, funding the previous coupons.

To enable the board of Directors to carry out the scheme for funding and conversion, it is requested that holders of first mortgage bonds of the Pennsylvania and Ohio divisions send in to

the secretary, at the offices of the Company, 5, Westminster Chambers, Victoria street, Westminster, the coupons due in April and October, 1867, and April 1868, for which scrip for income bonds will be issued. The coupons due in October, 1868, will be stamped "payable in income bonds," and returned. Holders of first mortgage bonds of the New York division are requested to send in their coupons due July, 1867, and January and July, 1868, for which scrip for income bonds will be issued; the coupons due January, 1869, will be stamped "payable in income bonds," and returned. Holders of second mortgage bonds of the New York division are requested to send in their coupons due in April and October, 1867, and April, 1868, for which scrip for income bonds will be issued; the coupons due in October, 1868, and April and October, 1869, will be stamped "payable in income bonds," and returned. Holders of second mortgage bonds of the Pennsylvania and Ohio divisions are requested to send in the coupons due in July, 1867, and January and July, 1868, for which scrip for income bonds will be issued; the coupons due in January and July, 1869, and January, 1870, will be stamped "payable in income bonds" and returned. Holders of consolidated bonds are requested to send in their coupons due in April, July, and October, 1867, and January, April, and July, 1868, for which scrip for income bonds will be issued. The coupons due in October, 1868, January, April, July, October, 1869, and January, April, July, October, 1870, and January, 1871, will be stamped "payable in income bonds" and returned. Bondholders will thus retain in their possession the coupon not yet due, preserving the marketable shape of their bonds. Holders of certificates of debenture are requested to send them in to the secretary, as above, for which scrip for two years' interest will be issued, and also scrip for the consolidated second mortgage bonds. All scrip will be exchanged for bonds, as soon as they are received from the United States.

HENRY G. STEBBINS, President,
L. J. WOODMAN, Secretary.

United States Supreme Court.

WESTERN RAILROAD MORTGAGES—FORECLOSURE—NOTICE OF SALE.

Frederick P. James *et al. vs.* The Milwaukee and Minnesota Railroad Company.—This is an appeal from the Circuit Court of the United States for the district of Wisconsin. Mr. Justice Nelson delivered the opinion of the court. The bill before us is a creditors's bill, filed by four different judgment creditors against the defendants to set aside as fradulent and void against creditors the sale under a mortgage made to Barnes on the 21st of June, 1858, for two millions of dollars, by the La Crosse and Milwaukee Railroad Company, which sale took place on the 21st of May, 1859, and under which the defendants' company was organized, and that the company be perpetually enjoined and restrained from exercising any control over the property or franchises mentioned in said mortgage or from interfering in any manner with the road or its franchises; and further, that the said company be decreed to take nothing under the sale, and, that the property and franchises of the La Crosse and Milwaukee Company may be sold and applied. after discharging all prior liens, to the satisfaction of the judgments of the complainants. The complainants consist of the firm of F. P. James & Co., who are the owners of a judgment against the La Crosse and Milwaukee Company for $26,363 51, recovered in the District Court of the United States for the district of Wisconsin, on the 5th of October, 1858, in favor of Edwin C. Litchfield, and which came to the complainants by assignment; Nathaniel S. Bouton, who recovered in the same court a judgment against the same company for $7,937 37, on the 5th of April, 1859, and which judgment came to the firm of F. P. James & Co., by assignment; Philip S. Justice and others, who recovered a judgment in the Circuit Court of Milwaukee county against the same company for $235 33, and E. Bradford Greenleaf, a judgment in the same court against the same company for $840 06. These judgments were liens on the La Crosse and Milwaukee Railroad subsequent to the mortgage to Barnes already referred to, which with the sale under it is sought to be set aside as fraudulent and void against creditors. The mortgage was given to secure the payment of an issue of bonds for $2,000,000 on the 21st of June, 1858, and which were issued accordingly by the president and secretary, and were made payable in thirty years; one thousand bonds of $1,000 each, one thousand four hundred of $500 each, and three thousand of $100 each, interest at seven per cent., payable semi-annually on the 1st day of January and July in each year, with coupons attached. The sale under the mortgage took place on default of the payment of the first instalment of interest, six months after it was executed. Barnes, the mortgagee, acted as auctioneer, and bid off the property himself as trustee for the bondholders, who soon after organized the Milwaukee and Minnesota Railroad Company, one o the defendants in this suit. As appears from the proofs at the time of this sale there had not been $200,000 advanced on the entire issue of the two millions of bonds; indeed the actual amount is but little over $150,000. $550,000 of the bonds do not appear to have been negotiated at all, which were held in trust and never used, and $103,000 had been returned and cancelled, making in the aggregate $653,000. $400,000 were given to Chamberlain to secure a note of the company for $20,000, whtch he sold at auction, and which were bid in, principally by the directors, at five cents on the dollar. $310,000 of the bonds were given to secure a loan of $15,500, and which came into the hands of the same persons or their friends for about five cents on the dollar. It is charged in the bill—and the proofs are very strong in support of it—that this note to Chamberlain for $20,000 and the loan of $15,500 to secure the payment of which these bonds were given—$400,000 in amount for the first sum, and $310,000 for the second—were made by the company for the purpose and with the intention of obtaining a division of them among the directors, at merely nominal prices. It is very fully established that this was, in point of fact, the result of the transaction. We have looked with some care into the proofs, and into the brief of the learned counsel for the defendants, to ascertain the portion or amount of these bonds, or of the stock of the Milwaukee and Minnesota Company, into which some of them were converted that are now in the hands of *bona fide* holders, and we find no evidence in the record tending to show any amount beyond the sum already mentioned, less than $200,000. These were the only outstanding bonds existing at the time of the foreclosure and sale for which value had been paid; the remainder of the $2,000,009 were either in the hands of the directors or under their control, and not negotiated, or they were in their hands under the fraudulent arrangements we have already stated, at nominal prices. Nor do we find that the present holders of the bonds or stock of the company are in any better or more favorable condition than those who organized the defendants. The notice of sale set forth that the mortgage debt was $2,000,000, and that $70,000 of interest was due. It needs no authorities to show that such a sale cannot be upheld without sanctioning the grossest fraud and injustice to the La Crosse and Milwaukee Company, the mortgagee and its creditors. This deceptive notice was calculated to destroy all competition among the bidders, and, indeed, to exclude from the purchase every one, except those engaged in perpetuation of the fraud. The sale, therefore, must be set aside, and the Milwaukee and Minnesota Company be perpetually enjoined from setting up any right or title under it, the mortgage to remain as security for the bonds in the hands of *bona fide* holders for value, and that the judgment creditors, the complainants, be at liberty to enforce their judgments against the defendants therein, subject to all prior liens or encumbrances.

Rockford, Rock Island and St. Louis R. R.

The Rockford, Rock Island and St. Louis Railroad Company's first Mortgage Gold Bonds offer special inducements to investors.

They pay seven per cent. interest in gold coin, free of Government tax, equal, at present price of gold, to over 10 per cent., in currency.

They have fifty years to run.

They give the holder the option to receive his interest either in New York or London.

They are convertible into stock at the option of the holder.

Each bond is for $1,000, or £200 sterling and the principal, as well as the interest, is payable in gold coin.

The bonds are amply secured on two hundred miles of railroad equal in value to any line of equal length in the West, and upon more than twenty thousand acres of choice Coal Lands, worth on the completion of the road, from $300 to $500 per acre.

The line passes through a district of Illinois which in population, in the amount and variety of its productions, in the extent and value of its water power and in its consequent ability to furnish a large and profitable business to a railroad, is equal to any in the State.

The Company, like the Delaware, Lackawanna and Western, combines with its ordinary operation the business of mining and selling coal. More than 1,000 miles of railroad and the population of more than 40,000 square miles of territory, can be supplied with fuel from this Company's mines far more readily and cheaply than from any other quarter.

This road is not under the necessity of creating a business for its own support; a present and most urgent demand exists for all the coal the Company can produce. The supply in the Company's mines awaiting the opening of the division now under construction is practically inexhaustible.

Every dollar realized from the bonds and from a large stock subscription, is expended upon the property.

The enterprise is in the hands of able and experienced men who will push it rapidly to completion. Twenty-five miles are now ready for the rails and the whole division between the Northwestern and Rock Island Roads, the opening of which will give an outlet to the coal from the Company's mines, will be completed by January 1, 1869.

The bonds are for sale at 95 per cent. of their par value at the office of the Company 12 Wall street New York.

H. H. BOODY, Treasurer.

☞ Ground was broken on the Atlantic and Pacific Railroad at Springfield, Mo., on the 4th inst., with imposing ceremonies. A large force has been placed at work on the road west of Springfield; also on the South Pacific road west of Little Piney. The enterprise will be pushed rapidly forward, with the view of connecting St. Louis and San Francisco by the thirty-fifth parallel route to Albuquerque beyond.

American Railroad Journal.

Saturday, July 18, 1868.

Stock Exchange and Money Market.

The Money Market has been very liberally supplied with loanable funds, since our last, both by banks and by private parties, and as the demand has been of a very moderate nature, as well for speculative as for mercantile purposes, the tendency of rates has been decidedly downward, call loans closing at 3@4, and prime discounts at 5@6 per cent. per annum, as the rule of the street. The extraordinarily hot weather has very seriously impeded business in all branches. The city banks, in their last weekly return, showed a gain of 7¼ millions of specie, their reserve in this form being now up to 19¼ millions, or 6½ millions more than at this date last year. They also added over 3¼ millions, last week, to their deposits, against which they reported a decrease of 3½ millions in their legal tender hoard, which is now $68,531,542, against $73,853,303 on the 27th of June. Their loans have been enlarged to $284,147,708. The Sub-Treasury business has been very heavy, since our last. The receipts and disbursements reached some 27 millions on Saturday alone. The aggregate of both items, for the week, have been over 40 millions. Yet the cash balance of the office has been very slightly disturbed.

The specie reserve of the city banks is now $19,235,348, against $12,715,404 same time last year. The city bank deposits are now $224,320,141, against $197,872,003 week ending July 13, 1867. The legal tender reserve amounts to $68,531,542, against $72,495,708 same time last year. The circulation now stands at $34,068,202, against $23,653,859 same time last year. The loans are now $284,147,708, against $247,913,009 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $98,626,066 a day, against a daily average of $105,129,338 the preceding week, and $86,121,000 the week ending with June 27, 1868. The current week's exchanges average about $91,000,000 a day. The city banks, last week, lost $3,594,397 of legal tender, while they gained $3,269,335 in the deposit line, and $7,280,618 of specie reserve. They increased their loans, $2,201,777; and their circulation, $35,736.

The Philadelphia Bank movement the past week shows an increase in loans of $138,125; a decrease of $51,472 in specie; an increase in legal tenders of $221,049; an increase of $58,625 in deposits; and an increase of $788 in circulation. The Bank Clearings show an increase of $5,182,547, and the balances, a decrease of $22,877.

The New York Gold Exchange Bank reports for the week ending Saturday, the 11th day of July, 1868, the average amount of loans and discounts as $1,068,132; average amount of specie, $1,047,343; average amount of deposits, $1,555,153.

The U. S. Sub-Treasury receipts, week ending with July 11, were $40,366,307, including $1,730,412 from customs duties; payments, $40,481,498, including $4,029,000 of coin interest; balance at the close of the week, $83,310,744, against $83,425,935, at the close of the preceding week, showing a decrease of $115,191. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $3,935,471 including $255,438 from customs; and payments, $3,213,025; on Tuesday, receipts, $2,698,603 including $523,000 from customs, and payments, $2,884,861. The balance at the close of business on Tuesday stood at $82,846 935, against $82,167,933, a week previous; and $89,125,661, on July 3, 1868. The aggregate receipts of the office from all sources in June, were $87,512,859; aggregate payments, $93,065,184. The balance on the 1st inst., was over 5½ millions below that on the 1st ult., which amounted to $94,677,986.

The coin certificates issued by the Sub-Treasury office, during June, reached $3,543,860.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $4,913,000, and retired $1,643,411.

National Bank notes to the amount of $112,070 were issued last week, making the total issue to 1,673 banks thus far, $308,785,016, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be de-

ducted the currency returned, including worn out notes, amounting to $8,961,791, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,823,225. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,518,900; and for the public deposits, $38,447,950—making a total of $379,966,850. The Treasury Department last week redeemed and destroyed $433,100 of worn and mutilated fractional currency, and issued $1?2,265 of new. The outstanding amount of fractional currency on the 1st of June was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been quite limited, since our last. Both customs and excises have given a meagre yield. The customs at this port have been rather more prolific thus far in the current week. The excises, last week, yielded some 2¾ millions; customs at the port of New York, $1,730,412, and at the outports about $600,000 (in coin) more, making the grand total income for the week equal to about $6,036,000 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, was about $192,000,000.

Gold has been in more active speculative demand, since our last. The bidding at the Gold Board and in the street has been on a more confident basis. The range of the price has been from 140⅝ to 142½, and the latest quotation on Wednesday were 142⅜@142½. The export movement last week was extensive, having reached nearly four millions. Thus far in the current week, the shipments have been $773,000, as follows: on Tuesday, $268,000, and on Wednesday, $505,000. The reduced London quotations for U. S. Securities have tended to strength the speculative interest. The *Rising Star* arrived at this port on Wednesday from Aspinwall, with a treasure freight of some $523,000.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $4,107,663, against $1,589,049 same time last year. The customs demand for Gold last week, averaged $288,402 a day; thus far, this week, it has been equal to $389,219 a day, or equal to a weekly aggregate of $2,335,314. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $7,179 and from California, $523,000. The total customs revenue of the Government, in coin, at this port, during the fiscal year ending with June 30, 1868, was $113,529,891, against $122,667,016 in the preceding fiscal year. The customs revenue in coin at this port, since Jan. 1, 1868, has been $59,457,362, against $64,118,511 same time in 1867. The total receipts of California gold at this port, in the last fiscal year, ending with July 1, 1868, were $36,726,790, against $38,338,762 in the preceding fiscal year, showing a decrease of $1,611,972 in 1867–'68. The receipts from the same source, since Jan. 1, 1868, have been $23,295,754, against $14,793,540, in 1867, showing an increase thus far in 1868, of $8,502,214. The exports of specie, hence, year ending with July 1, 1868, were $76,256,594, against $41,366,932 same time in 1866–'7. The exports of specie from this port, last week, were $3,947,891, against $4,659,935 same week last year; total, since Jan. 1, 1868, $55,425,178, against $31,213,658 same time in 1867. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $4,029,000; since Jan. 1, 1868, $54,077,367, against $35,993,329; and during the last fiscal year, ending with June 30, 1868, $73,485,386, against $54,218,392 in 1866–'7. The specie exports from San Francisco, from Jan. 1, to June 29, 1868, were $20,360,325, against $19,179,374 same time last year.

Government received $3,970,123 from customs at the port of San Francisco, from Jan. 1, to June 29, against $3,578,322 same time in the preceding year.

Foreign Exchange has been in quite moderate demand, yet as the offerings of prime bills have been limited, rates have been well supported. Bankers' prime sixty day bills on London closed on Wednesday at 110⅛@110⅜, and on Paris to 5.15c.@5.12½; sight bills on London to 110½@110¾, and on Paris to 5.11c.@5.10. The offering of produce bills has been moderate this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,317,411, against $3,325,599 same week last year; total, since Jan., 1, 1868, $90,958,806 against $104,178,966 in 1867; and grand total, during the fiscal year ending July 1, 1868, $179,784,280, against $195,544,905 in 1866–'67.

Government securities have been in rather more request, chiefly for home investment purposes, and prices have exhibited more firmness, with, however, very little buoyancy. The offerings of both bonds and notes have been on a less extensive scale, and the leading street holders have been much less desirous of realizing. Seven-Thirties of the June issue have been in less favor. The extended privilege of conversion matured on this issue on Wednesday, July 15, when the notes commanded a premium of 8⅝@8⅞ per cent. Like the matured first (or August) series, the outstanding notes of the June issue will now be redeemed in currency, we presume.

U. S. sixes of 1881 closed here on Wednesday (ex July 1, coupon,) at 113¼@113½; U. S. Five-twenties of 1862, 113@113¼; U. S. Five twenties of 1864 at 110⅛@110¼; U. S. Five-twenties of 1865 at 111⅛@111⅜; U. S. Five-twenties of 1865, consolidated, 108⅝@108¾; U. S. Five-twenties of 1867, 108⅜@108⅝; U. S. Five-twenties of 1868, 108⅞@109; U. S. Ten-forties at 107¼@107½, and U. S. Seven-thirties at 108⅜@108⅝; U. S. Six per cent. currency bonds, 102¾@103. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865....118½	October, 1865....117½
September, 1865..118	
U. S. three per cent. certificates	100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 1.	July 8.	July 15.
Consols.....	94⅞	95	94¾
U. S. 5-20's of 1862...	73¼	73¼	72⅜
Erie.....	45½	46	43¾
Ill. Central.....	101⅛	102	*92

* Ex-dividend.

Railway and miscellaneous stocks have been much less freely dealt in, and quite seriously depressed in price, partly because of the apprehensions excited by the discovery of forced certificates of various lots of shares, in all amounting to some $200,000.

General business has been comparatively tame, since our last. All the leading kinds of domestic produce have been in limited demand and depressed in price. Middling upland cotton closed strong on Wednesday at 32 cents, per lb. The stock of cotton now here is estimated at about 57,500 bales. The receipts at the port this week, have averaged only about 1400 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,170,000 bales, against 1,842,000 bales same time last year; exports, same time 1,682,500 bales, against 1,489,000 bales same time last year; stock on hand at latest dates, 100,000 bales, against 180,000 bales same date last year. At the Live Stock markets, this week, Beeves have been in more demand and firmer at from 12½@17c. per lb.; week's receipts, 5,810. Veal calves have been in less request, and heavy at from 7@12c. per lb.; receipts, 1,945. Sheep and lambs have been moderately active at from 3@6½c., and 7@9½, respectively, per lb.; receipts, 22,564. Swine have been in good demand at from 9¼@10⅛c. per lb.; receipts, 15,007. Foreign merchandise has been in limited request and irregular in price. The total imports of foreign dry goods, last week, were $1,280,470, and the total amount marketed $1,063,125. The value of foreign merchandise imported last week, was $3,082,774—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $4,363,514, against $3,850,662, same week last year; from Jan. 1, 1868, $128,959,843, against $137,949,424 same time in 1867; and year ending July 1, 1868, $238,283,518, against $269,831,007 in 1866–'67. Freights have been rather firmer, but not very active. For Liverpool we quote flour at 1s. 3d.@1s. 4½d. by sail, and 1s. 6d. @1s. 9d. by steamer, per bbl.; grain at 4½@5d. by sail, and 6@6½d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail, and $\frac{3}{16}$d.@¼d. by steamer, per lb.; and heavy goods at 10s.@25s. by sail, and 15s.@27s. 6d. steamer, per ton. Total number of vessels in port on Wednesday 477.

The New York exports, exclusive of specie, for the week ending July 14, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week.....	$3,325,599	$2,317,411
Prev. reported.....	100,853,268	88,641,395
Since January 1.....	$104,178,867	$90,958,806

The imports for the week ending July 11, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$1,699,056	$1.280,470
Gen. merchandise.....	3,713,520	3,082,774
Total for the week.....	$5,412,576	$4,363 244
Previously reported....	132,536,848	124,596,599
Since January 1.....	$137,949,424	$128,959,843

The balance in the Sub-Treasury on Wednesday was $82,523,255.

Railroad from Allegan to Holland, Mich.

We learn that the citizens of these places have just united in organizing a company to build a road from the former to the latter place, a distance of 22 miles. Allegan lately secured a road from Kalamazoo, and now she aids in extending the line to Holland city, on the Eastern shore of Lake Michigan.

The capital stock is mostly subscribed and five per cent. paid in. The road will be extended by other companies northward to Grand Haven, Muskegon and Grand Traverse city. It will be a lake shore road, and must develop to an immense degree the Western portion of the State.

European and North American Railway.

The Annual Meeting of the Stockholders of the European and North American Railway Company for Western Extension was held at St. John, N. B., on the 17th ult. The Directors report the road rapidly progressing, and that there is every probability of its being opened for traffic to Fredericton on the 1st of January next, and to Woodstock and the border of Maine in June following. The Treasurer acknowledges receipt of cash from the Province, the City St. John, and from shareholders amounting to about $430,000, of which $392,000 has been paid to the contractors, $10,000 for material and expenses, leaving some $28,000 at present in the Treasury towards meeting a liability of some $60,000 now or shortly to become due. Sleepers for the whole road have been procured and the most of them distributed along the line. Upwards of 2,000 tons of rails have been purchased in England, a portion of these being now on the ocean and the balance ready for shipment. Two locomotives and a quantity of rolling stock have been procured in the United States, the bonds of the company having been taken in exchange. Over eleven hundred laborers are now employed on the road.

The share lists show that the larger portion of the subscribers have responded to the several calls for payments, and that those who seem desirous of repudiating are few and their subscriptions small. The calls on the City Corporation for its stock have been promptly met.

After the thanks of the Shareholders had been voted to the retiring Board for their unwearied and gratuitous services, the following gentlemen were elected Directors for the ensuing year:—Wm. Parks, Esq., Major W. B. Robinson, F. T. C. Burpee, Esq., Alex. Jardine, Esq., and L. Carvel. At a subsequent meeting of the Directors, William Parks, Esq., was unanimously re-elected President; Charles N. Skinner, Esq., Solicitor; T. Barclay Robinson, Esq., Secretary and Treasurer.

☞ A preliminary meeting has been held at Lewisville, by parties interested in the construction of a railroad from Wilmington, Del., to Peach Bottom, on the Susquehanna river. A committee of six was appointed to confer with the friends of the road in Wilmington, for the purpose of arranging for a general survey of the routes suggested.

☞ Tennessee State bonds, to the amount of $300,000 have been issued to the Southwestern Railroad Company, which proposes constructing a railroad from McMinnville Tenn., to Danville, Ky.

☞ A road is in contemplation to Upper Somerset from Fisher's Ferry, on the Portland and Kennebec road, by way of Canaan and Hartland to St. Albans, to be leased and run by the Portland and Kennebec company.

☞ The trains of Pacific Railroad are now running to Wadsworth, one hundred and ninety miles east from Sacramento City, and five hundred miles from Salt Lake.

☞ The county of Nicholas, in West Virginia, has voted in favor of a subscription of $50,000 to the preferred 8 per cent. stock of the Chesapeake and Ohio Railroad.

Railroad Earnings.--Weekly.

The earnings of the Western Union Railroad for the 1st week in July, 1868..... $12,832 20
Corresponding week previous year.... 13,121 61

Decrease $289 41

The earnings of the Michigan Southern and Northern Indiana Railroad for the 1st week in July, 1868, were..... $74,605 00
Corresponding week of 1867..... 63,928 00

Increase $10,677 00

The earnings of the Michigan Central Railroad for the 1st week in July, 1868, were... $75,943 10
Corresponding week of previous year.. 60,761 41

Increase. $15,181 69

The earnings of the Marietta and Cincinnati Railroad the 1st week in July, 1868.. $24,418 00
Corresponding week previous year.... 23,603 00

Increase $815 00

The earnings of the Chicago and Rock Island Railroad for the first week in July, 1868, were..... $88,700 00
Corresponding week of previous year.. 69,552 00

Increase $19,148 00

The earnings of the Chicago and Northwestern Railroad for the 1st week in July, 1868. $239,350 32
Corresponding week previous year .. 192,924 48

Increase $46,425 84

The earnings of the Detroit and Milwaukee Railroad for the first week in July, 1868, were $35,330 86
Corresponding week of 1867..... 35,057 72

Increase $273 14

The earnings of the Toledo, Wabash and Western Railroad for the first week of July, 1868, were..... $66,899 89
Same week in 1867..... 70,113 82

Decrease $3,213 93

The earnings of the Chicago and Alton Railroad for the 1st week in July, 1868... $83,882 80
Corresponding period previous year .. 75,720 11

Increase $8,162 69

Illinois Central Railroad.

The statement of this Company for the month ending June 30, 1868, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold.....	15,556.62 for	$147,169 22
Acres Int. Fund Lands sold.....	120.00 for	1,644 20
Acres Free Lands sold..	1,819.08 for	25,226 40
Total sales during month of June, 1868.....	17,495.70 for	$174,039 82
To which add Town Lot Sales.....		1,230 00
Total of all.....	17,495.70 for	$155,269 82
Cash collected in June		$220,507 52

TRAFFIC DEPARTMENT.

Receipts from Freight		$338,486 00
do. Passengers		124,174 27
do. Mails.....		6,358 33
do. Rent of Road.....		4,000 00
do. Other Sources.....		70,000 00
Total Receipts in June, 1868.....		$543,018 60
Total Receipts in June, 1867.....		$496,257 54
Estimated earnings in the month of June, on the D. & S. C. R. R., not included above.....		$78,666 00

☞ The preferred stock of the Rutland Railroad, upon which a dividend of 3½ per cent. has been declared, is issued only in exchange for first mortgage bonds of the Rutland and Burlington Railroad Company. To secure this dividend conversion must be made on or before the 25th inst., when the books will be closed for making up the dividend.

Commerce of New York.

The foreign imports at New York for the month of June, are officially stated as follows:

	1867.	1868.
Entered for consumpt'n.	$8,947,379	$8,786,471
Do. for warehousing....	10,478,305	10,063,867
Free goods	1,043,040	783,149
Specie and bullion	499,184	838,111
Total entered at port...	$20,967,908	$20,471,598
Withdrawn fr. wareh'use	6,910,287	6,658,943

The foreign imports at New York for the six months from January 1st, were:

	1867.	1868.
Entered for consumpt'n.	$64,972,615	$58,924,841
Do. for warehousing...	64,071,291	59,723,073
Free goods.....	5,975,691	4,954,049
Specie and bullion.....	1,556,696	4,038,900
Total entered at port..	$136,576,293	$127,640,863
Withdrawn fr. wareh'se	59,487,891	51,922,215

The foreign imports at New York for the fiscal year ending June 30, were:

	1866-'67.	1867-'68.
Entered for consumpt'n.	$140,013,482	$121,493,242
Entered for warehouse.	117,877,762	106,408,721
Free goods	11,940,663	10,022,539
Specie and bullion....	9,954,539	5,788,543
Total entered at port..	$279,786,446	$243,713,045
Withdrawn fr. wareh'se	109,735,319	99,210,380

The imports for the year ending June 30, are described as follows:

	1866-'67.	1867-'68.
Dry goods.....	$103,407,278	$77,254,182
Gen. mdse.....	166,424,629	160,670,320
Specie and bullion....	9,954,539	5,788,543
Total imports.....	$279,786,446	$243,713,045

The revenue from customs at New York, were:

	1867.	1868.
In June.....	$7,725,135 60	$7,678,200 69
Previous 5 mos.	51,629,553 30	47,772,547 96
Total 6 months.	$59,354,688 90	$55,450,748 65
Total fiscal year.	$119,886,260 72	$110,182,050 09

The exports from New York to foreign ports in the month of June, were:

	1867.	1868.
Domestic produce	$14,346,769	$10,634,544
Foreign free goods.....	43,214	32,946
Do. dutiable.....	713,139	641,409
Specie and bullion	6,724,272	11,823,628
Total exports.....	$21,827,392	$23,132,527
Do. exclusive of specie.	15,103,120	11,308,899

The exports from New York to foreign ports for six months from January 1st, were:

Pacific Railroads.

AN ACT RELATIVE TO FILING REPORTS OF RAILROAD COMPANIES.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the reports required to be made to the Secretary of the Treasury on or before the first day of July of each year, by the corporations created by or entitled to subsidies under the provisions of an act entitled "An act to aid in the construction of a railroad and telegraph line from the Missouri river to the Pacific ocean, and to secure to the Government the use of the same for postal, military and other purposes," approved July 1st, 1862, and the acts supplemental to and amendatory thereof, shall hereafter be made to the Secretary of the Interior on or before the first day of October of each year. Said reports shall furnish full and specific information upon the several points mentioned in the twentieth section of the said act of 1862, and shall be verified as therein prescribed, and on failure to make the same as herein required, the issue of bonds or pattents to the company in default shall be suspended until the requirements of this act shall be complied with by such company. And the reports hitherto made to the Secretary of the Treasury under the said act of July 1st, 1862, shall be transferred and delivered by him to the Secretary of the Interior to be filed by him.

Section 2. *And be it further enacted*, That the corporations created by the provisions of the acts of Congress, approved July 2d, 1864, and July 27th, 1866, and known as the Northern Pacific Railroad Company, the Atlantic and Pacific Railroad Company, and the Southern Pacific Railroad Company, shall make reports to the Secretary of the Interior on or before the first of October of each year, as are required to be made by the Union Pacific Railroad and branches, under the provisions of the first section of this act, and on failure so to do, shall be subject to the like suspension.

Section 3. *And be it further enacted*, That the reports required from the Commissioners appointed to examine and report in relation to the road of any of the corporations whereto reference is made in this act, shall be addressed to and filed in the Department of the Interior; and all such reports heretofore made shall be transferred to and filed in said Department of the Interior; and so much of any and all acts as requires any reports from such companies, or any officers thereof, to be made to the Secretary of the Treasury, is hereby repealed.

Section 4. *And be it further enacted*, That, in addition to the eight subjects referred to in section twenty of the act of July, 1862, to be reported upon, there shall also be furnished annually to the Secretary of the Interior all reports of engineers, superintendents, or other officers who make annually reports to any of said railroad companies.

Approved, June 25, 1868.

West Wisconsin Railway.

A prospectus of the above undertaking has been issued for $4,000,000 (£800,000) in bonds secured by a first mortgage on the entire property of the Company, including 1,004,800 acres of land. The present issue now offered for public subscription is $1,000,000 in bonds to bearer of £100 and £200 each, convertible, at the option of holders, into stock of the Company at par value.

The bonds bear interest at 7 per cent. per annum, payable on 1st January and 1st July, at the head office of the London and County Bank, in sterling money. The bonds will be issued at the price of 70, thereby making the interest equal to 10 per cent. and redeemable at par in 15 years.

The instalments are payable between this and 1st January next, and interest at 7 per cent. will be allowed on bonds paid up in advance. The length of the Company's line is 157 miles, of which the earthworks and bridges on the first 32 miles are completed and are expected to be in working order not later than 1st October next, and it is an-

ticipated that the entire line will be completed in two years from the present date. It is believed that the traffic will yield a net profit of upwards of 7 per cent. on the capital expended, gradually increasing to 15 per cent.

The report of Mr. Collinson, C. E., and the authority for issuing these bonds, and other documents, can be inspected at the office of Messrs. Janson, Cobb, and Pearson, who act for the Company in London.

The West Wisconsin Railway runs from Tomah to Hudson, and is a continuation of the Milwaukee and La Crosse Railway, and connecting at Hudson with the St. Paul and Pacific Railway will become an important section of the great overland route to San Francisco and the Western States, and the Government grant of territory cannot fail to become an important feature in the undertaking.—*Herapath, June 27.*

To Engineers.

SEALED PROPOSALS ARE INVITED by the undersigned on behalf of the commission appointed by the laws of 1868, for laying out opening and closing streets roads and avenues in the town of Morrisania.

For making a complete survey of said town with a map fully showing the whole matter and a copy of the same, subject to the approval of the Commissioners, for a fixed sum. All offers must be handed to

THOMAS E. SUTTON,
142 Fulton Street, N. Y.
Or to G. MORRIS,
Port Morris.

On or before 10th Aug., prox.

65 WALL STREET, New York.

JOHN W. GOULD. EDWARD P. BIGELOW.

660 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in active operation. One hundred and twenty miles have been built in the last three months. More than twenty thousand men are employed, and this average of forty miles per month will be continued throughout the season, making NINE HUNDRED COMPLETED MILES by January 1st, and it is now probable that the ENTIRE GRAND LINE TO THE PACIFIC WILL BE OPEN FOR BUSINESS IN 1869.

No other first-class railroad in the world has been built and equipped so rapidly as the Union Pacific, which runs west from Omaha

Across the Continent.

The United States Government makes of this railroad a GREAT NATIONAL WORK, and aids its construction by very liberal grants of money and of lands. To further insure the speedy completion of the road, the Company are authorized to issue their own

First Mortgage Bonds

having thirty years to run, and having interest coupons payable semi-annually at the rate of six per cent. in gold. The principal, as well as interest, is made

PAYABLE IN GOLD.

The Mortgage Bonds of nearly all other railroads in this country, are payable, principal and interest, in currency; and it is asserted, without fear of contradiction, that no other railroad company in the world, building so great an extent of road, issues bonds of equal value with the First Mortgage Bonds now offered for sale by the Union Pacific Railroad Company.

The price of these Bonds is now **103,** and accrued interest from July 1, in currency. The Company believe that at this price their bonds are the

Safest and Most Profitable Investment

in the market, and they confidently expect that they will shortly command a higher premium than any similar security. The Company reserve the right to advance the price at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance. Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by leading Bankers generally throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

JULY 2, 1868

FOR SALE.

TWO FIRST CLASS SIXTY PASSENGER Coaches, 4, 8½ guage, Compromise Wheels.

MICHAEL SCHALL,
Empire Car Works, York, Pa.

To Tunnel Contractors.

THE Commissioners of the Troy and Greenfield Railroad and Hoosac Tunnel, acting for the State of Massachusetts, invite proposals until the 12th day of August next, for completing said Tunnel, either in separate contracts for three different sections of the work, or in one contract for the whole.

The Tunnel when completed will be 4¼ miles long.

From the **East End** the mountain has been penetrated about one mile, and for a portion of that distance the section has been enlarged to the full width of 24 and height of 20 feet. The enlargement is required to be finished, and working continued westward.

The **Central Shaft,** 27 by 15 feet, has been sunk 583 feet, and remains to be sunk 447 feet to grade; and the Tunnel is to be driven in each direction therefrom.

The **West Shaft Workings,** located about half a mile from the west portal, embrace two auxiliary shafts used mainly for pumping and ventilation, and the headings driven in each direction make an aggregate length of about 2300 feet.

The depth of the west shaft to grade is 318 feet.

The **West End,** where arching is required, is already under contract to a point about 930 feet from portal, and from this point a draining drift is to be run eastward to meet workings from west shaft, which will obviate the necessity of pumping probably by the close of the present year.

The existing buildings, and fixed machinery provided by the State for hoisting, pumping, ventilation, and supply of compressed air to the drilling machines, now successfully operating in the rapid advance of the work, will be turned over to the contractors as they are.

A sufficient appropriation has been made by the State for the completion of the whole work.

Ample sureties will be required from parties who may be contracted with, and the Governor and Council reserve the right to reject all offers that may be made.

Plans may be seen, and specifications obtained, on application to B. D. FROST, Superintending Engineer, at the Engineers' Office in North Adams, Mass., or to B. H. LATROBE, Consulting Engineer, at his office, 49 Lexington street, Baltimore, Md. Specifications and other information may be had at the State House, in Boston, from TAPPAN WENTWORTH, Commissioner, to whom proposals will be addressed.

PROPOSALS.

NOTICE TO RAILROAD CONTRACTORS.

OFFICE OF THE NEW YORK AND OSWEGO MIDLAND RAILROAD COMPANY,
ONEIDA, N. Y., June 9th, 1868.

SEALED PROPOSALS WILL BE RECEIVED AT the office of the Company, in Oneida, N. Y., until the 25th day of July, 1868, at noon, for the Grading, Masonry and Bridging of that portion of the New York and Oswego Midland Railroad extending from Middletown, Orange County, to Westfield Flats, in Sullivan County, *via* Philipsport, Liberty, and intermediate towns; also, including the Branch from the Main Line to Ellenville. The above work will include a Tunnel of about three thousand (3,000) feet in length, through the Shawangunk Mountain, for which separate proposals are invited.

The line will be divided into Sections, of convenient length, and Proposals may be made for separate Sections or for the entire work. The Company will entertain separate proposals for Bridging only. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Middletown, N. Y., where all necessary information may be obtained, on and after the 15th day of July, 1868.

Sealed Proposals will also be received at the office of the Company, in Oneida, N. Y., until the 30th day of July, 1868, at noon, for the Grading, Masonry, and Bridging of the New Berlin Branch, in Chenango County, extending from the Main Line, at East Guilford, to New Berlin, a distance of 22 miles. Plans, Profiles, and Specifications will be ready for examination at the office of the Engineer, in Oneida, N. Y., where all the necessary information may be obtained, on and after the 23d day of July, 1868.

SPECIFICATIONS
FOR
PROPOSALS.

OFFICE NEW ORLEANS, OPELOUSAS AND GREAT WESTERN RAILROAD COMPANY.

New Orleans, June 6th, 1868.

The New Orleans, Opelousas and Great Western Railroad Company desiring that a connection shall be formed between their present terminus at Berwick's Bay, and the Houston and New Orleans Railroad, which terminates at the Sabine River, and which when completed, the (distance being 163 miles,) will connect New Orleans with almost the entire railroad system of Texas, the President and Directors of said Company, therefore propose to such party or parties as may undertake to fill up such gap, the following terms and conditions, to wit:

1. Will lease the right of way and the franchises now possessed by said company from their present terminus at Berwick's Bay to the town of Vermilionville, the grading of which is almost entirely completed for these 63 miles, and will, at the same time, lease the right under their charter to build the branch railroad from Vermilionville to the Sabine River, at or near Orange, the same having been already located by resolution of the Board of Directors. The distance between these points is 100 miles. The Company reserving to itself the right of way and transportation on payment of proportionate freights and passage money from the present terminus of the road to any extension towards Opelousas, of its road beyond Vermilionville.

2. The said lease to continue for a term of years to be agreed upon between the Company and the Lessees. At the end of the lease the property to be valued by disinterested parties, the Railroad Company to select three, and the Lessees three, the two, if need be, to call in an umpire whose decision will be final. The Railroad Company reserving the right to purchase said property at such valuation, but if not then promptly paid for by said Company, the lease to be extended for a further term of years, and so on, until finally purchased and paid for by said New Orleans, Opelousas and Great Western Railroad Company. The grading already made between Berwick's Bay and Vermilionville, to be valued by competent engineers at the time of entering into a contract, but not to be paid for by lessees until the end of the first lease, herein provided for.

3. The parties leasing to obligate themselves to connect with no other railroad which might hereafter be built, terminating at or near the City of New Orleans, and further obligating themselves to do no act which will infringe the rights under the present charter of said Company, and also to hold said company harmless against any loss which might result from acts committed on that portion of road now proposed to be leased.

4. Should the Lessees succeed in obtaining a land grant on the line of railroad beyond Berwick's Bay, it will be and remain the property of said lessees, this Company claiming none of its benefits, and incurring no portion of the responsibility attending it.

5. Transportation to be furnished said Lessees over the Company's road, as follows, viz:

The President, Directors and officers of the road, including engineers, superintendents, road masters and bridge builders free of charge. Transportation of laborers going out to be charged one-third the regular fare. Provisions and supplies to be charged one half of regular rates. Material, other than iron and cross-ties, to be charged one half of regular rates. Iron to be charged one dollar per ton, and cross-ties (if any) fifteen cents each. Lessees to load and unload the cars.

6. The road thus to be built shall be a first class railroad in every respect. The gauge to be the same as the Company's road—say 5 feet 6 inches. The iron used not to be less than 58 lbs. per yard.

7. The said Lessees to obligate themselves to commence said road within four months, and have it finished and in running order to the Sabine River, connecting with the Houston road at or near Orange, within three years from date of signing the lease.

8. In order to ensure the faithful performance of the contract the Lessee will be required to execute a bond to an amount, and with good and satisfactory security to the satisfaction of the Board of Directors.

9. The Company reserves the right to reject any and all bids.

Another proposition and for which proposals are also invited, is to lease the road, including depots, stations, rolling stock, etc., from Algiers, opposite New Orleans, to Brashear City, including the franchises of the Company beyond to Texas, under the following conditions:

1. That the party or parties proposing to lease shall state the least number of years he or they will lease the road, on the following conditions:

2. The accrued interest to October the 1st, 1868, on the mortgage bonds, (said bonds maturing in 1889,) to be provided for by the lessee.

3. The semi-annual interest on same bonds, accruing yearly after date, and payable on the first days of April and October of each year, say $160,000 per annum, to be also provided for by said lessee.

4. The road to be built over the route from Berwick's Bay to New Iberia, thence to a point at or near Vermilionville, thence in a westerly direction to a point on the Sabine River, connecting with the Houston and Beaumont road.

5. The building of the road to be commenced within four months after signing the contract of lease, to be prosecuted with all dispatch, and to be fully and finally constructed within three years from the signing of the lease.

6. The grading, culverts, etc., now made beyond Berwick's Bay, to be taken by the Lessee at a valuation to be ascertained by experts, one to be appointed by each party, in case of disagreement they to select an umpire, and to be paid for on such terms as shall be hereafter agreed on.

7. The road to be built, equipped and maintained during the entire lease as a first class road in every respect.

8. At the close of said lease, the said road, depots, stations, rolling stock, etc., from Berwick's Bay to the Texas line, shall be valued by experts, one to be appointed by each of the parties thereto, and in the event of disagreement, the two to select an umpire, whose decision shall be final. The value thereof thus ascertained shall be subscribed as stock in the present Company, it being well understood that all costs of maintenance, as well as expenses of operating the road, shall be at the exclusive charge of the Lessees.

9. The contract with Charles Morgon for running a line of steamers to Texas, extending to 1871, to be carried out by the Lessee in every respect.

10. The present road to Berwick's Bay, including depots, machine shops, rolling stock, bridges, etc., to be turned over to the Lessee after inventory and appraisement, and the said property, or property of like character and value, and like condition and good order, to be returned to the company at the expiration of said lease.

11. The Lessees, to ensure the faithful performance of the contract, to furnish security to the satisfaction of Board of Directors.

12. The said Lessees shall contribute and pay each year the sum of $5000, payable quarterly, to keep up and maintain the organization of the Railroad Company during the existence of this lease.

13. The said Lessees obligate themselves to do no act which may operate a forfeiture of the charter, and shall hold the said N. O., O. and G. W. R. R. Co. harmless against any and all acts of theirs.

Sealed proposals will be received at the office of the Company in New Orleans, No. 69 Canal street, until the first day of September next, at 12 o'clock, M., the Company reserving the right of rejecting any or all bids.

PHILADELPHIA, May 2, 1868.

NOTICE TO STOCKHOLDERS.—The Board of Directors have this day declared a semi-annual dividend of THREE PER CENT. on the Capital Stock of the Company, payable in cash, clear of National and State taxes, and a further dividend of FIVE PER CENT., payable in Stock, on and after May 30.

Blank powers of attorney for collecting dividends may be obtained at the office of the Company, No. 238 South Third Street.

THOMAS T. FIRTH,
8t21 Treasurer.

OFFICE PENNSYLVANIA RAILROAD COMPANY, Philadelphia May 13th, 1868.

Notice to Stockholders.—In pursuance of resolutions adopted by the Board of Directors at a stated meeting held this day, notice is hereby given to the Stockholders of this Company, that they will have the privilege of subscribing, either directly or by substitution under such rules as may be prescribed therefor, for Twenty-five per cent. of additional Stock at par, in proportion to their respective interests as they stand registered on the books of the Company, May 20th, 1868.

Holders of less than four Shares will be entitled to subscribe for a full share, and those holding more shares than a multiple of four shares will be entitled to an additional share.

Subscriptions to the new Stock will be received on and after May 30th, 1868, and the privilege of subscribing will cease on the 30th day of July, 1868.

The instalments on account of the new shares shall be paid in cash, as follows:

1st. Twenty-five per cent. at the time of subscription, on or before the 30th day of July, 1868.

2d. Twenty-five per cent. on or before the 15th day of December, 1868.

3d. Twenty-five per cent. on or before the 15th day of June, 1869.

4th. Twenty-five per cent. on or before the 15th day of December, 1869, or if Stockholders should prefer the whole amount may be paid up at once, or any remaining instalments may be paid in full at the time of the payment of the second or third instalment, and each instalment paid up shall be entitled to a pro rata dividend that may be declared on full Shares.

THOMAS T. FIRTH,
8t21 Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 5th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor.

RAILROAD SCREW SPIKE.

HENRY YOUNG, President.

G. B. HUBBELL, Secretary

HUBBELL & VANHOESEN, Agents.

Works at

OSSINING,

Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented. Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERGNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1866, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

430 WASHINGTON AV.,

PHILADELPHIA,

MANUFACTURE

Steam Engines—High and low pressure, for land, river, and marine service; Horizontal, Beam, and Vertical. Patterns on hand for 8x10, 14x12, 18x12, Oscillating; compact and cheap.

SOLE MANUFACTURERS IN PHILADELPHIA AND CHESTER OF WILLIAM WRIGHT'S PATENT VARIABLE CUT-OFF STEAM-ENGINES.

Boilers—Plain cylinder, flue, and tubular.

Steam-Hammers, of Nasmyth & Davy patterns, with all the recent improvements.

Strahan's Drill Grinding Rest and Twist Drill-Holder.

Castings—Loam, dry, and green sand, brass, &c.

Roofs—Iron frames for covering with slate or iron—neat, durable, and economical.

Gas-Holders of every description. *Builders of Holders for the Philadelphia Gas-Works of 100 and 160 feet diameter.*

Tanks of every form, for sugar estates, refineries, oil, &c.

Gas Machinery of every description, including Retorts, Bench-castings, Holders and Frames, Purifiers, Coke and Charcoal Barrows, Gas-Valves, Governors, Hoisting Machines, &c.

Manufacturers for the American Meter Company of their Patent Dry Center Valve for changing Purifiers.

Bartol's Patent Wrought Iron Retort-lid, durable, light and cheap.

Sugar Machinery, such as Vacuum Pans and Pumps, Defecators, Bone-Black and Bag Filters, Bone-Black Burners, Washers, and Elevators, Hydraulic Elevators, Sugar and Bone-black Cars, Strike Heaters, Open Steam Trains, &c.

Sole Assignees and Manufacturers in the United States of

Weston's Patent Self-centering Self-balancing Centrifugal Sugar-Draining Machine,

Glass & Bartol's Improvement on Aspinwall & Woolsey's Centrifugal Sugar-Draining Machines.

N. Rillieux's Patent Sugar-Boiling Apparatus, applicable to Beet-Root and Cane Sugar.

Having had twenty years' experience in the manufacture of Sugar Machinery for Cuba, South America, and the United States, they are prepared to contract for the design and erection of apparatus for making Sugar from Beet-Root or Cane, and for Refineries for either Sugar or Molasses.

They are also in possession of plans of the most recent improvements in machinery used in France and Germany in the manufacture of Beet-Root Sugar.

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

BRADFORD & RENICK,

VAN ANDEN RAIL CHAIR COMPANY,

359 MAIN STREET,
POUGHKEEPSIE, N. Y.,

By their Improved Machinery are enabled to offer

Swaged Wrought-Iron Rail Chairs

WITH CONTINUOUS BASE AND LIPS

☞ The grain of the iron running across the line of the Rail, which gives them great additional strength over all others, and no liability to split. The Spike Holes being Punched within the Edge of the Lip, admits of one-half the Spike being recessed back in the solid metal, which cannot be done in the Rolled Chair.

☞ *All orders will receive prompt attention. Samples sent on application.*

PATENTED SEPT. 18th, 1866.

Safety Railroad Switch.

MAIN TRACK UNBROKEN.

I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the *MAIN TRACK IS NEVER BROKEN*, and it is impossible for any accident to occur from the misplacement of switches.

The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns *The Life and Limb of all Travelers upon Railroads.*

I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

SCHOOL OF MINES,

COLUMBIA COLLEGE,

East 49th Street, NEW YORK.

FACULTY:

F. A. P. BARNARD, S. T. D., LL. D., President.
T. EGLESTON, Jr., E. M., Mineralogy and Metallurgy.
FRANCIS L. VINTON, E. M., Mining Engineer.
C. F. CHANDLER, Ph. D., Analytical and Applied Chemistry.
JOHN TORREY, M. D., LL. D., Botany.
CHARLES A. JOY, Ph. D., General Chemistry.
WILLIAM G. PECK, LL. D., Mining Surveying.
JOHN H. VAN AMRINGE, A. M., Mathematics.
OGDEN N. ROOD, A. M., Mechanics and Physics.
JOHN S. NEWBERRY, M. D., Geology.

The plan of this School embraces a three-years' course for the degree of ENGINEER OF MINES, or BACHELOR OF PHILOSOPHY.

For admission, candidates for a degree must pass an examination in Arithmetic, Algebra, Geometry and Plain Trigonometry. Persons not candidates for degrees are admitted without examination, and may pursue any or all of the subjects taught. The next session begins October 7th, 1867. The examination for admission will be held on October 3d. For further information, and for catalogues apply to

Tebo and Neosho Railroad.

The Tebo and Neosho R. R. Co. was chartered by the Missouri Legislature in 1860, to build a railroad from a point on the Pacific R. R., between Lamine and Muddy Creeks, in a south-westerly direction to the western boundary of the State. Owing to the war, however, nothing was done until 1866, when a survey was made, commencing at Sedalia, and terminating at Fort Scott, Kansas. In 1867 the line was located from Sedalia to Clinton the county seat of Henry county, a distance of forty miles, and work commenced. Up to this time the company has expended over $80,000 for engineering and graduation. Nearly twenty miles of the road-bed are now ready for the ties and iron. About $450,000, in county, city and private subscriptions have been made, and the design is to prosecute the work as rapidly as possible.

This road is located through one of the richest sections of Missouri, reaching into the great coal-fields of Bourbon county, Kansas, and will constitute the only direct eastern out-let for the business of fifteen or twenty of the best counties in the two States. The average cost per mile, for the completed road, including necessary rolling stock, depot buildings and machine shops, will not exceed $20,000. Total length, 102 miles; maximum grades, 52.8 feet per mile; maximum curves, 4°; several tangents are from six to ten miles in length.

Eventually, this road will be extended north-east to Quincy, Ill., making an air line between Fort Scott and Chicago, a distance of a little over 500 miles. The distance from Fort Scott to St. Louis is 290 miles.

The following, are the present officers of the Co.

President.—A. C. MARVIN.

Vice President.—T. L. WILSON.

Treasurer.—C. NEWKIRK.

Secretary.—P. A. LADUE.

Chief Engineer.—E. A. SMITH.

Rockford, Rock Island and St. Louis R. R.

This important Railroad enterprise is now fairly inaugurated. The company is authorized to construct a road from Rockford to a point opposite St. Louis. A large force of men are now at work grading, getting out bridge timber, and ties. The grading is being advanced rapidly and 60,000 ties are to be delivered at Fulton this month.

Arrangements are now completed for furnishing 45 miles of road from near Sterling to Minersville the present season. This will afford an outlet to one of the most valuable coal fields of the great West. Of the portion of the road now under contract some ten miles are through the coal region. The Company have arrangements effected by which they secure 20,000 acres of the most desirable of these lands. The construction of this road, though not of as apparent importance to Cedar Rapids and Iowa, is really of very great interest to our citizens. It will enable them to secure a vastly superior quality of coal to any heretofore furnished in this market at a saving in price of at least two dollars per ton. Considering the present high price of fuel in the territory contiguous by railroad to these immense fields, no one can question but the Company will do, from the first, a very extensive business. It is a low estimate to say that the railroads connecting with the new line and the country supplied by them will consume, from the first, 300,000 tons per annum, at a fair profit to the company and at a reduced price to the consumer: and this demand must steadily increase.

This road also passes through one of the finest portions of Illinois. It has a dense and enterprising population and a soil of great fertility. Rock river and its tributaries furnish many excellent water powers, which, when improved, as they soon will be on the completion of this road, will furnish a vast amount of business. The directness of this road from Burlington to Sterling and thence over the North-Western to Chicago will enable it to compete successfully with any line of road in the West.

The care manifest in the organization of the Company, its liberal charter, the foresight in selection of officers, all indicate success. The officers are as follows:

George Greene, President; B. C. Coblentz, Vice President; H. H. Boody, Treasurer; B. C. Coblentz, Ass't Treas'r and Sec'y; D. A. Boody, Transfer Agent.

Directors—George Greene, B. C. Coblentz, William Greene, James Galt, W. S. Thomas, Calvin Truesdale, James E. Abbott, H. H. Boody, and D. A. Boody.—*Cedar Rapids (Iowa) World, July 18.*

Central Pacific Railroad.

PRINCIPAL AND INTEREST IN GOLD COIN.—FIRST MORTGAGE BONDS OF THE CENTRAL PACIFIC RAILROAD COMPANY.—These securities have attained a prominent position among the safest, most reliable and profitable investments. They are secured beyond all ordinary contingencies by a first claim upon the best and most productive portion of the Great National Pacific Railroad Line, in which an equal amount of the Government credit has been invested upon a subordinate lien.

More than 200 miles have been substantially and durably built, (including the crossing of the Sierra Nevada Mountains,) and the track is being extended across the Salt Lake Basin with unparalleled rapidity by the largest force of laborers ever employed on a similar enterprise, so as to insure a Through Line across the continent in 1869. The earnings from local business alone are three times greater than the interest liabilities incurred on the completed portion, and the future business promises to be very large and satisfactory.

The Six Per Cent. Gold Bonds are for sale at 103, and accrued interest from July 1, in currency.

FISK & HATCH,

Bankers and Dealers in Government Securities,

No. 5 Nassau-st.

☞ A contract has been entered into for the construction of a railroad from Phillipsburg, Clearfield county, Penna., to Morrisdale. The work is to be commenced immediately.

Milwaukee and St. Paul Railway Lines.

The 4th Annual Report of the Milwaukee and St. Paul, and the 7th Annual Report of the Milwaukee and Prairie du Chien Companies, being the reports for the year ending December 31, 1867, are published conjointly, the relations of the two companies being so close and intimate as to preclude their separate consideration. Indeed, they may now be considered as a single corporation, the purchase of the property and franchises of the latter by the former having been agreed upon and partly consummated. The roads owned by the Milwaukee and St. Paul Company will on the completion of the purchase have an aggregate length of 820 miles, passing through a rich and constantly improving country, and connecting St. Paul, Minn., at the navigable head of the Mississippi, with the port of Milwaukee on Lake Michigan. These roads embrace the following lines:

1st. The Milwaukee and St. Paul Railway—

From Milwaukee *via* Watertown to La Crosse	196
From Watertown to Sun Prairie	26
From Milwaukee to Portage	95
From Horicon to Berlin and Omro	53
Length of M. and St. P. R.W. in Wisconsin	370
From McGregor, Ia., to St. Paul and Minneapolis, Minn	215
Total length of M. and St. P. R. W.	585

2d. The Milwaukee and Prairie du Chien Railway—

From Milwaukee to Prairie du Chien	200
From Milton to Monroe	35
Total length of M. and P. du C. R. W	235

The gross earnings and expenses on these lines in 1866 and 1867, compare as shown in the following table:

	1867.	1866.
Milw. and St. Paul.	$2,946,406 95	$2,538,799 96
Iowa and Minn. Div.	745,372 09	542.720 84
Milw. and P. du C.	1,991,829 55	2,013,749 12
Total gross earnings.	$5,683,608 59	$5,095,269 92
From which deduct operating expenses—		
Milw. and St. Paul.	$1,722,217 21	$1,604.696 49
Iowa and Minn. Div.	562,386 98	395,438 82
Milw. and P. du C.	1,381,081 63	1,642,571 70
Total operating exp.	$3,665,685 82	$3,642,707 01
Leaving net earnings as follows:		
Milw. and St. Paul.	$1,224,189 74	$934,103 47
Iowa and Minn. Div.	182,985 11	147,282 02
Milw. and P. du C.	610,747 92	371,177 42
Total net revenue	$2,017,922 77	$1,452,562 91

From this it appears that the gross revenue has increased in 1867, by $588,338 67, and the net revenue by $565,359 86. The expenses in the meanwhile have increased only by $22,978 81.

The net revenue of 1867, viz., $2,017,922 77 paid interest on the mortgage debt and dividend on the Prairie du Chien preferred stocks to the amount of $1,144,932 00, leaving $872,990 77 applicable to the stocks of the Milwaukee and St. Paul Company.

The report of the Directors is very brief. We copy the following from pages 10 and 11, being the sum and substance of all that is given to the public.

No dividend was declared on either class of stock of the St. Paul Company, all the net earnings being required to pay for new buildings and additional equipment for the road. The directors believe that hereafter they will be able to pay a cash dividend, commencing this year on the preferred stock, and, also, they hope on the common stock.

The floating debt, at one time during the year, was fully paid, but on completing the purchase of the Eastern Division of the La Crosse and Milwaukee Road, a debt of $150,000 was incurred, which will soon be extinguished.

During the year, we have expended in the purchase of additional equipment, not charged in the operating account, $116,756 57, a detailed statement of which will be found in the report of the general manager.

The value of supplies on hand belonging to both roads at the close of the year was	$500,295 79

The protracted and expensive litigation which we have been compelled to carry on for several years with parties claiming to own the Eastern Division of the La Crosse and Milwaukee Road, and a portion of our rolling stock, has terminated in our favor by final decisions, recently made in the Supreme Court of the United States.

Since our last annual report the line between Cresco, in Iowa, and Owatonna, in Minnesota, 85 miles in length, has been completed. It was opened for traffic about the 1st of November last. The line west of the Mississippi river, from Mc Gregor to Minneapolis, 215 miles in length, known as the Iowa and Minnesota Division, and owned by the Milwaukee and St. Paul Company, has cost as follows:

In 1st mortgage bonds	$4,000,000
" preferred stock	2,475,000
" common stock	1,557,000
" indebtedness to M.& Pra.du Chien Road merged and cancelled by purchase of road	733,000
" indebtedness on account of interest paid say	250,000
Total cost	$9,015,000

The results of this purchase since the completion of the line, have been highly beneficial to the company, it will soon become among the most valuable of our lines. From January 1st to May 1st, 1868, it earned $358,000 against $134,000 for the same time in 1867, showing an increase of $218,000 in five months, with a great reduction of operating expenses as compared with the previous year.

The company are not engaged in the construction of any additional road, except in extending the line from Omro to Winneconne, a distance of five miles, the cost of which will not exceed $70,000, the company having received valuable donations of right of way and depot grounds at the latter place. Winneconne is on the Wolf River, which is navigable for steamboats 150 miles above that place. This short line will furnish a valuable lumber traffic to the road, and we believe that the additional business it will bring, will pay in one year the entire cost of its construction.

The stockholders of the Milwaukee and Prairie du Chien Company have informally agreed to sell their line of road to the Milwaukee and St. Paul Railway Company. The necessary legislation for this purpose has been obtained, and the arrangement will undoubtedly be carried into effect within the present year.

The following represents the company's condensed balance sheet, (embracing all divisions of the road as it will be when all the securities are exchanged as agreed,) Feb. 1, 1868:

Cost of road	$30,931,299
Stock of material on hand	545,366
U. S. Post Office Department	36,125
Other companies and agents	90,179
Miscellaneous account	47,946
Interest on bonds due Jan. 1, 1868	310,808
Operation account for January, 1868.	243,854
Cash on hand	632,607
	$32,838,184
Preferred stock	$8,050,892
Common stock	5,406,883
Total capital stock	$13,457,775
First mortgage 7 per ct., 370 miles	$5,377,000
Second mortgage do.	1,476,000
First mortgage 8 per ct. P. du Chien, 200 miles	3,582,000
Second mortgage, do., 7 3-10 per cent.	739,000
First mortgage I. & Minn. Div. 215 m.	2,000,000
Incumbrances assumed	3,474,000
Real estate bonds	148,500
Total funded debt	$16,796,500
Dividend due P. du C. pref. stock	$301,467
Shares of other companies	70,700
Unpaid vouchers and pay rolls	299,254
Bills payable	154,573
State taxes	86,267
Due to other companies	60,175
Miscellaneous accounts	7,444
Coupon account	25,860
Gross earnings for January, 1868.	369,228
Income account	1,208,935
Total	$32,838,184

The report of the general manager gives the details of the several divisions of the road. From this elaborate and valuable collection of statistical matter we compile the following summaries.

MILWAUKEE AND ST. PAUL RAILWAY.
(*Old line* 370 *miles*)

The gross earnings and operating expenses on this division of the company's roads for the years 1866 and 1867 compare as follows:

	1867.	1866.
Freight	$1,794,529 09	$1,643,167 08
Passengers	850,633 06	694,423 77
Mail, rents & express	301,244 80	201,209 11
Total gross earn'gs.	$12,946,406 95	$2,538,799 96
Operating expenses.	1,722,217 21	1,604,696 49
Profits or net earn'gs.	$1,224,189 74	$934,103 47

Compared with the previous years the gross earnings in 1867 show an increase of $407,606 99 The increase in expenses was $117,520 72, and in the profits $290,086 27.

The following exhibit shows the character and course of the business on this division in 1867:

	Eastward.	Westward.	Total.
Tons of freight.	297,344	142,984	440,328
Tons one mile.	31,543,323	13,955,617	45,498,940
Revenue	$1,100,861	$694,168	$1,794,529
Rate p. m. (cts.)	3.49	4.97	3.94
Passengers	159,493	187,902	347,395
Pass. one mile.	8,982.406	12,221 946	21,204,352
Revenue	$371,646	$476,190	$847,836
Rate p. m. (cts.)	4.14	3.90	4.00
Military service			$2,796

The freight trains in this year run 692,522, passenger trains 369,081 and wood and gravel trains 112,846 miles—total 1,174,449 miles. The earnings per mile run on freight were $2.59 and on passengers $2.90. The expenses were 53 per cent. of the gross earnings. The cost of maintaining track and bridges per mile run was 35.44 cents, and of repairs of engines, fuel and engines service 41.62 cents. The rolling stock n use at the close of 1867 consist of locomotives, 64; passenger cars, 1st class 25, 2d class 4 and sleeping 3; baggage, mail and express 23; box and freight cars 1,079; flat cars 162. Total number of cars 1,296.

On the *Iowa and Minnesota Division* (215 miles) the gross earnings show an increase of $202,651 25 over those of the previous year, and the net earnings an increase of $35,703 09. During

November and December 1867 there were 85 miles more road in operation than in 1866. The figures in these years compare as follows:

	Earnings.	Expenses.	Profits.
1867....	$745,372 09	$562,386 98	$182,985 11
1866....	542,720 84	395,438 82	147,282 02
Inc. '67..	$202,651 25	$166,948 16	$35,703 09

In 1867 the gross earnings were divided thus—freight $491,990 87, passenger $193,727 43 and mails, rents and express $59,653 79—total $745,372 09. The rolling stock in use on this division consisted of—locomotives 14; passenger cars 1st class 8 and 2d class 1; baggage, mail and express cars 8; box freight 214, flat 84 and boarding 1—total cars 316. The train mileage was as follows—freight 154,142, passenger 75,029 and other 39,537 miles. The statistics of freight and passengers carried in 1867 are as follows:

	Eastward.	Westward.	Total.
Tons of freight.....	90,248	58,643	148,891
Tons one mile.....	4,626,276	2,911,745	7,538,021
Freight receipts...	$249,202	$188,378	$437,580
Rate per mile (cts).	5.38	6.46	5.80
Add to rec'pts storage & d'wb'ks	$54,411.		$491,991
Passengers.....	46,548	50,389	96,937
Passengers one mile	1,816,280	1,939,981	3,756,261
Passenger receipts.	$90,514	$95,988	$186,502
Rate per mile (cts).	4.98	4.95	4.97
Add drawbacks &c. $7,225 to receipts ..			$193,727

The earnings per mile run on freight was $3.19 and on passengers $2.29. The expenses to earnings was 62 per cent. The cost of maintaining track and bridges was 56.05 cents per mile run, and of engines, fuel and service of engines, 53.68 cents per mile.

The balance sheet of the Milwaukee and St. Paul Company includes the cost of the Iowa and Minnesota Division. The balance sheet for 1866 will be found in the JOURNAL of April 13, 1867. That for 1867 (December 31) is as follows:

Purchase of road	$19,501,023 41
Construction of road	3,920,145 28
Total cost of road	$23,421,168 69
Materials on hand	331,434 28
Railway shares owned	4,014,231 44
U. S. post office department	19,236 27
Balances due	155,835 68
Miscellaneous accounts	14,802 24
Sinking fund (2d mort. bonds)	24,000 00
Interest due Jan. 1, 1868	155,564 50
Cash on hand	170,898 76
Total	$28,307,171 89
Capital stock—preferred	$8,050,892 00
" common	5,406,883 00
Total capital stock	$13,457,775 00
Bonds—1st mortgage	$5,361,000 00
" 2d mort. and income	1,500,000 00
" real estate	148,500 00
" 1st mort. (I. & M. Div.)	2,000,000 00
" incumbrances assumed	3,492,042 06
Total bonds	$12,501,542 06
Unpaid pay rolls and bills	$179,290 06
Bills payable	259,646 52
State treasurer, Wisconsin	86,267 21
Freight and tickets	81,936 32
Miscellaneous accounts	38,617 84
M. & P. du Chien Co	732,940 03
Income account	969,156 82
Total	$28,307,171 86

MILWAUKEE AND PRAIRIE DU CHIEN RAILWAY.

(*Length operated* 235 *miles.*)

The gross earnings and expenses in 1866 and 1867 compare as follows:

	Earnings.	Expenses.	Profits.
1867...	$1,991,829 55	$1,381,081 63	$610,747 92
1866...	2,013,749 12	1,642,571 70	371,177 42
Inc. '67.	$.....	$.....	$239,570 50
Dec. '67.	21,919 57	261,490 07	.....

The gross receipts for 1867 were derived from freight $1,504,594 35, from passengers $377,049 73 and from mails, rents and express $110,185 47—total $1,991,829, being $8,443 per mile. The expenses were $1,381,081 53 or 69 per cent. and the profits $610,747 92 or $2,598 per mile. The amount of rolling stock on the road at the close of 1867 consisted of locomotives, 47; passenger cars, 1st class 27, 2d class 3 and sleeping 3; baggage, mail and express cars, 17; box freight cars, 557, flat cars 152 and business car 1—total cars 760. Trains run—freight 483,180, passenger 296,724 and other 73,085—total 852,989 miles. The mileage and revenue of freight and passengers for 1867 were as follows:

	Eastward.	Westward.	Total.
Tons of freight.	230,609	128,206	358,815
Tons one mile...	31,467,606	11,673,482	43,141,088
Freight revenue.	$1,055,224	$449,347	$1,504,571
Rate p. m. (cts).	3.35	3.85	3 49
Add to revenue, storage $23, making..			1,504,594
Passengers.....	120,373	130,545	250,918
Passeng'rs 1 mile.	4,989,391	5,332,217	10,321,608
Passeng'r revenue	$177,313	$197,015	$374,528
Rate p. mile (cts)	3.55	3.69	3.63
Add military service &c.,	$2,721,	mak'g.	$377,049

The earnings per mile run on freight were $3.11 and on passengers $1.62. The cost of maintaining track and bridges per mile run was 50.31 cents and the cost of engine repairs, fuel and service 43.21 cents.

The balance sheet of the Milwaukee and Prairie du Chien Company December 31, 1867 was as follows:

Cost of road &c.	$7,698,281 00
Material and wood on hand	168,861 51
Cash &c. advanced to I. & M. Div.	732,640 03
U. S. Post Office dep't	10,851 07
Money lent in New York	295,072 92
M'Gregor Western R.R. b'ds	$17,000 15,733 33
Due from agents &c	95,574 54
Survey of Min. & Dubuque Extens'n	4,882 78
Cash on hand	128,371 38
Total	$9,150,568 56
Stock—1st preferred	$3,214,250 00
" 2d preferred	1,014,000 00
" common	2,986,081 00
Total stock	$7,214,331 00
1st mortgage bonds	390,500 00
Sinking funds	692,780 00
Sundries	354,318 34
Income account	498,639 22
Total	$9,150,568 56

The following is a list of the officers of the M. and St. Paul Company.

Directors.—Alex. Mitchell, Milwaukee; Walter S. Gurnee, Russell Sage, Fred. P. James and N. A. Cowdrey, New York; Selah Chamberlain, Minnesota; S. S. Merrill Milwaukee; E. B. Wesley, H. C. Stimson, Julius Wadsworth, Joseph Rudd, James G. Garner, and Henry Keep, New York.

Officers.—Alex. Mitchell, President; W. S. Gurnee, Vice President; S. S. Merrill, General Manager; Alanson Cary (Milwaukee) Secretary and Treasurer; Charles P. Gilpin, (New York) Ass't Sec'y and Transfer Agent; John W. Cary, (Milwaukee) Attorney; D. A. Olin, H. C. Atkins, and L. B. Rock, (Milwaukee) Superintendents; D. C. Shepard, (Minneapolis) Supt. I. and M. Division; A. V. H. Carpenter, Gen'l Pass. Agent; O. E. Britt, Gen'l Freight Agent; J. P. Whaling, Auditor; C. A. Place, Paymaster; and Robert Wason, jr., Purchasing Agent, Milwaukee.

Principal office at Milwaukee.

Transfer office, 25 William st. New York city.

Pittsburg, Ft. Wayne & Chicago Railway.

The following is a statement of the approximate earnings and expenses of this company during the month of June, as compared with the same period of the year 1867:

	1868.	1867.
From freight	$353,411 82	$289,630 52
" passengers	223,618 79	192,202 27
" express matter	8,307 00	8,019 83
" mail	7,825 00	7,825 00
" rent of railway	7,083 34	7,083 34
" miscellaneous	1,000 00	2,689 68
Total	$601,245 95	$507,450 64
Expenses	409,378 21	506,032 54
Net earnings	$191,867 74	$1,418 10

This shows an increase in earnings of $93,795 31; with an decrease in expenses of $96,654 33—making the increase in net earnings, $190,449 64

The earnings and expenses, from January 1 to June 30, compare as follows:

	1868.	1867.
Earnings	$3,782,252 15	$3,380,364 74
Expenses	2,432,282 39	2,456,985 47
Net earnings	$1,349,969 76	$923,379 27

This shows an increase in earnings of $401,887 41; with a decrease in expenses of $24,703 08—making the increase in net earnings, $426,590 49.

United States Loans.

The following is an official statement of the amount of the several issues of gold bearing loans of the United States outstanding July 1, 1868.

Five per cent. Bonds, due 1871	$7,022,000
Five per cent. Bonds due 1874	20,000,000
Five per cent. Ten-forties	198,449,800
Six per cent. Bonds of 1847 48	6,878,442
Six per cent. Bonds of 1881	283,677,200
Six per cent. Five-twenties, Feb. 25, 1862,	514,771,600
Six per cent. Five-twenties, June 30, 1864	125,561,300
Six per cent. Five twenties, 1865, May and November	197,777,250
Six per cent. Five-twenties, 1865, Consols, January and July	334,972,950
Six per cent. Five-twenties, 1867, Consols, January and July	364,123,900
Six per cent. Five-twenties, 1868, Consols, January and July	17,648,950
	$2,060,883,392

The 1865 Consols, 1867's and 1868's cannot be definitely given, as these Loans are being continually increased on account of the exchange of Seven-thirty notes.

Comparing the above with the Public Debt Statement of June 1, we notice the following changes:

	June 1.	July 1.
Ten-forties	$193,790,400	*198,449,800
Five-Twenties, 1862..	514,780,500	514,771,600
Five-Twenties, '64-65-67	979,975,100	1,022,435,400
Five Twenties, 1868..	.....	17,648,950
Old Loans, 1847-8....	8,582,642	6,878,442
Fives of 1871-74.....	27,022,000	27,022,000
Sixes of 1881.....	283,677,200	283,677,200
Total	$2,007,827,842	$2,060,883,392

*Now within $1,550,200 of the authorized limit.

United States Supreme Court.

EFFECT OF THE WAR ON PARTNERSHIPS, DEBTS AND CONTRACTS BETWEEN THE NORTH AND THE SOUTH—THE RELATIONS OF THE SUBJECTS OF BELLIGERENTS—WAR SUSPENDS ALL CLAIMS, AND PEACE RESTORES ALL RIGHTS AND REMEDIES—CONFISCATION OF DEBTS.

Peter Honger vs. *J. S. and S. A. Abbott*—In error to the Circuit Court for the Eastern District of Arkansas. The decision in this cause determines the existing relations between the Northern creditor and the Southern debtor, and the effect of the rebellion on accounts between the citizens or subjects of belligerent powers. Mr. Justice Clifrord delivered the opinion of the Court, in substance, as follows: The declaration was in assumpsit, and the plaintiffs alleged that the defendant, on the 10th day of April, 1865, was indebted to them for divers goods, wares and merchandise, and also for money had and received, in the sum of $10,000. Defendant appeared and pleaded two pleas in answer to the declaration: First, That he never promised as the plaintiffs have alleged. Second, That the cause of action did not accrue at any time within three years next before the commencement of the suit. Issue was joined by the plaintiffs on the first plea, and in answer to the second, they filed several replications, one of which set forth that the defendant was, from the 6th of May, 1861, an actual resident of the State of Arkansas, and that the plaintiffs were residents of New Hampshire, and were prevented from instituting suit during the war by the closing of the Courts of Arkansas. It was submitted that for such reasons the time elapsed should not be taken as any part of the three years' limitation pleaded by defendant. Demurrers were filed by the defendant to the replications, and the Court gave judgment for the plaintiffs in the sum of $9,483 26 damages and costs of suit; whereupon the defendant sued out this writ of error. Proclamation of blockade was made by the President on the 19th day of April, 1861, and on the 13th day of July, in the same year, Congress passed a law authorizing the President to interdict all trade and intercourse between the inhabitants of the States in insurrection and the rest of the United States, (12 Stat. at Large, 1,258,257). War, when duly declared or recognized as such by the war-making power, imparts a prohibition to the subjects, or citizens, of all commercial intercourse and correspondence with citizens or persons domiciled in the enemy country. (The *Win. Bafaley* 5 Wall, 405; Jecker et al. *vs.* Montgomery, 18 How., 111; Wheat on Mar. Cap., 209). Upon this principle of public law it is the established rule in all commercial nations, that trading with the enemy, except under a Government license, subjects the property to confiscation, or to capture and condemnation. (The *Rapid*, 8 Cran., 155; The *Hoop*, 1 C. R. of Adm., 196.) Parnership with a foreigner is dissolved by the same event which makes him an alien enemy, because there is in that case an utter incompatibility created by operation of law between the partners as to their respective rights, duties and obligations, both public and private, which necessarily dissolves the relation, independent of the will or acts of the parties. (Mac'l on Ship., 475; Story on Part., Sec. 316; Griswold *vs.* Waddington, 15 Johns., 57; same case, 16 Johns., 4,38.) Direct consequences of the rule as established in those cases is, that as soon as war is commenced, all trading, negotiation, communication and intercourse between the citizens of one of the belligerents with those of the other, without the permission of the Government, is unlawful. No valid compact, therefore, can be made, nor can any promise arise by implication of law from any transaction with an enemy. Exceptions to the rule are not admitted; and even after the war has terminated, the defendant, in action founded upon a contract made in violation of that prohibition, may set up the illegality of the transaction as a defence. (Williamson *vs.* Patterson, 7 Taunt., 43.) Various attempts, says Mr. Wheaton, have been made to evade the operation of the rule and to escape its penalties, but they have all been defeated by its inflexible rigor. (Wheat. on Int. Law, by Lawrence, 551,556.) All foreign writers on international law concur in the opinion that the immediate and necessary consequence of a declaration of war is to interdict all intercourse or dealings between the subjects of the belligerent States. Hostilities once commenced, any attempt at trading on the part of the subjects of either State, unless by permission of the Sovereign, is prohibited, and becomes, *ipso facto*, a breach of the allegiance due to their respective Sovereigns, and as such is forbidden by the public law of the civilized world. (Bynk., b. 1, c. 8; Vattel, b. 3, c. 4; Potts *vs.* Bell, 8 Tenn., 561.) Executing contracts also with an alien enemy, or even with a neutral, if they cannot be performed except in the way of commercial intercourse with the enemy, are dissolved by the declaration of war, which operates for that purpose with a force equivalent to an act of Congress. (Exposito *vs.* Bowden, 4 Ellis and Bl., 963; same case, 7 Ellis and Bl., 778.) In former times, the right to confiscate debts was admitted as an acknowledged doctrine of the law of nations, and in strictness it may still be said to exist, but it may well be considered as a naked and impolitic right, condemned by the enlightened conscience and judgment of modern times. (Kent Com., 11th ed., 73.) Better opinion is that executed contracts, such as the debt in this case, although existing prior to the war, are not annulled or extinguished, but the remedy is only suspended, which is a necessary conclusion, on account of the inability of an alien enemy to sue or to sustain, in the language of the civilians, *a persona standi in judicio*. (1 Kent Com., 11th ed., 76; Flint *vs.* Waters, 15 East., 260.) Trading, which supposes the making of contracts, and which also involves the necessity of intercourse and correspondence, is necessarily contradictory to a state of war, but there is no exigency in war which requires that belligerents should confiscate or annul the debts due by the citizens of the other contending party. (Chitty, Sir Wm. Scott and Wheaton are here cited to show that the right to the recovery of debts as between subjects of belligerents revives upon the restoration of peace.) Under the thirty-fourth section of the Judiciary act the statistics of limitations of the several States, where no special provision has been made by Congress, form the rule of decision in the Courts of the United States, and the same effect is given to them as is given in the Courts of the State. (Aug. on Sim., Sec. 24, Mc Chesney *vs.* Silliman, 3 Pet., 270; Bank of United States *vs.* Daniels, 12 Pet., 32; Porterfield *vs.* Clark, 2 How., 125. Grant that the law of nations is that debts due from individuals to the enemy may, by the rigorous application of the rights of war, be confiscated, still it is a right which is seldom or never exercised in modern warfare, and the rule is universally acknowledged that if the debts are not so confiscated the right to enforce payment revives when the war was terminated. (Manning Int. L. 130. Byntes, v. 1. c. 3.) Vattel says the sovereign may confiscate debts due from his subjects to the enemy, if the term of payment happens in time of war; or at least he may prohibit his subjects from paying while the war continues, but at present a regard to the advantages and safety of commerce induces a less rigorous rule.—(Vattel, v. 3, c. 5, Sec. 77.) Where a debt has not been confiscated the rule is undoubted that the right to sue revives on the restoration of peace, and Mr. Chitty says that with the return of peace we return to the creditor the right and the remedy. Unless we return the remedy with the right, the pretence of restoring the latter is a mockery, as the power to exercise it with effect is gone by lapse of time during which both the right and the remedy were suspended. When our ancestors emigrated here they brought with them the statute of 21 Jac. 1., c. 16, entitled, "An act for limitation of actions, and for avoiding of suits in law," known as the statute of limitations. Proceedings in courts of justice are usually determined by the *lex fori* of the place where the suit is pending, including the statutes of limitation, which are those of the country where the suit is brought, and not those of the *lex loci contractus*. (Towsend & Jamison, 9 How., 497. Wheat Int. L. by Lawrence, 187,288. Story Conf. L. Sec. 577.) Such statutes exist in all the States, and with few exceptions they have been copied from the one brought here in colonial times. They are statutes of repose to quiet libels, to suppress fraud, and to supply the deficiency of proofs arising from the ambiguity and obscurity or antiquity of transactions. They proceed also upon the presumption that claims are extinguished whenever they are not litigated in the proper forms within the prescribed period, and they take away all solid ground of complaint, because they rest on the negligence or *laches* of the party himself. Story, Conf. L., Sec. 576. Chitty on Con. (10 Barn Ed. 907.)

Persons within the age of 21 years—*femmes covert, non compos mentis*—persons imprisoned or beyond the seas were excepted out of the operation of the third section of the act, and were allowed the same period of time after such disability was removed. Just exceptions, indeed, are to be found in all such statutes, but when examined, it will appear that they were framed to prevent injustice and never to encourage *laches* or to promote negligence. Cases where the courts of justice are closed in consequence of insurrection or rebellion are not within the express terms of any such exception, but the statute of limitations was passed in 1623, more than a century before it came to be understood that debts due to alien enemies were not subject to confiscation. Down to 1737, says Chancellor Kent, the opinion of the jurists was in favor of the right to confiscate, and many maintained that such debts were annulled by the declaration of war. Regarding such debts as annulled by war, the law-makers of that day never thought of making provisions for the collection of the same on the restoration of peace between the belligerents. Commerce and civilization have wrought great changes in the spirit of nations touching the conduct of war, and in respect to the principles of international law applicable to the subject. Constant usage and practice of belligerent nations from the earliest times subjected enemy's goods in neutral vessels to capture and condemnation as prize of war, but the maxim is now universally acknowledged that "free ships make free goods," which is another victory of commerce over the feelings of avarice and revenge. Individual debts, as a general remark, are no longer the subject of confiscation, and the rule is universally admitted that if not confiscated during the war, the return of peace brings with it both "the right and the remedy." (Wolf *vs.* Oxholm, 6 M. and S. 92.) Total inability on the part of an enemy creditor to sustain any contract in the tribunals of the other belligerent exists during war, but the restoration of peace removes the disability and opens the doors of the Courts. Absolute suspension of the right and prohibition to exercise it exists during war by the law (Jay) of nations, and if so, then it is clear that peace cannot bring with it the remedy if the war is of much duration, unless it also be held that the operation of the statute of limitation is also suspended during the period the creditor is prohibited by the existence of the war and the law of nations from enforcing his claim. Neither *laches* nor fraud can be imputed in such a case, and none of the reasons on which the statute is founded can possibly apply, as the disability to sue becomes absolute by the declaration of war and is a conclusion of law. (2 Wildman Int. L. 17.) Ability to sue was the *status* of the creditor when the contract was made, but the effect of war is to suspend the right, not only without any

fault on his part, but under circumstances which make it his duty to abstain from any such attempt. His remedy is suspended by the acts of the two Governments, and by the law of nations, not applicable at the date of the contract, but which comes into operation in consequence of an event over which he has no control. Old decisions, made when the rule of war was that war annulled all debts between the subjects of the belligerents, are entitled to but little weight, even if it is safe to assume that they are correctly reported, of which, in respect to the leading case of Prideaux *vs.* Webber, 1 Lev., 31, there is much doubt. Miller *vs.* Prideaux1, Kebble, 157; Lee *vs.* Rogers, Lev. W., 110; Hall *vs.* Nybourne, 2 Salk., 420; Aubrey *vs.* Fortescue, 10 Mod., 205, are of the same class and to the same effect. All of those decisions were made between parties who were citizens of the same jurisdiction, and most of them were made nearly a hundred years before the international rule was acknowledged, that war only suspended debts due to an enemy, and that peace had the effect to restore the remedy. The rule of the present day is, that debts existing prior to the war, but which made no part of the reasons for undertaking it, remain entire, and the remedies are revived with the restoration of peace. (1 Kent Com., 11th ed., 169; Grotius, v. 3, c. 20, Sec. 16, 18.) The suspension of the remedy during war is so absolute that courts of justice will not even grant a commission to take testimony in an enemy's country. (Barrick *vs.* Buba, 32 Eng. L. and Eq., 465; Wood *vs.* Allen, 2 Dall., 102.) But when the reason for the suspension ceases, the right to prosecute revives, and the fact that the right had been suspended constitutes no disability. (Foxcraft *vs.* Galloway, 2 Dall., 132; Wall *vs.* Robinson, 2 Nott & McCord, 498; Hopkins *vs.* Bell, 3 Cran., 458; Higginson *vs.* Air, 1 Desau's Eq., 427.) When the courts of justice are open, and Judges and ministers of the same may by law protect men from wrong and violence, and distribute justice to all, says Lord Coke, it is said to be time of peace, but when by invasion, insurrection, rebellion, or such like, the peaceable course of justice is disturbed and stopped, so as the courts of justice be, as it were, shut up, *et silent legis inter arma*, then it is said to be time of war; and having described the conditions both of peace and war, he adds emphatically, that if a man is disseized in time of peace, and the descent is cast in time of war, this shall not take away the entry of the disseizer, which is a direct authority for the plaintiffs in this case. (2 bo. Litt. 249; b. Brace lib. 4, fol. 240; 1 Hale P. C. 347.) Text writers usually say, on the authority of the old cases referred to, that the non-existence of courts, or their being shut, is no answer to the bar of the statute of limitations, but Plowden says that things happening by an invincible necessity, though they be against common law or an act of Parliament, shall not be prejudicial. That, therefore, to say that the courts were shut is a good excuse on voucher of record. (Bro. Tit. Failure of Record; Blanchard on Lim., 163; 6 Bac. ab. 395; 1 Plowden, 98.) Exceptions not mentioned in the statutes have sometimes been admitted, and this Court held that the time which elapsed while certain prior proceedings were suspended by appeals should be deducted, as it appeared that the injured party in the meantime had no right to demand his money or sue for the recovery of the same; and in those circumstances, the Court decided that his right of action had not accrued so as to bar it, although not commenced within six years. (Montgomery *vs.* Hernandez, 12 Wheat., 129.) But the exception set up in this case stands upon much more solid reasons, as the right to sue was suspended by the act of the Government, for which all the citizens are responsible. Unless the rule be so, then the citizens of a State may pay their debts by entering into an insurrection or rebellion against the Government of the Union, if they are able to close the courts and to successfully resist the laws, until the bar of the statute becomes complete, which cannot for a moment be admitted. Peace restores the right and the remedy, and as that cannot be if the limitation continues to run during the period the creditor is rendered incapable to sue, it necessarily follows that the operation of the statute is also suspended during the same period. Reference is made to the remarks of the Judge who gave the opinion in the case of Alabama *vs.* Dalton, 9 How., 522, but the case then before the Court involved no such question as is presented in this case, and those remarks are more than counterbalanced by those made by the Chief Justice in McIver *vs.* Ragan, 2 Wheat, 29, where he admits that the case would be within the exceptions to the statute if it appeared that the courts of the country were closed so that no suits could be instituted. Viewed in any light, we think the decision of the Circuit Court overruling the demurrer to the fifth and sixth replications of the plaintiffs was correct. Plaintiffs also rely upon the act of Congress of the 11th of June, 1864, as being sufficient to take the case out of the operation of the statute; but it is not necessary to decide that point in this case, and we express no opinion upon the subject.

Judgment affirmed with costs.

Peninsular Railway.

In consequence of the repeated inquiries of those interested in the construction of the Peninsular Railroad, it has been thought best that a brief article should be published showing the present condition and prospects of the Company, and its connections between Port Huron and Chicago.

The question is frequently and continually asked, "when will you begin to lay iron?" and, also, "are you at work on the road now?" To the last question, I will now reply, that we are at work on the road, and that we have never stopped work on it since the day we began; and, further, that we shall not, until its entire completion.

Before any Company can begin to lay iron, much must be done. Money to grade the road-bed, to purchase ties, to construct bridges and culverts, and to purchase right of way must be raised, the work must be done, or insured to be done, and the material must be furnished, and the right of way must be obtained. It must also be made to appear to capitalists that the road bed can, not only be prepared for the iron, but that when completed, its connections, both terminal and lateral, and its local business will make it a paying road, and insure a safe and paying investment for their money. To accomplish all of those conditions, is not the work of a moment. Most of those conditions have been complied with on this line, extending, as it now does, from Port Huron to Chicago, and much has also been done in negotiating for iron, with the best of prospects for our early and complete success.

A company has been organized in Illinois, under a Charter granted in 1867, to construct and operate a railroad from Chicago, to connect with the Peninsular Railroad of Indiana, at or near Dyer Station. Its chartered name is "The Chicago, Blue Island and Indiana Railroad Co." The line has just been located by the Chief Engineer of the Peninsular Railway Company. It is a level, beautiful line over the prairies of Illinois, and runs through a section of country for fourteen miles, that will, within ten years, constitute a portion of the city of Chicago, and be the seat of its most valuable manufactures. The gentlemen interested in the construction of that part of our road, are among the oldest and most wealthy citizens of the Garden City of the West. They only required two days to obtain the right of way and a subscription sufficient to prepare the road bed for the iron, from the city limits to the Indiana State line.

On the first day of this month, a meeting was held at parlor No. 10, of the Sherman House, in Chicago, at which were present, the Directors of the Chicago, Blue Island and Indiana Railroad Co., the Directors of the Peninsular Railroad Co., of Indiana, L. D. Dibble, the President of the Peninsular Railway Co., of Michigan, and Hon. Wm L. Bancroft, the Secretary and Treasurer of the Port Huron and Lake Michigan Railroad Co., of Michigan, and, also, Hon. H. H. Emmons, of Detroit, the Attorney of the Grand Trunk Railway Co., of Canada. At that meeting, an agreement was made, by virtue of which, the Chicago Blue Island and Indiana Railroad Co., is to be reorganized, by the resignation of all the Directors but six, and the filling up of the Board by representatives of the Michigan and Indiana companies represented at that meeting. The new Board of Directors will consist of the following named persons, to wit: Henry Fuller, J. P. Young, H. H. Massey, G. S. Hubbard, C. B. Sammons and L. P. Hilliard, of Chicago, Hon. Thos. S. Stanfield, of South Bend, President, and Samuel I. Anthony, of Valparaiso, one of the Directors of the Peninsular Railroad Co., of Indiana; L. D. Dibble, of Battle Creek, President of the Peninsular Railway Co., of Mich., and S. T. Read, of Cassopolis, and and Hon. Wm. L. Bancroft, the Secretary and Treasury of the Port Huron and Lake Mich. R. R. Co., of Michigan. The first meeting of the Board will be held at Chicago, on the 10th day of July inst. A contract was also informally agreed upon, subject to the approval of the Boards of Directors of the four companies before named, under which such companies are to do business, as though they constituted one company, and were under one and the same management, for a long term of years, except that each company retains its own management, and controls, exclusively, its own local business. The contract will apply to all business done over the whole line, or over two or more, or parts of two or more lines, forming a continuous line. The rolling stock of each company will be common to, and be used on the entire line or any part of it, thus insuring the transportation of passengers and freights from Chicago to Port Huron without change of cars, or re-shipment from one road to the other.

It will thus be seen that, while we have been apparently inactive, a very important arrangement has been completed, securing, what no other new company has yet been able to, a *connected* "through line," from Port Huron to Chicago, thus insuring the construction of the entire road, at an early day. Other matters were informally discussed at the meeting, which, at present, it is to our interest, should not be made public, but which will, in the future, be made known.

Upon this line, between Port Huron and Chicago, there is one hundred and fifteen miles of road-bed completed, and ready for the iron, and before the end of the year, at our present rate of progress, there will be one hundred and fifty miles in readiness.

If an early arrangement for iron can be made, from one hundred and fifty to two hundred miles of iron will be laid on the line, before January 1st, 1869, and upon the entire line, without doubt, before January 1st, 1870. A portion of the means to construct and tie the road-bed between Battle Creek and Schoolcraft, and also between Lansing and Flint is yet to be raised; upon the balance of the entire line the money is ready for the work.—That deficiency should be raised immediately and subscriptions in arrears and unpaid, should be promptly paid, so that this great project can be rapidly brought to its completion.

DELTA.

Battle Creek, Mich., July 6, 1868.

☞ The Treverton Railroad has recently been purchased by the Philadelphia and Reading Railroad Company. We learn that the new owners intend building a branch to the Treverton road that will connect with the Middle Creek Railroad, thus largely increasing the business and developing quite an extent of comparatively new territory

American Railroad Journal.

Saturday, July 25, 1868.

Stock Exchange and Money Market.

The Money Market has been well supplied with loanable funds, all through the week, and responsible borrowers have experienced no difficulty in obtaining all necessary aid at the ruling figures of 3@5 per cent. on all, and 5@7½ per cent. per annum as extremes, in the discount line. The speculative inquiry has been more animated, from both Stock and Gold operators; but has not been equal to the absorption of the available offerings. The mercantile demand has been quite moderate, as a rule. Very little paper, grading strictly prime, has been on the market. The little that has been offered has been readily taken at 5 @6, generally 6 per cent. per annum. The city banks have made a very encouraging exhibit in their last weekly statements. They reported augmented resources, all through the list of available reserves. The deposits were increased nearly four millions, the legal tender hoard was enlarged full three millions; and to the specie reserve was added over a million dollars. The loan averages, on the other hand, were reduced about 1¼ millions; and the circulation was cut down $64,000. The deposits are now up to 228 millions, and are far larger than at any preceding date, this year. On the 8th of February, they were up to 218 millions, but this was the highest point reached until last week. The legal tender reserve is now up to 71½ millions, against 68½ millions the preceding week. The specie store is nearly 20½ millions. The U. S. Sub-Treasury ran ahead of its receipts, in its disbursements, last week, and thus reduced its cash balance about 1½ millions.

The specie reserve of the city banks is now $20,399,031, against $11,197,700 same time last year. The city bank deposits are now $228,030,749, against $199,435,952 week ending July 20, 1867. The legal tender reserve amounts to $71,547,545, against $73,441,301 same time last year. The circulation now stands at $34,004,111, against $38,574,948 same time last year. The loans are now $282,915,490, against $249,580,255 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $84,243,743 a day, against a daily average of $98,626,066 the preceding week, and $105,129,338 the week ending with July 3, 1868. The current week's exchanges average about $83,000,000 a day. The city banks, last week, gained $3,016,003 of legal tender, $83,000,000 in the deposit line, and $1,163,683 of specie reserve. They reduced their loans, $1,232,218; and their circulation, $64,091.

The Philadelphia Bank movement the past week shows an increase in loans of $203,022; an increase of $5,728 in specie; an increase in legal tenders of $83,238; an increase of $627,710 in deposits; and an increase of $21,638 in circulation. The Bank Clearings show a decrease of $4,660,832, and the balances, a decrease of $63,429.

The New York Gold Exchange Bank reports for the week ending Saturday, the 18th day of July, 1868, the average amount of loans and discounts as $1,119,791; average amount of specie, $942,996; average amount of deposits, $1,478,436.

The U. S. Sub-Treasury receipts, week ending with July 18, were $13,192,270, including $2,189,182 from customs duties; payments, $14,265,768, including $2,898,000 of coin interest; balance at the close of the week, $81,877,245, against $83,425,935, at the close of the preceding week, showing a decrease of $1,433,499. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,543,643 including $413,859 from customs; and payments, $1,519,312; on Tuesday, receipts, $898,811 including $516,637 from customs, and payments, $883,734. The balance at the close of business on Tuesday stood at $81,916,656, against $82,846,935, a week previous; and $82,167,933, on July 8, 1868. The aggregate receipts of the office from all sources in June, were $87,512,859; aggregate payments, $93,065,184. The balance on the 1st inst., was over 5½ millions below that on the 1st ult., which amounted to $94,677,986.

The coin certificates issued by the Sub-Treasury office, during June, reached $3,543,860.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868. The Sub-Treasurer at this port issued, last week, coin certificates to

the amount of $991,000, and retired $2,096,182.

National Bank notes issued to 1,678 banks thus far, amount to $308,785,016, against $282,-555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $8,961,791, leaving, with the existing 1,639 banks, (having an aggregate capital of $420,221,210,) an actual circulation at this date, of $299,823,225. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,518,-900; and for the public deposits, $38,447,950—making a total of $379,966,850. The Treasury Department last week redeemed and destroyed $433,100 of worn and mutilated fractional currency, and issued $192,265 of new. The outstanding amount of fractional currency on the 1st of June was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868.

Government revenues have been rather more liberal, during the past week, particularly in the line of customs. The excises continue to yield quite moderately. The excises, last week, yielded some three millions; customs at the port of New York, $2,189,182, and at the outports about $750,-000 (in coin) more, making the grand total income for the week equal to about $7,254,000 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were about $192,000,000.

The Gold Market has been decidedly more active, since our last, opening on quite a confident speculative movement at much firmer and decidedly buoyant prices, but closing feverishly and irregularly, under free realizations, chiefly on speculative account. The extremes of the week have been 142⅛ and 144⅛. The highest figures were made on Saturday, when the speculative demand was most determined. The operators for a fall in the premium have since been the most successful. The dealings on Wednesday were on a moderate scale, opening at 143¼@143⅜, receding to 143, and rallying again to 143¼. The export drain has fallen off considerably. It was only about two millions, last week, and thus far, this week, it has been less than half a million. The shipments of U. S. securities, on the other hand, have been quite liberal. The California steamer delivered here on Wednesday $463,927. The customs inquiry has been quite moderate.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $4,120,401, against $1,594,000 same time last year. The customs demand for Gold last week, averaged $364,864 a day; thus far, this week, it has been equal to $481,-500 a day, or equal to a weekly aggregate of $2,889,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $12,788 and from California, $463,927. The total customs revenue of the Government, in coin, at this port, during the fiscal year ending with June 30, 1868, was $118,529,891, against $122,667,016 in the preceding fiscal year. The customs revenue in coin at this port, since Jan. 1, 1868, has been $61,707,362, against $66,051,811 same time in 1867. The total receipts of California gold at this port, in the last fiscal year, ending with July 1, 1868, were $36,726,790, against $38,338,762 in the preceding fiscal year, showing a decrease of $1,611,972 in 1867–'68. The receipts from the same source, since Jan. 1, 1868, have been $24,282,402, against $14,793,540, in 1867, showing an increase thus far in 1868, of $9,-488,862. The exports of specie, hence, year ending with July 1, 1868, were $76,256,594, against $41,366,932 same time in 1866–'7. The exports of specie from this port, last week, were $2,084,-138, against $4,076,857 same week last year; total, since Jan. 1, 1868, $57,509,316, against $33,-774,091 same time in 1867. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $2,898,000; since Jan. 1, 1868, $56,975,367, against $37,702,329; and during the last fiscal year, ending with June 30, 1868, $73,485,386, against $54,218,392 in 1866–'7. The specie exports from San Francisco, from Jan. 1, to July 6, 1868, were $22,537,247, against $24,579,724 same time last year.

Government received $3,970,123 from customs at the port of San Francisco, from Jan. 1, to July 6, against $3,578,322 same time in the preceding year.

Foreign Exchange was firmer and in moderate request up to nearly the close of the week, under review when it declined in price, on more liberal offerings, partly of bills drawn against export purchases of U. S. securities, and the market wound up dull and weak. Bankers' prime sixty day bills on London closed on Wednesday at 110 @110¼, and on Paris to 5.16¼c.@5.12½; sight bills on London to 110⅜@110⅝, and on Paris to 5.11¼c.@5.10. The offering of produce bills has been rather more extensive this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,638,195, against $3,892,224 same week last year; total, since Jan., 1, 1868, $93,597,-001 against $108,071,191 in 1867; and grand total, during the fiscal year, ending July 1, 1868, $179,784,280, against $195,544,905 in 1866–'67.

A much livelier inquiry has been reported for the public funds, during the week, at improved and buoyant prices. The demand has been mainly for the coin bearing bonds, and has come, for the most part, from speculative and export buyers. The investment inquiry has been quite moderate. At the close the market was quite firm, though there was less animation in the dealings.

U. S. sixes of 1881 closed here on Wednesday at 115⅛¼@115⅜; U. S. Five-twenties of 1862, 114@114¼; U. S. Five-twenties of 1864 at 111⅜ @110¼; U. S. Five-twenties of 1865 at 112⅜@ 112½; U. S. Five-twenties of 1865, consolidated, 109¼@109⅜; U. S. Five-twenties of 1867, 109½ @109⅝; U. S. Five-twenties of 1868, 108⅜@ 109⅜; U. S. Ten-forties at 108⅜@108½, and U. S. Seven-thirties at 109@109¼; U. S. Six per cent. currency bonds, 102⅞@103. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@ ¼ of 1 per cent. on these figures:

August, 1865....118½	October, 1865....117½
September, 1865..118	

U. S. three per cent. certificates 100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

Erie.....	46	43¾	42¾
Ill. Central.....	102	*92	96

* Ex-dividend.

Railway and miscellaneous share property has been fairly active but unsettled in price, closing with more firmness and more buoyancy.

General business has been on a very moderate scale, most of the week. Breadstuffs and Provisions were attracting more attention toward the close. Cotton was depressed by unfavorable foreign advices, on a less active market. Middling upland cotton closed strong on Wednesday at 31@31½ cents per lb. The stock of cotton now here is estimated at about 51,000 bales. The receipts at the port this week, have averaged only about 1700 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,180,000 bales, against 1,853,000 bales same time last year; exports, same time 1,698,000 bales, against 1,509,-000 bales same time last year; stock on hand at latest dates, 88,000 bales, against 165,000 bales same date last year. At the Live Stock market this week, Beeves have been plenty and in only moderate request at from 12@17c. per lb.; week's receipts, 6,276. Veal calves have been in demand and steady at from 7@12c. per lb.; receipts, 1,-359. Sheep and lambs have been more active at from 3½@7c., and 8@10½, respectively, per lb.; receipts, 20,955. Swine have been quite and heavy at 9½@10⅜c. per lb.; receipts, 11,245. The movements in foreign merchandise have been quite light, as a rule. Dry Goods have been firmly held. Groceries have shown less animation. Metals have been a little brisker. The total imports of foreign dry goods, last week, were $1,480,619, and the total amount marketed $1,253,994. The value of foreign merchandise imported last week, was $3,199,823—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $4,680,442, against $3,229,456, same week last year; from Jan. 1, 1868, $133,640,285, against $141,178,880 same time in 1867; and year ending July 1, 1868, $238,-288,518, against $269,831,007 in 1866–'67. The freight market opened more firmly and with more animation; but the later transactions were on a restricted scale, and rates closed in favor of shippers. For Liverpool we quote flour at 1s. 4½d. @1s. 6d. by sail, and 1s. 9d. @2s. by steamer, per bbl.; grain at 4½@5d. by sail, and 6@6½d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail, and $\frac{3}{16}$d.@¼d. by steamer, per lb.; and heavy goods at 12s. 6d.@25s. by sail, and 15s.@30s. steamer, per ton. Total number of vessels in port on Wednesday 503.

The imports for the week ending July 18, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods.....	$1,820,641	$1,480,619
Gen. merchandise.....	1,908,815	3,199,823
Total for the week.....	$3,299,456	$4,680,442
Previously reported....	137,949,424	128,959,843
Since January 1.....	$141,178,880	$133,640,285

The New York exports, exclusive of specie, for the week ending July 21, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week.....	$3,892,324	$2,638,195
Prev. reported..... 104,178,867		90,958,806
Since January 1.....	$108,071,191	$93,597,001

The balance in the Sub-Treasury on Wednesday was $81,989,120 54.

Oregon Central (West Side) R. R. Co.

The directors of this Company for 1868 are as follows: J. C. Ainsworth, President Oregon Steam Navigation Co.; T. R. Cornelius, President Oregon Senate; W. T. Newly and J. Gaston. The officers are: President, J. Gaston; Secretary, W. L. Ladd; Treasurer, E. W. Haines. The *Oregonian* says that at a meeting of the County Commissioners of Yamhill County, it was decided to assume for the County, the interest on $75,000 of the Company's bonds, at the rate of seven per cent. per annum, in gold, for twenty years. The details of the contract were agreed upon, by the terms of which the coupons are to be signed immediately and the interest will run from July 1st, 1868. The bonds are to be placed in the hands of Mr. W. S. Ladd, as Trustee, who is to collect the interest and keep the bonds till the road shall be in operation to the Yamhill river, when all the bonds, coupons, and accummulated interest are to be delivered to the company. The County, in consideration of its aid, is to have the use of the Company's bridges in Yamhill county free for public use.

Pittsburg and Connellsville Railroad.

The Cumberland *Civilian* says that the $2,000,000 loan of the Pittsburg and Connellsville Railroad Company has been all taken, the Baltimore and Ohio Railroad Company having taken the last $200,000. This being the case, there is nothing further to impede the progress of this important work. Engineers are now on the line resetting the stakes, the work at the tunnel is being prosecuted, and soon the entire road will be under contract. It is understood that the work between Cumberland and Sand Patch Tunnel will be vigorously prosecuted at an early day, and that no time whatever will be lost.

Union Pacific Railroad.

The trains are now running 700 miles over the Union Pacific Railroad. Six hundred and eighty miles have already been examined by the United States Commissioner and pronounced a first class road in every respect. Twenty thousand men are at work, and it is expected that not less than 900 miles will be finished this year, and that the whole line to the Pacific may be opened in 1869.

☞ The Rockford, Rock Island and St. Louis Railroad Company's First Mortgage Fifty-year 7 Per Cent. Convertible Bonds, interest payable semi-annually, 1st of February and 1st of August, in New York or London, in gold coin, free of Government tax, are for sale at the office of the company, No. 12 Wall street, at 95 per cent. An article from the *Western World*, in our present issue will show the progress being made in the construction of this road.

☞ The Vicksburg *Herald* says that the Vicksburg, Shreveport and Texas Railroad is being pushed to completion very fast.

Railroad Earnings.--Weekly.

The earnings of the Western Union Railroad for the 2d week in July, 1868..... .....$15,131 97
Corresponding week previous year..... 14,438 20

Increase..... .... $693 77

The earnings of the Marietta and Cincinnati Railroad for the 2d week in July, 1868..$24,053 00
Corresponding week previous year..... 21,563 00

Increase $2,490 00

The earnings of the Chicago and Northwestern Railroad for the 2d week in July, 1868.$240,611 82
Corresponding week previous year .. 192,191 11

Increase $48,420 71

The earnings of the Michigan Central Railroad for the 2d week in July, 1868, were...$62,280 00

Increase $15,488 00

The earnings of the Chicago and Alton Railroad for the 2d week in July, 1868...$97,608 60
Corresponding period previous year .. 91,895 00

Increase $5,713 60

☞ Despatches from San Francisco, dated on the 17th inst., announced the completion of 204 miles of the Central Pacific Railroad. The company has had a large number of laborers grading its road in the Salt Lake basin, and, it seems, is pushing the work with thoroughness. Fifty miles of iron have been laid since the first train crossed the Sierra Nevada range on the 17th of June, and it is thought that Salt Lake will be reached early in 1869.

☞ The organization of the consolidated Burlington, Cedar Rapids and Minnesota Railroad Company is nearly perfected. Hon. George Greene of Cedar Rapids is President of the new Company, and it is intended the work shall be pushed forward with energy, and the cars running over the line at the earliest date possible.

☞ The State Department and the House Committee of Foreign Relations have under consideration the case of the Costa Rica Railroad Company. It will be remembered the Costa Rican Government annulled the contract of this company for alleged non-fulfillment of one of its conditions.

Journal of Railroad Law:

DAMAGES FOR EJECTING FROM RAILROAD CAR IN MOTION—INTOXICATION—NEGLIGENCE.

The action of Meyer *vs.* The Pacific Railroad, [40 Mo., 151] was brought by Henrietta Meyer, widow of August Meyer deceased against defendant, for damages for the death of her husband. The accident occurred at the depot of defendant at St. Louis. When the train started, Meyer, who was considerably intoxicated, was standing upon the rear platform of the baggage car leaning against the baggage car door. There was a large number of vacant seats in the inside of the car, and the usual notice about riding on the platform was posted on the outside of the door. The train had not moved more than 30 or 40 feet from the place of starting, before the signal had been given to stop, for it then became apparent that Meyer was beneath the car.

The plaintiff's evidence tended to show that the conductor, in attempting to put him off, either by criminal intent or carelessness, forced him between the cars.

The defendant's evidence tended to show, that he fell from the cars, from the simple shock of starting the train, his drunken condition rendering him unable to stand up, and that the conductor attempted to save him.

The following decision by Judge Wagner is well worth perusing:

The second instruction given for the respondent tells the Jury, that if they believe the conductor was about to put Meyer off the car, it was his duty first to stop the train before attempting to do so; and as all the evidence shows that when the supposed attempt was made the train was not stopped, it was equivalent to withdrawing the whole question of negligence from the Jury and instructing them to find for the respondent. From the evidence it appears that the train was just starting, and going at a remarkably slow rate of speed; and if an attempt was made to put Meyer off, it was a fact that should have been submitted whether it was done negligently, or in a way to endanger life. To attempt to put a person off a train, when it is under full headway, or in the night at a dangerous place, would unquestionably be deemed gross carelessness and highly improper conduct, and a court would be fully warranted in so declaring it; while expelling a man when the cars were scarcely in perceptible motion, might be devoid of all hazard and without any negligence. Therefore it is a question for the Jury to determine, with a full view of all the circumstances, as shown by the facts, and the court cannot single out an isolated fact and instruct that it amounts to negligence as matter of law.

In our opinion, the court stated the law correctly. Unless Meyer's intoxication directly contributed to cause the injury, and in consequence thereof he did not exercise ordinary care and prudence, we do not see how it should be made to operate to the detriment of the plaintiff. The very proposition is monstrous, that because a man is drunk, although that is not the proximate cause of the injury, he is therefore placed beyond the pale of legal protection and may be killed with impunity.

Judgment of the court below must be reversed.

Chicago and Port Huron Railroad.

The adjourned meeting of the directors of the Chicago, Blue Island and Indiana Railroad took place in this city on the 10th inst. Vacancies in the Board occasioned by the absence of several gentlemen who declined to serve, were filled by the appointment of Wm. B. Bancroft, Leonidas D. Dibble, Thomas S. Stanfield, S. D. Reed, S. J. Anthony; and John Bierfeldt was elected a Director in the place of Daniel Robinson, deceased. The following officers were elected: President, Henry Fuller; Vice President, Gordon S. Hibberd; Secretary, Joshua P. Young; Treasurer, Henry H. Massey; Attorney, George F. Bailey.

Work on the consolidated line is being rapidly prosecuted, and it is expected that communication between Chicago and Port Huron will be established by January 1st, 1869. The principal points passed through are Lapeer, Flint, Lansing, Charlotte, Battle Creek, Schoolcraft, and Cassapolis, in Michigan, and South Bend, Laporte and Valparaiso, in Indiana. These are all large towns, and situated in the midst of fertile and thickly settled sections of country. The Michigan towns, with the exception of Battle Creek, have no railway communication with Chicago except by roads leading to other points. The distance between Chicago and Port Huron by this line will be 325 miles. To recapitulate what we have already stated, the road from Port Huron to Lansing, 110 miles in length, will be known as the Michigan & Port Huron Railroad; sixty miles have been graded, and are now ready for the iron. From Lansing to the Indiana State Line—one hundred and eight miles—will be known as the Peninsula Railroad; forty-five miles have been graded and are ready for the iron. From the Indiana State line to the Illinois State line will be known as the Indiana Peninsula Railroad. From the Illinois State line to Chicago, twenty-seven miles, will be known as the Chicago, Blue Island and Indiana Railroad.

Hon. L. S. Bancroft is the Secretary, Treasurer, and general business manager of the first named road; L. D. Dibble is the President of the next named road; Thomas S. Stanfield is President of the Indiana Peninsula road. Chief Engineer C. F. Miller has charge of the construction of the road from Lansing to Chicago. Over one hundred men are now at work. The track for the construction of the road from Port Huron to South Bend has been laid.—*Chicago Railway Review.*

☞ The Canadian *News* says that the Canada Central Railroad Company have made a preliminary examination of a line between Ottawa and Carlton Place, and the actual location of a line is now being made by Mr. Stork, civil engineer. What direction the line will take is not yet known.

St. Louis and Cedar Rapids R. R.

The Ottumwa (Iowa) *Courier* says that the cars on this road will be running into that city from St. Louis by the first of January. H. G. Angle, the President of the Company, has returned from St. Louis, where he had an interview with the officers of the North Missouri R. R. Co. He reports that the financial arrangements are all perfect, and that Mr. McPherson is in New York buying the iron to complete the road to Ottumwa. It is thought that with proper exertions the road may be completed to Cedar Rapids in January, 1870.

Cedar Rapids and St. Paul R. R.

The following gentlemen have been elected directors of this Company for the ensuing year: George Greene, J. F. Ely, S. C. Bever, W. W. Walker, N. B. Brown, D. W. C. Rowley, John Weare, William Greene, John W. Trear, S. H. Watson, H. Berry, G. W. Couch, and C. Close.

The officers of the Company are: President

Hon. Geo. Greene, Vice President, John W. Traer; Secretary, D. W. C. Rowley; Sup't, William Greene; Chief Engineer, W. W. Walker.

☞ The Albany and Susquehanna Railroad will be completed from Harpersville, its present terminus, through to Binghamton, and opened to public business before winter. The whole length of the line will be 120 miles.

700 MILES
OF THE
UNION PACIFIC
RAILROAD

Are now finished and in active operation. One hundred and sixty miles have been built in the last three months. More than twenty thousand men are employed, and this average of forty miles per month will be continued throughout the season, making NINE HUNDRED COMPLETED MILES by January 1st, and it is now probable that the ENTIRE GRAND LINE TO THE PACIFIC WILL BE OPEN FOR BUSINESS IN 1869.

No other first-class railroad in the world has been built and equipped so rapidly as the Union Pacific, which runs west from Omaha

Across the Continent.

The United States Government makes of this railroad a GREAT NATIONAL WORK, and aids its construction by very liberal grants of money and of lands. To further insure the speedy completion of the road, the Company are authorized to issue their own

First Mortgage Bonds

having thirty years to run, and having interest coupons payable semi-annually at the rate of six per cent. in gold. The principal, as well as interest, is made

PAYABLE IN GOLD.

The Mortgage Bonds of nearly all other railroads in this country, are payable, principal and interest, in currency; and it is asserted, without fear of contradiction, that no other railroad company in the world, building so great an extent of road, issues bonds of equal value with the First Mortgage Bonds now offered for sale by the Union Pacific Railroad Company.

The price of these Bonds is now **102**, and accrued interest from July 1, in currency. The Company believe that at this price their bonds are the

Safest and Most Profitable Investment

in the market, and they confidently expect that they will shortly command a higher premium than any similar security. The Company reserve the right to advance the price at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance. Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,
AND BY
John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by leading Bankers generally throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

SPECIFICATIONS

FOR

PROPOSALS.

OFFICE NEW ORLEANS, OPELOUSAS AND GREAT WESTERN RAILROAD COMPANY.

New Orleans, June 6th, 1868.

The New Orleans, Opelousas and Great Western Railroad Company desiring that a connection shall be formed between their present terminus at Berwick's Bay, and the Houston and New Orleans Railroad, which terminates at the Sabine River, and which when completed, the (distance being 163 miles,) will connect New Orleans with almost the entire railroad system of Texas, the President and Directors of said Company, therefore propose to such party or parties as may undertake to fill up such gap, the following terms and conditions, to wit:

1. Will lease the right of way and the franchises now possessed by said company from their present terminus at Berwick's Bay to the town of Vermillionville, the grading of which is almost entirely completed for these 63 miles, and will, at the same time, lease the right under their charter to build the branch railroad from Vermillionville to the Sabine River, at or near Orange, the same having been already located by resolution of the Board of Directors. The distance between these points is 100 miles. The Company reserving to itself the right of way and transportation on payment of proportionate freights and passage money from the present terminus of the road to any extension towards Opelousas, of its road beyond Vermillionville.

2. The said lease to continue for a term of years to be agreed upon between the Company and the Lessees. At the end of the lease the property to be valued by disinterested parties, the Railroad Company to select three, and the Lessees three, the two, if need be, to call in an umpire whose decision will be final. The Railroad Company reserving the right to purchase said property at such valuation, but if not then promptly paid for by said Company, the lease to be extended for a further term of years, and so on, until finally purchased and paid for by said New Orleans, Opelousas and Great Western Railroad Company. The grading already made between Berwick's Bay and Vermillionville, to be valued by competent engineers at the time of entering into a contract, but not to be paid for by lessees until the end of the first lease, herein provided for.

3. The parties leasing to obligate themselves to connect with no other railroad which might hereafter be built, terminating at or near the City of New Orleans, and further obligating themselves to do no act which will infringe the rights under the present charter of said Company, and also to hold said company harmless against any loss which might result from acts committed on that portion of road now proposed to be leased.

4. Should the Lessees succeed in obtaining a land grant on the line of railroad beyond Berwick's Bay, it will be and remain the property of said lessees, this Company claiming none of its benefits, and incurring no portion of the responsibility attending it.

5. Transportation to be furnished said Lessees over the Company's road, as follows, viz:

The President, Directors and officers of the road, including engineers, superintendents, road masters and bridge builders free of charge. Transportation of laborers going out to be charged one-third the regular fare. Provisions and supplies to be charged one half of regular rates. Material, other than iron and cross-ties, to be charged one half of regular rates. Iron to be charged one dollar per ton, and cross-ties (if any) fifteen cents each. Lessees to load and unload the cars.

6. The road thus to be built shall be a first class railroad in every respect. The gauge to be the same as the Company's road—say 5 feet 6 inches. The iron used not to be less than 58 lbs. per yard.

7. The said Lessees to obligate themselves to commence said road within four months, and have it finished and in running order to the Sabine River, connecting with the Houston road at or near Orange, within three years from date of signing the lease.

8. In order to ensure the faithful performance of the contract the Lessee will be required to execute a bond to an amount, and with good and satisfactory security to the satisfaction of the Board of Directors.

9. The Company reserves the right to reject any and all bids.

Another proposition and for which proposals are also invited, is to lease the road, including depots, stations, rolling stock, etc., from Algiers, opposite New Orleans, to Brashear City, including the franchises of the Company beyond to Texas, under the following conditions:

1. That the party or parties proposing to lease shall state the least number of years he or they will lease the road, on the following conditions:

2. The accrued interest to October the 1st, 1868, on the mortgage bonds, (said bonds maturing in 1889,) to be provided for by the lessee.

3. The semi-annual interest on same bonds, accruing yearly after date, and payable on the first days of April and October of each year, say $160,000 per annum, to be also provided for by said lessee.

4. The road to be built over the route from Berwick's Bay to New Iberia, thence to a point at or near Vermillionville, thence in a westerly direction to a point on the Sabine River, connecting with the Houston and Beaumont road.

5. The building of the road to be commenced within four months after signing the contract of lease, to be prosecuted with all dispatch, and to be fully and finally constructed within three years from the signing of the lease.

6. The grading, culverts, etc., now made beyond Berwick's Bay, to be taken by the Lessee at a valuation to be ascertained by experts, one to be appointed by each party, in case of disagreement they to select an umpire, and to be paid for on such terms as shall be hereafter agreed on.

7. The road to be built, equipped and maintained during the entire lease as a first class road in every respect.

8. At the close of said lease, the said road, depots, stations, rolling stock, etc., from Berwick's Bay to the Texas line, shall be valued by experts, one to be appointed by each of the parties thereto, and in the event of disagreement, the two to select an umpire, whose decision shall be final. The value thereof thus ascertained shall be subscribed as stock in the present Company, it being well understood that all costs of maintenance, as well as expenses of operating the road, shall be at the exclusive charge of the Lessees.

9. The contract with Charles Morgon for running a line of steamers to Texas, extending to 1871, to be carried out by the Lessee in every respect.

10. The present road to Berwick's Bay, including depots, machine shops, rolling stock, bridges, etc., to be turned over to the Lessee after inventory and appraisement, and the said property, or property of like character and value, and like condition and good order, to be returned to the company at the expiration of said lease.

11. The Lessees, to ensure the faithful performance of the contract, to furnish security to the satisfaction of Board of Directors.

12. The said Lessees shall contribute and pay each year the sum of $5000, payable quarterly, to keep up and maintain the organization of the Railroad Company during the existence of this lease.

13. The said Lessees obligate themselves to do no act which may operate a forfeiture of the charter, and shall hold the said N. O., O. and G. W. R. R. Co. harmless against any and all acts of theirs.

Sealed proposals will be received at the office of the Company in New Orleans, No. 69 Canal street, until the first day of September next, at 12 o'clock, M., the Company reserving the right of rejecting any or all bids.

To Tunnel Contractors.

THE Commissioners of the Troy and Greenfield Railroad and Hoosac Tunnel, acting for the State of Massachusetts, invite proposals until the 12th day of August next, for completing said Tunnel, either in separate contracts for three different sections of the work, or in one contract for the whole.

The Tunnel when completed will be 4¼ miles long.

From the East End the mountain has been penetrated about one mile, and for a portion of that distance the section has been enlarged to the full width o 24 and height of 20 feet. The enlargement is required to be finished, and working continued westward.

The Central Shaft, 27 by 15 feet, has been sunk 583 feet, and remains to be sunk 447 feet to grade; and the Tunnel is to be driven in each direction therefrom.

The West Shaft Workings, located about half a mile from the west portal, embrace two auxiliary shafts used mainly for pumping and ventilation, and the headings driven in each direction make an aggregate length of about 2300 feet.

The depth of the west shaft to grade is 318 feet.

The West End, where arching is required, is already under contract to a point about 930 feet from portal, and from this point a draining drift is to be run eastward to meet workings from west shaft, which will obviate the necessity of pumping probably by the close of the present year.

The existing buildings, and fixed machinery provided by the State for hoisting, pumping, ventilation, and supply of compressed air to the drilling machines, now successfully operating in the rapid advance of the work, will be turned over to the contractors as they are.

A sufficient appropriation has been made by the State for the completion of the whole work.

Ample sureties will be required from parties who may be contracted with, and the Governor and Council reserve the right to reject all offers that may be made.

Plans may be seen, and specifications obtained, on application to B. D. FROST, Superintending Engineer, at the Engineers' Office in North Adams, Mass., or to B. H. LATROBE, Consulting Engineer, at his office, 49 Lexington street, Baltimore, Md. Specifications and other information may be had at the State House, in Boston, from TAPPAN WENTWORTH, Commissioner, to whom proposals will be addressed.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 6th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor.

RAILROAD SCREW SPIKE.

HENRY YOUNG, President.

G. B. HUBBELL, Secretary

HUBBELL & VANHOESEN, Agents.

Works at

OSSINING,

Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented. Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERGNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

430 WASHINGTON AV.,

PHILADELPHIA,

MANUFACTURE

Steam Engines—High and low pressure, for land, river, and marine service; Horizontal, Beam, and Vertical. Patterns on hand for 8x10, 14x12, 18x12, Oscillating; compact and cheap.

SOLE MANUFACTURERS IN PHILADELPHIA AND CHESTER OF WILLIAM WRIGHT'S PATENT VARIABLE CUT-OFF STEAM-ENGINES.

Boilers—Plain cylinder, flue, and tubular.

Steam-Hammers, of Nasmyth & Davy patterns, with all the recent improvements.

Strahan's Drill Grinding Rest and Twist Drill-Holder.

Castings—Loam, dry, and green sand, brass, &c.

Roofs—Iron frames for covering with slate or iron—neat, durable, and economical.

Gas-Holders of every description. *Builders of Holders for the Philadelphia Gas-Works of 100 and 160 feet diameter.*

Tanks of every form, for sugar estates, refineries, oil, &c.

Gas Machinery of every description, including Retorts, Bench-castings, Holders and Frames, Purifiers, Coke and Charcoal Barrows, Gas-Valves, Governors, Hoisting Machines, &c.

Manufacturers for the American Meter Company of their Patent Dry Center Valve for changing Purifiers.

Bartol's Patent Wrought Iron Retort-lid, durable, light and cheap.

Sugar Machinery, such as Vacuum Pans and Pumps, Defecators, Bone-Black and Bag Filters, Bone-Black Burners, Washers, and Elevators, Hydraulic Elevators, Sugar and Bone-black Cars, Strike Heaters, Open Steam Trains, &c.

Sole Assignees and Manufacturers in the United States of

Weston's Patent Self-centering Self-balancing Centrifugal Sugar-Draining Machine.

Glass & Bartol's improvement on Aspinwall & Woolsey's Centrifugal Sugar-Draining Machines.

N. Rillieux's Patent Sugar-Boiling Apparatus, applicable to Beet-Root and Cane Sugar.

Having had twenty years' experience in the manufacture of Sugar Machinery for Cuba, South America, and the United States, they are prepared to contract for the design and erection of apparatus for making Sugar from Beet-Root or Cane, and for Refineries for either Sugar or Molasses.

They are also in possession of plans of the most recent improvements in machinery used in France and Germany in the manufacture of Beet-Root Sugar.

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

VAN ANDEN RAIL CHAIR COMPANY,

359 MAIN STREET,
POUGHKEEPSIE, N. Y.,

By their improved Machinery are enabled to offer

Swaged Wrought-Iron Rail Chairs

WITH CONTINUOUS BASE AND LIPS

☞ The grain of the iron running across the line of the Rail, which gives them great additional strength over all others, and no liability to split. The Spike Holes being Punched within the Edge of the Lip, admits of one-half the Spike being recessed back in the solid metal, which cannot be done in the Rolled Chair.

☞ *All orders will receive prompt attention. Samples sent on application.*

PATENTED SEPT. 18th, 1866.

Safety Railroad Switch.

MAIN TRACK UNBROKEN.

I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the *MAIN TRACK IS NEVER BROKEN*, and it is impossible for any accident to occur from the misplacement of switches.

The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns *The Life and Limb of all Travelers upon Railroads.*

I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

SCHOOL OF MINES,

COLUMBIA COLLEGE,

East 49th Street, NEW YORK.

FACULTY:

F. A. P. BARNARD, S. T. D., LL. D., President.
T. EGLESTON, Jr., E. M., Mineralogy and Metallurgy.
FRANCIS L. VINTON, E. M., Mining Engineer.
C. F. CHANDLER, Ph. D., Analytical and Applied Chemistry.
JOHN TORREY, M. D., LL. D., Botany.
CHARLES A. JOY, Ph. D., General Chemistry.
WILLIAM G. PECK, LL. D., Mining Surveying.
JOHN H. VAN AMRINGE, A. M., Mathematics.
OGDEN N. ROOD, A. M., Mechanics and Physics.
JOHN S. NEWBERRY, M. D., Geology.

The plan of this School embraces a three-years' course for the degree of ENGINEER OF MINES, or BACHELOR OF PHILOSOPHY.

For admission, candidates for a degree must pass an examination in Arithmetic, Algebra, Geometry and Plain Trigonometry. Persons not candidates for degrees are admitted without examination, and may pursue any or all of the subjects taught. The next session begins October 7th, 1867. The examination for admission will be held on October 3d. For further information, and for catalogues apply to

New York, Saturday, August 1, 1868.

Ironton and Hamburg Railroad.

The route as surveyed for this road commences at a point on the "Siegersville Extension," and follows the valley of Copley Creek to Unionville, where it crosses the dividing ridge between the tributaries of Copley Creek and those of Mill Creek—distance four miles. It then pursues a southwesterly course, over an undulating surface, crossing the several tributaries of Mill Creek near their sources, and arrives at the village of Pleasant Corner, in the valley of the Jordan—distance 4.6 miles. Then crossing said valley on a level, it ascends a small tributary, over favorable grounds, to Weiss' Summit, and thence descends a tributary of the Antelauny, to a point a little north of the village of New Tripoli—distance 1.8 miles. Thence the route continues down the valley of the Otelaunee, passing the village of New Tripoli and Lynnport, and near Jacksonville to Wannemacher's Mill, in the vicinity of Steinsville—distance 5.6 miles, making the whole distance 18¼ miles. Here the survey has been terminated for the present. The cost of the road has been estimated at $414,267, or $22,754 per mile. This estimate includes grading and bridging, superstructure, land damages, officers' salaries, engineering and contingencies.

Central Pacific Railroad.

The GREAT PACIFIC RAILROAD, with the fostering care of the Government, is rapidly building, and will be completed in 1869. The bulk of the actual settlement, the richest lands and mines, as well as the most important trade, are along the western half of the route.

The CENTRAL PACIFIC RAILROAD COMPANY, who control this favored portion of the line, have already built, equipped, and paid for their road across the Sierra Nevada, and are extending it toward Salt Lake with a rapidity and thoroughness unparalleled. Beside a mileage upon all through traffic, they have exclusively a heavy and lucrative local business between San Francisco, Eastern California, Nevada, Idaho, and Utah. The net earnings upon the two hundred miles now operated are already three times more than the interest liabilities assumed thereupon.

We offer the CENTRAL PACIFIC RAILROAD FIRST MORTGAGE SIX PER CENT. THIRTY YEARS' BONDS (principal and interest in gold) for the present at 103 per cent. and accrued interest in currency. At this time they pay more than 8 per cent. upon the investment, and have, from *National and State laws, guarantees superior to any other corporate securities now offered.*

Information furnished on application.

FISK & HATCH,

Bankers and dealers in Government Securities, and Financial Agents Central Pacific Railroad Company, No. 5 Nassau street, N. Y.

Grand Rapids and Indiana Railroad.

At the recent annual meeting of the stockholders of this company at Sturgis, Mich., the following gentlemen were elected directors for the ensuing year: J. K. Edgerton and Pliny Hoagland, of Fort Wayne; James R. Bunyan, of Kendallville; J. G. Wait and Richard Wait, of Sturgis; J. A. Walter and Israel Kellogg, of Kalamazoo; Geo. H. White, of Grand Rapids, and Mancel Talcott, of Chicago.

J. K. Edgerton, was subsequently elected President; J. W. Goodwin, Secretary; S. T. Haund, Treasurer, and J. K. Edgerton, J. A. Walter, J. G. Wait, and P. Hoagland, Executive Committee.

There was a good deal of interest manifested in the success of the enterprise, and a full determination to push it forward to completion.

The Detroit *Advertiser*, from which we obtained the above, says that the company have now at Detroit the iron for fifty miles of road, and they expect, by the close of the next season, to have two hundred miles of road in running order. It will be remembered that this company have made arrangements, whereby the Pittsburg, Fort Wayne and Chicago Railway furnish the necessary means to complete the line north, and the Cincinnati, Hamilton and Dayton Railroad are to finish the road south.

Worthington Valley and Manchester R. R.

A meeting of the Commissioners of this road was held at Manchester, Carroll Co., Md., on the 20th ult., when the report of the engineer, Wm. Glenn, Esq., was presented and read, from which we learn that two principal lines were surveyed, one known as the "Dover" and the other as the "Black Rock route." The Dover route beginning at Cockeysville, on the Northern Central Railway, and running, by Dover, to Manchester, a distance of twenty-two miles. The Black Rock beginning at Ashland, and running by Black Rock Mills, to the same point. The report shows the grades to be favorable, and the entire cost of the road to amount to about $450,000 by either route. The prospects of the road were represented as most encouraging, a little energy only being required to ensure the success of the enterprise.

Baltimore and Potomac Railroad.

The Washington *Intelligencer* learns from the best source of authority, that the gentlemen of Pennsylvania and Maryland who are especially interested in the above road have been recently in protracted session at Baltimore, and that funds to the amount of $2,000,000, in the way of a loan, is reported as available and forthcoming for the purpose of pushing work upon it. The time for completing contracts has been enlarged, and it is stipulated that the entire work shall be completed by September of next year. Grading is now progressing on most sections of the road. Present engagements are for building south from Marlborough to the line of Charles County, *en route* to Aquia Creek; also, to Washington.

British Railway Law.

In the Court of Queen's Bench, July 7th, before the Lord Chief Justice and a special jury, the plaintiff, Gwynne, sued the South Eastern Railway Company for damages for a mischievous libel in printing and publishing the following placard: "Caution.—Mr. J. Gwynne, of 3, Wellesley-terrace, Plumstead, was charged at the Mansion-house, on the 16th instant, with having traveled from London-bridge to Cannon street without having previously paid his fare, and was convicted and fined, with costs, or in default condemned to three days' imprisonment with hard labor." The action was important as involving the right of companies to placard their stations with a conviction of a passenger for a supposed fraud or breach of by-law. The plaintiff rode from Woolwich to Cannon street on 5th Sept. last, where his ticket was detained. He had to pay 7d. to ride back to Woolwich, which sum the company repaid him on demand. The company then summoned him for riding without a ticket and he was fined 1s., whereupon the company placarded the case down the line. The company pleaded that the bill was in substance true, but this plea was not proved, and the original facts were very closely gone into, and turned out to be in favor of the plaintiff, who declared the conviction unfounded, and that he was not sentenced to hard labor. The Lord Chief Justice observed upon the practice of publishing these notices, and said they should at least be correct. The jury found a verdict for the plaintiff—damages, £250.

Cleveland, Painesville and Ashtabula R.R.

This road is 95½ miles in length, extending from Cleveland, Ohio, to Erie, Penn. The length of double track is 30 miles, and of sidings 24 miles. The weight of rail per yard is 60 lbs. Gauge of road, 4 feet 10 inches, Roads worked or leased by the company, viz.: Jamestown and Franklin Railroad, Pa. The company have 42 engines, 23 1st class passenger, 82 2d class passenger, 11 baggage, mail and express, and 1,078 freight and coal cars.

The receipts from operations of this road for the fiscal years ending October 31, 1866 and 1867 have been as follows:

Tons of freight carried	589,210	665,490

The gross tonnage for the year 1867, was 970,803.

President.—Amasa Stone, Jr.

Directors.—A. Stone, Jr., S. Witt, Geo. B. Ely, H. B. Payne, Thos. M. Kelley, Wm. Collins, Jno. Newell, H. E. Parsons, James Miles, Jerome W. Wetmore, Sam'l J. Randall, E. M. Gilbert and and Chas P. Wood.

Secretary and Treasurer.—Geo. B. Ely.

Superintendent.—H. Nottingham.

The Intercolonial Railway.

This line is to be made, after all, but it has been delayed so long that an American competitor, called the European and North American line, has been established, or so far made that in self-defence it must be completed. The Intercolonial will doubtless beat the American line, which is only a coaster; nevertheless it would have been much better for Canada and the Intercolonial line itself if the steps for the construction of the Intercolonial had not been so protracted that countenance and support were given to the Yankee scheme in England. To what extent Englishmen advanced their money in aid of the American competitor we know not, but for their own sakes we trust they did not go very deep, and will take an early opportunity to let the Americans have their own bonds at an advantage, we mean at a lower price than the English investors gave for them; or of course at a premium, that is an advantage to English investors, if the bonds will fetch a premium. The Intercolonial will, as soon as it is made, cut the American coaster into ribbons. Nearly all the traffic from Halifax to Quebec, Montreal, Ottawa, Toronto, Detroit, &c., will pass up the Intercolonial and over the Grand Trunk. Before the Intercolonial is made this traffic may take the American route, that is coastwise to the Grand Trunk, at or near Portland (America), and thence *via* the Grand Trunk to Montreal, &c.; but the moment the Intercolonial is ready to carry traffic the Canadian Company will doubtless transfer this Canadian traffic to their own lines.—*Herapath.*

Delaware, Lackawanna and Western R. R.

This road is 113 miles in length, extending from Great Bend to the Delaware River. The length of double track is 50 miles; and of sidings 42 miles. The weight of rail per yard is 65 lbs. Gauge of road, 6 feet. The company have 98 locomotives, 17 passenger, 8 baggage, mail and express, 733 freight cars, and 5,972 coal cars.

The receipts from operations of this road for the fiscal years ending October 31, 1866 and 1867, have been as follows:

	1866.	1867.

Interest received	8,875 89	9,146 48
Engineer department less than last year ..	44 95	702 71
Total income....	$310,851 28	$378,058 37

Appropriated in 1867-'68 as follows:

Paid coupons, back coupons, expenses of paying the same, interest on over due bonds, and discounts on sinking fund bonds sold during the year ..	$66,905 20
Paid preferred stock dividends.....	57,939 00
Wood, oil and coal on hand more than last year....	2,793 89
In superintendents hands over last year	12,336 73
Paid trustees of sinking fund.....	12,500 00
Paid sundry expenses....	3,226 33
Bonds and cash on hand....	222,357 22
Total, as above....	$378,058 37

Compared with the previous year the gross earnings of 1867-'68 show an increase of $18,960 18, with an increase in expenses of $15,133 47, making the increase in net earnings, $3,826 71. The report says:

We have laid within the year 731 tons of new and re-rolled iron, repaired and re-laid 7,050 rails, and have laid more than 50,000 new sleepers.

We have built one new passenger car, re-built one baggage car, and built and re-built four box, and twenty-six platform cars, and we have also purchased one new freight locomotive, and stationary engine, at a cost of $14,500, and have made other extensive repairs and improvements.

So that the motive power, passenger and freight cars, road-way and superstructure, are all in a much better condition than at any former time in the history of the road.

There has been no change in our business connections with the lower roads since our last report.

The payment to the Sinking Fund, of $12,500, has been made, which, with its accummulations, amounts at this time to $200,000. This fund, as we have said in our former reports, is fast reducing the bonded debt of the road.

The Directors have not thought it advisable to charge off at present any of the overdue bonds, but to hold them so that they can be cancelled, and sinking fund bonds issued for them, to be issued, if thought best, for the extension or payment of the bonds maturing in 1870.

The dividend declared and paid last June, was not included in the previous year's accounts, but has been charged in this year's.

This dividend, with one declared last November, and the one now payable, make three dividends included in this year's statement, of $23,064 each, in all $69,192.

This has been done so that hereafter there will be regularly two dividends charged each year.

It was said by some few parties last year, that the Directors did not intend to pay another divident, but there have been two declared and paid since, and they see and know of no reason why they cannot continue to pay regularly on the preferred stock.

It has been thought desirable by a large number of the stockholders, to see if there could be some arrangement to consolidate the three classes of stock into one.

If this could be done on some basis equitably for all, it would be desirable, and greatly for the benefit of the corporation.

The matter of extending the road from Littleton towards Lancaster and Northumberland, will again be submitted to you for consideration. From various causes, the Directors have not been able to take any decided measures in regard to this project. Such an extension would be of great importance to the towns through which it would pass, and would also benefit this road; and it would be for our interest to assist in its construction, provided sufficient encouragement were given in the way of substantial aid, by the towns and individuals to be benefited by it, rights of way granted where practicable, and where such grants could not reasonably be expected, only moderate and reasonable land damages asked.

We trust you will give to this matter the attention which so important a measure demands.

All the operations of the road, during the year, have been conducted with safety and success, and the prospects for the ensuing year are encouraging.

The total number of passengers carried in 1867-'68 was 123,334; equal to 7,340,040 carried one mile. Total number of tons of freight, 57,856; equal to 3,471,360 tons carried one mile.

Treasurer.—Edward D. Harlow.

Superintendent.—J. A. Dodge.

Pacific Railroad (of Missouri)—Six Per Cent. Gold Bonds.

The Pacific Railroad (of Missouri,) through the undersigned, offer for sale a limited amount of their six per cent. gold bonds at 95 per cent. and accrued interest.

The road extends from St. Louis 283 miles to Kansas City, there connecting with the Union Pacific Railroad (E. D.) and other roads, and was completed in 1865, at an expenditure of over $13,000,000.

The earnings for the year ending February, 1867, were....	$2,675,874 00
Operating expenses	1,956,644 00
Net earnings were	$719,230 00
For the year ending February, 1868, the earnings were....	$3,003,681 31
Operating expenses were	2,030,626 33
Net earnings....	$973,054 92

While for the first quarter of 1868 the net earnings exceed those of same quarter in 1867 by $133,679 69.

The Railroad Company, in order to pay off the State of Missouri for advances in aid of constructing the road as well as all other liens, has issued $7,000,000 of First Mortgage 6 per cent. Bonds, secured by deed of trust to Messrs. James Punnett, President of Bank of America, New York; U. A. Murdock, President of Continental National Bank, New York, and Luther C. Clark, of Clark, Dodge & Co.

The bonds run twenty years from Aug. 1, 1868, interest February and August in New York. Principal and interest payable in gold coin.

In offering these bonds to the public we remark that the road passes through the central, most populous, fertile and growing part of the State of Missouri, forms part of an important line, and is a completed and successful enterprise, already earning nearly double the amount required to meet the interest on its entire indebtedness, thus entitling the bonds to the rank of a first class security. Government and other securities received in exchange at market rates.

Clark, Dodge & Co.,
No. 51 Wall street.

☞ The Philadelphia and Reading Railroad Company have secured an extended lease on the Little Schuylkill Railroad for ninety-nine years guaranteeing the stockholders 7 per cent.

New York Central Underground Railroad.

The following is a copy of an act passed by the Legislature of New York to incorporate the New York City Central Underground Railway Company, and to authorize the said company to construct and operate a certain underground railway in the city of New York.

Section 1. W. Butler Duncan, William B. Ogden, George Griswold, James Boorman Johnston, George D. Cragin, James M. Brown, William E. Dodge, Henry F. Vail, Lewis B. Brown, Edwin Dodge, S. W. Hopkins, Edward R. Bell, J. S. Thayer, Clarence S. Brown, Henry E. Davies, Julius F. Cheesboro, W. W. Huntington, D. M. Hildreth, J. S. Schultz, Henry W. Slocum, Horace Downing, John Philip, E. H. Kenbock, Bryan Lawrence, Joseph Dixon, Eugene Bissal, Henry Marshall, Edwin J. McKee, Royal N. Torry, Thomas Canary, William Johnson, Bernard Kelly, William C. Squier, John Fitch, Edward C. Byrne, Henry C. Smith, Benjamin Weed, Edward Coles, Daniel R. Jewett, Ezra Clark, Jr., Isaac Bell, and John T. Conover are hereby created a body corporate and politic by the name of "The New York City Central Underground Railway Company." The said corporation shall continue for one hundred years from the passage of this act, and shall be located in the City of New York, and the capital stock shall be ten millions of dollars, divided into one hundred thousand shares of one hundred dollars each.

Sec. 2. The business and offices of said corporation shall be managed by a board of thirteen directors, who shall be elected annually by the stockholders, and the first election of said directors shall be held in the city of New York within thirty days after the passage of this act, and the day and place thereof shall be determined by the five first named corporators herein, and they shall give notice thereof to each of the other incorporators herein named, which notice shall be delivered at or mailed to their respective places of abode or business at least five days prior to the time of such election, and such of the corporators as shall attend in person or by proxy shall appoint two tellers to conduct the election and declare the result, and the directors then chosen shall hold their office for the term of one year and until others are chosen in their places.

Sec. 3. The corporation hereby created shall possess all the powers and privileges and be subject to all the provisions of the act entitled "An act to authorize the formation of railroad corporations and to regulate the same," passed April 2d, 1850, and the several acts amendatory thereof and additional thereto, except so far as the provisions of the said acts are modified by or are inconsistent with the provisions of this act; and the said corporation is hereby authorized and empowered to make, construct and maintain a tunnel, and to construct, operate and use therein a double track railway, and the necessary sidings, and to convey passengers, freight and property, in cars propelled by steam or other power, for compensation, under and through the soil, beneath certain streets, avenues, squares and grounds in the city of New York, as hereinafter specified; but said corporation shall have no right to acquire the use or occupancy of any of the streets or public places in the city of New York under the provisions of the said acts, or by any agreement or grant of the city authorities, except such use or occupancy as is granted or provided for in this act, and except such temporary rights and privileges, during the period of constructing said tunnel and railway authorized in this act, as the proper authorities may grant to said company to facilitate such construction.

Sec. 4. The tunnel and railway hereby authorized to be constructed and enjoyed by said corporation shall follow, as near as possible, the line of the streets, avenues, courses and places named:—Commencing at a point on the easterly line of Broadway, in City Hall Park, and northerly of the projected southerly line of Park place, thence easterly and under ground, passing in front of the old City Hall, southerly of the flagging in front of the same, and northerly of the proposed General Post Office, curving to the left, passing westerly of the Comptroller's Office, and southerly of the Superior Court building, corner of Chambers and Centre streets, to Centre street; thence under and across said Centre street to City Hall place; thence easterly under said City Hall place to Pearl street; thence across said Pearl street and running northeasterly in a curved line to Mulberry street, at a point on said street between Bayard and Park streets; thence northerly under said Mulberry street to Bleecker street; thence northerly under and across said Bleecker street in a straight line, as near as practical, to Lafayette place; thence northerly under said Lafayette place to Astor place; thence under and across said Astor place and Eighth street to the northerly side of said Eighth street; thence across the block between said Eighth street and Ninth street, and easterly of St. Ann's church, on said Eighth street, to Fourth avenue; thence northerly under the westerly side of said Fourth avenue to Fourteenth street; thence under and across said Fourteenth street and said Fourth avenue to Union Square; thence northerly under said Union Square to Seventeenth street; thence under and across said Seventeenth street and through the blocks, as near as possible, in a direct line to Twenty-third street; thence under Madison street and Madison avenue, to Twenty-sixth street; thence northerly under and across said Twenty-sixth street to Madison avenue; thence under said Madison avenue as now opened to Eighty-sixth street; thence under said Madison avenue, as declared by chapter 408 of the laws of the State of New York of 1867, to 120th street; thence northeasterly continuing the same line to the Harlem river; thence easterly and westerly along said Harlem river and connecting with the Harlem bridge at the terminus of Third avenue. And in case the lowness of the surface at any point north of Ninety-ninth street is such as to render the construction of a tunnel impracticable, said main line may be constructed and operated by an elevated surface railway from said Ninety-ninth street to and along the said Harlem river. The said corporation may make on the route aforesaid the necessary connections, turnouts, switches and other conveniences for the proper working and accommodation of said railway.

Sec. 5. For the purpose of making, constructing and operating the said tunnel and railway, said corporation is hereby authorized and empowered to enter upon and underneath the several streets, avenues, squares, public places and lands hereinbefore specified, and into and upon the soil of the same, to construct and maintain said tunnel and railway along the route, and to the points herein specified and contemplated, such tunnel and railway, to be constructed in the most thorough manner, and upon the most approved plans for lighting, ventilating and drainage, and of sufficient dimensions for the purposes of said railway and for the convenience of public travel, and at such depth below the surface and in such manner as effectually to prevent any interference with the surface of said streets, avenues, squares or grounds, or the use of the same, with such exceptions as are provided for in this act; and except, also, that during the progress of construction it shall be lawful to make such excavations and openings in said streets, avenues, squares and grounds under which said tunnel and railway shall be constructed, or over which said railway tracks shall be laid, as shall be necessary from time to time; and in all cases the surface and pavements of said streets, avenues, squares and grounds over said tunnel and railway shall be restored to the condition in which they were before such excavations were made, as near as possible, and if practicable one half the width of said street shall be always kept open for the public travel; but where excavations for the full width of such streets shall be made they shall not be oftener at any one time nor more than one in each quarter mile of said route; nor shall they be more than two hundred and fifty feet in length in any one place, nor shall they be kept open longer than for a period of sixty days in any one place, except by the consent, in writing, of the Street Commissioner of the city of New York. And it shall be lawful for said corporation to make, construct and maintain openings for ventilation or light, extending from said tunnel to the outer edges of the sidewalks of the streets or avenues and to the surface of the squares in which said tunnel shall be constructed, and said openings shall not exceed two feet in width, except in public squares and parks, where said openings may be four feet in width by eight feet in length, at any one point; said openenings for ventilation in said parks and squares shall be covered with a cast iron grating; said gratings shall not extend more than six inches above the surface of said squares or parks; and said company shall erect and maintain hollow iron pillars or columns of an ornamental pattern suitable for lamp posts, which may be substituted for the posts now in use, the said posts being provided with gas pipes, burners and lanterns at the expense of said corporation. It is hereby provided, however, that the said corporation shall be liable to the owner or lessee of any building or property along the route of said railway tunnel for any damages which he or they shall sustain by reason of any direct injury caused thereto by the construction of such railway and tunnel.

Sec. 6. The said corporation shall have the right to acquire the title to and hold such real estate or interest therein as may be necessary to enable it to construct and operate said tunnel and railway as herein provided, and to construct and maintain the proper platforms, stations and buildings of said corporation at such points along the route as may be most convenient and suitable for the ingress and egress of passengers and freight, and necessary for the operation of the railway, and for proper communication between said tunnel and platforms, and said stations and buildings; and in case it cannot agree with the owner or owners of such real estate or interest for the purchase or use thereof, it may acquire the title to the same in the manner specified in the acts hereinbefore referred to, except in any of the proceedings for any of the purposes authorized by this section it shall not be necessary that the petition to the court shall make any allegation of or reference to any incorporations, capital stock, surveys, maps, or the filing of any certificate of location; but whenever it shall be necessary or convenient for the said railway turnouts, platforms or stations to take and use for the purpose of operating the same, any public grounds, parks or places, no compensation shall be awarded or demanded for the same, but in all cases the use of the aforesaid streets, avenues, squares, grounds and public places, and the right of way under and through the same for the purpose of a tunnel and railway, as herein authorized and provided, shall be considered and is hereby declared to be a public use, consistent with the uses for which the Mayor, Aldermen and Commonalty of the said city hold said streets, avenues, and public places.

Sec. 7. Said tunnel shall be constructed at such depth below the surface of the streets or avenues as will avoid any interference with or changes in the water mains of the Croton Aqueduct Board, except such changes as may be, in the opinion of the chief engineer of the Croton Aqueduct Board, necessary for the proper construction of said railroad and for public convenience, and such necessary changes in said mains and all changes additions and alterations which may be made necessary in the sewers by the construction of said tunnel and railway, shall be made under the direction and supervision of the Croton Aqueduct Board, but at the proper cost and charges of this corporation.

Sec. 8. Whenever the route herein specified and contemplated for the construction of said tunnel or railway shall intersect with or cross or coincide with any horse railroad track now occupying the surface of said streets and avenues, the said horse railway tracks shall, if practicable, be carried over said openings upon temporary bridges or structures, and such temporary bridges

and structures shall be constructed in such manner as not to interfere with the practical operation or working of such street railways; and upon the completion of said tunnel and such portions of the route thereof where such changes of the horse railway tracks may be made, the same shall be restored, as near as practicable, to the condition in which they were previous to the construction of said tunnel; and all such bridges and structures and restoration of tracks shall be made at the proper cost and charges of this corporation.

Sec. 9. Said tunnel and railway shall be exclusively for the uses and purposes of said railway company, and it shall not be lawful for any person or persons to enter or pass through the same or any portion thereof on foot or in any other way than in the proper cars of this corporation provided for that purpose, without the consent of said corporation, under penalty of $50 for each offence, to be recovered by this corporation. And the Mayor, Aldermen, Commonalty and officers of the corporation of the city of New York are hereby prohibited from giving permission to any other person, body or corporation to do any of the acts or things hereby authorized, or to hinder, delay or embarrass the construction or operation of said tunnel and railway and other things as herein authorized.

Sec. 10. The said corporation shall be and is hereby authorized to collect and receive for the transportation of passengers the following fares, to wit:—For one person for any distance under three miles, the sum of six cents, and for every mile or fraction thereof in addition, two cents, the said rates to include government tax.

Sec. 11. The said corporation shall have subscriptions to its stock to the amount of $3,000,000 before the construction of said tunnel and railway is commenced, and one year from the passage of this act within which to commence the same, and three years within which to complete said tunnel and railway to Forty-second street, and five years to complete the same to and along Harlem river, necessary and unavoidable delays from the pendency of legal proceedings against said corporation excepted; and no omission to construct any portion shall work a forfeiture of this franchise in respect to any section of said tunnel and railway which may have been commenced and completed.

Sec. 12. It is hereby made a condition of this grant that said company shall, before the 1st day of January next, deposit with the Comptroller of this State the sum of $300,000 in bonds of the United States or of the State of New York as a pledge that they will commence the construction of said tunnel and railway and complete the same within the time limited in this act, and upon the completion of the same, in the time and manner herein provided, the said Comptroller shall return the said bonds with the accummulations of interest thereon, to the said company; but upon a failure to either commence or complete said tunnel and railway within the time and in the manner herein provided, the said sum of $300,000 in bonds as aforesaid shall be forfeited to the people of this State and shall be expended for educational purposes and upon the State library and State cabinet of natural history. It is further provided that before said company shall commence the construction of said tunnel and railway, and on or before the first day of January next, said company shall procure valid subscriptions to their stock, made by responsible parties, to the amount of three millions of dollars, and shall establish the fact of the validity of said subscriptions and of the responsibility of the parties making the same to the satisfaction of said Comptroller, whereupon a certificate to that effect shall be made by said Comptroller, and filed by him with the Secretary of State; and said certificate when so made shall be the warrant of said company for commencing said work. In the event of the failure of said company to deposit the said sum of three hundred thousand dollars, and to procure the filing of said certificate of said Comptroller on or before the first day of January next, as provided in this act, then, and in either of said events, this act shall cease, determine and become void.

Sec. 13. It shall not be lawful for said corporation to receive or deliver freight within the lines of the public squares or parks named in this act.

Sec. 14. The directors are required to open books for subscription to the bonds or stock of said corporation, and shall give at least twenty days' notice in the New York daily *Herald*, *Tribune*, *Times* and *World*, where said books shall be opened, that an opportunity shall be given those who desire to subscribe for said stock, and the said books shall be kept open for at least three months; and in the event of a larger amount being subscribed than the capital stock of said corporation, then such subscriber shall be entitled to a pro rata number of shares of said stock, as near as may be, and in proportion to the amount so subscribed, but each subscriber shall, at the time of subscribing, pay to the treasurer five per cent of the par value of each share so subscribed.

Sec. 15. This act may be altered or amended at the pleasure of the Legislature.

Sec. 16. This act shall take effect immediately.

Honduras Railway.

Mr. Brunlees, the engineer employed by the British contractors for the Honduras Railway loan to report on the value of public property pledged by that republic to secure it, says that he is satisfied that the interest of the present loan of £1,000,000 will be secured by the product of the mines and forests, which can be further increased so as to secure the interest on the additional amount necessary to complete the road. He anticipates that the earnings of the railway will also be considerable. The contract for the construction has been taken at £8,000 per mile, and work is to be commenced at once.

Atlantic and Great Western Railway.

We gave on the 18th ult., a statement showing the present financial position of this company, with proposals for its re-organization and resumption of coupon payments. We have since received a document purporting to be an amendment to that statement, containing some important alterations made at the suggestion of Sir William Russell's and Mr. Ridsdale's Committees. The unanimity now secured, it in said, compensates for the inconvenience of the changes, and assures an early return to a proper administration of the Company's affairs. The alterations are chiefly in the mode of dealing with the certificates of debenture. The interest on income bonds issued for coupons is increased, and the bonds made equal to a mortgage by deposit for their protection of the coupons in trust. According to the amended statement, the proposed capitalization is to be into income bonds, bearing seven per cent. annual interest from the 15th November next, with semi-annual coupons attached. It is further proposed to cancel and convert the certificates of debenture, first, by delivery of the divisional bonds now held in trust, $5,236,600; second, by the issue of income bonds for coupons due up to 16th of July, 1868, $1,171,000; third, by cash payment, $592,400; fourth, by issue of consolidated second mortgage bonds, bearing five per cent. interest in gold, from 15th of November, 1870, $7,000,000—completing the capital amount of debentures $14,000,000; fifth, income bonds for the interest on this capital until the bonds issued commence to carry interest $1,224,553.

The principal alterations from the original are contained in the following statements:

B.—Capitalization of Interest.

It is proposed to capitatize into "income bonds;" bearing seven per cent. annual interest from 15th November next, with semi-annual coupons attached:—

1. Two years' coupons on first mortgage divisional bonds, from April 1867	$1,171,356
2. Three years' coupons on second mortgage divisional bonds, do	803,197
3. Four years' coupons on consolidated mortgage bonds, do	5,502,700
4. Interest on debentures from date of payment of last coupon, 15th of November, 1867, at 5 per cent. per annum, until the bonds issued in exchange (as per statement C.) commence to carry interest	1,224,553
Total amount of income bonds to be issued	$8,701,806

The income bonds for coupons on the first divisional mortgages are payable at par in ten years; on the second divisional mortgages in fifteen years; and on the consolidated bonds and for interest on debentures in twenty years. All coupons are to be placed in trust, as a guarantee for the due payment of principle and interest of the income bonds.

C.—Certificates of Debenture (£2,800,000, or $14,000,000).

In order to close this trust, which has been the source of much complication and litigation, it is proposed to convert and cancel the certificates of debenture.

1st. By delivery of the divisional bonds now held in trust	$5,236,600
2d. By the issue of income bonds for coupons due up to 16th of July, 1868	1,171,000
3d. By cash payment	592,400
4th. By issue of consolidated second mortgage bonds, bearing 5 per cent. interest in gold, from November 15, 1870	7,000,000
Completing the capital amount of debentures	$14,000,000
5th. Income bonds for the interest on this capital until the bonds issued commence to carry interest (Statement B)	$1,224,553

All the bonds and cash must be exchanged in exact proportions as debentures are delivered up, and all securities other than those enumerated are to revert to the Company.

Blue Ridge Railroad.

The Governor of South Carolina, in his message to the Legislature, recommends that sufficient aid should be extended to the officers of the Blue Ridge Railroad to ensure its completion. This road, as projected, is 196 miles in length, of which fifty-two miles are within the limits of South Carolina, and of this distance thirty-four miles are completed and in running order. The sum of $3,250,000 has already been expended for construction, of which the State of South Carolina furnished $1,310,000 by a stock subscription, and it is estimated that $3,500,000 will be sufficient to complete the road. The aid now asked from the State is a guarantee of the interest of $3,000,000 of new bonds. The Governor says that "the city of Charleston is the nearest of all the Atlantic ports to the great States of the West, and by the construction of this road the wealth of that imperial region will be poured into her lap."

☞ The Ware River Railroad will shortly be ready for contract.

American Railroad Journal.

Saturday, August 1, 1868.

Stock Exchange and Money Market.

The ease in Money to which we referred in our last, has been undisturbed all through the week now under review. The accumulation of capital at this centre has been quite marked, particularly in private hands. The call from the interior has been of a very limited nature. The local speculative inquiry has been on a moderate scale, and readily met by lenders, at from 3@4 per cent. on the pledge of Government securities, and prime railway and miscellaneous stock collaterals. Toward the close, some of the more extensive dealers in the public funds were offered more money at the minimum rate than they were able to use profitably. Lenders experienced much difficulty in advantageously placing their augmenting balances in a temporary form. The mercantile demand has been unusually limited, the produce and merchandise houses having been in little need of aid. Strictly choice to good business paper was quoted at from 5@7 per cent. per annum, and was in decided request within these extremes; but the offerings were very light for the season. The U. S. Sub Treasury, last week, disbursed about half a million more than it received from all sources; and it thus closed the week on a reduced cash reserve. The receipts of the office were ahead of its payments the first two days of the current week; and its balance on Tuesday evening was about a million larger than on the preceding Tuesday. The city banks, last week, added nearly $700,000 to their legal tender reserve, and $405,000 to their specie hoard, while they reported a contraction of about 2⅛ millions in their loan averages, and a reduction of about 1⅜ millions in their deposits. The general bank movement throughout the country appears from the Quarterly Bank Statement of July 6, just published at Washington, to be unusually easy. The National Banks hold $185,470,033 in Greenbacks and Gold, while the ten local Banks of this City, in the Clearing House, reported on the 6th July $9,587,764 in addition.

The specie reserve of the city banks is now $20,804,101, against $8,798,094 same time last year. The city bank deposits are now $226,761,662, against $200,608,886 week ending July 27, 1867. The legal tender reserve amounts to $72,235,586, against $74,605,840 same time last year. The circulation now stands at $33,963,373, against $33,596,859 same time last year. The loans are now $280,345,255, against $251,243,830 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $81,196,000 a day, against a daily average of $84,243,743 the preceding week, and $98,626,066 the week ending with July 11, 1868. The current week's exchanges average about $69,197,704 a day. The city banks, last week, gained $686,041 of legal tender, and $405,070 of specie reserve. They lost $1,369,087 of their deposits, while they reduced their loans, $2,570,235; and their circulation, $40,738.

The Philadelphia Bank movement the past week shows an increase in loans of $29,787; an increase of $7,634 in specie; an increase in legal tenders of $108,454; an increase of $89,190 in deposits; and a decrease of $25,605 in circulation. The Bank Clearings show a decrease of $3,055,479, and the balances, an increase of $60,612.

The coin certificates issued by the Sub-Treasury office, during June, reached $3,543,860.

The New York Gold Exchange Bank reports for the week ending Saturday, the 25th day of July, 1868, the average amount of loans and discounts as $1,167,341; average amount of specie, $664,399; average amount of deposits, $1,220,924.

The U. S. Sub-Treasury receipts, week ending with July 25, were $12,895,067, including $2,207,966 from customs duties; payments, $13,407,888, including $2,218,000 of coin interest; balance at the close of the week, $81,364,474, against $81,877,245, at the close of the preceding week, showing a decrease of $512,771. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $3,305,975 including $452,128 from customs; and payments, $2,883,501; on Tuesday, receipts, $2,560,282 including $379,000 from customs, and payments, $1,443,230. The balance at the close of business on Tuesday stood at $82,904,000, against $81,916,656, a week previous; and $82,846,935, on July 15, 1868. The aggregate receipts of the office from all sources in June, were $87,512,859; aggregate payments, $93,065,184. The

balance on the 1st inst., was over 5½ millions below that on the 1st ult., which amounted to $94,677,986.

The outstanding amount of coin certificates on the 1st of June, was $20,298,180, against $19,357,900 on the 1st of May, 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $803,000, and retired $2,116,966 through the receipts for customs.

National Bank notes to the amount of $90,680 were issued last week by the Treasury Department, making the total issue to 1,673 banks thus far, amount to $308,982,616, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $9,138,624, leaving, with the existing 1,639 banks, (having an aggregate capital of $411,649,451,) an actual circulation at this date, of $299,843,992. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,323,400; and for the public deposits, $38,047,950—making a total of $379,371,350. The Treasury Department last week redeemed and destroyed $425,611 of worn and mutilated fractional currency, and issued $1,208,540 of new. The outstanding amount of fractional currency on the 1st of June was $32,531,590, against $32,450,490 on the 1st of May, and $32,588,690 on the 1st of April, 1868. From the official statement of the condition of the National Banks of the United States on the first Monday of July, 1868, it appears that the loans and discounts then stood at $644,000,000, against $588,000,000 at the same of last year; while the deposits (individual, United States, and those of disbursing officers) amount to $595,000,000, against $571,000,000, so that with an increase of $24,000,000 in deposits, there is an augmentation of $56,000,000 in loans. The amount of plain legal tenders and fractional currency on hand is $100,000,000, against $102,000,000 in 1867. The compound notes and three per cent. certificates combined amount to $64,000,000, against $75,000,000 of compounds last year; so that the total legal tenders now amount to $164,000,000, against $177,000,000 a year ago.

Government revenues have been on a moderate scale, since our last, in both forms of customs and excises. The excises, last week, yielded some 3½ millions; customs at the port of New York, $2,207,966, and at the outports about $765,000 (in coin) more, making the grand total income for the week equal to about $7,796,350 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were about $192,000,000. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about $10,500,000.

The gold speculation has been quite brisk and buoyant, throughout the week. The operators for a rise have been unusually confident in their dealings. The demand has been mainly from investment buyers, who have been anticipating a further rise in the price, which has ranged from 143@144½, closing on Wednesday at 144⅜, against 143¼ the preceding Wednesday. The export inquiry has been on a restricted scale, the free outward movement in U. S. Securities preventing anything like a heavy outflow of specie. The past week's shipments were less than 1½ millions. The exports thus far this week embraced $280,000 on Tuesday, and $187,368 on Wednesday. The customs call has been moderate, last week, it averaged $368,000 a day, thus far this week, the daily average has been $416,000. The aggregate exports of specie from the port of New York, thus far in the current calendar year of 1868, have been nearly 59 millions, against only about 37¼ millions same time in 1867, and 51¼ millions same time in 1866. This year's shipments, thus far, are up to an unprecedentedly large total, as compared with the same time in earlier years.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $4,157,500, against $1,606,975 same time last year. The customs demand for Gold last week, averaged $367,994 a day; thus far, this week, it has been equal to $415,564 a day, or equal to a weekly aggregate of $2,493,384. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $37,099 and from California, $463,927. The total customs revenue of the Government, in coin, at this port, during the fiscal year ending with June 30, 1868, was $113,529,891, against $122,667,016 in the preceding fiscal year. The customs revenue in coin at this port, since Jan. 1, 1868, has been $63,960,362, against $68,721,811 same time in 1867. The total receipts of California gold at this port, in the last fiscal year, ending with July 1, 1868, were $36,726,790, against $38,338,762 in the preceding fiscal year, showing a decrease of $1,611,972 in 1867–'68. The receipts from the same source, since Jan. 1, 1868, have been $24,282,402, against $15,955,870, in 1867, showing an increase thus far in 1868, of $8,326,532. The exports of specie, hence, year ending with July 1, 1868, were $76,256,594, against $41,366,932 same time in 1866–'7. The exports of specie from this port, last week, were $1,463,249, against $3,491,960 same week last year; total, since Jan. 1, 1868, $58,972,565, against $37,266,051 same time in 1867. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $2,218,000; since Jan. 1, 1868, $59,193,867, against $38,671,329; and during the last fiscal year, ending with June 30, 1868, $73,485,386, against $54,218,392 in 1866–'7. The specie exports from San Francisco, from Jan. 1, to July 6, 1868, were $20,861,187, against $20,766,192 same time last year.

Government received $4,028,521 from customs at the port of San Francisco, from Jan. 1, to July 6, against $3,681,238 same time in the preceding year.

Foreign exchange has been in comparatively liberal supply, the offerings of bills drawn against shipments of U. S. Securities have been on a rather extensive scale. The demand has not been equal to the absorption of the available supply, and rates have been weak and irregular, closing slightly in favor of buyers. Bankers' prime sixty day bills on London closed on Wednesday at 109⅞@110¼, and on Paris to 5.17½c.@5.12½; sight bills on London to 110⅜@110¾, and on Paris to 5.12½c.@5.10½. The offering of produce bills has been fair this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,976,585, against $2,848,536 same week last year; total, since Jan., 1, 1868, $96,573,586, against $110,919,727 in 1867; and grand total, during the fiscal year ending July 1, 1868, $179,784,280, against $195,544,905 in 1866–'67.

Government securities have been in fair investment, speculative, and export demand, during the week, at rather firmer prices, all through the list. The main call has been for the older issues of the six per cent. coin bearing bonds, which have been run upon by foreign purchasers, as well as by local speculative operators. The buoyancy in gold has tended to stimulate dealings in the funded obligations of the republic. It has been estimated that the sustained price of gold at over 140 per cent., gives about 8⅛ per cent. on the par of all the 5-20s, or equal to seven per cent. on the new January and July issues at 120, and the same on the old May and November issues, with two months' additional gold interest accumulated, at 122 per cent. That these figures are from 8 to 10 per cent. above the present market, does not, and cannot, while gold keeps at or above 140, impair the correctness of the calculation.

U. S. sixes of 1881 closed here on Wednesday at 115½@115⅝; U. S. Five-twenties of 1862, 114½@114⅝; U.S. Five-twenties of 1864 at 111⅜@111½; U. S. Five-twenties of 1865 at 112⅛@112⅜; U. S. Five-twenties of 1865, consolidated, 109⅛@109¼; U. S. Five-twenties of 1867, 109⅜@109½; U. S. Five-twenties of 1868, 109⅜@109½; U. S. Ten-forties at 108⅜@108½, and U. S. Seven-thirties at 108¾@109; U. S. Six per cent. currency bonds, 102⅞@103. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ⅛@¼ of 1 per cent. on these figures:

August, 1865....	118¾	October, 1865....	117¾
September, 1865..	118¼		

U. S. three per cent. certificates 100¼

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 15.	July 22.	July 29.

Ill. Central.....	*92	96	94⅝

* Ex-dividend.

Railway and miscellaneous stocks have been in quite lively speculative demand, most of the week, and as a rule, prices have been firmer, particularly for the shares of the eastern railroads, which closed buoyantly; while in the Western railway values, the later dealings indicated weakness and irregularity.

The transactions in domestic produce have been moderately extensive, since our last, particularly in the breadstuff, petroleum, wool and tobacco lines, at buoyant prices, as a rule. Provisions have been rather quiet. Cotton has been dull and heavy. Middling upland cotton closed strong on Wednesday at 29@29¼ cents per lb. The stock of cotton now here is estimated at about 50,000 bales. The receipts at the port this week, have averaged only about 1,200 bales a day. The receipts at all the ports, since Sept. 1, 1867, have been 2,184,000 bales, against 1,861,000 bales same time last year; exports, same time 1,698,500 bales, against 1,554,664 bales same time last year; stock on hand at latest dates, 80,000 bales,

against 150,000 bales same date last year. At the Live Stock market, this week, Beeves have been in fair request and steady at from 13@17½c. per lb.; week's receipts, 5,073. Veal calves at 7@12c. per lb.; receipts, 1,528. Sheep and lambs in brisk demand at advanced figures, ranging from 4½@7¾c., and 9@11½, respectively, per lb.; receipts, 17,747. Swine active and firmer, at from 10@10¾c. per lb., all live weight; receipts, 13,481. At the auction sale of Scranton coal, on Wednesday, 80,000 tons were disposed of at firmer prices, ranging from 4.05 cwts. 10 per ton of 2,240 lbs., deliverable at Elizabethport, N.J., against 3.77½@4.72½ at the preceding monthly sale. The demand for foreign merchandise has been rather limited, but in view of the buoyancy in gold, prices have been well supported. There has been very little movement in dry goods, either foreign or domestic. The total imports of foreign dry goods, last week, were $2,024,639, and the total amount marketed $1,646,746. The value of foreign merchandise imported last week, was $3,813,444—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $5,838,083, against $5,220,852 same week last year; from Jan. 1, 1868, $139,478,368, against $146,399,732 same time in 1867; and year ending July 1, 1868, $238,283,518, against $269,831,007 in 1866-'67. The freight market has been moderately active, but rates have been quoted lower, closing in favor of shippers. For Liverpool we quote flour at 1s. 4½d. @1s. 6d. by sail, and 1s. 7½d. by steamer, per bbl.; grain at 4@4½d. by sail, and 5½d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail, and $\frac{3}{16}$d. by steamer, per lb.; and heavy goods at 12s. 6d.@25s. by sail, and 15s.@30s. steamer, per ton. Total number of vessels in port on Wednesday 521.

The imports for the week ending July 25, and since the beginning of the year, have been as follows:

	1867.	1868.
Dry goods	$2,180,751	$2,024,639
Gen. merchandise	3,090,101	3,813,444
Total for the week	$5,220,852	$5,838,083
Previously reported	141,178,880	133,640,285
Since January 1	$146,399,732	$139,478,368

The New York exports, exclusive of specie, for the week ending July 28, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week	$2,848,536	$2,976,585
Prev. reported	108,071,191	93,597,001
Since January 1	$110,919,727	$96,573,586

The balance in the Sub-Treasury on Wednesday was $83,455,356 99.

☞ The Lindsay (Ca.) *Post* says the subject of railway extension from Lindsay to Beaverton is occupying the attention of the people of Thorah. A by-law has been published by the Council proposing to raise $50,000 by debentures, payable in twenty years, with interest thereon at six per cent., with an understanding that the railway company is to pay or refund to the municipality three per cent. on this amount in perpetuity.

Railroad Earnings.—Weekly.

The earnings of the Toledo, Wabash and Western Railroad for the third week of July, 1868, were..... $58,155 09
Same week in 1867..... 64,761 64

Decrease $6,606 55

The earnings of the Chicago and Alton Railroad for the 3d week in July, 1868.. $100,321 14
Corresponding period previous year . 90,739 55

Increase $9,581 59

The earnings of the Western Union Railroad for the 3d week in July, 1868..... $12,838 72
Corresponding week previous year.... 12,682 70

Increase..... $156 02

The earnings of the Marietta and Cincinnati Railroad the 3d week in July, 1868.. $24,179 00

Decrease $2,555 00

The earnings of the Michigan Southern and Northern Indiana Railroad for the 3d week in July, 1868, were..... $59,859 00
Corresponding week of 1867 ..... 64,320 00

Decrease $4,461 00

Kent County Railroad.

The *Crumptonian* says that the construction of this road has at last commenced in earnest, a large force of workmen being now employed. The contractor for building the railroad wharf at Chestertown has had a number of men employed in Crumpton, cutting pine trees for piling. They are now getting them into the creek, preparatory to rafting and floating down the river.

☞ At a meeting of the stockholders of the Chillicothe, Leon and Des Moines Railroad Company, held in Leon, Iowa, on the 13th ult., the following officers were elected: L. H. Sales, President; G. W. Baker, Vice President; Abial Miles, Treasurer; and C. S. Stout, Secretary. J. W. Penny, S. C. Thompson, Samuel Caster, John Albaugh, A. S. Updergraff, A. J. Evans, Nathan Perdew, and J. S. Warner, Directors.

☞ The Iowa River Railroad Company has been organized by the election of the following gentlemen as directors: C. C. Gilman and F. W. H. Sheffield, of Dubuque; Wells R. Rice, of Marshalltown; H. P. Liscomb, of New York; Horace Abbott, Thomas Kensett, John S. Gilman, of Baltimore.

☞ Contracts have been made for the immediate construction of the Decatur and East St. Louis Railroad.

Journal of Railroad Law:

RAILROAD CORPORATIONS—NEGLIGENCE—STREET RAILROADS.

The simple facts in the late case of Hannah Liddy *vs.* The St. Louis R. R. Co. [40 Mo. 506] appellant, will sufficiently appear in the following able decision:

Fogg, J.—The respondent recorded a judgment in the circuit court of St. Louis Co. for the killing of her husband, Michael Liddy. It was a suit for damages under the second section of the act entitled "An act for the better security of life, property," &c., R. C. 1855, p. 647. The defendant is a corporation owning and operating a street railway in the city of St. Louis.

Two general questions are presented by the transcript of the record in this case: 1. Was the defendant, through its agents and servants, guilty of the negligence charged? If so. 2. Did the conduct of the deceased indicate a degree of negligence on his part that contributed to produce the fatal result, and thereby relieve the defendant from liability?

It may be remarked generally in reference to these corporations, that the questions growing out of their relations to the public and the measure of their duty in respect to the care and diligence necessary to be exercised by them have been carefully considered and stated in former cases decided by this court. See particularly Kennedy *vs.* North Mo. R. R. Co., 36 Mo. 351: Boland *et ux. vs.* Mo. R. R. Co., 36 Mo., 484: Huelsenkamp *vs.* Citizens' Railroad Co., 37 Mo. 537 and authorities there cited. We do not feel called upon to re-examine these questions now. These corporations are created by charters granted by the Legislature of the State, and their roads should be managed and operated in the manner therein directed, as well as in conformity with the ordinances of the city of St. Louis, so far as the same are not inconsistent or in conflict with the legislative grants. The stipulations and conditions upon which they are permitted to use their railways for the transportation of passengers within the limits of the city, are fixed by the terms of a general ordinance. See tit. Railways, Rev. Ord. 1861, p. 550. It is provided by the ordinance that "no car shall be drawn at a greater speed than 6 miles an hour," and again, "the conductor and driver of each car shall keep a vigilant watch for all vehicles and persons on foot, especially children, either on the track or moving towards it, and on the first appearance of danger to such vehicles or persons the car shall be stopped in the shortest time and space possible." The law confers upon them no exclusive or peculiar rights and privileges. That portion of the street occupied by the railway is, nevertheless, a public highway, open to the use and occupation of all persons. The corporation can only use its track for the running of cars by the procuring a license from the city, containing the conditions, stipulations and restrictions, above stated. These go very far towards fixing the measure of its duties and liabilities to the public. In addition to this, it may be said that the peculiar character of the vehicles employed, running as they do through the crowded thoroughfares of the city, makes it incumbent upon every company to exercise the utmost care and diligence to avoid collisions. No other rule could be recognized as compatible with the safety and security of the public. The recognition of this rule, however, does not dispense with the care and prudence required of all persons using the street in common with the railroad company. If therefore, in this instance, the conduct of the deceased directly contributed to the injuiry by a failure on his part to observe ordinary care and diligence, then there ought to have been no recovery against the defendant.

Our inquiries in this case will be confined to the declarations of law given and refused by the court below, with a view of ascertaining whether the issues were properly submitted to the Jury or not.

It was a question of fact for the Jury, whether the rate of speed of the car at the time of the occurence was within the limit fixed by the city ordinance or not. Any thing beyond that is to be regarded as excessive and tending to show the negligence of the defendant. The duty of the defendant's servants and agents to keep a vigilant lookout for vehicles and persons on foot, taking into consideration all the attending circumstances, was also a proper question for the consideration of the Jury. Considering the instructions as a whole, we think they were sufficiently warranted by the evidence and presented the law of the case fairly to the Jury.

The judgment of the court below will be confirmed.

Railroad through Table Mountain.

The Cheyenne correspondent of the Chicago *Republican* says that great excitement exists in Golden City, Colorado, caused by the final location of the railroad through the Table Mountain to Cheyenne. President Carter and Chief Engineer Berthoud have been busy letting out the contracts for grading and masonry on the road, and getting ready the profiles and estimates of the work. The heaviest part of the work is within two miles of Golden City, and it is proposed to have that portion of the road graded and tied immediately to a junction with the road from Cheyenne to Denver, so as to be ready for the iron as soon as the latter road is completed. Steps have been taken to have the road speedily constructed to Black Hawk and Georgetown, northwest of Golden City, and great mining centres. Gilpin County has already voted $200,000, and exertions are being made to have Clear Creek and Summit Counties follow the example.

Winchester and Strasburg Railroad.

This company was incorporated by the General Assembly of Virginia on the 23d of April, 1867. Sufficient capital having been subscribed to comply with the requirements of the charter, a called meeting of the stockholders was held at the office of the Baltimore and Ohio Railroad Company, in Baltimore, on the 8th ult., for the purpose of organizing said company according to law. Upon motion of Mr. Garrett, Mr. J. H. Sherrard was called to the chair, and Mr. Joshua I. Atkinson appointed Secretary.

The Chair then announced that the first business in order would be the permanent organization of the company by the election of a President and five Directors: whereupon.

On motion of Mr. Joseph S. Carson, seconded by Mr. Wm. R. Deney, Mr. John King, Jr., Vice

President of the Baltimore and Ohio Railroad Company, was unanimously elected President of the Company.

On motion of Mr. Carson, seconded by Mr. Deney, the following named gentlemen were unanimously elected Directors of the Company, viz: Joseph H. Sherrard, George A. Hupp, Johns Hopkins, Thomas Whitridge and Hugh Sisson.

It was stated that arrangements were being made for the early and rapid prosecution of the work. The length of the line from Winchester to Strasburg is nineteen miles. It is understood that the work will be advertised for contract at an early day in sections of one mile each.

It was also stated that the progress of the Orange, Alexandria and Manassas Company, in constructing their road to Harrisonburg, is rapid, and that it is expected that that line will be opened to Harrisonburg (its proposed terminus for the present) by October next. Much interest is manifested by residents in the Valley of Virginia for the early completion of the line from Winchester to Strasburg.

As the Baltimore and Ohio Company has determined to furnish the remainder of the funds requisite, and as payment will be made in cash to the contractors, it is anticipated that this important work, by which a region most fertile and extensive will be opened for close and profitable communication between the farmers, merchants and manufacturers of the Valley of Virginia and the city of Baltimore, will be prosecuted to completion at the earliest practicable period.

Leavenworth and Des Moines Railway.

This company have determined to construct and complete their railway without delay from Leavenworth to Des Moines direct, a distance of 168 miles, connecting at Leavenworth with the Union Pacific Railroad, East Division, now completed over 400 miles westward; with the Leavenworth, Lawrence and Galveston Railroad, complete 35 miles south from Lawrence, and at Des Moines with the Chicago, Rock Island and Pacific Railroad. Work on this road was commenced last fall, and prosecuted with but short detention during the winter. Within a few days over 30 miles will be completed.

☞ The Sunbury *Gazette* says that work on the proposed extension of the Middle Creek Railroad, from Lyon's to Northumberland, has been stopped. The Reading Railroad Company having bought the Trevorton road, a connection with the Middle Creek road will be effected at Port Trevorton.

☞ At the recent annual meeting of the European and North American Railroad, at Bangor, Me., a vote was passed authorizing the directors to issue bonds of the company for such amount as they may determine, for building the road to the State line, and to mortgage their property to secure the payment of their bonds.

☞ The *Canadian News* says that the prospectus for the Intercolonial Railway Loan will soon be out, and that it is not intended to place for the present more than one-half of the whole amount of 4,000,000*l*. The loan will be offered to public competition through the financial agents of the Dominion of Canada, as usual.

☞ The contract for the construction of the Honduras Railway has been undertaken by Messrs. Waring Brothers and M'Candlish, who will commence operations at once, the loan applicable to the first section having been subscribed.

☞ The track of the Dexter and Newport Railroad is being laid at the rate of half a mile a day.

ELASTIC SPONGE.

Superior to Curled Hair or any other article now in use for

RAILROAD CUSHIONS, MATTRESSES AND ALL UPHOLSTERY.

Elastic Sponge is proof against insect life, does not decay, is always clean, and is of indestructible elasticity.

Two New First-class Locomotive Engines and Tenders of 4 ft. 8 1-2 in. Gauge—Cylinders 16×24, Drivers 5 ft. diam.

KASSON & CO.,
119 Broadway, N. Y.

P. O. Box 5,195.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, June 11, 1868.

AT A MEETING OF THE BOARD OF Directors of this Company, held this day, it was

Resolved, That a dividend of 5 per cent. in cash, free of Government tax, be paid on the 1st day of August next, to the holders of the full paid shares registered on the 13th day of July next, and that the transfer books be closed on the said 13th day of July, and opened on the 5th day of August following.

Resolved, That in pursuance of the plan approved at the shareholders' meeting, May 27, 1868, the shares of this Company be increased by the issue of eight shares for every one hundred now outstanding, and the same be distributed to the holders of shares registered on the Company's books on the 1st day of August next, in the proportion of one share for every twelve and one-half shares then held by them.

Resolved, That where, in the distribution of such shares, a stockholder would be entitled to a fraction of a share, the Company will retain such fraction and will pay therefor. THOMAS E. WALKER, Treasurer.

FOR SALE.

TWO FIRST CLASS SIXTY PASSENGER Coaches, 4, 8½ guage, Compromise Wheels.

MICHAEL SCHALL,
Empire Car Works, York, Pa.

LUBRICATING OILS.

FIRST PREMIUM, 1867.

Awarded by the American Institute to CHESEBROUGH & CO., 132 Maiden Lane, New York.

"These oils are fully equal in quality to any known to the judges, being perfectly neutral and free from any objectionable features." Signed,
HORACE GREELEY, President.

Perfectly pure (not mixed,) absolutely free from gum; manufactured without acids; will stand any temperature; cheaper than any other good oils in market. 3m25

A. WHITNEY & SONS CAR WHEEL WORKS,

Callowhill & Sixteenth Sts.,

PHILADELPHIA, PENN.,

FURNISH CHILLED WHEELS for Cars, Trucks, and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES. WHEELS and AXLES FITTED COMPLETE.

700 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in active operation. One hundred and sixty miles have been built in the last three months. More than twenty thousand men are employed, and this average of forty miles per month will be continued throughout the season, making NINE HUNDRED COMPLETED MILES by January 1st, and it is now probable that the ENTIRE GRAND LINE TO THE PACIFIC WILL BE OPEN FOR BUSINESS IN 1869.

No other first-class railroad in the world has been built and equipped so rapidly as the Union Pacific, which runs west from Omaha

Across the Continent.

The United States Government makes of this railroad a GREAT NATIONAL WORK, and aids its construction by very liberal grants of money and of lands. To further insure the speedy completion of the road, the Company are authorized to issue their own

First Mortgage Bonds

having thirty years to run, and having interest coupons payable semi-annually at the rate of six per cent. in gold. The principal, as well as interest, is made

PAYABLE IN GOLD.

The Mortgage Bonds of nearly all other railroads in country, are payable, principal and interest, in currency and it is asserted, without fear of contradiction, that no other railroad company in the world, building so great an extent of road, issues bonds of equal value with the First Mortgage Bonds now offered for sale by the Union Pacific Railroad Company.

The price of these Bonds is now **102**, and accrued interest from July 1, in currency. The Company believe that at this price their bonds are the

Safest and Most Profitable Investment

in the market, and they confidently expect that they will shortly command a higher premium than any similar security. The Company reserve the right to advance the price at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance. Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by leading Bankers generally throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

JULY 2, 1868

SPECIFICATIONS
FOR
PROPOSALS.

OFFICE NEW ORLEANS, OPELOUSAS AND GREAT WESTERN RAILROAD COMPANY.

New Orleans, June 6th, 1868.

The New Orleans, Opelousas and Great Western Railroad Company desiring that a connection shall be formed between their present terminus at Berwick's Bay, and the Houston and New Orleans Railroad, which terminates at the Sabine River, and which when completed, the (distance being 163 miles,) will connect New Orleans with almost the entire railroad system of Texas, the President and Directors of said Company, therefore propose to such party or parties as may undertake to fill up such gap, the following terms and conditions, to wit:

1. Will lease the right of way and the franchises now possessed by said company from their present terminus at Berwick's Bay to the town of Vermilionville, the grading of which is almost entirely completed for these 63 miles, and will, at the same time, lease the right under their charter to build the branch railroad from Vermilionville to the Sabine River, at or near Orange, the same having been already located by resolution of the Board of Directors. The distance between these points is 100 miles. The Company reserving to itself the right of way and transportation on payment of proportionate freights and passage money from the present terminus of the road to any extension towards Opelousas, of its road beyond Vermilionville.

2. The said lease to continue for a term of years to be agreed upon between the Company and the Lessees. At the end of the lease the property to be valued by disinterested parties, the Railroad Company to select three, and the Lessees three, the two, if need be, to call in an umpire whose decision will be final. The Railroad Company reserving the right to purchase said property at such valuation, but if not then promptly paid for by said Company, the lease to be extended for a further term of years, and so on, until finally purchased and paid for by said New Orleans, Opelousas and Great Western Railroad Company. The grading already made between Berwick's Bay and Vermilionville, to be valued by competent engineers at the time of entering into a contract, but not to be paid for by lessees until the end of the first lease, herein provided for.

3. The parties leasing to obligate themselves to connect with no other railroad which might hereafter be built, terminating at or near the City of New Orleans, and further obligating themselves to do no act which will infringe the rights under the present charter of said Company, and also to hold said company harmless against any loss which might result from acts committed on that portion of road now proposed to be leased.

4. Should the Lessees succeed in obtaining a land grant on the line of railroad beyond Berwick's Bay, it will be and remain the property of said lessees, this Company claiming none of its benefits, and incurring no portion of the responsibility attending it.

5. Transportation to be furnished said Lessees over the Company's road, as follows, viz:

The President, Directors and officers of the road, including engineers, superintendents, road masters and bridge builders free of charge. Transportation of laborers going out to be charged one-third the regular fare. Provisions and supplies to be charged one half of regular rates. Material, other than iron and cross-ties, to be charged one half of regular rates. Iron to be charged one dollar per ton, and cross-ties (if any) fifteen cents each. Lessees to load and unload the cars.

6. The road thus to be built shall be a first class railroad in every respect. The gauge to be the same as the Company's road—say 5 feet 6 inches. The iron used not to be less than 58 lbs. per yard.

7. The said Lessees to obligate themselves to commence said road within four months, and have it finished and in running order to the Sabine River, connecting with the Houston road at or near Orange, within three years from date of signing the lease.

8. In order to ensure the faithful performance of the contract the Lessee will be required to execute a bond to an amount, and with good and satisfactory security to the satisfaction of the Board of Directors.

9. The Company reserves the right to reject any and all bids.

Another proposition and for which proposals are also invited, is to lease the road, including depots, stations, rolling stock, etc., from Algiers, opposite New Orleans, to Brashear City, including the franchises of the Company beyond to Texas, under the following conditions:

1. That the party or parties proposing to lease shall state the least number of years he or they will lease the road, on the following conditions:

2. The accrued interest to October the 1st, 1868, on the mortgage bonds, (said bonds maturing in 1889,) to be provided for by the lessee.

3. The semi-annual interest on same bonds, accruing yearly after date, and payable on the first days of April and October of each year, say $160,000 per annum, to be also provided for by said lessee.

4. The road to be built over the route from Berwick's Bay to New Iberia, thence to a point at or near Vermilionville, thence in a westerly direction to a point on the Sabine River, connecting with the Houston and Beaumont road.

5. The building of the road to be commenced within four months after signing the contract of lease, to be prosecuted with all dispatch, and to be fully and finally constructed within three years from the signing of the lease.

6. The grading, culverts, etc., now made beyond Berwick's Bay, to be taken by the Lessee at a valuation to be ascertained by experts, one to be appointed by each party, in case of disagreement they to select an umpire, and to be paid for on such terms as shall be hereafter agreed on.

7. The road to be built, equipped and maintained during the entire lease as a first class road in every respect.

8. At the close of said lease, the said road, depots, stations, rolling stock, etc., from Berwick's Bay to the Texas line, shall be valued by experts, one to be appointed by each of the parties thereto, and in the event of disagreement, the two to select an umpire, whose decision shall be final. The value thereof thus ascertained shall be subscribed as stock in the present Company, it being well understood that all costs of maintenance, as well as expenses of operating the road, shall be at the exclusive charge of the Lessees.

9. The contract with Charles Morgon for running a line of steamers to Texas, extending to 1871, to be carried out by the Lessee in every respect.

10. The present road to Berwick's Bay, including depots, machine shops, rolling stock, bridges, etc., to be turned over to the Lessee after inventory and appraisement, and the said property, or property of like character and value, and like condition and good order, to be returned to the company at the expiration of said lease.

11. The Lessees, to ensure the faithful performance of the contract, to furnish security to the satisfaction of Board of Directors.

12. The said Lessees shall contribute and pay each year the sum of $5000, payable quarterly, to keep up and maintain the organization of the Railroad Company during the existence of this lease.

13. The said Lessees obligate themselves to do no act which may operate a forfeiture of the charter, and shall hold the said N. O., O. and G. W. R. R. Co. harmless against any and all acts of theirs.

Sealed proposals will be received at the office of the Company in New Orleans, No. 69 Canal street, until the first day of September next, at 12 o'clock, M., the Company reserving the right of rejecting any or all bids.

Works at
OSSINING,
Westchester Co., N. Y.

We respectfully call the attention of all persons engaged in the construction and management of railroads, to the double hook headed Screw Spike, for fastening rails and chairs to ties. The above cut represents the size and shape of the Screw, which weighs eight ounces. It has been thoroughly tested on the Erie, New York Central, and other Railways, from one to three years, and in every case it has stood the test satisfactorily, having performed its work perfectly.

The Screw Spike possesses the following important advantages over the common spike:

First.—They are made of the best refined Iron, and the thread, being forged (not cut), imparts additional strength and stiffness to them.

Second.—INCREASED SECURITY. The holding power of the screw is many times greater than that of the spike, and it is not liable to break nor become loosened by the jar of the cars, nor by the upward or lateral strain even on the steepest grades and sharpest curves—the holding capacity of each screw being from four to five tons, and the side pressure from three to four tons.

In three years' experience no screw has removed from its place, and the rails in every case have been held as firmly to the ties as when first put down. By its use, therefore, the numerous accidents constantly occurring from loose and broken spikes, and consequent loose and broken rails, shaky roads, and the spreading of the rails, will be obviated.

Third.—GREATER ECONOMY. In order to remove the rail it will only be necessary to reverse the screw one-quarter; and when replacing it, turn the screw back to its original position, when the rail will be held as firmly as before. The ties will thus be saved from the injury of splits, checks, and the numerous holes made in them by repeatedly drawing and replacing spikes, in which water will collect, causing their rapid decay. By the use of the screws, therefore, the durability of the ties will be greatly increased and equalized.

Besides, when the rails are loose the ties are cut by the repeated blows made on them by the rails, and are thereby materially damaged; on the contrary, where the screw is used, the rails are held so firmly in their place, that this injury is prevented. The saving to railway companies in ties alone, it is estimated will more than pay the whole cost of the screws. Where none but soft wood can be obtained for ties, the screw manifestly possesses a still greater advantage over the spike.

It is also calculated, that in consequence of the screws holding the rails to the ties so firmly, a less number will be required than of ordinary spikes, also a very great saving will be realized in the wear of the rolling stock and rails. The considerable loss arising from loose, bent, broken and missing spikes, will be almost entirely prevented. Besides, where the screw is in use, in addition to the saving of time in relaying rails, a much less number of men are required to watch the track and keep it in repair, thereby causing a great saving.

While the first cost of the screw is somewhat higher than the spike, *in the end they will be very much cheaper.* The screw therefore being *more economical*, and by its use in place of the spike, *making the roads more secure*, besides "giving to the track an easy and connected spring so much desired," it must entirely supersede the common spike.

In corroboration of the foregoing, we present the testimony of several of the most experienced Track Masters in this country.

Mr. JAMES R. HILLIARD, Track Master on the Erie Railway, (Union Division), who has had twenty-four years' experience as Master of Track-Repairs, after testing the screws makes the following report:

"When I first saw your Screw Spike I pronounced it just the article wanted, and since I have seen it in use I still hold the same opinion.

Mr. P. Featherly, Track Master on the New York Central Railroad, (Albany and Schenectady Division,) says, January 9th, 1866:—

"I put down your Screw Spikes sixteen months ago, on a section of our road where our heaviest work is done, viz., a steep grade on the main track, three miles from Albany, one-quarter of a mile above West Albany, and they are there to-day, firm and as secure as when first put down, while the adjacent track, fastened with common spikes, has been respiked several times during that time."

Mr. E. T. MARBLE, Track Master on the Albany and Saratoga Railroad, says:

"On examining the Screw Spikes put down by me September 16th, 1863, I find they have not started either upward or sideways, that they still hold the rail to the ties as securely as when first put down; while great numbers of common spikes are loose and out of place. And on examination I find the threads are bright and clean."

Mr. E. H. DE VERGNE, Track Master on the Shore Line Railroad, writes:—

"Having examined and tested your Screw Spikes on our road, I feel satisfied that they are more durable, safer and more reliable than common spikes. By their use our Railroads would be perfectly safe so far as the track is concerned. Although it requires somewhat more time to drive them than it does the common spike, yet it is more than counterbalanced by their greater durability and safety, and saving of time in relaying rails. With practice and the use of proper tools, even that objection can be overcome."

Mr. A. F. SNYDER, Track Master, Albany, January, 1867, writes as follows:

"This is to certify that the screw Spikes put down on the bridge over the Hudson River at Albany, N. Y., by the U. S. R. R. Screw Spike Co., February, 1866, have done their work perfectly—holding the rails securely and firmly to the ties—not having started in the least, while the ordinary spikes, which were put down on the bridge at the same time, have, many of them, started up, and are quite loose and useless."

Mr. J. W. POTTER, Superintendent of the Cincinnati, Dayton, and Eastern Rail Road, says, January 9th, 1867:—

"The Screw Spikes manufactured by your Company have thus far given entire satisfaction, more than equaling our expectations. We have had them tested at our crossings for the past six months, and find them solid in the tie as the day they were put in. I consider them invaluable for crossings and bridges."

MERRICK & SONS,

SOUTHWARK FOUNDRY,

430 WASHINGTON AV.,

PHILADELPHIA,

MANUFACTURE

Steam Engines—High and low pressure, for land, river, and marine service; Horizontal, Beam, and Vertical. Patterns on hand for 8x10, 14x12, 18x12, Oscillating; compact and cheap.

SOLE MANUFACTURERS IN PHILADELPHIA AND CHESTER OF WILLIAM WRIGHT'S PATENT VARIABLE CUT-OFF STEAM-ENGINES.

Boilers—Plain cylinder, flue, and tubular.

Steam-Hammers, of Nasmyth & Davy patterns, with all the recent improvements.

Strahan's Drill Grinding Rest and Twist Drill-Holder.

Castings—Loam, dry, and green sand, brass, &c.

Roofs—Iron frames for covering with slate or iron—neat, durable, and economical.

Gas-Holders of every description. *Builders of Holders for the Philadelphia Gas-Works of 100 and 160 feet diameter.*

Tanks of every form, for sugar estates, refineries, oil, &c.

Gas Machinery of every description, including Retorts, Bench-castings, Holders and Frames, Purifiers, Coke and Charcoal Barrows, Gas-Valves, Governors, Hoisting Machines, &c.

Manufacturers for the American Meter Company of their Patent Dry Center Valve for changing Purifiers.

Bartol's Patent Wrought Iron Retort-lid, durable, light and cheap.

Sugar Machinery, such as Vacuum Pans and Pumps, Defecators, Bone-Black and Bag Filters, Bone-Black Burners, Washers, and Elevators, Hydraulic Elevators, Sugar and Bone-black Cars, Strike Heaters, Open Steam Trains, &c.

Sole Assignees and Manufacturers in the United States of

Weston's Patent Self-centering Self-balancing Centrifugal Sugar-Draining Machine.

Glass & Bartol's Improvement on Aspinwall & Woolsey's Centrifugal Sugar-Draining Machines.

N. Rillieux's Patent Sugar-Boiling Apparatus, applicable to Beet-Root and Cane Sugar.

Having had twenty years' experience in the manufacture of Sugar Machinery for Cuba, South America, and the United States, they are prepared to contract for the design and erection of apparatus for making Sugar from Beet-Root or Cane, and for Refineries for either Sugar or Molasses.

They are also in possession of plans of the most recent improvements in machinery used in France and Germany in the manufacture of Beet-Root Sugar.

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

POUGHKEEPSIE, N. Y.,

By their improved Machinery are enabled to offer

Swaged Wrought-Iron Rail Chairs

WITH CONTINUOUS BASE AND LIPS

☞ The grain of the iron running across the line of the Rail, which gives them great additional strength over all others, and no liability to split. The Spike Holes being Punched within the Edge of the Lip, admits of one-half the Spike being recessed back in the solid metal, which cannot be done in the Rolled Chair.

☞ *All orders will receive prompt attention. Samples sent on application.*

PATENTED SEPT. 18th, 1866.

Safety Railroad Switch.

MAIN TRACK UNBROKEN.

I AM NOW PREPARED TO FURNISH RAILROADS throughout the United States with my Patent Railroad Switches, by the use of which the *MAIN TRACK IS NEVER BROKEN*, and it is impossible for any accident to occur from the misplacement of switches.

The saving in rails, and the great saving in the wear of rolling stock, which is by this means provided with a level, smooth and firm track at switches, in place of the usual movable rails, and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all railroad companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns *The Life and Limb of all Travelers upon Railroads.*

I refer to the Philadelphia and Reading Railroad Company, and to the New York and Harlem Railroad Company.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired.

SCHOOL OF MINES,

COLUMBIA COLLEGE,

East 49th Street, NEW YORK.

FACULTY:

F. A. P. BARNARD, S. T. D., LL. D., President.
T. EGLESTON, JR., E. M., Mineralogy and Metallurgy.
FRANCIS L. VINTON, E. M., Mining Engineer.
C. F. CHANDLER, Ph. D., Analytical and Applied Chemistry.
JOHN TORREY, M. D., LL. D., Botany.
CHARLES A. JOY, Ph. D., General Chemistry.
WILLIAM G. PECK, LL. D., Mining Surveying.
JOHN H. VAN AMRINGE, A. M., Mathematics.
OGDEN N. ROOD, A. M., Mechanics and Physics.
JOHN S. NEWBERRY, M. D., Geology.

The plan of this School embraces a three-years' course for the degree of ENGINEER OF MINES, or BACHELOR OF PHILOSOPHY.

For admission, candidates for a degree must pass an examination in Arithmetic, Algebra, Geometry and Plain Trigonometry. Persons not candidates for degrees are admitted without examination, and may pursue any or all of the subjects taught. The next session begins October 7th, 1867. The examination for admission will be held on October 3d. For further information, and for catalogues, apply to

American Railroad Journal.

New York, Saturday, August 8, 1868.

Rockford, Rock Island and St. Louis R. R.

SEVEN PER CENT. INTEREST IN GOLD, free of Government tax. Principal also payable in Gold.

THE FIRST MORTGAGE GOLD BONDS of the Rockford, Rock Island and St. Louis Railroad Company bear Seven per cent. interest, payable semi-annually, 1st February and 1st August, in New York or London, *free of Government tax.*

Each bond is for $1,000, or £200 sterling, and both principal and interest are payable in Gold Coin.

The bonds have fifty years to run, and are convertible into stock, at the option of the holder.

These bonds are in every respect a first-class security, being a first lien on 200 miles of railroad through the finest and most productive portion of Illinois, and upon more than 20,000 acres of coal lands, worth more, on the completion of the road, than the whole issue of bonds.

The Company is prosecuting its work of construction with great energy, and will soon have the best division of its line in successful operation.

The Company is organized on the plan of the Delaware, Lackawanna and Western—combining with the ordinary operations of a railroad the mining, transporting and selling of coal. A present demand exists for all the coal this Company can produce, to supply fuel to connecting roads, and to the population along their lines. More than 1,000 miles of railway, and the population of 30,000 square miles of territory, can be supplied with fuel from this Company's mines more readily and cheaply than from any other quarter. Reserving the right to advance the price at any time, the bonds may for the present be obtained at the office of the Company, No. 12 Wall-st., at 95 per cent. After Aug. 1 accrued interest will be charged.

H. H. BOODY,
Treasurer.

Pacific Railroad of Missouri.

The Pacific Railroad (of Missouri,) through the undersigned, offer for sale a limited amount of their six per cent. gold bonds at 97½ per ct. and accrued interest.

The road extends from St. Louis 283 miles to Kansas City, there connecting with the Union Pacific Railroad (E. D.) and other roads, and was completed in 1865, at an expenditure of over $18,000,000.

The earnings for the year ending February, 1867, were	$2,675,874 00
Operating expenses	1,956,644 00
Net earnings were	$719,230 00
For the year ending February, 1868, the earnings were	$3,003,681 31
Operating expenses were	2,030,626 33
Net earnings	$973,054 92

While for the first quarter of 1868 the net earnings exceed those of same quarter in 1867 by $133,679 69.

The Railroad Company, in order to pay off the State of Missouri for advances in aid of constructing the road as well as all other liens, has issued $7,000,000 of First Mortgage 6 per cent. Bonds, secured by deed of trust to Messrs. JAMES PUNNETT, President of Bank of America, New York; U. A. MURDOCK, President of Continental National Bank, New York, and LUTHER C. CLARK, of CLARK, DODGE & Co.

The bonds run twenty years from Aug. 1, 1868, interest February and August in New York. Principal and interest payable in gold coin.

In offering these bonds to the public we remark that the road passes through the central, most populous, fertile and growing part of the State of Missouri, forms part of an important line, and is a completed and successful enterprise, already earning nearly double the amount required to meet the interest on its entire indebtedness, thus entitling the bonds to the rank of a first class security. Government and other securities received in exchange at market rates.

CLARK, DODGE & Co.,
No. 51 Wall street.

Central Pacific Railroad.

ALWAYS IN DEMAND—Securities with both interest and principal well assured, yielding a profitable income, and having a ready sale throughout a long term of years.

We invite the attention of capitalists, trustees and others to the merits and advantages of the CENTRAL PACIFIC RAILROAD FIRST MORTGAGE BONDS. These bonds are the obligations of a responsible company, whose vast property is administered with all the economy and forethought of individual enterprises. They have as final security the prior claim upon the whole property, which has cost three times the amount of the bonds issued thereupon, and which, in its beginnings, is one of the most profitable railroads in existence. The revenues of the company are sufficient to guaranty the regularity and certainty of interest payments, and a sinking fund is provided for the repayment of the principal.

These bonds have thirty years to run, have already an excellent standing here and in Europe. By authority of National statute laws they are expressly made "*payable in coin*," and at this time pay more than eight per cent. upon the investment. For sale at 103 and accrued interest, in currency, by

FISK & HATCH,
Bankers, &c., 5 Nassau st.

☞ The directors of the White Mountains (N. H.) Railroad have decided to extend their road about six miles the present season, to Wing's road in Bethlehem.

Lake Superior Copper Mines.

We gave in the RAILROAD JOURNAL of March 21, 1868, (p. 372) a correct statement of the product of each of the Lake Superior Copper Mines for 1867. The following is a comparative statement of the product of each district during the past ten years:

	Keweenaw District.	P'tage Lake District.	Ontonagon District.	Total Tons.
1858....	2.232.9	1,184.1	2,658.6	6,075.6
1859....	1,937.7	1,605.6	2,621.0	6,164.4
1860....	1,940.9	2,797.6	3,688.4	8,426.9
1861....	2,208.6	3,811.6	3,507.9	9,523.1
1862...	2,450.3	3,942.5	2,730.6	9,123.4
1863....	2,547.1	4,121.1	2,029.6	8.697.8
1864....	2,539.8	4,292.9	1,734.7	8,567.4
1865....	2,642.7	5,384.6	1,771.3	9,798.6
1866....	3.023.3	5,650.9	1,701.6	10,375.8
1867....	3,801.4	6,424.3	1,509.6	11,735.3
Total..	25,319.7	39.215.3	23,953.3	88,488.3

Pacific Railroad of Missouri.

	$1,956,644 84	$2 030,626 38
Net earnings....	$719,230 00	$973,054 93

Compared with the previous year, the gross earnings of 1867-'68 show an increase of $327,806 47; with an increase in expenses of $73.981 54—making the increase in net earnings $253,824 93. The operating expenses in 1867-'68 were 67.6 per cent. of the gross earnings; in 1866-'67 they were 73.1 per cent.—a reduction of 5.5 per cent. The following statement will show the earnings of the road from commencement to February 29, 1868:

Year ending December	31, 1852....	$108 15
" "	31, 1853....	41,328 29

" "	29, 1868....	3,003,681 31

The earnings of the Missouri River Railroad, between State Line and Leavenworth, 26 miles, for the year ending February 29, 1868, were as follows: from passengers, $47,828 43; freight, $23,592 51; mails, $2,599 92—total, $74,020 86. The report of the President is as follows:

In reporting upon the finances of the Company, we are pleased to announce that, owing to the very extraordinary exertions of the Directors, in advancing their means and their credit, without charge therefor, the credit of the Company has been maintained, and our financial matters so managed as to show great economy and a very satisfactory condition of the "floating debt," which, we trust, may at no distant day be wholly absorbed. And also, that the expenses for the general management have been reduced to a per centage comparing very favorably with roads of this class in other parts of the country.

CHIEF ENGINEER'S REPORT.

From the accompanying report from Mr. Thomas McKissock, Chief Engineer and General Superintendent, among other details will be found all the general information connected with the management and operating of the road. He says that during the year many improvements have been made along the line, and very large expenditures incurred in repairs and renewals.

A dining-house, which was in progress of construction at Sedalia, at the date of last report, was opened to travel on March 1st, and was burned by fire, originating in the city, on November 7th. Another building, to replace the one destroyed, is now being erected on the same site.

A large building, combining passenger, ticket and telegraph rooms, with dining and hotel accommodations, was built on the lands of this Company, at the State line, and opened for use on June 21st; since which date the transfer of passengers to and from the Union Pacific Railway has been made there.

During the year there have been laid in the road 175,115 crossties, being equal to more than 67 miles of track, and costing, for material alone, $81,720. The greater portion of these were used east of Sedalia, making a renewal between that point and St. Louis of nearly one-third of the number in the track. There were also used in repairs on that part of the road 10,708 new chairs. Many of the cuts have been well ditched, large repairs done to culverts and small bridges, and, with the exception of the rails, the road-bed and track are in better condition than they were one year ago.

There have been re-rolled at East St. Louis rail mill 1,132 tons of iron, being equal to 11.6 miles of track, and there have been repaired at the Company's shop at Franklin, by cutting off the ends of worn rails, welding up and punching them for fish bars, at a cost for shop labor of $1,167 a mile, iron equal to 11⅙ miles of track, of which 9.4 were relaid in the main road, and 2.4 in sidings.

The cost of hauling the iron to and from the mill, of re-rolling it, of the repairs at Franklin, of the fish joints and spikes, and labor of re-laying, amounting in all to $95,500, or about 3.3 per cent. of the gross earnings of the road, has all been charged among the operating expenses.

DEPOTS, BRIDGES, ETC.

Fire destroying the depots at Smithton and Knobnoster, new ones have been erected; also, a small depot for passengers at Leavenworth, to facilitate transportation from the "Missouri Valley Road," with which close business relations exist, and enable us to have close and direct connection with St. Joseph and other cities.

A bridge, with a span of 110 feet, one of 134 feet, one of 101 feet, and one of 53 feet, have been renewed, a large number of new cattle-guards have been made and otherwise renewed, and west of Sedalia nearly 8,000 rods of new fence have been added.

While it has already been stated that large quantities of re rolled and repaired iron have been placed in the track, yet it must not be forgotten that the iron between Washington and the Osage is very much worn; and if 1,000 tons of new iron could be obtained at once, the re-rolling of the old could progress, and, during the ensuing year, the whole line of road could be put in the best condition, and greatly facilitate travel and transportation.

Five new locomotives, thirty stock cars, and twenty five cars, belonging to the St. Louis and Pacific Express Freight Line, have been received and put upon the road; while there have been built and rebuilt at the Company's shop two caboose cars, three locomotives, three passenger cars, and fifty-one freight cars. In this connection it must be remembered that the cost of nearly all the repairs, ties, iron, cars, &c., &c., above detailed, are charged to "*operating expenses*," and yet the business of the year was done at a rate comparing favorably with former years, and this per cent. of earnings could have been materially reduced if the Company's finances would have enabled us to purchase material and supplies *for cash*.

Mr. McKissock also says: This Company have had in use three months in the year two locomotives, and during the balance of the year one locomotive leased from the Southwest Pacific, and "I would attract your attention to the fact, that an accession to the number of locomotives and freight cars is necessary, and that it will be urgently demanded by any increase of business." The five locomotives contracted for and unfinished are yet in the shops of the Rogers' Locomotive Works, and it becomes the duty of the Directory to provide for their immediate completion.

GENERAL ITEMS.

The road has been divided into three divisions. The first from St. Louis to Jefferson City; the second from the last named place to Holden, and the third from Holden to Kansas City. The necessities of the Company demand that machine shops at once be erected at the several places, land having been donated for that purpose.

The Osage Valley and Southern Kansas Railroad, extending from Boonville, in Cooper county, southwardly through Tipton, have contracted for the entire road from Tipton to Boonville, and the same will be completed early in September, and a lease for a term of thirty years has been concluded between this Company and that road, by which the same is to be operated by this Company on terms mutually advantageous.

FINANCIAL.

At your last annual meeting the financial embarrassments of the Company were presented, and your counsel invoked. Your committee, after laborious investigation both as to management and resources, reported, as you know, estimated expenditures and resources for the then current year, and advised the mortgage of lands not necessary at the time for the use of the Company, the bonds to be tendered creditors of the Company.

This mortgage has been perfected, and the five hundred thousand dollars so secured; but our expectations in regard to the currency of these bonds have not been realized to an extent proportional to our desires or wants, the greater part of the same being still on hand. The first series of five hundred thousand dollars, with interest on the fifteen hundred thousand of the bonds designated as "Dresden Mortgage Bonds," fall due the first of the ensuing month of April, and provision for the payment of the interest on the whole, and the principal of the first series, must be provided for.

The necessity of an immediate change of the gauge of this road, which is five feet six inches, unlike the "Union Pacific, Eastern Division," which connects with this road at the State line, (four feet eight and one half inches,) *is imperative*.

As you well know the gauge of all the roads east of the Mississippi river, (with one exception), conform to that of the Union Pacific, Eastern Division, which already extends to "Cayote," distant three hundred and thirty-five miles west

of the State line; and so soon as the bridge, across the Missouri, at Kansas City, is completed, which will be early in the ensuing fall, there will be, in all probability, an unbroken line of road from Cayote to the cities of Boston, Portland, New York, &c., thus avoiding St. Louis, the metropolis of the State. The change of gauge to conform to that of the Union Pacific is of minor importance when the mere cost is estimated, but it is the changing and altering of the rolling stock, in conjunction with the interruption of business, that so largely enters into the expenditure.

LAND DEPARTMENT.

Herewith find report from Mr. R. R. Powell in charge of the Land Department, which shows that there have been realised from sales of town lots along the line of the road, the past year, $27,164,98, and lots remaining unsold estimated at $25,300, besides lands at different points, not laid out in town lots, estimated st $30,620.

STATE LEGISLATURE AND THE SALE OF THE STATE INTEREST.

It was apparent that the General Assembly, in the winter of 1866 and 1867, were disposed to separate the State from the "railroads," and the efforts made by "outside parties" to obtain this road were a source of anxiety to the Directory. With this information at your last annual meeting, you invoked by resolution the Director's services, at the adjourned session, for the purpose of procuring such legislation, for the sale of the State's interest in this road, with the view of *the Road becoming its own purchaser.*

Your instructions have been fulfilled, and a bill has been recently passed, but your Directory have not yet been advised that it has received the approval of the Governor.

The bill, amongst other things, provides for the sale of all the State's interest to the "Pacific Railroad," on the payment to the State at stated times the sum in gross of five millions of dollars. This report, already too *prolix*, will not particularize the legislation; sufficient that your attention, and that of our successors, have been attracted to the same.

We commend to our successors an earnest and persistent effort to accomplish the grand purpose of preserving this road to the stockholders, thereby insuring its management and control to the people of our State.

CONCLUSION.

The financial condition of the Company towards the State has not been changed since the last report.

There has been no material change in the policy of the Directors, and the same management of the road and guarding the track our predecessors inaugurated has been continued.

The number of engines placed on the road since the commencement has been 63; of these 41 were in good order, 7 in running order, 4 being repaired, 5 had been condemned, and 6 turned over to the S. W. P. R. R. The total number of serviceable engines March 1, 1868, was 52.

At that date the company had 41 passenger, 6 mail, 17 baggage and express, 30 caboose, 270 box, 224 flat, 175 stock, 2 magazine, 4 tool, and 1 paymasters cars; also 25 stationary engines for pumping water. The Sleeping Car Co., have 4 cars on the road, and the St. Louis and Pacific Express Freight Line, 50 box cars.

The number of miles run by locomotives with passenger trains was 512,976; with freight trains, 787,780; with wood and gravel trains, 105,130—total 1,405,886, at a cost for fuel, oil and waste, enginemen and firemen, labor and materials for repairs, of $528,433 71. Average cost per mile run, 37.2 cents. The number of miles run in 1866–'67 was, 1,199,660. Cost, $464,829 82. Average cost per mile run, 38,73 cents.

The receipts from all sources and expenditures during the year ending February 29, 1868, were:

Balance March 1, 1867		$432,089 33
Received for Jackson Co. warrants, etc.		5,400 00
Received from Land notes		18,571 65
Received for transp.	$2,871,104 72	
Less exp. and repairs.	2,030,626 88	
		840,478 34
Received for bonds sold		149,000 00
Total		$1,445,539 32
Paid for construction		$60,841 43
Rolling stock and machinery		145,981 08
Construction Missouri River R. R.		4,390 60
Office expenses and stationery		20,483 92
Interest account		212,098 26
Bills payable		450,773 05
Accounts audited		99,081 25
Contingencies		4,592 40
Balance, as per General Statement		447,297 33
Total, as above		$1,445,539 32

The balance ($447,297 33) is accounted for as follows:

Due by Southwest Branch	$64,104 11
Cancelled debts	169,629 91
Suspended debts	43,518 18
Cash in hands of fund commissioner	474 14
Materials in hands of superintendent	90,513 51
" " master mechanic	67,306 81
Due by railroad & express companies	16,623 52
	$452,170 18
Less due to Missouri River R. R.	4,872 85
Total	$447,297 33

The General Financial Statement of the company up to March 1, 1868, is as follows:

Capital stock	$3,614,515 23
State bonds	7,000,000 00
Land grant sales and rents	219,300 43
Total receipts from transportation	13,963,585 21
Mortgage construction bonds	1,500,000 00
St. Louis County bonds	700,000 00
Real estate security bonds	149,000 00
Bills payable	649,555 08
Accounts audited	156,726 18
	$27 952,682 13
Construction	$11,479,635 57
Rolling stock and machinery	2,195,655 41
Construction Missouri River R. R.	10,901 86
Office expenses and stationery	194,473 81
Contingencies	80,553 24
Interest account	1,388,358 03
Discount on Construction and Anticipation bonds	8,860 00
Commission on purchases	17,875 95
Interest, discount and commissions	1,238,933 18
Land Grant expenses	7 205 21
Total transportation expenses	9,660,711 05
Interest on State bonds charged to transportation to January, 1859.	1,222,721 54
Balance March 1, 1868	447,297 33
	$27,952,682 13

The officers and directors for 1868 are as follows:

President.—GEORGE R. TAYLOR.

Vice President.—DANIEL R. GARRISON.

Directors.—George R. Taylor, Robert Barth, Hudson E. Bridge, Joseph Brown, T. B. Edgar, Daniel R. Garrison, James Harrison, Oliver A. Hart, James H. Lucas, Henry L. Patterson, Charles H. Peck, George H. Rea, Benjamin Stickney.

Secretary and Treasurer.—J. C. PORTER.

Chief Engineer and Sup't.—H. C. MOORE.

☞ The Indianapolis and Vincennes Railroad, has been opened for business between Indianapolis and Gosport.

Boston, Hartford and Erie Railroad.

Ground was broken at the western terminus of the Hartford, Providence and Fishkill Railroad, near Waterbury, Ct., on the 8th inst., Mr. Dillon, one of the largest road contractors in the country, has charge of the whole work, and expects to carry it forward as rapidly as the nature of the country will permit. Several steam excavators are on the way and will begin work soon. Starting from the freight depot of the Hartford, Providence and Fishkill railroad, the line crosses the Naugatuck road, and passes to the south of Brown Brothers works, crossing the river near the Brooklyn bridge to the west. Thence it runs near the Naugatuck railroad, but with a constantly ascending grade until nearly opposite Platt's mills, where it turns more sharply to the west, and goes along the mountains and through the woods to Southford, a distance of twelve miles. Following thence nearly the course of the New Haven pike it reaches Southbury, on the hills one hundred and twenty feet above the town. From this the course is to the southwest, crossing the Housatonic river at Bennett's bridge and passing thence in a westerly direction through Hawleyville, Danbury, and Mill Plain to the state line.

Connecticut Western Railroad.

The project of the Connecticut Western Railroad, which was to have its eastern terminus in this city, and which was presented to Springfield people last Fall, has shown more life and vitality than many incredulous skeptics believed it would ever have, and the prospects for the building of the road seem really and substantially encouraging. The northern Connecticut towns, which are to be especially benefited by the enterprise, are zealously at work, and manifest a determination to have the road completed eastward to Winsted as soon as possible. An enthusiastic meeting was held at Salisbury last week, and an organization effected, which is expected to result in subscriptions of $200,000 to the road, sufficient to put it under contract from the New York line to Norfolk. This will be done during next Fall, and the Fourth of July, 1869, is appointed for the completion of this section of the road, which is at once the most difficult and one of the most important on the line. If Springfield should manifest a corresponding interest in the road, which would become of equal, if not of greater importance to us, the eastern as well as the western sections would be as soon begun and completed.—*Springfield Republican.*

State Aid to Tennessee Railroads.

The remaining $250,000 of State bonds have been issued to the Northwestern Railroad. This makes $350,000 given by the State to that road within eight months. There are $200,000 to be issued for the purpose of building a branch from Huntington to Jackson, through Carroll and Madison Counties. This road will run nearly parallel with the Memphis and Ohio, which crosses the Northwestern at McKenzie, and crosses the Tennessee and Benton—some twenty-five miles above Fort McHenry. Jackson, the proposed terminus of the new branch from Huntington, is Jackson in Madison County—a great corn, tobacco and cotton producing county, and enjoying great railroad facilities. The Mobile and Ohio road passes through it, and the Mississippi Central terminates there. The construction of this branch would be a great acquisition to the travel and traffic of the Northwestern and no small advantage to Nashville.

The liberal appropriation made by the State will go a long way toward finishing the road.—*Nashville Times.*

☞ The Portland and Rochester Railroad has been completed to East Waterboro', and the cars have commenced running regularly to that place.

Pacific Railroad of Missouri.

The following is a copy of an act passed at the last session of the Missouri Legislature, entitled, "An act for the sale of the Pacific Railroad, and to foreclose the State's lien thereon, and to amend the charter thereof."

Section 1. The Governor is hereby directed and required to sell the Pacific Railroad and its appurtenances, and all property belonging thereto, in accordance with the provisions of section 3 of this act, and an act entitled, "An act to expedite the construction of the Pacific Railroad and the Hannibal and St. Joseph Railroad," approved February 22, 1851.

Sec. 2. Upon a sale of the road, as provided in the foregoing section, the price and sum for which the same shall be sold shall not be less than eight millions and three hundred and fifty thousand dollars, payable to the State Treasurer in bonds of the State, or in money, within ninety days from the day of sale. No bid, except the bid of the Governor, on behalf of the State, shall be accepted unless there is paid to the State Treasurer, who shall attend said sale, an amount of not less than three hundred thousand dollars in such bonds or money as a part of the purchase money to be paid when the road is stricken off. And such bonds or money shall be forfeited to the State in case the purchaser or purchasers shall fail to pay the amount of purchase money bid within the time above provided for. Such sale shall take place at the east front door of the Court House in the City of St. Louis, between the hours of ten o'clock in the forenoon and four o'clock in the afternoon. If said sum of eight millions three hundred and fifty thousand dollars is not realized at such sale, the Governor of the State shall, by himself or agent, buy in the same for and in the name of the State of Missouri.

Sec. 3. The purchaser or purchasers of said road, under this act, shall bind himself or themselves to the State, and it is hereby made a condition of said sale to change the gauge of said Pacific Railroad so as to conform to the gauge of the Union Pacific Railroad, Eastern Division, within two years from the date of sale.

Sec. 4. Upon the payment of all the purchase money, as specified in section two of this act, and upon the delivery of an obligation in conformity with section three of this act, the Governor shall execute a deed to the purchaser or purchasers, conveying all such rights, title and interest in and to said Pacific Railroad, its franchises, appurtenances, and the property belonging thereto, as are subject to the lien of this State.

Sec. 5. If the Pacific Railroad Company shall, at any time within ninety days after the first day of April, 1868, pay into the Treasury of the State the sum of three hundred and fifty thousand dollars, in the bonds of this State or in money, then, and in that event, the Governor shall not advertise said road for sale; and if the said Company shall, within ninety days thereafter, pay into the State Treasury an additional sum, equal to five millions o dollars in all, (the same being either in cash or Missouri State bonds), the Governor shall, upon the production of the receipts of the State Treasurer, for said amounts, execute and deliver to the said Pacific Railroad Company a deed of release for all claims, title and interest which the State of Missouri has in and to the said Pacific Railroad, its property and appurtenances, and the said Pacific Railroad Company shall, from and after the delivery of said deed, be fully discharged from all claims or debts due to the State, and all liability growing out of the issue of the bonds of the State to aid in the construction of said road, and no sale shall in that event take place under this act. If, however, from any cause, the said Company shall be unable to pay the additional sum as herein provided, the Governor shall proceed to advertise said road; but if said Company, during the pending of said advertisement, pay into the State Treasury the said additional sum, with interest thereon from the first day of October, 1868, at the rate of six per cent. per annum, then, and in that case, no sale of said road shall take place, and the Governor shall execute and deliver to the said Pacific Railroad Company the deed of conveyance and release provided for in this act, and the said Pacific Railroad Company shall be exempt from all the liabilities and obligations herein specified. But in case the said Company shall, after the payment of the three hundred and fifty thousand dollars above stated, fail to pay the additional sum specified, (being the remainder of the five millions), then, and in that case, the sum first paid shall be forfeited to the State.

Sec. 6. In case of a sale of said road, under the provisions of sections one, two, three and four, of this act, the State of Missouri shall assume the payment of principal and interest on seven hundred thousand dollars in bonds, issued to the County of St. Louis as a loan to the Pacific Railroad Company, under the act of January 7, 1865; and also the floating debt of said Company, existing at the time of the passage of this act, not to exceed the amount of six hundred and fifty thousand dollars.

Sec. 7. In case of a purchase by the Governor, in behalf of the State, as provided in section two of this act, he shall take possession of said road, together with all property and appurtenances belonging thereto, and shall then turn the same over to the Board of Directors hereinafter provided for.

Sec. 8. There shall be elected immediately after the passage and approval of this act, in joint session of the General Assembly, nine Directors, one from each Congressional District. Said Directors shall, as soon as the Governor shall have taken possession of the road, choose one of their own number for President and one for Treasurer, who shall each give bond in the sum of one hundred thousand dollars for the faithful performance of his duties of the State, which bond shall be approved by the Governor and filed in the office of the Secretary of State; and said President and Board of Directors shall thereupon have authority to operate said road, in the same manner and with like powers as the President and Directors of said Pacific Railroad Company are now by law authorized, until said road is otherwise disposed of, as hereinafter provided, and for that purpose may make all needful regulations. They shall make monthly reports, under the oaths of at least three of their number, to the Governor, of all transactions connected with the operations of said road, and shall account for and pay over to the State Treasurer all moneys that may come into their hands, belonging to the State, and derived from the net earnings of said road, taking duplicate receipts therefor, one of which shall be deposited in the office of the State Auditor. The said Auditor shall also draw his warrants on the State Treasurer, upon the presentation of the proper coupons of any interest then maturing on the Dresden mortgage bonds, and St. Louis County bonds above mentioned, for the amount of said coupons, which warrants shall be paid by the Treasurer.

Sec. 9. Within thirty days after the road and the property belonging thereto shall have passed into the possession of the State, the Governor shall publish a notice in such papers as he may deem proper, inviting proposals or bids for the purchase or lease of the Pacific Railroad, and he shall receive such bids and proposals until ten days prior to the meeting of the twenty-fifth General Assembly; and within ten days after the meeting of such General Assembly he shall transmit the same, with a special message, to the said General Assembly, for its action.

Sec. 10. All bids and proposals for the purchase of said road shall assume: First, the payment of principal and interest due and to become due on the one million five hundred thousand dollars first mortgage bonds, issued under the act of February 10, 1864; Second, the principal and interest due on the seven hundred thousand dollars bonds issued by the County of St. Louis to the Pacific Railroad Company under the act of January 7th, 1865; Third, the floating debt of said Pacific Railroad Company existing at the time of the passage of this act, not to exceed the amount of six hundred and fifty thousand dollars. And all bids and proposals for leasing said road shall assume the payment of the floating debt of said Pacific Railroad existing at the time of the passage of this act, not to exceed the amount of six hundred and fifty thousand dollars. And all bids, whether for purchase or lease of said road, shall be based upon a stipulation on the part of the purchaser or lessee to change the gauge of said road to conform with the gauge of the Union Pacific Railroad, Eastern Division, within the period of two years from the date of sale or lease.

Sec. 11. The said Railroad Company shall be subject to the provisions of the general laws of the State now in force (or hereafter to be enacted) classifying freights and fixing the regulations, rates and charges for the transportation of freights and passengers by the railroads in this State; provided that the provisions of this section subjecting the Pacific Railroad to future legislation, shall not take effect for ten years after the passage of this act.

Sec. 12. In case of sale as prescribed in sections two and five, the office of Fund Commissioner is hereby abolished, and all provisions of an act entitled "An act for the extension and completion of the Pacific Railroad to the western boundary of the State at Kansas City, and the North Missouri Railroad to the Iowa line, to complete the Southwest Branch of the Pacific Railroad and to reduce the State Indebtedness," approved February 10th, 1864, applying to a Fund Commissioner and prescribing his duties and powers, are hereby repealed.

Sec. 13. In the event of the sale of the Pacific Railroad, as provided in sections one, two, three, and four of this act, the purchaser or purchasers thereof shall take the same subject to the terms and conditions of a certain lease and contract made and entered into by and between the Pacific Railroad Company and the Boonville Extension of the Osage Valley and Southern Kansas Railroad Company, bearing date the 10th day of February, 1868, under which said lease and contract the Boonville Extension of the Osage Valley and Southern Kansas Railroad Company have leased their road to the Pacific Railroad Company for the term of thirty years from the 15th of September, 1868; and the provisions of such lease and contract shall be and are hereby declared to be binding upon the purchaser or purchasers as aforesaid.

Sec. 14. The South Pacific Railroad Company, when organized, shall have the right to run their trains over the track of the Pacific Railroad from Franklin to St. Louis and return, until the said South Pacific Railroad Company shall construct their road from Franklin to St. Louis, on such terms and for such compensation as the said Companies shall agree upon; or, failing to agree, each of said Companies shall choose a competent Railroad Superintendent, who shall select a third, a majority of whom shall fix said terms; provided such right and agreement shall not continue more than ten years after the passage of this act.

Sec. 15. This act to take effect from and after its passage.

Debt of Illinois.

The Governor of Illinois has issued a proclamation of the intended further reduction, on the 15th of September, of the principal of the State debt, by payment at the American Exchange Bank, New York; the whole amount being $394,000; interest to cease after that date, viz: On bonds issued in pursuance of an "act to fund the arrears of interest accrued and unpaid on the public debt of Illinois," approved February 18, 1857, to wit: Bonds numbered 1,751 to 1,972 inclusive, and 2,078 to 2,120 inclusive, issued to Hope & Co., of Amsterdam. Also, bonds numbered 2,007 to 2,

027 inclusive, issued to Thomas Twining, Perryn House, Twickenham, near London. Also, bonds numbered 2,236 to 2,270 inclusive, and 2,306 to 2,335 inclusive, issued to the Administration Office of Hope & Co., Ketwitch & Voomberg, and widow William Borshi, in Amsterdam. Also, bonds numbered 2,439 to 2,474 inclusive, issued to Sir Samuel Rignold, Knight of the City of Norwich, England. Also, bonds numbered 2,051 to 2,057 inclusive, issued to John Bell, of Enterkine, Tarbolton, Scotland.

Schuylkill and Susquehanna Railroad.

This road is 54 miles in length, extending from Auburn to Rockville. Length of sidings 7 miles. The weight of rail per yard is 45, 60 and 64 lbs. Gauge of road, 4 feet 8½ inches. The company have 7 locomotives, 3 baggage, mail and express cars, 49 freight, and 22 coal cars, all rated as 8-wheel. Number of through passengers on main road 1,408; do.,all classes carried in cars, 68,320. The total amount of tonnage 355,843.

The receipts from operations of this road for the fiscal years ending October 31, 1866 and 1867 have been as follows:

	1866.	1867.

Superintendent.—H. A. Fonda, Kingston, Pa.

N. Y. Central Underground Railroad.

A bill was passed by the Legislature of New York in April, 1868, incorporating the New York Central Underground Railway Company, and authorizing that company to construct and operate a certain underground railway in the city of New York. The bill was published entire in our last issue. The stock subscription books are now open at the Banking House of Messrs. Brown Brothers & Co., New York. We hope we violate no provisions of law by giving this notice.

Central Pacific Railroad.

The commissioners appointed by the President of the United States, to examine and report upon the section of twenty miles of the road and telegraph line of the Central Pacific Railroad Company of California, commencing at the termination of the 158th mile and ending at the 178th mile east of the initial point at Sacramento, California, have submitted their report to the Secretary of the Interior. It bears date July 16th.

The commissioners represented said section ready for present service, completed and equipped as a first class railroad, and that the telegraph line is completed for the same distance.

The Secretary of the Interior recommends the acceptance of the report and the issue to the railroad company of the bonds due them, under the act of Congress, and of the patents for lands due on the said section, as the company has paid the commissioners the per diem and mileage due them on account of their examination.

The President has approved of the recommendation, and directed the Secretary of the Interior and the Secretary of the Treasury to carry them into effect.

☞ It is stated that the Chicago and Alton Railroad Company have purchased the Belleville road, a short line running southwest from opposite St. Louis, and propose to extend it so that Belleville will be in direct communication with Cairo as well as Chicago.

☞ The affairs of the Hazleton Railroad Company have been so satisfactorily arranged that the work will go on with the most favorable prospects of its completion.
